This is Union Adventist University

Our Mission

Union Adventist University is a Seventh-day Adventist community of higher education, inspired by Jesus Christ and dedicated to empowering students to learn, serve and lead.

Our Vision

Union Adventist University mentors every student to become a highly sought graduate who serves joyfully in God's calling.

- ***Joyfully Living in God's Calling*** We mentor every student and employee to develop a personal spiritual journey and live God's calling.
- ***Student Mentorship*** We make every student's success our top priority through mentors who believe in and champion them.
- ***Highly Sought Graduates*** We prepare every student to be a highly sought graduate through development of soft skills such as leadership, communication, teamwork, problem solving, creativity and grit.
- ***Empowered Employees*** We develop and support every employee as our most important asset.

Our Core Education Goals

Union Adventist University is committed to providing an outstanding education experience for our students, and that commitment is reflected in our campus-wide education goals.

- ***Spirituality*** Union Adventist University inspires students to value being a follower of Jesus Christ and integrate His calling in their lives.
- ***Learning*** Union Adventist University provides students with the knowledge, experience, and wisdom to be learners now and for a lifetime.
- ***Serving*** Union Adventist University equips students to live life as Jesus did, a life of service for humanity.
- ***Leadership*** Union Adventist University prepares students to lead as members of their families, churches, workplaces, and communities.
- ***Highly Sought Graduates*** Union Adventist University cultivates students whose reputation for excellence attracts the attention of employers.

Description

Founded in 1891, Union Adventist University (formerly Union College) is a four-year university offering programs leading to baccalaureate and associate degrees in arts and sciences, professional fields and master's degrees in leadership, occupational therapy, public health and physician assistant studies. Union Adventist University is owned and operated by the Mid-America Union Conference of the Seventh-day Adventist Church and located in Lincoln, Nebraska, the state capital. Union Adventist University changed its name from Union College in the spring of 2024.

Education at Union Adventist University is focused on the whole life of the student. The result is an academic style that includes small courses taught by professors, an emphasis on experiential learning, and active student leadership in spiritual and social activities. This emphasis draws hundreds of students each year from more than 45 states and nearly 30 countries. The university welcomes students of all ethnicities, cultures, and faiths.

Union's faculty and staff believe that God is the Creator, Sustainer and Savior of humankind; that human beings are the crowning act of His creation; and that each person is imbued with intelligence and assets which should be dedicated to serving and glorifying God. The ultimate aim is to help students find and fulfill their God-given calling in both personal and professional life, making a positive impact on their family, community and the world.

Accreditation

Union Adventist University is Accredited by:

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604
800.621.7440
hlcommission.org

Union Adventist University is Recognized by:

- The Accrediting Association of Seventh-day Adventist Schools, Colleges, and Universities

Relevant Programs are Accredited or Licensed by:

- Accreditation Council for Occupational Therapy Education
- Accreditation Review Commission on Education for the Physician Assistant, Inc.
- Commission on Collegiate Nursing Education
- Council for the Accreditation of Educator Preparation
- Nebraska Department of Health and Human Services

Union Adventist University Is a Member of:

- American Association of Colleges for Teacher Education
- American Association of Colleges of Nursing
- American Association of Collegiate Registrars and Admissions Officers
- Adventist Library Information Cooperative
- Association on Higher Education and Disability
- Association of Independent Colleges and Universities of Nebraska

- Nebraska Association of Student Financial Aid Administrators
- Nebraska College Career Services Association
- Nebraska Council on Teacher Education
- Council of Independent Nebraska Colleges Foundation
- Network for Vocation in Undergraduate Education
- Physician Assistant Education Association
- United States Gymnastics Federation

Union Adventist University Is Approved by:

- Nebraska Department of Education
- State of Nebraska Board of Nursing

Admission to the University

Contact Information

Kevin Michalenko, Director of Admissions and Enrollment
Everett Dick Administration Building, Room 508A
402.486.2504
enroll@uau.edu

Union Adventist University welcomes applicants who desire to study in a Christian environment, who demonstrate intellectual curiosity, and who seek strength of character. The university is committed to equal education for men and women of all races and does not discriminate in its educational and admissions policies on the basis of disability, age, gender, race, color, or national origin. Admission is granted to applicants who meet admission requirements and whose principles and interests reflect the ideals and standards of the university.

Religious affiliation is not a requirement for admission. All students are expected to abide by the policies and standards of the university.

Admission of First-Year Students

The admission process is designed to indicate the applicant's success in high school and the ability to perform well in academic coursework.

The recommended high school curriculum includes the coursework listed below. Depending on career goals, additional study in math, science, foreign language, and other fields will improve the preparation for university.

- 4 years of English
- 2 years of algebra
- 1 year of geometry
- 2 years of laboratory sciences
- 2 years of social sciences
- 1 unit of computer applications

In completing these courses, high school applicants should meet or surpass the following minimum standards:

- A high school grade point average (GPA) of 2.50 on a 4-point scale; and
- Applicants applying on the basis of high school equivalency using the General Education Development Test (GED) must achieve an average score of 500 with no score below 450.

International Students

Applications are welcomed from graduates of recognized secondary schools in other countries or who earn government credentials (e.g., the Hong Kong HKDSE). When lacking ACT scores, applicants may be evaluated by other standards for admission, although ACT or SAT math test results may still be required for placement in specific courses.

For regular admission, students whose native language is not English must demonstrate current English proficiency by scores on a standardized test taken within the past two years. The university accepts the following examinations and scores:

- TOEFL: Internet-based (iBT) – 79
- TOEFL: International paper-based – 550
- IELTS – 6.5
- ACT: English – 17
- SAT: Writing – 430 (old SAT 2400 scale) or
- SAT: Writing and Language – 25 (new SAT 1600 scale)

Applicants not meeting the regular admission scores will be considered for provisional admission if they possess an iBT score between 60 and 79, or an IELTS between 5.5 and 6.0. Provisional admission involves courses preparatory to freshman composition while taking selected university courses. The regular admission requirements must be met within two years.

Application Process

Two documents are essential for the admission process:

- A completed application, which may be found online at uau.edu/apply; and
- A high school transcript. The university requires an official transcript with date of graduation prior to enrollment. Home school students should submit a homeschool transcript and an explanation of the home school curriculum with completion date.
- Official transcripts are required from any schools attended.

International Student Admission Process

If an applicant's original documents are not in English, a certified translation must be provided. Except for applicants from certain affiliated colleges and universities, all transcripts from foreign universities must be sent to wes.org.

For a Form I-20 to be issued, the applicant must provide an Affidavit of Support (available at uau.edu/international), bank statements as proof of sufficient income, a deposit of $5,000, and a copy of the applicant's passport photo page. For further information contact the Enrollment Office or go to uau.edu/international.

Provisional Admission

Applicants who do not meet the published standards may receive provisional acceptance, which requires enrollment in programs through Student Success.

Ignite is a performance-based program that provides specialized academic support for students who do not meet the traditional enrollment requirement of a high school GPA of 2.5 or above. This also applies to applicants with a General Education Development (GED) test, with a minimum score of 145 on each section and a total score of at least 580 overall.

Applicants requesting additional consideration of their admission decision may appeal to the Admissions Committee. The appeal should be submitted in writing to enroll@uau.edu.

Participation in Ignite

- High school Grade point average (GPA) between 2.0 and 2.49 (on a 4.00 scale), or
- GED minimum score of 145 on each section and total score of at least 580, or
- Transfer Freshmen (students with fewer than 24 credits) with a cumulative GPA between 2.0 and 2.49 in both high school and/or college coursework.

Note: Any student who has taken the GED test and scored a minimum of at least 165 per section and a cumulative test score of at least 660 will not be placed in the Ignite Program.

Students accepted into the Ignite program will:

- Participate in two Zoom meetings before the uStart Seminar (Parent participation in Zoom meetings is highly encouraged);
- Participate in the uStart Seminar* (a one-day seminar offered before Spark Start or New Student Orientation);
- Declare major in Associate of Science in General Studies;
- Sign the Ignite Action Plan and Coaching agreement;
- Meet weekly with their assigned Life Coach during the first academic semester;
- Enroll in Spark Start (SPRK 101);
- Enroll in College Success (CORE 100);
- Register for up to 13 credits per semester, and
- Attend required tutoring sessions if any course grade falls at or below 69% during the semester.

Completion of the Ignite Program

To complete the Ignite program students must:

- Successfully complete up to 13 credit hours while enrolled at Union;
- Achieve a minimum cumulative GPA of 2.0 at the end of the first semester;
- Complete at least 12 weekly coaching meetings during their first semester;
- Attend a uStart Seminar;
- Pass Spark Start (SPRK 101); and
- Pass College Success (CORE 100).

Upon successful completion of the Ignite program, students may declare a different associate or bachelor-level degree.

Students who complete the Ignite program at the end of their first semester will still be required to meet with their life coach weekly during their second semester, as determined by the Life Coach/Academic Advisor.

Students who do not complete the Ignite Program by the end of their first semester must:

- Sign a renewed Ignite Action Plan and Coaching agreement;
- Meet weekly with their assigned Life Coach for the second semester;
- Enroll in and pass EmpowerU (CORE 105);
- Register for up to 13 credits hours;
- Achieve a minimum cumulative GPA of 2.0 by the end of the second semester; and
- Attend required tutoring sessions if any course grade falls at or below 69%

Students will be reviewed by the Probation and Suspension Committee at the end of each semester to determine whether they are placed on regular academic standing, remain in the Ignite program, or are placed on Academic Probation.

Note: Once students successfully complete the above requirements by the end of their second semester, they may declare a major and will be considered as having completed the Ignite Program.

*uStart Seminar (One day before Spark Start)
uStart is an interactive, one-day seminar designed to help students explore strategies for academic and personal success. It introduces foundational tools to support student achievement throughout college and beyond.

Transfer Student Admission

Students wishing to transfer from another regionally-accredited college or university must provide the following as part of the admission process:

- A completed application (available online at uau.edu/apply);
- Final official transcripts from all schools attended (including high school);
- Transfer students whose native language is not English may demonstrate their language proficiency through the standards listed for admission or by the successful completion of a full year of English composition; and
- Applicants who have attempted the equivalent of 24 semester hours including one semester of English composition at a regionally accredited institution with a cumulative minimum GPA of 2.00 are accepted based on college performance. However, ACT or SAT test scores may still be used for placement in specific courses.

Non-Degree/Guest Students

Guest students from other institutions and individuals not seeking a degree from Union Adventist University may request to take up to six hours of courses per semester without meeting the regular admission requirements. Regular Union students have priority over guest students in gaining entrance to classes with limited enrollment.

Guaranteed Education Program

The Guaranteed Education program permits individuals who earned a bachelor's degree from Union Adventist University with at least 64 hours in residence to receive free tuition when initiating a single additional undergraduate major between two years and six years after graduation. Some restrictions apply:

- Free tuition is limited to courses in the major and required cognates;
- The professional phases of Advanced Pre-Physician Assistant, Nursing, Occupational Therapy Assistant and International Rescue and Relief programs are not covered under this program;
- Because personalized and general studies degrees are not university-designed programs, their graduates are not covered under this program;
- Students paying regular tuition will receive priority for registration in limited-enrollment classes and laboratory sections;
- Students must maintain satisfactory academic progress each semester (2.0 minimum semester GPA) in order to continue in the Guaranteed Education program; and
- Online courses taken through consortium agreements will likely carry additional course fees that will not be covered by the Guaranteed Education program.

Baccalaureate Bonus Program

Union's Baccalaureate Bonus program offers qualified students who hold a bachelor's degree or its equivalent the opportunity to take additional undergraduate classes or even to complete another undergraduate degree at half the current tuition rate. Students electing to enter the program may carry either full- or part-time class loads. The following apply:

- Applicants must submit an official transcript verifying completion of the previous degree;
- The Baccalaureate Bonus program's half-tuition rate applies only to fall and spring semesters;

- Discounts are applied to tuition only and do not apply to laboratory or other fees, clinical coursework, off-campus courses, individual lessons, or the professional phases of Advanced Pre-Physician Assistant, Nursing, Occupational Therapy Assistant or the International Rescue and Relief program;
- International students who hold a degree equivalent to the American bachelor's (or higher-level degree) and meet the English language requirement may qualify for the discount;
- Students paying regular tuition will receive priority for registration in limited-enrollment classes and laboratory sections;
- Students must maintain satisfactory academic progress each semester (2.0 minimum semester GPA) in order to continue in the Baccalaureate Bonus program; and
- Online courses taken through consortium agreements will likely carry additional course fees that will not be covered by the Baccalaureate Bonus program.

Financial Considerations for Baccalaureate Bonus or Guaranteed Education programs

Applicants to the Baccalaureate Bonus or Guaranteed Education programs must have paid in full any previous account balances held with Union Adventist University.

- The student remains responsible for summer semester tuition, other expenses, and fees, which, unlike regular tuition, are not reduced. The student also assumes full financial responsibility for classes taken at other colleges or universities.
- Students in the program are not eligible to receive any other Union Adventist University scholarships or financial awards.
- On-campus employment is not usually available to students in the Guaranteed Education Program. However, based on campus employment needs, the Student Finance Committee may approve a student's application for employment. On-campus employment is available to students in the Baccalaureate Bonus program.
- Tuition for these programs will be covered up to the current maximum full-time credits – anything over that will be charged at full tuition to the student.
- Other restrictions may apply. Contact the Records and Financial Aid offices.

Returning Students Admission Requirements

We welcome all students who left Union in good academic and disciplinary standing back to our campus anytime to continue their education! Our enrollment staff is available to answer any of your questions and to assist with the process.

Readmission Process

- If a student has been gone for one semester, contact the *Records Office* to request readmission.
- If a student has been gone more than 1 semester, complete the university application at uau.edu/apply.
- If a student has suspended their studies due to deployment or military-related activities, we will work with the student to provide prompt readmission into the program. Contact the *Records Office* to request readmission.

Your Eligibility

If you left Union Adventist University due to medical withdrawal, disciplinary suspension, or academic suspension/dismissal, your readmittance will need approval by the Vice President of Academic Administration and the President's Council in order to re-enroll.

If you left on academic probation, you will need to work with your advisor to identify what courses to take to move you into good academic standing.

Transcripts

If you have attended a college or university elsewhere during your absence, you must provide an official copy of the transcripts in your readmission application.

Additional Information

All holds must be settled from your records before your application will be considered. Readmission is subject to available space and current requirements established by the University and the Program of Study. To receive financial aid, please submit your Free Application for Federal Student Aid (FAFSA).

Best of Both Worlds

Union's Best of Both Worlds program offers students access to the social and spiritual community at Union while earning a degree we don't offer at Southeast Community College, Nebraska Wesleyan University, University of Nebraska-Lincoln, or other institutions as arranged.

There are three Best of Both Worlds pathways to choose from:

- Live at Union while pursuing associate degrees in applied sciences and certificates in vocational programs granted by Southeast Community College;
- Live at Union while pursuing baccalaureate-degree majors not offered by Union Adventist University but available through another local college or university as arranged; or
- Reside at Union Adventist University while pursuing graduate or professional degrees granted by the University of Nebraska-Lincoln or Nebraska Wesleyan University.

To learn more about the Best of Both Worlds program, visit uau.edu/best-of-both-worlds or contact the Enrollment Office at enroll@uau.edu or 402.486.2504.

Financial Aid Information

Contact Information

Tricia Harris, Director of Financial Aid
Everett Dick Administration Building, Room 602C
402.486.2505
financialaid@uau.edu

Financial Aid

The Financial Aid Department assists students in determining how to pay for the university. Students are required to complete their financial plans online in the My Financial Aid section of the student portal before classes begin each semester. To qualify for the maximum financial aid, the Free Application for Federal Student Aid (FAFSA) and financial aid questionnaire should be completed by June 30. To better serve students, parents, sponsors, and others who plan to travel long distances to the campus for business purposes, appointments are recommended.

Tuition and Fees

Students at Union Adventist University are entitled to information on applying for, receiving and continuing with financial aid as well as educational costs, refunds, and transportation costs for students living off-campus.

A schedule of Scholarships, Tuition and Fees may be found online at uau.edu/costs.

Payment Arrangements

Student charges and financial aid at Union Adventist University are calculated on a yearly basis. All prior year balances must be below $200 in order to receive federal financial aid the following year.

Refund Policy

Please refer to the Refund Policy in the Student Accounts and Billing section.

Refund	Calendar Days
100%	Up to and including Last Day to Add/Drop Classes
80%	days 10 to 20
60%	days 21 to 39
40%	days 40 to 58
20%	days 59 to 77
None	Exceeding 77 days

Federal Financial Aid is prorated based on a calculation prescribed in federal regulation that determines the amount of federal aid the student earned while enrolled. The Federal calculation is slightly different from that used for institutional aid.

Credit Balances

When a credit balance is generated due to Federal Aid on a student account (payments and credits exceed total charges due), a refund will be processed and the excess returned to the student if that is the option selected. Students select their preferred method of refund during the registration process.

Miscellaneous Charges

Music Lessons

University students are charged a fee of $450 each semester for each one-half hour lesson per week. If academic credit is desired, tuition is also charged. The charge for this fee is printed in the schedule of Scholarships, Tuition and Fees. There are scholarships available to qualified music majors who meet certain requirements.

Program/Course Fees

Several programs have additional fees that are required to help cover the cost of program maintenance; the specific costs are listed annually on the schedule of uau.edu/costs*:*

- International Rescue and Relief
- Nursing
- Occupational Therapy Assistant

Other Services and Information

Summer School Sessions

Union Adventist University offers summer school courses which are substantially discounted from the regular tuition rates. Some exceptions to discounted rates apply.

Multi-Campus Enrollment

Students who are required by their program to take classes at another institution while attending Union Adventist University must (1) obtain approval from the Academic Dean's Office and (2) make financial arrangements with Financial Aid prior to enrolling for classes. If approved, a student may have credits taken at another institution for the given term count towards their overall enrollment for the purposes of being considered full-time for financial aid. Students must be enrolled at least half-time at Union Adventist University in order to be eligible for financial aid under a Multi-Campus Enrollment contract.

Affiliated Off-Campus Programs

Courses taken through an affiliated off-campus program (1) must have prior approval from the Academic Dean's Office and (2) will be charged the full tuition rate of Union Adventist University or the affiliated institution rate. Summer or special session rates do not apply. This policy applies to all students including those participating in individually customized degrees, cooperative, Guaranteed Education and Baccalaureate Bonus programs.

Family Educational Rights and Privacy Act (FERPA)

Financial records are included as part of students' educational records and therefore are subject to FERPA regulations. Union Adventist University's FERPA policy is found at uau.edu/academic-services/records-office/ferpa.

FAFSA and Other Resources Available

Financial assistance is available from the university and federal/state/private agencies. Most financial aid eligibility is based on results of the Free Application for Federal Student Aid (FAFSA). Students are encouraged to complete the FAFSA early to receive the maximum financial awards. The earliest date to file is October 1 for the following school year. Except in extreme cases, students should file the FAFSA using actual (not estimated) tax return information. For the 2025-2026 school year, students and families will use 2023 tax and financial information. For the 2026-2027 school year, students will use 2024 tax and financial information.

The FAFSA may be completed prior to acceptance to the university, but the student must be officially accepted through the university's Admissions Office before receiving an offer for financial assistance. Financial aid awards are calculated on the basis of full-time enrollment. Awards are credited to the student's account for each term in which the student is enrolled. Awards are made without regard to gender, race, religion, nationality, ethnic origin, age, or disability.

Veterans

A student who has been accepted and is eligible to receive veterans benefits under the 1966 enactment should contact the Records office for information about these benefits.

In alignment with the Veterans Benefits Transition Policy Section 103, Union Adventist University will not impose a late fee, denial of access to facilities, or other penalty against a veteran or eligible dependent due to a late payment of tuition and/or fees from VA, provided the fees are received within 90 days of the beginning of the term.

Scholarships

Students are eligible to receive scholarships from multiple sources, including external and internal scholarships.

External Scholarships

There are many external scholarship opportunities available. Students are encouraged to research and apply for external scholarships. It is not recommended to pay for searching and/or applying for scholarships.

Nebraska Foundations

Several scholarships are available yearly from Nebraska philanthropic organizations. Preference is given to upper division students who are residents of designated Nebraska counties.

Union Adventist University Merit Awards, Scholarships and Financial Assistance

Students enrolling at Union are eligible to earn significant awards based on academic merit, admission criteria or need. The scholarship and grant award chart can be viewed online for eligibility criteria at uau.edu/scholarships.

At Union, merit awards and grants are funded through institutional resources as well as numerous endowed and annual scholarships made possible by generous contributions from alumni, businesses and friends of the university. Students who meet the criteria and earn an award guarantee from Union Adventist University are required to acknowledge donors for their generosity by thanking them. This acknowledgement is a requirement for annual renewal. Scholarship recipients will be contacted by the Advancement Office to fulfill the donor acknowledgement process.

Total institutional aid (excluding loans and subsidy) cannot exceed tuition.

Eligibility for Union Adventist University scholarships and financial assistance is based upon full-time enrollment (12 hours or more per semester). For detailed information on awarding policies please visit uau.edu/sfs/forms.

- ***Summer Camp Scholarships*** are for students employed in a Christian summer camp program. Summer earnings have to be applied to the student's account by February 1 to be eligible for a camp match scholarship. Union Adventist University matches applied camp earnings at 75% up to $2,000.
- ***Literature Evangelism Scholarships***. Union Adventist University matches 75% of earnings up to $2,000.
- ***Task Force Scholarships*** are for Union Adventist University students who participate in qualified Task Force assignments. Scholarships of $2,000 are awarded when the student returns to Union Adventist University.
- ***Student Missionary Scholarships*** of $2,000 are awarded to participants in qualified student missionary assignments. Scholarships are awarded when the student returns to Union Adventist University.

Eligibility for Accepting Financial Assistance

Financial aid offers are typically based on full-time (12 hours or more) enrollment. If a student enrolls for less than 12 hours each semester or drops below full-time, their award will be reduced or canceled. Students who plan to register for less than 12 hours in a semester should contact the Financial Aid Office in advance to discuss the effect their enrollment will have on their financial aid eligibility.

Federal Financial Aid

Title IV Federal Student Financial Aid programs for undergraduate students include Federal Pell Grants, Federal Work-Study Employment, Federal Supplemental Educational Opportunity Grants, Federal Direct Student Loans, and Federal Parent PLUS Loans.

In order to qualify for Title IV Federal Student Financial Aid, students must be enrolled and working toward a degree in an eligible program. Other eligibility criteria include: being a U.S.

citizen or eligible non-citizen; having a valid Social Security number; and making satisfactory academic progress. International Students are not eligible for federal aid.

In order to determine eligibility amounts, students must file the Free Application for Federal Student Aid (FAFSA) annually online at studentaid.gov/h/apply-for-aid/fafsa. Help is available on that site or by calling 1-800-4-FED-AID (1-800-433-3243).

Federal and State Aid

Federal and State Aid are awarded to students based on the results of the FAFSA application.

- ***Federal Pell Grant:*** A Federal Pell Grant is a federal grant awarded to undergraduate students who are United States citizens or permanent residents and have not earned a bachelor's or professional degree. Award amounts vary based on the results of the FAFSA.
- ***Federal Supplemental Educational Opportunity Grant (FSEOG):*** FSEOG awards provide assistance to students who are eligible for the Pell grant and have exceptional financial need. The amount of the award is based on the availability of funds and awarded on a first-come, first-served basis.
- ***Nebraska Opportunity Grant (NOG):*** NOG is a state managed fund. Awards are made to qualified Nebraska residents who meet the eligibility requirements set by the state and university.
- ***Nebraska Career Scholarship (NCS):*** NCS is a state managed fund. Awards are made to qualified students who meet the eligibility requirements set by the state and university.
- ***Federal Direct Loan:*** This loan program provides eligible students access to low interest rate loans. Federal Direct Loan repayment begins approximately six months after the student is no longer enrolled at least half time in a degree seeking program. Repayment options may be found at studentaid.gov. Subsidized loan means the federal government pays the interest while the student is enrolled at least half time and during deferment periods. Unsubsidized loans begin accruing interest immediately upon disbursement.
- ***Federal Parent PLUS Loan for Undergraduate Students:*** Parent PLUS loans enable parents with satisfactory credit history to borrow funds to pay education expenses of their dependent undergraduate student enrolled at least half time. The maximum eligibility for a Parent PLUS loan is the cost of attendance less other financial aid received. Interest begins to accrue immediately upon disbursement. Repayment generally begins within 60 days after the final loan disbursement for the academic year, with a maximum repayment period of ten years, unless other arrangements are made. These payments may be deferred while the student is enrolled at least half time. For more information visit studentaid.gov.

Employment Opportunities

Full-time students are encouraged to participate in the Union Adventist University employment program. Earnings often are an important component of students' financial resources. Student employees are considered "at will" employees in harmony with Nebraska state laws and guidelines.

Finding Campus Employment

The student success office assists students in finding on-campus work opportunities by posting employment openings online. Full-time students seeking their initial bachelor's degrees are

given preference for employment. Campus employment is limited to 20 hours per week during the school year.

Federal Work-Study Employment

This campus employment program is for those who qualify for federal financial assistance. Preference is given to qualified students with the greatest financial need. Students are paid at the legal minimum rate but may be given raises as their skill and competence increase.

Worker's Comp Insurance

Per Nebraska law, Union Adventist University carries worker's compensation insurance to protect all employees in case of work-related accidents.

International Students

The U.S. Citizenship and Immigration Service only allows students on an I-20 to be employed in campus positions. International students are eligible to work 20 hours a week when enrolled in full-time classes and 40 hours a week during the summer. International students may apply for Occupational Practical Training (OPT) when coursework is completed.

Documents for Employment

Students working on-campus must complete appropriate documents before starting work. International students must present a valid visa and work documents before employment is authorized.

Summer Employment

Summer employment opportunities are available to students.

Policies That Affect Financial Aid Eligibility

Satisfactory Academic Progress to Keep Financial Aid

The United States Department of Education requires students to progress through their academic program in a timely manner in order to maintain eligibility for Title IV funds. Eligibility for Union Adventist University Institutional Funds is also based on the same standards as Federal Aid eligibility as defined below.

All students receiving Title IV financial assistance are reviewed for Qualitative, Quantitative and Maximum Timeframe standards of Satisfactory Academic Progress (SAP) at the end of Fall, Spring and Summer terms. All students must maintain SAP toward their degree.

Standards of Progress Policy for students receiving veteran's benefits

A veteran and/or eligible person must make satisfactory progress toward an approved educational objective leading to employment. Veteran and/or eligible person Standard of Progress will be determined utilizing the academic sanctions, attendance, and conduct requirements as identified in this bulletin and the student handbook.

Undergraduate Student Guidelines

Qualitative Standard:

- Undergraduate students who do not achieve at least a 2.0 cumulative grade point average (GPA) are no longer eligible for Federal and Institutional Financial Aid.

Quantitative Standard:

- Students who fail to complete at least 67 percent of units attempted will not be eligible to receive Title IV and Institutional financial awards. Federal regulations require that a student complete (earn) a minimum of 67 percent of the credits they attempt in order to remain eligible to receive student financial aid.
    - Attempted credits include:
        - All credits for courses in which a student is enrolled as of the last day to add/drop.
        - All credits for courses in which the student enrolled, but later withdrew or failed.
        - All credits for courses in which the student received a grade of Incomplete.
        - All credits for repeated or remedial courses.
        - Transfer credits from another school that are accepted by Union Adventist University.
        - Credits earned through examination.
    - Earned credits include:
        - All credits completed with grades of 'D' or higher.
        - Transfer credits from another school that are accepted by Union Adventist University.
        - Credits earned through examination.

All Union Adventist University students must successfully complete (earn) 67 percent of the total cumulative credits attempted as a condition for continued financial aid eligibility.

Maximum Timeframe:

- Students may receive financial assistance up to 150 percent of the units necessary to complete their program. Therefore, undergraduate students may not receive aid for terms subsequent to the student reaching (or exceeding) 192 attempted hours.
- When transferring to Union Adventist University, attempted units from all other institutions where the student attended will be included when determining the total units attempted.
- When a student changed their major the units from their previous program that qualify for their new program will be calculated in the total.
- Union Adventist University allows one change of major when calculating the 150 percent.
- Units from the previous degree will be added to the total when calculating the 150 percent.

Incomplete Courses:

- Incomplete courses count as credit hours attempted but does not count as credit hours earned until a passing grade has been assigned.
- An incomplete grade can negatively affect a student's eligibility for financial aid. The deadline for course completion is no later than the end of the following term. Failure to meet this contract deadline will result in recording of the original grade as indicated on the request.

- In calculating the 150%, all credit hours attempted will be included. Even those grades of F, I, repeated courses, remedial courses, and courses taken at other institutions, whether financial aid was received or not, count toward the quantitative total.

Repeated Courses

- When a course taken at Union Adventist University is repeated, the higher grade is used. Both the original and repeat grades are part of the student's permanent record, but only the highest grade and credits earned are computed in the cumulative grade point average and in the total credits earned.
- Repeated courses are counted toward attempted credits each time the course is taken, but is counted toward completed credits only once.
- In general, students may repeat courses using financial aid, provided they have not earned a grade higher than an F. If a student has earned a grade of D- or higher in a course, they can repeat the course only once more and still receive financial aid for the course.
- In calculating the 150%, all credit hours attempted will be included. Even those grades of F, I, repeated courses, remedial courses, and courses taken at other institutions, whether financial aid was received or not, count toward the quantitative total.

Financial Aid Warning

Students who fail to meet all SAP regulations receive a Financial Aid warning for one semester. During the warning semester, students are eligible to receive financial aid as awarded. Performance during this semester determines whether financial aid is given in future terms. Federal, state and institutional aid is terminated after the warning semester if the student fails to meet the overall SAP requirements.

Financial Aid Termination

Students who fail to meet all SAP regulations receive a financial aid warning for one semester are notified by email that they have not met Union Adventist university satisfactory academic progress standards. Incoming Transfer students with a CUM GPA below 2.0 will automatically be placed on SAP warning. During the warning semester, students are eligible to receive financial aid as awarded. Performance during this semester determines whether financial aid is given in future terms. Federal, state and institutional aid is terminated after the warning semester if the student fails to meet the overall SAP requirements.

Financial Aid Termination Appeal

Students have the right to appeal this decision. Appeals must be based on relevant, significant and documentable extenuating circumstances such as serious injury, illness, death of a close relative or other special circumstances. The student must explain what has changed with their situation that will allow them to meet SAP requirements at the next evaluation. The appeal form is online or may be obtained through the Financial Aid Office. The appeal form must be submitted to the Financial Aid director by the Add/Drop deadline. If an appeal is approved, the student will be placed on Financial Aid probation for one semester and evaluated at the end of the semester. A student on Financial Aid probation is eligible for Title IV aid and institutional aid for the approved semester. Performance during this semester determines whether financial aid is given in future

terms. Federal, state and institutional aid is terminated after the probation semester if the student fails to meet the overall SAP requirements.

Reinstatement of Financial Aid Eligibility

A student's financial aid eligibility may be reinstated with the following:

- If a student did not meet SAP standards because of an incomplete, SAP will be reevaluated if they make up for the incomplete in the allowable time frame.
- If the grade for a course is changed, SAP will be reevaluated.
- Students may attend Union Adventist University without financial assistance. If the student meets the SAP policy at the end of the semester, their financial aid eligibility will be reinstated for the next semester.
- If a student successfully appeals their Financial Aid Termination.

Students Convicted of Possession or Sale of Drugs

(The following information is an excerpt from the Federal Student Aid Handbook, Volume 1 — Student Eligibility)

> The FAFSA Simplification Act amended Section 484 of the Higher Education Act of 1965 (HEA), making several important changes to student eligibility criteria. One of these is the elimination of the prohibition on receiving Title IV aid for students with most drug-related convictions.
>
> Having a drug conviction while receiving Title IV aid no longer impacts a student's Title IV aid eligibility, and a student who has a drug conviction may be eligible to receive Title IV aid if they meet all other eligibility criteria.
>
> The Department removed the drug conviction questions from the FAFSA form. Students with drug convictions are eligible for Title IV aid if they meet all other eligibility requirements, unless they are subject to a federal drug abuse hold on receiving certain federal benefits. The eligibility criterion related to the Anti-Drug Abuse Act is unaffected by the removal of the drug conviction question from the FAFSA form.

Federal Verification Process

Some students who file the Free Application for Federal Student Aid (FAFSA) are selected for a process called 'Verification'. The verification selection process is dictated by the Department of Education. The Financial Aid Office has the right to select student records for the process under certain circumstances.

Verification is a quality-assurance measure used by the United States Department of Education (DOE). The university is required to confirm accuracy of the data reported on the FAFSA. Verification is completed by collecting the documents the student used to complete the FAFSA and comparing them with the information the student provided to the DOE.

Students selected for verification are notified by the DOE on the FAFSA Submission Summary (FSS). A request letter for the needed documents will be sent from the Financial Aid office.

Required documents are updated as needed and can be viewed on the Financial Aid section of the Union Adventist University Student Portal under the “To Do” tab.

Professional Judgment

Students who feel that the results of the Free Application for Federal Student Aid (FAFSA) do not accurately reflect the family financial circumstances correctly may file an appeal. The appeal must be based on a documentable, justified situation. Some examples include death in the family, loss of income, exceptional medical expenses, etc. In order to be considered for special circumstance appeal, students must provide documentation to substantiate their claim.

Student Accounts

Contact Information

Brandie Kolff van Oosterwyk
Everett Dick Administration Building, Room 504A
402-486-2600 ext. 2135
student.accounts@uau.edu

Financial Information

Union Adventist University is committed to providing every student the opportunity to receive a quality Christian education. The Student Accounts Accountant and the Financial Aid Office work to make Union's education affordable. Students are encouraged to plan ahead and understand the costs associated with obtaining a degree at Union. Regardless of the student's eligibility for financial aid, the student is responsible to pay the costs of all tuition, fees, and additional charges assessed as a result of a student's registration.

The Student Accounts Accountant is responsible for:

- Bill Stop clearance.
- Assisting with questions around tuition and fee charges.
- Generating billing statements related to tuition and fee charges, course fees, and other miscellaneous fees charged.
- Posting of student refunds and adjustments.
- Issuing 1098-T and 1098-E tax forms.
- Arranging payment plans for non-current student accounts.

Accounting office hours:

Monday – Thursday: 9am-noon, 1pm-4:30pm
Friday: 9am-11am

Cashier's office hours:

Monday-Thursday: 9am-noon, 1pm-3pm
Friday: 10am-noon (closed on Fridays during scheduled school breaks)

Tuition and Fees

A schedule of Tuition and Fees may be found online at uau.edu/costs.

Undergraduate students who enroll for 12 to 18 credit hours are charged a flat rate. Students who enroll for less than 12 credit hours are charged per credit hour. Any credit hour over 18 is charged per credit hour. There is not a flat rate for summer classes. Summer charges are per credit hour at a reduced rate.

Typically, student charges include tuition, student housing, dining, books and supplies for classes. Other charges might include health insurance, special academic attention and testing, and music lessons. Additional service charges are listed in the Miscellaneous Charges section.

International Students

International students needing an I-20 are required to pay a $5,000 deposit. Of this deposit, $4,000 is applied towards the first semester of attendance, and $1,000 is withheld and is applied to the student's account at graduation.

Payment Plans

Student charges are calculated on a semester basis. Payment in full of a student's account is expected by the end of the academic semester. Union offers two payment plans to help students manage their expenses.

Plan I: Full Payment

Full payment of semester charges that are not covered by financial aid at time of registration.

Plan II: Monthly Payment

Fall and Spring Semesters

Tuition charges and additional fees are totaled and expected financial aid is subtracted. After the $1,000 down payment made at registration, the remaining balance is equally divided into four payments due the 10th of each month as follows:

	Fall Semester	*Spring Semester*
Down Payment + Previous Balance	At Registration	At Registration
First Monthly Payment	September 10	February 10
Second Monthly Payment	October 10	March 10
Third Monthly Payment	November 10	April 10
Fourth Monthly Payment	December 10	May 10

Summer Semester

Tuition charges and additional fees are totaled and expected financial aid is subtracted. The remaining balance is equally divided into three payments due the 10th of each month as follows:

	Summer Semester
First Monthly Payment + Previous Balance	June 10
Second Monthly Payment	July 10

Third Monthly Payment	August 10

Any additional charges the student incurs during the semester will become a part of the institutional loan for Payment Plan II. All institutional loans are to be paid in full by the end of the semester. Failure to pay the costs of tuition and fees will result in a hold on the student account which will prevent registration for subsequent semesters until balances are resolved.

A late fee of $25 will apply to all accounts that have not received payment by the 15th of the month in which payment is due. A hold will be placed on the account until payments are current.

Keeping Current

In order to be eligible to register for classes for the upcoming term, the account balance must be paid up to date.

If students are unable to meet their payment agreements, they must make prompt arrangements with Student Accounts or they will forfeit the right to attend classes and their registration will be canceled.

Refund Policy

Union offers a 100% refund of tuition and required fees should a student drop some classes or completely withdraw on or before the published "Last Day to Add/Drop Classes." After that date, required fees are non-refundable and the following refund policy applies to tuition.

Refund	Calendar Days
100%	Up to and including Last Day to Add/Drop Classes
80%	days 10 to 20
60%	days 21 to 39
40%	days 40 to 58
20%	days 59 to 77
None	Exceeding 77 days

Refunds for sessions or classes with durations other than the regular 15-week semester will be prorated using the above as a guideline. Federal Financial Aid is prorated based on a calculation prescribed in federal regulation that determines the amount of federal aid the student earned while enrolled. The Federal calculation is slightly different from that used for institutional aid.

Transcripts and Diplomas

The student account needs to be current in order to expedite the release of transcripts and diplomas. Payment should be made to cover any outstanding account balance when a transcript or diploma request is submitted. It is Union's policy to withhold transcripts and diplomas if a student has an unpaid account balance. This policy applies to all student account charges and all other educational related expenses. Federal regulation requires that transcripts are released for students who receive Title IV funding regardless of the account balance.

Collection Policy

Regardless of reason for leaving, students are responsible for any outstanding balance left on their account. Satisfactory payment arrangements must be made within ninety (90) days after the student is no longer enrolled. The university reserves the right to use third-party agencies for collections on non-current accounts more than one hundred and eighty (180) days past due.

Interest charged at one percent per month (approximately 12% per year) is added to any non-current student's account which is ninety (90) days or more past due.

Miscellaneous Charges

Music Lessons

University students are charged a fee of $450 each semester for each one-half hour lesson per week. If academic credit is desired, tuition is also charged. The charge for this fee is printed in the schedule of Scholarships, Tuition and Fees.

Program Fees

Several programs have additional fees that are required to help cover the cost of program maintenance; the specific costs are listed annually on the schedule of uau.edu/costs:

- International Rescue and Relief
- Nursing
- Occupational Therapy Assistant

Charges Per Usage

Art and photography lab fees will be charged to cover the cost of special laboratory services, supplies consumed and use of equipment. Laboratory usage fees are charged for damage to, or loss of, equipment, non-returnable special supplies and special laboratory services not ordinarily required.

College Level Examination Program (CLEP)

$85.00	Testing fee (per test)
$15.00	Proctor Fee
$ 5.00	Cancellation fee
$15.00	Recording fee (per credit)

Other Charges

The following charges will be made when appropriate and are subject to change: (*The list below is not all inclusive)*

$ 55.00	ACT residual testing
$ 15.00	Online course proctor fee
$ 30.00	Diploma replacement (price may vary depending on need)
$115.00	Residence hall room deposit
$ 50.00	Examination rescheduling
$150.00	CORE (Education majors)[3]
$120.00-146.00	Praxis II
$ 25.00	Proficiency examinations (per course by program)
$ 15.00	Recording fee (per credit)
$ 8.50	eTranscript fee (price is subject to change)

Other Services and Information

Summer School Sessions

Union offers summer school courses which are substantially discounted from the regular tuition rates. Some exceptions to discounted rates apply.

Affiliated Off-Campus Programs

Courses taken through an affiliated off-campus program (1) must have prior approval from the Academic Dean's Office and (2) will be charged the full tuition rate of Union or the affiliated institution rate. Summer or special session rates do not apply. This policy applies to all students including those participating in individually customized degrees, cooperative, Guaranteed Education and Baccalaureate Bonus programs.

Family Education Rights and Privacy Act (FERPA)

Financial records are included as part of students' educational records and therefore are subject to FERPA regulations. Union's FERPA policy is found at uau.edu/ferpa.

Student Life and Services

kim.canine@uau.edu

Student Life

Union Adventist University is known as a friendly undergraduate environment that provides opportunities for learning, leadership, socializing and personal Christian growth. Saturday night activities are planned by various groups such as Student Life, Student Association (SA), Athletics, and our Campus Clubs to enhance campus involvement. The Student Center is a hub of campus life. The proximity of rivers, lakes and parks offers opportunities for group and individual activities. Clubs and organizations provide a variety of social and intellectual enrichment activities.

The university organizes intramural sports, varsity sports, and individual sports opportunities. Tennis courts, a 25-meter swimming pool, gymnasium and four-acre playing field are available on campus. The Reiner Wellness Center houses a weight room, basketball courts, indoor soccer field, a walking track and cardio fitness area. The Gymnaires, the university's student gymnastics team, tour academies and regularly attend AcroFest.

Union provides for student socialization and learning in the Student Center, Woods Auditorium, Cooper's Corner, Campus Store, Student Success, the Rees Hall Club Room, and Ella Johnson Crandall Memorial Library. The Student Center also provides study areas, games and television rooms. A lounge for students who live off campus is located on the second floor of the Everett Dick Administration Building.

Student Life Agreement

The university aims for students to gain experience in making personal decisions based on Christian values. By choosing to enroll at Union Adventist University, students express a willingness to make decisions which are guided by the principles outlined in the Student Handbook.

Vibrant Spirituality

Love for God is shown through personal and community worship. The university believes that individual worship in a private setting is essential to Christian growth. To that end residence halls provide private meditation areas.

To enhance a sense of Christian community, Union Adventist University enables students to experience vibrant spirituality through a variety of worship opportunities. These include worships led by students or faculty, residence hall worships, spiritual emphasis weekends and Student Week of Prayer. Undergraduate students are required to attend a minimum number of these services depending on their class standing.

Sabbath Observance

At Union, the seventh day of the week, Saturday, is observed as the Sabbath. In keeping with the Seventh-day Adventist faith, it is a time for rest, reflection, worship, and community. Students are encouraged to use this opportunity to step away from daily routines, connect with others, and seek spiritual renewal in a way that is personally meaningful.

Volunteer Opportunities

To share the caring spirit of Union Adventist University, a wide variety of volunteer services are available for students. Student volunteer coordinators provide resources and find opportunities to connect students and staff with service needs in the Lincoln area.

Project Impact, Union's annual community service day, begins the school year with more than 80 percent of students and employees working in service agencies. Ongoing volunteer activities include transportation for the elderly, disaster relief, house cleaning, yard work, care for the homeless and programs for children and youth.

Overview of Campus Conduct

As a Christian University, Union seeks to integrate Christian teachings with academic pursuits, extracurricular activities, social development and lifestyle choices. The guiding philosophy holds that the Scriptures establish a framework of values which should guide the development of Christian character, behavior and thought. The administration, faculty and students of Union are expected to embrace these principles. Students are encouraged to deepen their commitment to Christian values and cultivate intellectual and creative powers through participation in campus worship and fellowship. For the full Code of Conduct, please refer to the Student Handbook.

Residence Life Policy

Students who live on campus are more likely to graduate, experience higher satisfaction with their university experience, obtain higher grades and have more friends than those living off campus. For these reasons Union maintains a residential campus and requires undergraduates not living with their parents to live in the residence halls. The full housing policy can be found in the Student Handbook.

There are three residence halls: Rees, Prescott, and Culver Hall. Rooms are equipped for two students and furnished with Internet, a bookcase, closets, two single beds, dressers, desks and chairs. Further information is available at uau.edu/student-life.

Guest Room Reservations

Room reservations can be made online at uau.edu/ortner-center/reservations or by emailing guestservices@uau.edu.

University-Owned Housing

The university owns a number of campus apartments and houses suitable for student families and students who qualify to live outside the residential halls. Monthly rental rates vary with apartment size. Correspondence concerning university-owned housing should be addressed to the Housing Manager in the Financial Administration Office well in advance of attendance at housingmanager@uau.edu or uau.edu/campushousing.

Personal Effects

University carried insurance does not insure the personal effects of any individual even if it is required for use on campus. Therefore, the university recommends that students consider carrying insurance to cover such losses.

Campus Dining Services

Union Market provides a vegetarian menu with vegan options in a market-style setting from early morning to late evening. Cooper's Corner, a snack shop in the Student Center, provides additional food options. A food service minimum is charged per semester for residence hall students.

Campus Health

Campus Health, includes a registered nurse, who provides clinical services and health education. A full-time mental health counselor is also part of Campus Health. Referrals may be made to physicians and other healthcare professionals. Additional fees may apply.

To register, each student must complete a health form and provide an official record of immunizations. Union Adventist University urges all students to comply with the minimum immunization guidelines established by the Nebraska State Department of Health. These immunizations include diphtheria tetanus with a tetanus booster within the past ten years, polio, and two doses of measles vaccine. For specific information, please visit the website. Special health regulations apply to international students. For more information contact the director of admissions.

Pharmaceutical or Chemical Trial

Union Adventist University strongly recommends that students not participate in any commercial pharmaceutical or chemical evaluations. Weekend leaves will not be approved for such purposes. Any student who participates in such testing programs voluntarily assumes all risks involved and agrees to hold the university harmless for all resulting injuries, illness or damages, direct or consequential.

FERPA

In compliance with the Family Educational Rights and Privacy Act (FERPA), Union Adventist University reserves the right to notify a parent or guardian, regardless of a student's age, if a student has been admitted to the hospital; has a serious health condition; has violated any federal, state or local law or campus rule or policy governing the use or possession of alcohol or a controlled substance; or for any conduct that poses a significant risk to the safety or well-being of that student, other students, or other members of the university community. For the official university FERPA policy see uau.edu/ferpa.

Health Insurance

Union Adventist University students taking 12 or more credit hours are required to have health insurance coverage. The university contracts with an insurance provider and students are automatically enrolled in coverage for a set fee. To opt out, students must request a waiver, which

will be approved upon proof of adequate coverage. International students are automatically enrolled in the student health insurance plan, as they are required to have a health insurance plan provided by an insurance company based in the United States. International students with health insurance coverage provided by an insurance company based in the United States should contact Student Life to request a waiver.

Students enrolled in 11 or fewer credit hours are not required to provide proof of insurance unless their academic program specifically mandates it. Health insurance coverage is strongly recommended. For any questions regarding health insurance, please reach out to Student Life.

Motor Vehicles

To park on campus, all students must register their vehicles with Campus Safety. There is no campus vehicle registration fee. Regulations governing the use of motor vehicles are outlined in the Student Handbook and the Parking Map and Regulations brochure.

Athletics Philosophy

Union Adventist University's Christian approach to athletics develops sportsmanship, promotes academic excellence, enhances team and individual skills, cultivates teamwork and leadership abilities, and encourages service to others.

Intramural Sports

Union Adventist University encourages students to become involved in the various recreational opportunities which are offered on campus. The intramural sports program provides traditional sport leagues such as basketball, flag football, volleyball and soccer along with other non-traditional activities. All participants are expected to follow the concepts of sportsmanship which should be displayed on a Christian campus. Students who are enrolled in at least six hours of credit and who meet insurance requirements are eligible to participate in the intramural sports program. Students competing on intercollegiate varsity athletic teams are not eligible to participate in the corresponding intramural sport if the seasons are concurrent (i.e. a varsity basketball player may not participate in the intramural basketball league).

Intercollegiate Sports

Teams that represent Union Adventist University on an intercollegiate level are men's soccer, men's and women's basketball, women's volleyball, gymnastics, and men and women's golf. All varsity athletes are expected to follow the concepts of sportsmanship which should be displayed on a Christian campus.

Eligibility

Students must have attained a 2.50 GPA for the past semester or cumulatively and must be registered for a minimum of 12 credit hours to be fully eligible to participate on an intercollegiate team. First semester freshman academic eligibility is based on the high school GPA. A one semester probationary period may be granted to team members whose GPA falls between 2.00 and 2.50 for the past semester by appeal to the Athletic Committee. Those placed on probation may be allowed to practice, and play in games or travel with the team at the coaches' and Athletic

Director's discretion. Team members who do not reach a 2.50 GPA after one semester of probation will not be eligible until they have met this requirement.

Policy Regarding Student Complaints

In seeking to do what is right, Union Adventist University values student complaints as evidence of potential difficulties to be addressed. Most complaints are addressed informally, orally or electronically, with the Academic Dean, residence hall dean, work supervisor, or other responsible campus employee. However, if a student seeks further resolution of the problem, and discussion with the appropriate vice president likewise fails to satisfy the student, a formal complaint should be filed with the appropriate vice president.

Formal complaints are defined as non-trivial complaints submitted in writing, dated, signed by the student, and submitted to the vice president with the responsibility to handle the complaint. Formal complaints are kept on file, and each vice president maintains a record of each complaint filed and its resolution.

Grievance Process

Union Adventist University attempts to follow biblical principles when wrong is perceived by a student or employee. A student who feels treated unfairly or unjustly has the right to appeal according to approved procedures.

Informal Complaint Procedure

Most misunderstandings and difficulties are settled to mutual satisfaction when the student perceiving a wrong discusses the issue with the employee involved, whether course instructor, residence hall dean or staff member. A student who is not satisfied by discussion at this direct level should appeal to the instructor's program director or academic dean, head residence hall dean, or staff member's supervisor.

Formal Complaint Procedure

If not satisfied at the supervisory level, the student may file a formal grievance. The processes for a formal grievance can be found on the Academic Administration section of uau.edu/complaint-policy.

Matters Not Grievable

University policies and regulations adopted by the university and/or the Board of Trustees are not subject to the grievance process. Students may request discussion and recommend changes to such policies but this dialogue is advisory and not grievable.

This grievance policy applies to Union Adventist University issues. Where other organizations are involved, the university may not be free to act. For example, where patient safety or child protection is involved, or where state regulations and other institutional policies may supersede university guidelines, the complaint may not be grievable.

Academic Resources

Ella Johnson Crandall Memorial Library

Julie Bocock-Bliss, Library Director
Don Love Building North, Room 212
402.486.2600 ext. 2150
librarydirector@uau.edu
uau.edu/library

The Ella Johnson Crandall Memorial Library empowers students, faculty, staff and community members for learning, teaching, research and spiritual growth through the provision of information resources, services, and the preservation of institutional and spiritual heritage.

Within the library's 38,000-square-foot facility, librarians offer reference assistance, research instruction, collection development and special programming. Through the Research Assistance Program, patrons can schedule a research appointment with a librarian or receive help on a walk-in basis, by phone or by email. Librarians provide effective research instruction, collection development (selection of resources), material reserve services and online subject research guides (LibGuides) for each major on campus. The library's resources are highlighted through physical book displays and through special programming.

The library's collection of more than 55,000 physical items includes a variety of formats such as books, periodicals, DVDs and audio books. Online collections include full-text access to more than 28,000 periodical titles, 330,000 electronic books and 36,000 academic streaming videos. Both physical and electronic collections are searchable through the library's online catalog. The Lora McMahon King Heritage Room houses a large collection of Adventist books and periodicals, in addition to Union College and Union Adventist University archival materials. A selection of these materials is also available online through the Union College/Union Adventist University Heritage Collections database. The library subscribes to over 50 article databases accessible online from services such as EBSCOhost, ProQuest, Gale and Elsevier, as well as provides access to many more open access databases. Students may log in to these subscribed databases from any campus computer or from off campus via EZproxy.

Resources in other academic libraries in the area are available through reciprocal borrowing and on a wider spectrum through interlibrary loan. The latter service provides access to materials through the more than 70,000 member libraries of OCLC. Additionally, patrons visiting the library can choose from a variety of study spaces including small group study rooms, individual study rooms, open tables, study carrels and lounge seating. Two small group study rooms include televisions and DVD players; portable DVD units are available upon request. Students may also check out HDMI cords to connect laptops to the televisions and portable power banks for use in the library.

Information Systems

Richard Henriques, Director of Information Systems
Everett Dick Administration Building, Room 503A
402.486.2600 ext. 2121
isdirector@uau.edu

uau.edu/information-systems
Information Systems (IS) maintains computer hardware and software owned by Union Adventist University. IS also provides a campus wide network, both wired and wireless, that gives access to learning management systems, student information systems, enterprise management software, and the Internet. Students that comply with Union Adventist University's computer policy are granted access via credentials that are issued during their registration process.

Graphic Arts Computer Laboratory

Alan Orrison, Program Director of Art & Design
Engel Hall, Room 202
402.486.2600 ext. 2335
alan.orrison@uau.edu
uau.edu/campus-services/computer-labs

The graphic arts computer lab, an open lab located in Engel Hall, is maintained to support photo editing and printing, video editing, print production, graphic design, and web design. Macintosh computers run drawing, page layout, image editing, video editing, and web design software. Color and black and white printers, scanners, and type collections support graphic design, photography, and illustration work. The Internet is available for these uses.

In addition, smaller labs with more specialized software are maintained in science and math, health sciences, and the library.

Student Success

Martha Hornung, Executive Director of Student Success
Don Love Building, Room 218
402.486.2600 ext. 2067
martha.hornung@uau.edu
uau.edu/success

Student Success supports students to succeed in university and beyond through life and strengths coaching, disability resources, peer and group tutoring, accountability, career exploration and preparation, and more.

Life and Strengths Coaching and Academic Advising

Life and strengths coaching helps students develop life goals, educational plans, and techniques to overcome barriers to success as well as to empower students to invest and maximize their God-given talents to engage in their calling. Life and strengths coaching is available to all Union students at no cost. All freshmen in their first year at Union will work with a life and strengths coach for coaching and academic advising. Request coaching services at studentsuccess@uau.edu.

Tutoring

- **Peer tutoring:** every student is eligible for free peer tutoring for any class they take. Request tutoring at uau.edu/tutoring-services or contact Student Success.

Career Services

- **Career coaching:** students are provided assessments for skills, interests, abilities, strengths and personality, as well as assistance in using results to choose a career path. Contact careerassistant@uau.edu for one-on-one services. These services can help students with career planning, job searching, and networking.
- **Career preparation:** assistance is available for cover letter and résumé writing, interviewing, and general business etiquette.
- **On-campus employment:** Job descriptions and applications are found in Handshake at uau.edu.joinhandshake.com.
- **Off-campus employment and internships:** work opportunities are posted through the online job board, Handshake, at uau.joinhandshake.com. Students can also contact careerassistant@uau.edu to seek guidance on finding jobs and internships.
- **Career and Graduate School Fair:** Union Adventist University hosts employers and graduate schools on campus each fall offering students information on internships, part-time and full-time employment, and university graduate programs.

Standardized Tests

The following tests are administered as arranged with Student Success unless otherwise noted.

- **National ACT:** administered by ACT on pre-scheduled Sunday dates. Union Adventist University test center number and clergyman's letter available upon request. Scores good at any school and used for acceptance and course placement. Learn more and register at ACT.org.
- **On-Campus Testing- ACT:** for students already accepted to Union Adventist University. Scores good only at Union Adventist University and used to test out of a prerequisite class or to increase freshman scholarship. Learn more and register at uau.edu/act.
- **ALEKS Placement:** for students registered for a Union Adventist University math course. Scores good only at Union Adventist University; and used to place into higher level math or science than ACT/SAT scores allow. Learn more and register at uau.edu/aleks-placement-test.

Disability Information and Access

Debbie Forshee-Sweeney, Director of Disability Information and Access
Don Love Building, Room 215

uau.edu/success

Accessibility Accommodations for Students with Disabilities

Union Adventist University is committed to providing educational opportunities and an inclusive environment for students with disabilities by honoring Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and ADA Amendments Act of 2008. These prohibit discrimination on the basis of disabilities.

Accommodations are made on an individual basis and determined in consultation with the student. Students requesting accommodations, including online courses, and for Adventist

Education Alliance may contact the director of disability information for accessibility guidelines or download them from the university website.

Personal Academic College Coaching (PACC)

In addition to accommodations and accessibility resources, students with disabilities may receive coaching for self-advocacy, academic strategies, and executive functioning skills.

The Writing Studio

Tanya R. Cochran, Program Director of English
Don Love Building North, Library, Room 243
402.486.2600 ext. 2325
tanya.cochran@uau.edu
uau.edu/thestudio

The process of invention, revision and delivery resembles the process of spiritual growth. Strong writing and speaking are like sanctification: the work of a lifetime. Therefore, The Writing Studio's purpose is to provide an environment where life-writing and life-speaking occurs.

The Writing Studio's purpose is twofold. Through professional and peer consultations,

- it assists writers and speakers—through dialogue and personalized instruction—in producing innovative, reliable and meaningful research and presentations in and across their disciplines and communities; and
- it encourages writers and speakers to reach both local and global communities through writing and speaking that ennobles humanity and honors God.

Because any written or oral text requires time and persistence, the Writing Studio encourages students to seek an appointment at any and all stages of the composing process. Professional and peer consultants are available to brainstorm before the writer or speaker puts one word on a notebook page or computer screen as well as to offer feedback on first, in-between, and final drafts of writing projects and oral presentations. As a later concern, consultants support instruction in grammar and mechanics. While they are not merely editors or proofreaders, consultants help student writers and speakers identify and revise their own errors, thus becoming more and more independent authors. Ideally, consultants and the students they work with develop a trusting relationship within which both hone their communication skills. Writing Studio services are provided without charge. For more information on location and appointments, visit the Writing Studio's Web page.

Adventist Colleges Abroad

Contact Information

Willy Logan, Program Director of Politics, History, and International Relations

william.logan@uau.edu
uau.edu/aca

The Adventist Colleges Abroad (ACA) program at Union Adventist University allows students to immerse themselves in the culture and life of the host country and become conversant in the language; mature socially, spiritually, and intellectually; and develop sensitivity to cultural differences and a sense of responsibility for and mission to other people of the world. This opportunity is provided to qualified students for international study while completing degree requirements at their home colleges and universities.

A Bachelor of Arts degree in Foreign Language Studies with emphasis in French, German, Italian, Portuguese or Spanish may be earned (as a second major) through this program. Minors are available in French, German, Italian, Portuguese or Spanish. Language study is also available at other various locations during the summer. (See Summer Study Abroad below.)

Union Adventist University is a member of Adventist Colleges Abroad (ACA), a cooperative arrangement between Adventist colleges and universities of the United States and participating Adventist colleges and universities in other countries. ACA is operated by the Education Department and the Higher Education Cabinet of the North American Division of the Seventh-day Adventist Church.

Because geopolitical situations can change rapidly, an ACA campus may be closed. Check with the ACA Program Director for the latest updates.

Academic Year Study Abroad

The following institutions are international affiliates of ACA offering academic-year programs of study:

Argentina (Spanish)	Universidad Adventista del Plata
Austria (German)	Seminar Schloss Bogenhofen
Brazil (Portuguese)	Faculdade Adventista da Bahia
France (French)	Campus Adventiste du Salève
Italy (Italian)	Istituto Adventista Villa Aurora
Spain (Spanish)	Escuela Superior de Español de Sagunto

(See Foreign Language Studies section for degree information.)

University Application Policies

For Union Adventist University to process an application for academic year study abroad, the applicant must:

- complete at least one full-time semester in residence at Union Adventist University;
- be in good and regular standing at Union Adventist University while maintaining an overall minimum GPA of 2.5;
- establish a financial payment contract with Union Adventist University Student Financial Services or pay for the program in full; and
- if pursuing a degree in Spanish, complete two high school years or one college year in prerequisite language study with a minimum GPA of 3.00, or pass the appropriate College Level Examination Program (CLEP) language exam.

Recent High School Graduate Applicants

For Union Adventist University to process an application for academic year study abroad, the recent high school graduate applicant must:

- submit an official high school transcript with a date of graduation and have a minimum GPA of 3.5.
- if pursuing a degree in Spanish, complete two high school years or one college year in prerequisite language study with a minimum GPA of 3.00, or pass the appropriate College Level Examination Program (CLEP) language exam.
- **submit tuition payment in full to Union Adventist University Student Financial Services.**

Summer Study Abroad

ACA also offers summer terms at the following international study centers listed above in Austria, Brazil, France, Italy, and Spain, and periodically in the following:

Biblical Hebrew	Seminar Schloss Bogenhofen
South Korea (Korean)	Sahmyook University

University Applicants

For Union Adventist University to process an application for summer study abroad, the university applicant must:

- complete at least one full-time semester in residence at Union Adventist University;
- be in good and regular standing at Union Adventist University while maintaining an overall minimum GPA of 2.5; and
- establish a financial payment contract with Union Adventist University Student Financial Services or pay for the program in full.

High School Applicants

For Union Adventist University to process an application for summer study abroad, the high school applicant must:

- complete at least the sophomore year in high school and be at least 15 years of age;

- complete and submit the applicable form to enroll at Union Adventist University as a non-degree seeking student. This enrollment form will require verification by the high school registrar that the student's GPA is above the 3.0 minimum required; and
- submit tuition payment in full to Union Adventist University Student Financial Services.

SALT

Description

The SALT program is a four-month program through *It is Written* that will prepare individuals for active involvement in evangelism by offering fully accredited college classes (a not for credit option is also available), hands-on training, and a Bible Worker Certificate of completion. This program is geared toward individuals interested in developing their faith-sharing skills.

records@uau.edu

This section of the bulletin provides basic information for progress through university, from registration to final exams and transcripts. Degree, General Education and Graduation requirements are specific to the bulletin year issued within the student's time at Union. Policies and academic course information should adhere to the most recently published bulletin.

Academic Advising

Beyond completing the courses required for a major, earning a degree includes satisfying a variety of requirements and deadlines. To assist in meeting these requirements, each student is appointed an advisor. Besides guiding course selection and general academic planning, advisors assist a student's orientation to campus life, discuss broader personal concerns, and encourage career planning.

Academic Course Load

Union Adventist University operates on a 15-week semester system, which defines courses in semester hours. Traditionally, each hour consists of one 50-minute class period and two hours of additional study per week. A laboratory period of two to four hours equals one semester hour.

An average load of 15-16 hours per semester over four years (120 weeks total) achieves the 124 semester hours needed for a bachelor's degree. However, the minimum full-time course load of 12 hours meets the requirements of financial aid, immigration, social security and veterans' authorities. Students in the freshmen enrichment, Integrated University Experience, academic probation and academic alert programs are limited to 15 hours. The recommended freshman maximum is 16 hours.

Class Standing

Student classification is based on the semester hours applied to a Union Adventist University degree. The minimum number of hours for each class is:

- ***Freshman*** - admitted/0 semester hours
- ***Sophomore*** - 24 semester hours
- ***Junior*** - 56 semester hours
- ***Senior*** - —92 semester hours
- ***Graduate*** - enrolled in a master's program
- ***Other*** - special students, guest students and others not seeking a degree

Course Numbers

Course numbers indicate the designated level of the course from the 100-level for first-year students through the upper division levels of 300 (junior) and 400 (senior). Courses numbered 500 to 700 levels are designated for masters programs and can be found in the Graduate Academic Bulletin. Courses numbered below 100 are considered developmental and do not apply toward graduation. Similarly, grades in these developmental courses do not affect a student's grade point average (GPA).

Prerequisites for All Upper Division Courses

Registration for any 300 or 400-level course requires at least sophomore class standing.

Cross-Listed Courses

Cross-listed courses indicate two subject course titles with the same course number (ex. PLSC/RELG 245). Students who register for these types of courses must work with their advisor to ensure registration for the correct subject occurs. Students will not be able to change or switch course titles after the add/drop deadline. Academic petitions will be denied for incorrect registration of cross-listed courses.

Online Courses

Union Adventist University offers a number of online course options, with most of these courses being available during the summer term. Union offers online courses taught by Union teachers as well as through our membership with the Acadeum College Consortium (Acadeum). Acadeum is a virtual academic consortium in which member institutions collaborate in sharing online, credit-bearing courses and programs. All consortium members are regionally accredited, independent, and not-for-profit institutions.

Online and hybrid courses may be identified as such if the following prefixes are added to course titles:

- ***ONS (Online-Synchronous):*** Online course requiring instructors and students to be online at the same time for portions of the course.
- ***ONA (Online-Asynchronous):*** Online course with no requirements for students to meet with the instructor/other learners at specific times online.
- ***HYS (Hybrid-Synchronous):*** A hybrid course including some level of in-person class or lab participation as well as a required time for instructors and students to be online at the same time for portions of the course.
- ***HYA (Hybrid-Asynchronous):*** A hybrid class including some level of in-person class or lab participation, but no requirement for instructors and students to be online at the same time for the online portion of the course.

Online courses can provide a quality alternative to traditional classes when necessary. Such courses must comprise less than 50 percent of any certificate or degree awarded by Union Adventist University, unless that specific certificate or degree has been approved for online delivery.

Acadeum Courses

Degree seeking students can take online classes through Union Adventist University's online consortium, Acadeum. Courses taken during the fall, spring, or summer semester must be approved by the Advisor, Program Director, and Records Office. Course equivalencies must also be approved by the Records office. Some reasons why a student may be approved to take Acadeum courses are because of class scheduling conflicts, out of sequence courses, or to meet graduation deadlines. Other situations may be approved on a case by case basis. Acadeum courses are used primarily for major, minor, or emphasis specific classes; general education requirements should be taken in person through Union Adventist University (some exceptions may be approved).

An Acadeum course can be requested by completing the "Acadeum Course Request" form. The form can be found online or in the Records Office. All requests must be submitted to the Records Office no later than two weeks prior to the add/drop date. Requests submitted after this deadline are not guaranteed.

During the Fall and Spring, along with normal tuition rates, students will be charged the cost of the Acadeum course. During the summer, students will be charged the summer tuition rate and the cost of the course. The cost of each Acadeum course varies, depending on the type of course and the number of credits.

Accommodations are determined on an individual basis and in consultation with the student and the director of disability information and access. Guidelines are available on the Union Adventist University website or by contacting the director of Disability Information and Access.

Students taking courses through our online consortium Acadeum, or other online avenue, may request accommodations through the teaching institution. Students may seek assistance in this process by contacting the director of Disability Information and Access. More information regarding Acadeum's SDA accommodations can be found at support.acadeum.com.

Professional Workforce Development

Union Adventist University offers online training that specializes in critical workforce programs to meet the needs of organizations and individuals by filling important skill gaps for in-demand healthcare roles. Professional Workforce Development prepares individuals to advance and succeed in their careers and educational pursuits and to meet the employer demand in the area.

Courses taken through Professional Workforce Development receive certification only. Courses are not for credit and do not count towards any form of academic degree. More information can be found at workforce.uau.edu/.

Auditing Courses

Students seeking to attend a course purely out of interest may request to audit courses using the applicable request form. Audited courses cannot be used to fulfill degree or graduation requirements. No grade is assigned nor credit given, and the tuition rate is greatly reduced. Changes from credit to audit, or the reverse, must take place during the add-drop registration period each semester or during the first two days of summer sessions. Nursing courses, most laboratory courses, and some others may not be audited.

Students taking music lessons or participating in ensemble groups for no credit will be required to complete the audit paperwork. Music lessons will incur the $450/credit charge, and if the student is taking fewer than 12 or greater than 17 credits, they will also be charged the reduced tuition rate. Auditing an ensemble group will not incur any additional fee/tuition.

New Student Orientation

New Student Orientation provides an important introduction to the university experience, extending from academic preparations to social activities, spiritual programs, and services available to students. Orientation is scheduled each fall before registration and as announced for spring semester.

Students with fewer than 24 semester hours of college credit taken after the date of their high school graduation are required to register for and attend CORE 100 College Success and SPRK 101 Spark Start.

Registration

Registration is the process of arranging to take courses for a semester as well as the associated steps to pay for them and become a Union Adventist University student. To accomplish this, students register for courses through Self-Service, the university's online portal, and complete the assigned steps in the Registration Checklist. Students are registered only after all the steps are completed.

Students who consult with their advisors and reserve courses during the pre-registration periods benefit from priority access to courses. Financial clearance should also be completed before the end of the registration period. At the end of the add/drop period, students will no longer be able to register for courses. Students with incomplete Registration Checklists will no longer have access to Union's online interfaces, including Portal, Self-Service and Canvas.

Changes in Registration

Add/drop

Students who are considering changing courses should consult with their advisors and attend the new courses as soon as possible if space is available. Courses already in progress may be added or dropped only during the first seven business classes (two days in summer session). Thereafter, permanent academic records are established and a W (withdrawal) grade will be assigned if a student chooses to drop the class later in the semester. Students benefit from confirming their class schedule on Self-Service to ensure the registered courses are those actually intended.

Withdrawal

Courses dropped between the add/drop deadline and the published withdrawal deadline receive the designation W (withdrawal) instead of a letter grade. If classes are dropped after this date, letter grades will be assigned based on work completed at the end of the term.

Students considering withdrawal from a course should contact Student Financial Services to determine if financial aid could be jeopardized. Withdrawal procedures must be fully completed before a withdrawal becomes official.

Unofficial Withdrawal Policy

Students are defined as unofficially withdrawn for Title IV federal aid purposes when they do not have any grades for the semester other than FA, a failing grade due to non-attendance. When instructors assign the FA grade, the last known date of attendance or academic activity must also be reported. At the end of each semester, any students who have all FA grades are assumed to be "unofficially withdrawn". Students who unofficially withdraw from Union Adventist University (quit attending all classes but do not follow official withdrawal procedures) may have to return all of the financial aid received for the semester. The FA grade designation is treated as F (failing) for all other policy purposes.

Administrative Withdrawal

The university administration may grant an administrative withdrawal (W) from a course or courses for a student suffering a medical or unexpected circumstance. Administrative withdrawals are not granted to avoid failing grades or for circumstances normally addressed by a regular withdrawal. A student receiving an administrative withdrawal in all courses must demonstrate evidence of recovery from the circumstances before returning to Union Adventist University.

Transfer Credits

All credit from another regionally accredited college or university will be transferred when the following conditions are met:

- an official transcript is received directly from the other institution;
- credits transferred have a grade of C- (1.67) or above;
- vocational and technical courses are generally not transferable, unless approved by the appropriate academic program director, by petition, or by Academic Administration, i.e Nursing, Auto mechanic, and Interior Design;
- graduate level courses are not transferable, except by petition;
- Transfer credits from two-year institutions are monitored. At least 56 hours must be taken from a four-year institution before graduation; and
- If it is an International transcript, it must go through WES (some exceptions may apply. For more information, contact the Records Office)

Life experiences are not transferable, and credit is not granted for non-collegiate sponsored instruction. Remedial, developmental, or other courses numbered below the 100 level, such as MATH 017, will not be transferred to Union Adventist University.

The transfer of credits does not guarantee that credits meet specific requirements, but when they are equivalent to Union Adventist University coursework, they satisfy corresponding requirements for general education, a major or a minor. If a student believes a transferred class should meet a specific requirement, an academic petition can be submitted for approval; the student is expected to provide support materials, such as the course description and/or syllabus for review

If a student wishes to remove a transferred class from their Union Adventist University record, they may submit a petition to the Records office.

In most situations, all eligible credits are transferred on a course-by-course basis with the corresponding Union Adventist University prefix and number, letter grades and credit hours (in terms of semester hours) for each transfer course. However, in some cases (e.g. international, nursing, paramedic, course codes that Union does not offer, and second-degree-seeking students), the total number of transfer credits may be transferred with a grade of CR. If specific transfer courses are needed to fulfill the declared degree at Union Adventist University, those courses will be considered for transfer on a course-by-course basis.

Course Transfers from Institutions without Regional Accreditation

Courses from institutions without regional accreditation do not generally transfer. However, a student may request that such credits be transferred by filing an academic petition with the Records office. Provision of a syllabus is required for the evaluation; other materials may be requested during the evaluation process. The academic dean must validate the equivalence.

Required Transcripts from Other Institutions

It is Union Adventist University policy to require official and final transcripts from all other institutions a student has attended, even if credits are not transferable to Union Adventist University. This applies to first time, transfer, or returning students.

Transient Policy

A student is considered a "transient student" when the student plans to attend another institution to take courses that will transfer back to Union Adventist University. If another institution requires a transient letter from Union Adventist University, the student must contact the Records Office at records@uau.edu. A letter will be granted if the student is on good-academic standing as determined by the Registrar.

Students are responsible for confirming courses will transfer before registering and attending another institution. An official transcript is required before credits will be transferred.

Credit by Examination - ACE, AP, CLEP, & Challenge Examinations

Several types of examinations are available for a student to demonstrate knowledge sufficient for academic credit, which may not exceed credit granted for similar classes offered by the university.

Credit by examination is not given if a student ever enrolled in the course, even if it was not completed, or if the student has taken a more advanced course in the same subject with or without credit. Exams may be taken only once.

CR/NC will be recorded in lieu of a letter grade and will not count towards GPA. Applications for CLEP and Proficiency Examinations are available in the Records office.

American Council on Education (ACE) - Recommended Credit

Joint Services Transcripts are the only form of ACE credit that will be accepted.

Advanced Placement (AP)

Advanced Placement (AP) credit is granted to students who pass certain College Board AP Examinations with a score of 3 or higher. Language and Composition substitutes for Writing for General Audiences, while Literature and Composition substitutes for literature. However, no AP course may substitute for Writing for Scholarly Audiences. For more information about credits granted for certain AP tests, please visit uau.edu/transfer/transfer-credit-equivalency and search for "The College Board AP/CLEP".

College Level Examination Program (CLEP)

Union Adventist University grants credit for CLEP subject examinations as recommended by the Commission on Educational Credit of the American Council on Education. Applications for CLEP exams are available in the Records office. Once a student is approved to take a CLEP exam, he/she may visit the following website to find a local testing center: clep.collegeboard.org/test-center-search. A recording fee is charged for credits earned on CLEP exams (see fees). For more information about credits granted for certain CLEP tests, please visit uau.edu/transfer/transfer-credit-equivalency and search for "The College Board AP/CLEP".

Credit by CLEP carries the following stipulations:

- not available after a student has completed 56 hours of college credit;
- not available for Writing for General Audiences or Writing for Scholarly Audiences;
- not granted for the general tests in Humanities, College Mathematics, Natural Sciences, or Social Sciences and History; and
- will not necessarily satisfy requirements for a major or minor. The student seeking to use CLEP credit for a major or minor should obtain program approval before taking the test.

Challenge Examinations

Proficiency examinations may be arranged for some courses. Students who want to take an exam should contact the program director. A fee will be charged for the exam's preparation and credit registration. A course already taken cannot be replaced by a proficiency examination.

Alternative Programs

General Studies

The degree in General Studies allows students to develop academic knowledge and skills in several areas of study. The student must meet graduation requirements for bachelor's or associate's degrees, substituting a general studies curriculum for a major. Because it lacks a major, the university does not extend the Guaranteed Education option to students who graduate under this program.

Courses applying to the general studies "major" curriculum cannot be used to fulfill general education requirements for the degree.

The Bachelor of Science degree in General Studies requires a minimum of 24 semester hours earned in one area of study and 12 semester hours each from two other areas of study. All qualifying courses must be completed with a grade of C or higher with a minimum of 15 hours numbered at the 300 or 400 levels.

The Associate of Science degree in General Studies requires a minimum of 12 semester hours earned in one area of study and six semester hours each from two other areas of study. All qualifying courses must be completed with a grade of C or higher.

  - OTA

Personalized Degree

The personalized degree option is intended for a student who, in consultation with an advisor, wishes to design and fulfill a unique program of study at the bachelor's level that achieves individual educational goals. Students and their advisors are encouraged to consider modifying current degrees with petitions in place of creating a personalized degree that is very similar to a degree already offered. Such an individually-designed program may prepare for employment or further study. However, the program carries no endorsement or recommendation for such results by the university, and the Guaranteed Education option is not available to students graduating under this program.

The student should present a proposed curriculum during the first semester of the junior year. This proposal must be approved by the Academic Council.

Graduation requirements for a personalized degree are broadly the same as for a regular bachelor's degree. Variations in the general education requirements are permissible but must also be approved by the Academic Council. Personalized degree students may utilize courses offered on other campuses for which the student is financially responsible. The residency requirement is that 64 of the final 80 hours of this degree or at least 100 hours total must be taken at Union Adventist University.

Post-Baccalaureate Professional Program

Exceptional students occasionally gain acceptance into professional graduate programs such as medicine, dentistry or law before completing a bachelor's degree.

The appropriate bachelor's degree, the BS or BA will be conferred upon those who:

- submit a graduation application prior to starting the graduate coursework, there is no major, so indicate the Post-Baccalaureate Professional Program
- complete the general education requirements as outlined in the relevant bulletin;
- complete a minimum of 96 semester hours of undergraduate courses, including 20 or more upper division hours;
- complete 30 of the last 36 undergraduate hours in residence (not including graduate level courses);
- request degree within two years after successfully completing the first year of a post-baccalaureate professional program; and
- arrange verification from the professional school that the applicant has successfully completed the first year of the professional program and is eligible to continue.

Because it lacks a major, the university does not extend the Guaranteed Education option to students who graduate under this program. Students are financially responsible for courses offered on other campuses than Union Adventist University.

Study Elsewhere

Students wishing to take a course at another institution while registered at Union Adventist University should first consult with their Academic Advisor or Program Director.

To ensure that the proposed coursework elsewhere will satisfy the course of study at Union Adventist University, students should verify the course by visiting Union's Credit Equivalency

Tool online at uau.edu/transfer/transfer-credit-equivalency. If the desired course is not listed, the student should obtain permission from the Records office by submitting a Transfer Credit Inquiry prior to registering for the course at the other institution. Failure to do so may result in a student earning credit that will not apply toward graduation.

For each individual degree (including general education, major, minor, emphasis, and general electives), consortium classes offered through Union Adventist University must comprise less than 50 percent of the applied number of credit hours. Types of consortium classes include courses provided in partnership with Acadeum, Adventist Colleges Abroad, Adventist Education Alliance, Andrews University, Bryan College of Health Sciences, dual credit with academies, and other consortium agreements determined by the records office.

Grade Reports

Grades and unofficial transcripts are available at the midterm and conclusion of each semester on the Self-Service website. Only the final grade is recorded on the official transcript; the midterm grade serves as an indication of progress and is not factored into a student's GPA calculation.

Students are responsible for reviewing their Self-Service accounts regularly to ensure the accuracy of the academic information on file in the Records office.

Grade Definitions

- A The student demonstrated an excellent mastery of the material and met course objectives in an excellent manner.
- B The student demonstrated a commendable mastery of the material and met course objectives in a commendable manner.
- C The student met course objectives in a satisfactory manner. A grade of C- or below may not apply for a course in a major, minor or professional education.
- D The student has not demonstrated a satisfactory learning of the material, but met course objectives in a minimal manner. A grade of D- or higher applies as general education or elective credits

Grade	Grade Points	
A	4.00	
A-	3.67	
B+	3.33	
B	3.00	
B-	2.67	
C+	2.33	
C	2.00	
C-	1.67	
D+	1.33	
D	1.00	
D-	0.67	
F	0.00	
FA	0.00	*Failure due to discontinued class attendance*

Other Designations

(These grade designations do not count towards GPA)

- AU Audit
- CR Passing (C or higher) in a credit/no credit course
- NC Failing in a credit/no credit course
- W Withdrawal after the deadline to drop classes
- I Incomplete (see below)
- IP In Progress (see below)
- NR No report from the instructor at the time the grades were processed

FA Grade (Unofficial Withdrawal)

The "FA" grade designation was adopted at Union in response to federal guidelines requiring schools be able to identify students who have quit attending without going through the official withdrawal process (unofficially withdrawing from all of their classes). The "FA" grade designation is not for situations in which students have inconsistent or sporadic attendance. It is also not for situations in which a student has failed a course because of not meeting the attendance requirements of a class - this would result in a grade of "F".

The "FA" grade designation is to be used in situations where a student stops attending by the official withdrawal deadline and does not return. If an "FA" grade is assigned, a last date of attendance will be required. An earned grade (not "FA") designation is to be used in situations where a student stops attending after the official withdrawal deadline and does not return.

Grade Point Average (GPA)

The cumulative grade point average is computed by totaling the grade points of all courses and dividing by the total semester hours of courses for which grades are received. When calculating graduation and honors requirements, GPAs are not rounded up. Thus, a student with a GPA of 1.997 does not meet the graduation requirement of 2.00; likewise, a GPA of 3.749 will not satisfy the requirements for the Dean's List (3.75).

Repeat Courses

When a course taken at Union Adventist University is repeated, the higher grade is used. Both the original and repeat grades are part of the student's permanent record, but only the highest grade and credits earned are computed in the cumulative grade point average and in the total credits earned.

Incomplete

Students may request to receive the designation of incomplete (I) in case of medical or unavoidable circumstances unrelated to the course requirements. By federal regulation, an incomplete is only available if a major portion of the course (51%) has been completed satisfactorily.

A request for an incomplete must be approved by the instructor and program director. It must be submitted before the start of final examination week. The deadline for course completion is no later than the end of the following term (not including the summer term). Failure to meet this contract deadline will result in recording of the original grade as indicated on the request. Forms are available in the Records Office.

In Progress

The designation "In Progress" (IP) is permitted for approved courses whose requirements likely extend beyond the given semester, typically due to length of research, clinical experiences, or internships. The deadline for completion may vary but not exceed two consecutive semesters (not including summer semester).

If the course is not completed within the designated time, a grade based upon completed work will be submitted by the instructor. IP designations must be changed to letter grades prior to the student's graduation. Courses meeting the purpose of the IP designation are recommended by the program involved and approved by the Academic Council.

Changes of Assigned Grades

After a final grade has been recorded, an instructor may request a change in the grade if an error occurred in calculating or recording the grade. Grade changes are not appropriate for assignments turned in beyond the end of the semester.

To dispute a grade, the student should first contact the teacher and follow the appeal procedures outlined in the Student Life and Services section. Grade changes are accepted up to one year after the posting of the original grade.

Academic Amnesty

Academic Amnesty is designed to help maturing students more accurately reflect their newly identified academic potential as they return to university. If a student meets specified criteria, grades of D+, D, D- and F from their first two terms at Union Adventist University may qualify for academic amnesty.

A student may request academic amnesty if:

- at least six regular terms have elapsed between their last enrollment in an institute of higher education and their most recent admission;
- the student has not earned a baccalaureate degree from any institution;
- the student has earned at least 24 credits during the current admission;
- their cumulative GPA for the current admission is at least 2.5; and
- the student has completed fewer than 4 terms during the current admission.

Classes covered by amnesty will still appear on the transcript, identified as "Approved for Academic Amnesty." These classes will not count toward graduation or elective credits, nor will they be included in the cumulative GPA at Union Adventist University . Once academic amnesty has been granted, it will not be rescinded. Other institutions are not required to recognize academic amnesty granted by Union Adventist University. Programs within Union Adventist University may consider all classes on the transcript in making acceptance decisions for their programs.

Dean's List

Students who complete a minimum of 12 hours during the semester are recognized for academic performance in these categories:

Recognition	*GPA Range*
Dean's Distinguished List	3.90 - 4.00
Dean's List	3.75 - 3.89

Students with designations or grades of I, NC, or below C- are not included.

Academic Sanctions

Academic Warning

A student whose cumulative GPA is at or above a 2.00, but whose semester GPA is between 1.67 and 1.99, will receive an Academic Warning letter.

Academic Alert

A student whose cumulative GPA remains at or above 2.00, but whose semester GPA falls below a C- level (1.67), is placed on Academic Alert. This involves limiting the subsequent semester to 15 hours and setting goals for improved performance with Student Success.

Academic Probation

Undergraduate students whose cumulative GPA falls below 2.00 are placed on academic probation and will remain on probation until the cumulative GPA again reaches 2.00. Academic probation is a serious matter, and students on probation will be suspended if a semester's grades fall below a GPA of 2.00.

To strengthen their scholastic performance, students on academic probation must work with a Life Coach in Student Success. This program assists students in creating a personalized contract for improving academic performance. Students on Academic Probation are required to:

- limit their class load to a maximum of 15 hours;
- renegotiate financial agreements in case of loss of financial aid;
- complete a Student Success Contract and Academic Success Plan;
- Enroll in Empower U (CORE 105); and
- Meet with an assigned life coach or accountability partner as necessary.

A student whose cumulative GPA falls below 2.00 or who fails to successfully complete two-thirds of the attempted credits will lose eligibility for federal financial aid, as detailed in the Satisfactory Academic Progress paragraphs of the Financial Aid section.

Academic Suspension

A student on academic probation for consecutive semesters will be suspended from the university if the following semester GPA falls below 2.00. A student may also be suspended after a single semester with a current term GPA of less than 1.00, even when the cumulative GPA exceeds the 2.00 minimum required for graduation. Any appeals should be directed to the Vice President for Academic Administration.

A student who appeals and is approved by the Probation and Suspension Committee, will be placed on Academic Probation. Students on Academic Probation are required to:

- limit their class load to a maximum of 15 hours;
- renegotiate financial agreements in case of loss of financial aid;
- complete a Student Success Contract and Academic Success Plan;
- Enroll in Empower U (CORE 105); and
- Meet with an assigned life coach or accountability partner as necessary.

Students who have been suspended for academic reasons may request readmittance to regular academic programs upon completion of a full academic load (12 semester hours) for a term or of college-level study with a B- (2.67) average or above taken at another regionally accredited institution.

Academic Dismissal

A student readmitted to university after suspension who fails to maintain a satisfactory GPA is subject to dismissal, which is final.

Course Cancellation

While every attempt is made to provide classes as scheduled, the university reserves the right to cancel any course as it deems necessary. This may include courses with insufficient enrollment.

Attendance

The Union Adventist University faculty considers regular class attendance vital to learning, and students are expected to attend each class period. Each syllabus provides the policy for the course, which may include an automatic failing grade for absence (for whatever reason) from 20% of the regularly scheduled class periods. Individual instructors are responsible for determining the degree to which missed classroom activities and assignments can be made up. Absences will be considered excused when students are participating in university-organized activities.

Final Examination Schedule and Exceptions

The semester examination schedule found on the Union Adventist University website indicates the dates and times of final examinations. Requests for exceptions to the schedule must be made to the Vice President of Academic Administration by December 1 (fall semester) or April 15 (spring semester). A rescheduling fee is charged (see Financial Information section).

Prep Days for Finals

Designated “dead days” at the end of each semester provide an opportunity for students to review material and prepare for finals. Though new material may be presented during classes these days, no tests or major assignments are to be due without prior approval from Academic Administration.

Student Mission and Task Force Credits

Students participating in the Student Missions or Task Force programs should make prior arrangements with Campus Ministries. Student Missions should enroll in UCSM 205 in the Spring prior to their departure (UCSM 205 will award 2 elective credits, with CR).

Both Student Missions and Task Force will register for half-time each semester that they participate in the program. Two consecutive semesters will grant 9 credits that do not count towards graduation requirements and 3 credits that do, with CR. Official transcripts will show all credits. Students that only participate for one semester will not receive elective credit.

Generative AI

Union Adventist University recognizes the promise and challenge of generative artificial intelligence (AI), machines and programs that learn from input and are capable of producing text, image, audio, code, and more. Examples include ChatGPT, Copilot, Gemini, Open AI Codex, DALL-E, Runway, etc.[1]

Generative AI is an emerging and swiftly evolving technology. At Union, **we aim to support students' generative AI literacy while maintaining the highest standards of ethical conduct.** Syllabi provide course-specific policies for use or non-use, varying from discipline to discipline and even assignment to assignment. However, students may encounter guidelines such as the following:

- **Use prohibited**—no generative AI may be used in the course. Students are expected to complete all assignments without significant support from others, including AI, except those technologies supplied through formal accommodations from the director of Disability Information and Access.

- **Use only with permission and guidance**—generative AI may be used on assignments only with the professor's expressed permission and guidance, which may include acknowledgement and/or documentation according to the discipline's preferred documentation style (e.g., AP, AMA, APA, CMS, MLA, Turabian, etc.). Without permission, students are expected to complete all assignments without significant support from others, including AI, except those technologies supplied through formal accommodations from the director of Disability Information and Access.

- **Use unrestricted**—generative AI may be freely used on assignments; no permission, guidance, acknowledgement, or documentation is required.

Unauthorized use of generative AI violates the University's Academic Integrity Policy. See that policy for an explanation of violation levels and consequences.

Veteran Education Benefits

Union Adventist University courses meet the standards of the Nebraska Department of Education State Approving Agency for benefits to veterans and other persons eligible under the various GI Bill® programs administered by the U.S. Department of Veterans Affairs (VA). A Certificate of Eligibility (COE) is required to certify students for veteran education benefits. For those who qualify, Yellow Ribbon benefits are available at Union Adventist University.

Enrollment in 12 or more credit hours is considered full-time training. It is the student's responsibility to report any changes in enrollment to the School Certifying Officer (SCO). The university is also required to promptly report any changes in enrollment data affecting payment by the VA, such as students who are placed on academic suspension.

[1] Note that the names of software and platforms may change with time. Those listed above are merely examples. The policy applies to all forms of generative AI.

More information can be found at va.gov/education/gi-bill-comparison-tool/. For questions regarding veteran status and registration, please contact the Records office.

Integrity of Scholarship

Union Adventist University adheres to high academic and ethical standards. Inspired by the values of both the Christian and the scholar, its faculty, staff, and students commit to exhibiting integrity and truth in all academic endeavors. Thus, scholarly endeavors carry the broad expectation that they have been accomplished with honesty, whether by professors in research and developing coursework or by students preparing assignments and taking examinations.

Among other examples, dishonest conduct by students includes cheating on examinations and the submission of assignments that violate expected standards of integrity. Unauthorized multiple submissions, excessive revision by someone else, unauthorized collaboration, forged signatures, plagiarism, unauthorized copying and pasting from sources including those gathered from artificial intelligence bots (AI), misused copyrighted material, and the fabrication or unauthorized use of data all constitute violations of academic integrity. In addition to honesty in creating their own work, students should refrain from suspicious behavior themselves and deny others the opportunity to use their work in an unethical manner. Similarly, Union Adventist University expects professors to exhibit trustworthiness in their work, both in and out of the classroom, and to commit to working in redemptive ways with students regarding academic honesty.

Academic integrity violations range from incidental to significant to egregious. Descriptions of each level of violation, the processes, and corresponding consequences are explained in the Academic Policy and Procedures.

The consequences of violating integrity can range from remediation to receipt of a failing grade for an assignment to dismissal from the course and even expulsion from the university.

A student who feels unjustly charged with misconduct after following the appropriate process should appeal to the Vice President for Academic Administration, and if still unsatisfied, then to the President. Reports of academic integrity violations and their consequences are maintained by the Academic Integrity Committee Chair and serious violations may be noted in a student's permanent academic record (i.e., official transcript) as explained in the Academic Integrity Policy and Procedures on the website (uau.edu/integrity).

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act of 1974 provides for specific rights to students regarding the privacy of student educational records, including the right that records will only be shared with those employees who have a legitimate educational need.

The act explicitly permits colleges to disclose directory information without student consent. However, an individual student has the right to withhold disclosure of this information by notifying the Director of Records in writing.

Union Adventist University designates the following as directory information:

- name

- student ID
- home address
- hometown
- local address
- email address
- home telephone number
- local telephone number
- birthday (month and day)
- class level and major
- dates of attendance at Union Adventist University
- degrees and awards received at Union Adventist University
- academic recognition
- photograph
- institutions attended prior to admission to Union Adventist University
- participation in recognized activities and sports at Union Adventist University

Union Adventist University will not disclose the contents of students' educational records to other parties without student consent except under circumstances allowed by the Family Educational Rights and Privacy Act (FERPA). Educational records kept by any office of the university and directly related to a student are available for review by that student. A written request that identifies the record(s) a student wishes to inspect should be submitted to the director of Records or another appropriate official. Students have the right to seek amendment of his/her own education records that the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Students have the right to file a complaint with the U.S. Department of Education.

Assessment

Student learning is the central academic focus of the Union Adventist University mission. Assessment of that learning is vital to strategic planning and to maintaining an environment where students achieve the goals of their disciplines and value life-long learning.

The goal of the assessment program at Union Adventist University is to enhance the learning experience, to constantly improve the learning environment, and to ensure that resources for learning are adequate.

Assessment occurs in three areas:

- **Course Assessment:** Professors assess their courses based on established program goals and objectives formalized as student learning outcomes;
- **Program Assessment:** Each academic program conducts an annual review of program learning outcomes and their assessment. The review process assists each program in determining and implementing evidence-based changes; and
- **Program Review:** Each academic program is reviewed and compared with external programs to ensure relevancy and currency. Each program is reviewed once every ten years with a five-year mid-cycle review.

Student Right to Know Act Graduation Rate

In accordance with the Student Right to Know Act, Union Adventist University annually releases its graduation rate. For the 2020 Cohort, the four-year average student-right-to-know graduation rate was 27%.

Transcripts

Requests for transcripts must be made online through Parchment, uau.edu/records-office/transcript-request. Students who utilize Title IV funding while attending Union will receive their official transcript, regardless of unpaid balances. Students who do not utilize Title IV funding while at Union will have their official transcripts withheld until the student balance is paid in full. This policy is retroactive. The Financial Information section lists the current transcript fees to be paid at the time of the request.

Changes to Current Bulletin

Subject to advice by the Faculty Senate, Academic Council may modify, delete or add to the current bulletin. Changes are effective prior to the publication of a new bulletin when officially announced. Both these changes and the bulletin itself are available on uau.edu/academics/academic-bulletin.

Graduation Requirements for Bachelor's and Associate Degrees

Contact Information

Ysabella Dieguez, Registrar, Director of Records
Everett Dick Administration Building, Room 507B
402.486.2529
records@uau.edu

The responsibility of meeting requirements for graduation rests primarily upon the student. Students should acquaint themselves with the various requirements in the bulletin and plan their university courses accordingly.

Bulletin for Graduation

Students maintaining continuous residence may meet the requirements in any bulletin published during that time of residence. Bulletin selection should be made with input from the student's advisor and approval from the Records Office. Students discontinuing residence longer than two consecutive semesters generally must meet the requirements in a bulletin valid after they return. Exceptions submitted as petitions may be granted by the registrar on a case-by-case basis weighing what is in the best interest of both the student and the institution.

Bachelor's Degree Requirements

For students graduating under this bulletin, bachelor's degrees are conferred upon students who have:

- successfully completed at least 124 semester hours, with at least 36 hours at the 300-level or above;
- if a minor is taken, a minimum of 3 hours must be at or above the 300-level;
- fulfilled the specific requirements of a major, emphasis, and/or minor as described in this bulletin (General studies, Post-baccalaureate professional programs, and personalized programs may present more individualized requirements);
- earned a minimum of C (2.00) for all courses specifically satisfying requirements for the major, minor, or emphasis;
- achieved a minimum cumulative grade point average of 2.00 or higher as required by the individual major;
- completed the general education program appropriate to the degree;
- met the residency requirements, including those for the major and any minors;
- participated in the assessment program as requested;
- applied for graduation three semesters before intended completion date;
- provided official transcripts from all other institutions attended; and
- completed courses designated I or IP.

Associate Degree Requirements

For students graduating under this bulletin, associate degrees are conferred upon students who have:

- successfully completed at least 62 semester hours;
- fulfilled the specific requirements of a major and/or emphasis as described in this bulletin;
- earned a minimum of C (2.00) for all courses in the discipline of the degree forming part of the major and/or emphasis;
- achieved a minimum cumulative grade point average of 2.00;
- completed the general education program appropriate to the degree;
- met the residency requirement;
- participated in the assessment program as requested;
- applied for graduation three semesters before the intended completion date;
- provided official transcripts from all other institutions attended; and
- completed courses designated I or IP.

Commencement

Commencement exercises are held annually in May and December, although degrees are conferred in May, August and December. Prospective May and August graduates are encouraged to participate in the graduation exercises in May and December graduates are encouraged to participate in graduation exercises in December.

The deadline for undergraduates to apply to be included in the May Commencement Program is the last Friday in March. The deadline for undergraduates to apply to be included in the December Commencement Program is the last Friday in October.

The Commencement Program is not an official document and is printed prior to spring and fall final grades and other requirements being received. The Commencement Program lists actual December graduates and prospective May and August graduates.

Prospective August Graduates Commencement Participation

Students planning to complete requirements during the following summer may apply prior to the last Friday in March to participate in the May graduation ceremonies as prospective August graduates if the remaining requirements are limited to:

- an internship;
- practicum; and/or
- ten semester hours of coursework

Students must present documented evidence that they can complete the remaining requirements before the August graduation date.

Unmet Graduation Requirements

Students who participate in any commencement ceremony, but do not complete graduation requirements by the end of the following semester, will have a $200, non-refundable charge placed on their student account.

Academic Recognition at Graduation

Students graduating from Union Adventist University are awarded bachelor and associate degrees with the following designations appropriate to the minimum cumulative grade point average earned for classes completed prior to the start of the final fall or spring semester. Rounding is not used when calculating graduation honors.

	GPA
Summa Cum Laude	3.90
Magna Cum Laude	3.75
Cum Laude	3.50

Residency Requirements[2]

For a baccalaureate degree, 30 of the final 36 hours, or at least 100 semester hours, must be taken in residence. A minimum of 12 upper division hours in the major must be taken in residence. A minimum of 56 semester hours must be completed at a four-year college or university.

For a minor, at least three semester hours numbered at the 300-level or above must be taken in residence.

For an associate degree, 24 of the final 30 hours, or at least 50 semester hours, must be taken in residence.

Second Degrees

Graduates who have earned a bachelor's degree from a regionally accredited institution may earn baccalaureate degrees from Union Adventist University by fulfilling all requirements for the major, emphasis, and/or minor, and successfully completing a minimum of 30 hours in residence with a cumulative GPA of 2.00 (or higher if stipulated by the major).

Graduates who have earned a bachelor's degree from a regionally accredited institution will have the general education requirements waived, except for courses required by their major. If the second-degree major requirements do not contain a religion course, students must take RELT 110, RELT 141 or RELT 210. Students with an international bachelor's degree must meet the Union Adventist University general education requirements.

Students who graduate with an associate degree from a regionally accredited institution may earn an additional associate degree from Union Adventist University by fulfilling all requirements for the major and/or emphasis, including its specific general education requirements, and successfully completing a minimum of 24 hours in residence with a cumulative GPA of 2.00 (or higher if stipulated by the major). Students with an international associate degree must meet the Union Adventist University general education requirements. If the second-degree major requirements do not contain a religion course, students must take one religion course (Recommended: RELB 255, RELT 110, or RELT 210).

Diplomas for Multiple Majors or Degrees

Students earning the same degree, with multiple majors *(ex. BS and a BS)* will receive one diploma (both majors will be listed on the diploma). Students earning different degrees *(ex. AS and a BS or BA and a BS)* will receive two diplomas (one for each different degree awarded).

---

[2] *Residency requirements for some degrees may be more prescriptive.*

Academic Minors

Completion of an academic minor is required only if specified by a major or emphasis. Minors may be selected from the minors outlined in this bulletin. A minimum grade of C (2.00) is required for all minor courses, and at least three semester hours must be at 300-level or above and must be taken in residence. Minors may only be taken with a baccalaureate degree. A minor may not be taken with an associates degree.

Completion of a minor is not completion of a degree; therefore, a minor is not recognized without completion of a bachelor's degree. Academic minors are not listed on the diploma, but are listed on official transcripts.

Academic Petitions

An Academic Petition is for students who would like to request a policy exception, course substitution or degree requirement waive.

A student and/or advisor may submit an Academic Petition to the Records Office. Some examples of when an Academic Petition may be appropriate include:

- Course substitutions for General Education, major, emphasis, or minor
- Exception to waive or modify department or university policies
- Exception to waive course requirements for general education, major, minor or emphasis- *this is typically done if the student is able to show course content knowledge through such means as professional development, certifications, and/or coursework not deemed transferable by the institution*

Academic Petitions must be submitted to the Records Office at least one semester before the student's anticipated graduation date. Academic Petitions submitted later than one semester prior to graduation are not guaranteed to be reviewed in time, which may result in delayed graduation.

Submitting an Academic Petition does not guarantee approval. All petitions are reviewed and approved on a case-by-case basis.

General Education

Like most colleges and universities in the United States, Union Adventist University expects its general education and campus life programs to strengthen students' abilities to think, reason, and communicate effectively, to understand essential elements of the natural world and human society, and to engage the fine arts. These academic elements are reflected in the educational goals listed below.

Unlike most colleges and universities, Union possesses a strong commitment to ensuring that students develop values and skills essential for living, both in this world and as preparation for the life eternal promised by Scripture. Our students develop their knowledge, understanding, and abilities within a culture that exemplifies and communicates the great importance of integrity, participation in community, and the application of common sense in solving life's challenges. Our educational mission extends to assisting students to discern their individual callings, to live healthfully, to prepare for leadership, and to interact with others as thoughtful citizens.

With these objectives in mind, the general education program adopted in 2016 incorporates contemporary topics, thought-provoking courses that demonstrate the role of religion in addressing world problems, higher-level communication skills, and reduced total hours. It offers students greater choices and broader opportunities for learning.

Union Adventist University Educational Goals

- **Spirituality:** Union Adventist University inspires spiritually-engaged students who know and love God and, as a result, care for others as well as themselves.
- **Learning:** Union Adventist University provides students with the knowledge, experience, and wisdom to be learners now and for a lifetime.
- **Service:** Union Adventist University equips students to live life as Jesus did, a life of service for humanity.
- **Leadership:** Union Adventist University prepares students to lead as members of their families, churches, workplaces, and communities.
- **Highly Sought Graduates:** Union Adventist University cultivates students whose reputation for excellence attracts the attention of employers.

Union Adventist University students develop their knowledge, understanding, and abilities within a community whose culture exemplifies and communicates the great importance it places on integrity, participation in community, and the application of common sense in solving life's challenges.

General Education Outcomes

- Students will demonstrate critical thinking through examination of ideas and evidence before formulating an opinion or conclusion.
- Students will be encouraged to experience practices which promote physiological, psychological, and social well-being.
- Students will demonstrate an understanding and appreciation of cultures, faiths, and values different from their own.

- Students will demonstrate the ability to reason and develop evidence-based decisions using numerical information.
- Students will apply ethical principles to completing academic work.
- Students will communicate effectively orally and in writing to various audiences.
- Students will be encouraged to experience Biblical principles within daily life through a personal relationship with Jesus Christ.

General Education Requirements (4-Year)

Union Adventist University students seeking Baccalaureate degrees complete the following general education requirements to meet the total 124 credit hours (36 upper division credits). Major or minor courses may also be used as general education requirements. It is recommended that general education courses consist of a minimum of 41 credits (of the 124 total credits). Transfer courses may be accepted for each general education category in consultation with faculty and at the discretion of the registrar. Students transferring the majority or all of their general education classes should note the residency policies, including 100 total credits at Union (or 30 out of the last 36) and at least 56 credits taken at a 4-yr college.

The general education requirements are distributed as follows:

1. Following Christ	
A. RELB 115 Encountering Jesus as Savior (3) or RELT 110 Introduction to Christian Faith and Adventism (3) or RELT 141 Christian Beliefs (3) or RELG 149 Dynamics of Christian Living (3)	1 course
B. RELB (Biblical Studies) Other than category A	1 course
C. REL (Religion elective) Other than category A	1 course
2. Thinking Deeply as a Christian	
A. Any REL 300-400 course other than RELP courses	1 course

Students transferring from institutions other than Seventh-day Adventist colleges take religion courses at Union Adventist University based on their class standing.

- **Sophomores** take 1 course from category 1A, 1 course from category 1B, and 1 course from category 1C.
- **Juniors** take 1 course from category 1A and 1 course from either category 1B or RELT 210, RELT 305, RELT 306, or RELT 347.
- **Seniors** take 1 course from category 1A.

Students coming to Union Adventist University as First Time Freshman with dual credit courses, take religion courses at Union based on the credits earned:

- 24-55 credits: take 1 course from category 1A , 1 course from category 1B, and 1 course from either category 1C or category 2A.

- 56-91 credits: take 1 course from category 1A and 1 course from either category 1B or 1C.
- 92 or more credits: take 1 course from category 1A.

3. Thinking Analytically	
A. A college-level science course (e.g. BIOL, CHEM, PHYS, SCNC 111) with a lab or BIOL 106 Human Biology (3) or BIOL 109 Humanity and Our Environment (3) or BIOL 110 Genes and Society (3) or SCNC 377 Origins (3)	1 course
B. MATH 111 College Algebra (3) or above or CPTR 226 Introduction to Programming (3)	1 course
4. Communicating Effectively	
A. COMM 105 Public Speaking (2) or COMM 205 Introduction to Interpersonal Communication (2) or LEAD 530 Interpersonal Communication (3)	1 course
B. ENGL 110 Writing for General Audiences (3)	1 course
C. ENGL 212 Writing for Scholarly Audiences (3)	1 course
5. Engaging Globally	
A. ECON, GEOG, HIST, LEAD, PLSC, PSYC, or SOCI	1 course
B. An additional course chosen from category 5A (*must be from a different discipline*) or ENGL 375 Screen Studies (3) or FNCE 215 Personal Finance (3) or INRR 301 Public Health in Emergencies (3) or NURS 440 Population Health (4.5) (*Nursing majors only*)	1 course
6. Living with Purpose and Wonder	
A. Any LITR or PHIL (3)	1 course
B. ART, HMNT 305, MUHL, MUTH, or PHOT (1 course) or MUPF *(ensembles)* (2 courses) or MUPF 101-130 *(lessons)* (4 courses)	1-4 courses
C. BKNA 155 Concepts of Wellness (2) or INRR 451 Global Health (3) *(IRR majors only)* or NURS 305 Health Assessment (3) *(Nursing majors only)*	1 course
D. BKNA (physical activity elective) (1) or INRR 110, 112, 114, and 116 *(IRR majors only)*	1 course

7. College Success	
A. CORE 100 College Success (1) *(Required only for freshmen and transfer students with less than 24 hours)*	1 course

8. Foreign Language *(Required for BA degree only)*	
A. Beginning foreign language in a year-long sequence (____101, ____102) *CLEP credit accepted with a minimum score of 50.*	2 courses

Transfer of Courses for General Education

Transfer students who meet all the general education requirements at a regionally accredited Seventh-day Adventist college thus satisfy Union Adventist University requirements.

Union Adventist University participates in the Nebraska Transfer Initiative. Students transferring from a participating institution should contact the Records office for more information on how their credits meet general education requirements at Union.

General Education Requirements (2-Year)

It is recommended that general education courses consist of a minimum of 21 credits (of the 62 total credits) required for an Associate degree.

1. Following Christ	
A. RELB 115 Encountering Jesus as Savior (3) or RELT 110 Introduction to Christian Faith and Adventism (3) or RELT 141 Christian Beliefs (3) or RELG 149 Dynamics of Christian Living (3)	1 course
B. RELB (Biblical Studies) other than category A or RELT 210 Spirituality and Health Care (3) or RELT 305 Christian Ethics (3) or RELT 306 Biomedical Ethics (3)	1 course

Students transferring from institutions other than Seventh-day Adventist Colleges with twelve or more credits take one religion course (Recommended: RELB 255, RELT 210, RELT 141, or RELT 110).

2. Thinking Analytically	
A. MATH 111 College Algebra (3) or above	1 course

3. Communicating Effectively

A. ENGL 110 Writing for General Audiences (3)	1 course
B. ENGL 212 Writing for Scholarly Audiences (3) or COMM 105 Public Speaking (2) or COMM 205 Introduction to Interpersonal Communication (2)	1 course
4. Engaging Globally	
A. ECON, GEOG, HIST, LEAD, PLSC, PSYC, or SOCI	1 course
5. Living with Purpose and Wonder	
Choose from at least two categories below:	
A. Any LITR or PHIL	1 course
B. ART, HMNT 305, MUHL, MUTH, or PHOT (1 course) or MUPF (ensembles) (2 courses) or MUPF 101-130 (lessons)(4 courses)	1-4 courses
C. BKNA or OTAC 225 The OT Process for Community-Based Practice *(OTA majors only)* or INRR 110, 112, 114 and 116 (*IRR majors only*)	1 course
6. College Success	
A. CORE 100 College Success (1) (*Required only for freshmen and transfer students with less than 24 hours*)	1 course

Honors Program

Mission

The Honors program seeks to develop the thinking, knowledge, understanding, and wonder of curious and motivated students as they integrate spiritual values with academic excellence. The program takes the categories of the General Education requirements and expects students in the program to complete courses that will prepare them for a lifetime of Christ-like leadership and service, learning, and success in their personal and professional lives.

Outcomes

- Students will be involved in exploring excellence in being a follower of Jesus and integrating His calling in their lives (Spirituality).
- Students will be provided with the highest possible levels of knowledge, experience, and wisdom to be learners now and for a lifetime (Learning).
- Students will be equipped with a high level of skill in service to humanity (Service).
- Students will be provided with the best knowledge and skills in leadership to prepare them to lead in their families, churches, workplaces, and communities (Leadership).
- Altogether, this knowledge and these skills will gain a reputation for excellence for students and attract the attention of employers and other groups of interest (Highly Sought Graduates).

Contact Information

Shawntae Razo, Program Director of Biokinesiology and the Honors Program, Academic Dean
Krueger Center, Room 225
402.486.2600 ext. 2166
shawntae.razo@uau.edu

Requirements

The program requires students entering and graduating from the program to have a cumulative GPA of 3.5 or above. Honors program students with a cumulative GPA below 3.5 prior to the start of their final semester will be automatically exited from the program. If a student is exited from the program, the Honors program course requirements may be substituted for the General Education course requirements. The program only applies to Baccalaureate degrees. The Honors program does not require a study tour, but provides a scholarship toward a study tour. The scholarship is available for students who choose official Union Adventist University-sponsored study trips abroad including courses offered by Adventist Colleges Abroad and Student Mission experiences. The scholarship will be awarded after the Honors student has registered for their final semester and met GPA and course requirements, regardless of when the study tour is taken. Honors program graduates also receive a special designation on their transcript, a cord to wear with their graduation regalia, and recognition in the graduation program.

Second-semester freshman students in the program will be allowed to take 300 level courses, and sophomore students will be allowed to take 400 level courses.

1. Following Christ	
A. RELB 115 Encountering Jesus as Savior (3) or RELT 110 Introduction to Christian Faith and Adventism (3) or RELT 141 Christian Beliefs (3) or RELG 149 Dynamics of Christian Living (3)	1 course
B. Any 200 or 300 level RELB course	1 course
C. RELT 305 Christian Ethics (3) or RELT 306 Biomedical Ethics (3)	1 course
2. Thinking Deeply as a Christian	
A. Any 300-400 level REL* course other than RELP courses. or RELT 210 Spirituality and Health Care (3)	1 course

Students transferring from institutions other than Seventh-day Adventist colleges take religion courses at Union Adventist University based on class standing as

- **Sophomores** take 1 course from category 1A, 1 course from category 1B and 1 course from category 1C.
- **Juniors** take 1 course from category 1A and 1 course from category 1C .
- **Seniors** take 1 course from category 1A.

Students coming to Union Adventist University as First Time Freshman with dual credit courses take religion courses at Union based on the credits earned

- 24-55 credits: take 1 course from category 1A , 1 course from category 1B, and 1 course from either category 1C or category 2A.
- 56-91 credits: take 1 course from category 1A and 1 course from category 1C.
- 92 or more credits: take 1 course from category 1A.

3. Thinking Analytically	
A. A college-level science course (e.g. BIOL, CHEM, PHYS, SCNC) with a lab or BIOL 109 Humanity and our Environment* (3) or BIOL 393 Humanity and our Environment* (3)	1 course
B. MATH 221 Elementary Statistics and Probability (3) or MATH 119 Trigonometry (3) or MATH 184 Calculus I (4)	1 course
4. Communicating Effectively	
A. COMM 355 Advanced Speech and Oral Interpretation (3) or COMM 465 Interpersonal Communication (3) or LEAD 530 Interpersonal Communication (3)	1 course
B. ENGL 110 Writing for General Audiences (3)	1 course
C. ENGL 212 Writing for Scholarly Audiences (3)	1 course

5. Engaging Globally

A. ECON 236 Principles of Macroeconomics (3) or HIST 157 The Modern World (3) or HIST 220 The Ancient World (3) or any 300–400 level world HIST* course or PLSC 330 Modern Comparative Government (3)	1 course
B. COMM 425 Intercultural Communication (3) or ENGL 271 World Englishes (3) or ENGL 375 Screen Studies (3) or INRR 430 Expedition Leadership* (3) or NURS 391 Global Health Nursing* (2) (*Nursing majors only)*	1 course

6. Living with Purpose and Wonder

A. PHIL (3) or LITR 240 or 440 Travel Literature* (3) or any 300–400 level LITR course (3) or WRIT 290 Writers on Writing (3)	1 course
B. MUHL or MUTH (1 course) or ART 321 Art History I (3) or ART 322 Art History II (3) or HMNT 305 Arts and Ideas (2) or PHOT 250 or 450 Travel Photography* (3)	1 course
C. BKNA 155 Concepts of Wellness (2) or NURS 305 Health Assessment (3) (*Nursing majors only*) or INRR 451 Global Health (3) (*IRR majors only*)	1 course
D. BKNA (physical activity elective) (1) or INRR 110, 112, 114, and 116 (*IRR majors only*)	1 course

7. Faith-Informed Inquiry

A. BIOL/CHEM 496 Research Methods: Independent Research (1) or HIST 497 History: Theory and Argument (3) or PSYC 476 Senior Research Project (2)	1 course

8. College Success

A. CORE 100 College Success (1)
(Required only for freshman and transfer students less than 24 hours)

9. Foreign Language (Required for BA degrees only)

A. Beginning foreign language in a year-long sequence (____101, ____102) *CLEP credit accepted with a minimum score of 50.*	2 courses

***Examples of study tour courses that meet the below Honors program requirements.**
BIOL 109 or BIOL 393 Humanity and our Environment meets requirement 3A
HIST 325 Tolkien, Fantasy, and the Middle Ages meets requirements 5A
INRR 430 Expedition Leadership meets requirement 6B
LITR 240 or LITR 440 Travel Literature meets requirement 6A
NURS 391 Global Health Nursing meets requirement 6B
PHOT 250 or PHOT 450 Travel Photography meets requirement 6B
RELG 346 Monks, Martyrs, and Reformation meets requirement 2A

Art and Graphic Design

Mission

The mission of the Art and Design program is to prepare students to appreciate and produce art within a Christian perspective, to excel in visual communication, and to become capable and creative artists and designers.

Outcomes

Students graduating from the art and design program will be prepared to:

- understand their place within a historical perspective of the visual arts;
- perceive formal relationships in works of art and design, interpret meanings and symbols, judge significance of work, and value the role of the visual arts within society;
- design in a broad spectrum of styles and media;
- employ a refined design process to think critically and solve complex creative problems;
- articulate their creative decisions to team members and clients; and
- demonstrate professionalism and a thorough knowledge of the field.

Biokinesiology

Mission

The Biokinesiology Program equips students for successful entry into health, fitness, and wellness careers and graduate programs through preparing them to develop and lead others to a healthy Christian lifestyle.

Outcomes

- Graduates will develop a foundation of human movement, physiology, and fitness and wellness concepts.
- Graduates will understand the need for lifelong physical activity and how it benefits them by being provided with opportunities to experience:
    - a balanced Christian lifestyle through lifetime physical activities;
    - a progressive exercise program.
- Graduates will be able to practice leadership, teamwork, and Christian service within fitness and wellness environments by:
    - understanding the structure, rules, and participant roles for various sports;
    - participating in internships, and practicums within various organizations; and
    - creating, conducting, and successfully completing behavior modification programs.
- Graduates will acquire the knowledge and application of professionalism, ethical behavior and personal responsibility to maintain ethical standards specific to their role within their chosen profession.

Biomedical Science

Mission

Founded upon a firm belief in the Creator and guided by a Seventh-day Adventist Christian worldview, the Biomedical Sciences Program prepares students for learning, service and leadership in health-related graduate and professional programs, biomedical and biological research, and the biomedical and biotechnology industries.

Outcomes

Students graduating with a bachelor's degree in Biomedical Science will be prepared to demonstrate

- Knowledge of career options and characteristics of competitive applications in order to pursue professional or graduate studies in the biological and biomedical sciences and relevant health care fields;
- Knowledge of past contributions and awareness of current progress in the biological and biomedical sciences;
- The ability to apply knowledge acquired from the study of biological and biomedical sciences to critical thinking and problem-solving;
- The ability to independently synthesize and clearly communicate concepts and data in the biological and biomedical sciences;
- The ability to use knowledge acquired from the study of biological and biomedical sciences; engagement in professional development; and reflection on their identity in Christ in ethical decision making, service to others, and stewardship

Biomedical Science, Minor

Essential Qualities of a Pre-professional Student

In selecting students for clinical programs, admissions committees at other institutions look for evidence of intellectual vigor and aptitude in science as demonstrated by maintaining a high GPA and achieving high standardized test scores (MCAT, PCAT, DAT, GRE). The student will also demonstrate integrity, self-discipline, manual dexterity, and good health. A sensitive concern for the sick and a capacity for unusual devotion and personal effort are also essential.

Students interested in entering a professional school should acquaint themselves with the particular requirements of that school and should pattern their pre-professional courses to be taken at Union Adventist University in harmony with such requirements. Electives required under each emphasis should be selected with academic advisors to meet professional/graduate school prerequisites. Advisors in the Biomedical Science program will help plan a program of study.

Supporting Area (12 hours)

In addition to the core and required courses for each emphasis, students should select a minor, second major or an individualized set of coursework that either complements the professional program of choice or broadens the student's skill set in a meaningful way. A minimum of 12 hours is required. Minors/second majors in the Chemistry or Biomedical programs are not eligible to meet this requirement. If an individualized sequence of courses is used to fulfill this requirement the selected courses must be approved by the student's academic advisor and the Program Director for Biomedical Science and Chemistry. For individualized sets of supporting coursework, no courses can overlap between the biomedical major requirements and the individualized supporting area. This limit on overlapping courses does not apply to established minors/second majors offered by the university. **Note: All emphases except the Advanced Pre-Physician Assistant emphasis and Advanced Pre-Public Health emphases require 12-credit hour supporting coursework.**

BIOMEDICAL SCIENCE, BS

This degree consists of a sequence of the most essential courses to prepare the student for health-related professional programs or graduate programs. Many of these courses are entrance requirements for professional programs. Recommended entrance requirements for this major:

High School GPA 3.5, ACT 27 or SAT 1810 (old SAT 2400 scale) or SAT 1290 (new SAT 1600 scale). Students may not double major in biomedical science and chemistry with a biochemistry emphasis. Students can choose one of the following emphases as listed below.

BIOMEDICAL SCIENCE, BS - Advanced Pre-Physician Assistant Emphasis

The Advanced Pre-Physician Assistant emphasis prepares the student for early acceptance into the Union Adventist University Physician Assistant Program. This emphasis in the Biomedical Science major combines courses at the undergraduate and graduate levels to enable exceptional, qualified Union Adventist University students to enter the Master of Physician Assistant Studies (MPAS) Program after three years of undergraduate study. These students receive a Bachelor of Science in Biomedical Sciences after successfully completing the first year of the PA Program and a Master of Physician Assistant Studies upon successful completion of the full MPAS curriculum. **This emphasis in the Biomedical Science degree does not require students to have a 12-credit hour supporting area.**

Outcomes

Students will be able to:

- Demonstrate knowledge of career options and characteristics of competitive applications in order to pursue professional or graduate studies in the biological and biomedical sciences and relevant health care fields;
- Demonstrate knowledge of past contributions and awareness of current progress in the biological and biomedical sciences;
- Demonstrate the ability to apply knowledge acquired from the study of biological and biomedical sciences to critical thinking and problem-solving;
- Demonstrate the ability to independently synthesize and clearly communicate concepts and data in the biological and biomedical sciences;
- Demonstrate the ability to use knowledge acquired from the study of biological and biomedical sciences, engagement in professional development, and reflection on their identity in Christ in ethical decision making, service to others, and stewardship;
- Gain a solid foundation of the basic sciences in preparation for application to clinical practice;
- Demonstrate understanding of the PA Profession, including legal requirements and ethical issues pertaining to professional medical practice; and
- Demonstrate proficiency in obtaining a medical history and performing a physical examination.

Admission, Progression, and Graduation Requirements

Undergraduate students may declare an Advanced Pre-Physician Assistant emphasis either as a traditional or as a transfer student. Undergraduate students will be advised by the undergraduate pre-PA advisor. During the first semester of their junior year, as long as requirements are met and maintained, students are eligible to apply to the Union Adventist University PA program. Upon admission to the PA program, accepted applicants will be assigned an academic advisor within the PA Program.

Progression in the Advanced Pre-Physician Assistant emphasis:

Students must continually meet the following criteria to remain in the Advanced Pre-Physician Assistant emphasis. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the PA Program. These criteria will first be assessed following the student's second term at Union:

- Maintain GPAs (cumulative and science) of 3.50 or above (on a 4.00 scale);
- Receive a "B" or higher in all science courses;
- Complete the following courses by the conclusion of the fall semester of junior year: General Chemistry I, General Chemistry II, Organic Chemistry I, General Biology I, General Biology II, and Advanced Human Physiology;
- Complete 101 semester hours before entering the graduate course sequence, including 30 of the last 36 semester hours in residence at Union Adventist University;
- Complete 240 hours of direct patient care by the time of application (with plans in place to complete an additional 240 hours before matriculation into the MPAS Program);
- Meet all admission requirements for the MPAS Program, including all undergraduate general education, major, and prerequisite requirements—except completion of a baccalaureate degree—before beginning the graduate curriculum; and
- Be accepted into the MPAS Program (students who have been denied may reapply only after completion of a baccalaureate degree).

Once admitted to the PA Program, a student in the didactic portion of the curriculum will be placed on suspension if 1) any final PHAS course grade is a C- or below, 2) up to two semesters of unresolved academic or non-academic probation exist, per PA Program policies, 3) a cumulative GPA less than 3.00 at the end of the didactic phase, or 4) Students who fail to achieve at least a 3.00 GPA at the time of graduation; per PA Program Policies.

If a student is suspended in the first semester of the PA Program and leaves the program, the student may be able to complete their 4-year degree in the biomedical science program provided that they finish any courses and requirements that are outstanding for that degree.

If a student is suspended in the second semester of the PA Program and leaves the program, that student may be eligible to receive a degree in the biomedical science major provided that all courses and requirements needed for the biomedical science degree are successfully petitioned by the day after midterm grads are posted.

Successful completion of the first year of the PA Program under the advanced pre-physician assistant emphasis entitles the student to be awarded a Bachelor of Science in Biomedical Science degree with an Advanced Pre-Physician Assistant emphasis.

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
PSYC 215	Developmental Psychology	3
Select a minimum of 6 hours from 200-400 level BIOL electives		6
Recommended courses include:		
BIOL 321	*Genetics (4)*	
BIOL 403	*Molecular Biology (4)*	
BIOL 404	*Cell Biology (4)*	
BIOL 446	*Biochemistry II (3)*	
BIOL 455	*Immunology (3)*	
BIOL 476	*Medical Ecology & Epidemiology (3)*	
Graduate Level Core		
PHAS 511	Human Anatomy	5
PHAS 514	Medical History and Physical Examination Skills	4
PHAS 518	Psychiatry and Behavioral Medicine	4
PHAS 525	PA Professional Issues	2
PHAS 533	Preventive Health	1
PHAS 539	Christian Health Care and Bioethics[3]	3
PHAS 558	Medical Physiology	5
PHAS 559	Clinical Pathophysiology	4
PHAS 562	Medical Genetics	1

[3] *Meets undergraduate general education requirement for one religion elective*

PHAS 584	Pharmacology	5

Additional Requirement
American Heart Association HeartCode BLS CPR certification[4]

ADVANCED PRE-PUBLIC HEALTH TRACKS

The Advanced Pre-Public Health tracks prepare students for early acceptance into the Union Adventist University Public Health Program. These tracks combine courses at the undergraduate and graduate levels to enable exceptional, qualified Union Adventist University students to enter the Master of Public Health Program after three years of undergraduate study. These students receive a Bachelor of Science in Biomedical Science after successfully completing the first year of the Master of Public Health Program and a Master of Public Health upon successful completion of the full MPH curriculum. **These tracks in the Biomedical Science degree do not require students to have a 12-credit hour supporting area or minor.**

Outcomes

Students will be able to:

- Demonstrate knowledge of career options and characteristics of competitive applications in order to pursue professional or graduate studies in the biological and biomedical sciences and relevant health care fields;
- Demonstrate knowledge of past contributions and awareness of current progress in the biological and biomedical sciences;
- Demonstrate the ability to apply knowledge acquired from the study of biological and biomedical sciences to critical thinking and problem-solving;
- Demonstrate the ability to independently synthesize and clearly communicate concepts and data in the biological and biomedical sciences;
- Demonstrate the ability to use knowledge acquired from the study of biological and biomedical sciences, engagement in professional development, and reflection on their identity in Christ in ethical decision making, service to others, and stewardship;
- Gain a solid foundation of the basic sciences in preparation for application to community and global health; and
- Demonstrate understanding of the Public Health Profession, including individual, social, and environmental factors that impact population health issues.

Christina Burden-Page, Kelly McWilliams, Salvador Moguel, Kenneth Osborn, Carrie Wolfe

Graduate Faculty

Eric Aakko, Victor Cadavid, Dennis Ray

Admission, Progression, and Graduation Requirements

Undergraduate students will be advised by the undergraduate Biomedical Science advisor. During the second semester of their junior year students are eligible to apply to the Union Adventist University Public Health program. To be eligible to apply for the Public Health program students must have earned a minimum overall GPA of 3.0, completed required undergraduate core, emphasis, and general education courses; and be in good academic standing at Union. Upon admission to the Public Health program, accepted applicants will be assigned an academic advisor with the Public Health program.

Progression in the Advanced Pre- Public Health tracks:

Students must continually meet the following criteria to remain in any of the Advanced Pre-Public Health tracks. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the Public Health program:

- Maintain GPAs (cumulative and science) of 3.00 or above (on a 4.00 scale);
- Receive a "B" or higher in all science courses;
- Complete the courses listed below by the conclusion of the fall semester of junior year:
- Complete all their general education requirements by the end of their Junior Year;
- Meet all admission requirements for the MPH program, including all undergraduate general education, major, and prerequisite requirements- except completion of a baccalaureate degree- before beginning the graduate curriculum; and
- Be accepted into the MPH program (students who have been denied may reapply only after completion of a baccalaureate degree).

Once admitted to the MPH Program, a student will be placed on suspension if 1) any two final MPH course grades are a C+ or below, 2) up to two semesters of unresolved academic or non-academic probation exist, or 3) students fail to maintain at least a 3.00 GPA.

Successful completion of the first year of the Public Health program under any of the advanced pre-public health tracks entitles the student to be awarded a Bachelor of Science in Biomedical Science with one of the emphases listed below.

BIOMEDICAL SCIENCE, BS - Advanced Pre-Public Health Emphasis

Required courses (82 hours)

Major Core		
BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1

BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL 321	Genetics	4
BIOL 360	Human Nutrition and Disease	3
BIOL 476	Medical Ecology & Epidemiology	3

Select a minimum of 18 hours from 200-400 level BIOL courses 18

Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151	General Chemistry I	4
or CHEM 104	Introduction to General, Inorganic, and Biochemistry (4)	

Select 12 credits from the following courses 12

PSYC 105	Introduction to Psychology (3)
PSYC 215	Developmental Psychology (3)
PSYC 338	Cognitive Psychology (3)
PSYC 380	Biopsychology (3)
PSYC 415	Abnormal Psychology (3)
SOCI 105	Introduction to Sociology (3)
SOCI 415	Building Resilience through Crisis (3)

Graduate Level Core

MPH 500	Principles of Epidemiology	3
MPH 520	Principles of Biostatistics	3
MPH 530	Foundations of Public Health	3
MPH 535	Public Health Communication Foundations	3
MPH 540	Survey Research Methods	3
MPH 565	Leadership and Team Building for Public Health	3

BIOMEDICAL SCIENCE, BS - Biological Research & Advanced Pre-Public Health Emphasis

Required courses (87-88 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL/CHEM 396	Research Methods: Proposals and Protocols	1
BIOL/CHEM 496	Research Methods: Independent Research	1

Select 21 hours from 200-400 level BIOL electives 21

Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[5]		
PHYS 151, 152	General Physics I and II	4, 4
or PHYS 251, 252	College Physics I and II (4,4)	

Graduate Level Core

MPH 500	Principles of Epidemiology	3
MPH 520	Principles of Biostatistics	3
MPH 530	Foundations of Public Health	3
MPH 540	Research Methods	3
MPH 565	Public Health Leadership	3
MPH 570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE, BS - Pre-Disease Prevention, Genetic Counseling & Advanced Pre-Public Health Emphasis

Required courses (85 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL 321	Genetics	4
BIOL 360	Human Nutrition and Disease	3
BIOL 476	Medical Ecology and Epidemiology	3

[5] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*

Select 21 hours from 200-400 level BIOL electives 21
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151	General Chemistry I	4
or CHEM 104	Introduction to General, Organic, and Biochemistry (4)	

Select 12 credits from the following courses 12

PSYC 105	Introduction to Psychology (3)
PSYC 215	Developmental Psychology (3)
PSYC 338	Cognitive Psychology (3)
PSYC 380	Biopsychology (3)
PSYC 415	Abnormal Psychology (3)
SOCI 105	Introduction to Sociology (3)
SOCI 415	Building Resilience through Crisis (3)

Graduate Level Core

MPH	500	Principles of Epidemiology	3
MPH	520	Principles of Biostatistics	3
MPH	530	Foundations of Public Health	3
MPH	540	Research Methods	3
MPH	565	Public Health Leadership	3
MPH	570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE, BS - Pre-Medical Diagnosis, Care & Advanced Pre-Public Health Emphasis

Required courses (92-93 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL 411	Advanced Human Anatomy	4
BIOL 416	Advanced Human Physiology	4
BIOL/CHEM 440	Biochemistry	4
or BIOL/CHEM 445	Biochemistry I (4)	

Select 12 hours from 200-400 level BIOL electives. 12
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[6]		
PHYS 151, 152	General Physics I and II	4, 4
PSYC 105	Introduction to Psychology	3
or any PSYC course		

Graduate Level Core

MPH 500	Principles of Epidemiology	3
MPH 520	Principles of Biostatistics	3
MPH 530	Foundations of Public Health	3
MPH 540	Research Methods	3
MPH 565	Public Health Leadership	3
MPH 570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE, BS - Pre-Medical Laboratory, Diagnostic & Advanced Pre-Public Health Emphasis

Required courses (85-90 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL 416	Advanced Human Physiology	4
or BIOL 111, 112	Human Anatomy and Physiology I and II (4, 4)	

Select 21 hours from 200-400 level BIOL electives. 21

Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 111	College Algebra	3
or MATH 119	Trigonometry (3)	
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[9]		
PSYC 105	Introduction to Psychology	3

[6] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*

or any PSYC course

Graduate Level Core

MPH	500	Principles of Epidemiology	3
MPH	520	Principles of Biostatistics	3
MPH	530	Foundations of Public Health	3
MPH	540	Research Methods	3
MPH	565	Public Health Leadership	3
MPH	570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE, BS - Pre-Musculoskeletal & Mobility Therapies & Advanced Pre-Public Health Emphasis

Required courses (88-92 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

BIOL 411	Advanced Human Anatomy	4
or BIOL 111, 112	Human Anatomy and Physiology I and II (4,4)	

Select 21 hours from 200-400 level BIOL electives 21

Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 215	Emergency Health Care	1
BKNT 256	Medical Terminology	1
BKNT 370	Personal Training	3
CHEM 151	General Chemistry I	4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[20]		
PHYS 151, 152	General Physics I and II	4, 4
PSYC 215	Developmental Psychology	3
or any PSYC course		

Graduate Level Core

MPH	500	Principles of Epidemiology	3
MPH	520	Principles of Biostatistics	3
MPH	530	Foundations of Public Health	3
MPH	540	Research Methods	3

MPH	565	Public Health Leadership	3
MPH	570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE, BS - Pre-Health & Advanced Pre-Public Health Emphasis

Required courses (80-81 hours)

Major Core

BIOL 200, 202	General Biology I and II	5, 5
BIOL/CHEM 386	Research Methods: Scientific Inquiry	1
BIOM 201	Professional Development I	1
BIOM 302	Professional Development II	1

Major Cognates

MATH 221	Elementary Statistics and Probability	3
or any college-level statistics course		
RELT 306	Biomedical Ethics	3

Emphasis Core

Select 24 hours from 200-400 level BIOL electives. 24

Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211	Organic Chemistry I	4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[7]		
PHYS 151	General Physics I	4
or PHYS 251	College Physics I (4)	

Graduate Level Core

MPH	500	Principles of Epidemiology	3
MPH	520	Principles of Biostatistics	3
MPH	530	Foundations of Public Health	3
MPH	540	Research Methods	3

MPH	570	Social and Behavioral Health	3

BIOMEDICAL SCIENCE CORE & COGNATES

Required courses (19 hours)

Major Core

BIOL 200, 202	**General Biology I and II**	**5, 5**
BIOL/CHEM 386	**Research Methods: Scientific Inquiry**	**1**
BIOM 201	**Professional Development I**	**1**
BIOM 302	**Professional Development II**	**1**

[7] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*

Major Cognates

MATH 221	**Elementary Statistics and Probability**	**3**
or any college-level statistics course		
RELT 306	**Biomedical Ethics**	**3**

BIOMEDICAL SCIENCE, BS - Biological Research Emphasis

This emphasis prepares students to enter graduate programs for the following careers:

- Biology (any field)
- Biomedical Research
- Biotechnology Research
- Environmental Science
- Environmental/Wildlife Conservation
- and much more...

Required courses (81 hours)

Major Core & Cognates **19**

Emphasis Core

BIOL/CHEM 396	Research Methods: Proposals and Protocols	1
BIOL/CHEM 496	Research Methods: Independent Research	1

Select 21 hours from 200-400 level BIOL electives 21
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[8]		
PHYS 151, 152	General Physics I and II	4, 4
or PHYS 251, 252	College Physics I and II (4,4)	

Minor or individualized supporting coursework[9] **12**
Recommended: Foreign Language Studies minor

[8] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*
[9] *See Supporting Coursework under Biomedical Science, BS area*

BIOMEDICAL SCIENCE, BS - Pre-Disease Prevention & Genetic Counseling Emphasis

This emphasis prepares students to enter graduate programs for the following careers:

- Genetic Counseling
- Epidemiology
- Public Health Education
- Community Health
- Global Health
- and more...

Required courses (79 hours)

Major Core & Cognates		**19**
Emphasis Core		
BIOL 321	Genetics	4
BIOL 360	Human Nutrition and Disease	3
BIOL 476	Medical Ecology and Epidemiology	3
Select 21 hours from 200-400 level BIOL electives		21
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.		
Emphasis Cognates		
BKNT 256	Medical Terminology	1
CHEM 151	General Chemistry I	4
or CHEM 104	Introduction to General, Organic, and Biochemistry (4)	
Select 12 credits from the following courses		12
PSYC 105	Introduction to Psychology (3)	
PSYC 215	Developmental Psychology (3)	
PSYC 338	Cognitive Psychology (3)	
PSYC 380	Biopsychology (3)	
PSYC 415	Abnormal Psychology (3)	
SOCI 105	Introduction to Sociology (3)	
SOCI 415	Building Resilience through Crisis (3)	
Minor or individualized supporting coursework[17]		**12**
Recommended: IRR Global Community Development, or Psychology minor		

BIOMEDICAL SCIENCE, BS - Pre-Medical Diagnosis and Care Emphasis

This emphasis prepares students to enter a graduate program for the following careers:

- Dentistry
- Optometry
- Pharmacy
- Medicine
- Veterinary Medicine

Required courses (86-87 hours)

Major Core & Cognates **19**

Emphasis Core

BIOL 411	Advanced Human Anatomy	4
BIOL 416	Advanced Human Physiology	4
BIOL/CHEM 440	Biochemistry	4
or BIOL/CHEM 445	Biochemistry I (4)	

Select 12 hours from 200-400 level BIOL electives. 12
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[10]		
PHYS 151, 152	General Physics I and II	4, 4
PSYC 105	Introduction to Psychology	3
or any PSYC course		

Minor or individualized supporting coursework[11] **12**

BIOMEDICAL SCIENCE, BS - Pre-Medical Laboratory Diagnostic Emphasis

This emphasis prepares students to enter a graduate program for the following careers:

- Clinical/Medical Laboratory Scientist
- Pathologist Assistant

Required courses (80-85 hours)

Major Core & Cognates **19**

Emphasis Core

BIOL 416	Advanced Human Physiology	4
or BIOL 111, 112	Human Anatomy and Physiology I and II (4, 4)	

Select 21 hours from 200-400 level BIOL electives. 21
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 111	College Algebra	3
or MATH 119	Trigonometry (3)	
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[9]		

[10] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*
[11] *See Supporting Coursework under Biomedical Science, BS area*

PSYC 105	Introduction to Psychology	3
or any PSYC course		

Minor or individualized supporting coursework[19] **12**

BIOMEDICAL SCIENCE, BS - Pre-Musculoskeletal & Mobility Therapies Emphasis

This emphasis prepares students to enter graduate programs for the following careers:

- Chiropractic
- Occupational Therapy
- Orthotics and Prosthetics
- Physical Therapy

Required courses (79-84 hours)

Major Core & Cognates **19**

Emphasis Core

BIOL 411	Advanced Human Anatomy	4
or BIOL 111, 112	Human Anatomy and Physiology I and II (4,4)	

Select 21 hours from 200-400 level BIOL electives 21
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 215	Emergency Health Care	1
BKNT 256	Medical Terminology	1
BKNT 370	Personal Training	3
CHEM 151	General Chemistry I	4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[20]		
PHYS 151, 152	General Physics I and II	4, 4
PSYC 215	Developmental Psychology	3
or any PSYC course		

Minor or individualized supporting coursework[10] **12**
Recommended: Personal Training or Psychology minor

BIOMEDICAL SCIENCE, BS - Pre-Physician Assistant Emphasis

This emphasis prepares students to enter graduate programs for the following careers:

- Physician Assistant

Required courses (82-83 hours)

Major Core & Cognates **19**

Emphasis Core

BIOL 205	Microbiology	4
BIOL 411	Advanced Human Anatomy	4

BIOL 416	Advanced Human Physiology	4
BIOL/CHEM 440	Biochemistry	4
or BIOL/CHEM 445	Biochemistry I (4)	

Select 15 hours from 200-400 level BIOL electives 15
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
MATH 111	College Algebra	3
or MATH 184	Calculus I (4)	
PSYC 215	Developmental Psychology	3
or any PSYC course		

Minor or individualized supporting coursework[21] **12**
Recommended: Psychology minor

BIOMEDICAL SCIENCE, BS - Pre-Health

This emphasis can be individualized to prepare students to enter graduate programs for multiple careers in the fields of biology and biomedical science not included in other biomedical science degree emphases.

Required courses (80-81 hours)

Major Core & Cognates **19**

Emphasis Core
Select 24 hours from 200-400 level BIOL electives. 24
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211	Organic Chemistry I	4
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
or ALEKS score of 76+[12]		
PHYS 151	General Physics I	4
or PHYS 251	College Physics I (4)	

Minor or individualized coursework[12] **12**

BIOLOGY EDUCATION, BS

Secondary Subject Endorsement

The teaching major in biology is designed to prepare candidates for secondary teaching by providing:

[12] *If a student places out of Trigonometry due to appropriate ALEKS, the 3 credit hours for Trigonometry are waived.*

- the ability to recognize the fixed, the changing and the unrelated factors to experimental situations;
- the ability to recognize cause-and-effect relationships;
- the ability to test and evaluate evidence, to recognize and make reasonable assumptions, to distinguish between fact and theory, to apply generalizations and principles and to make valid conclusions;
- an ability to accept, clarify and use ideas, to state a point of view objectively, to reflect the ideas of others, to summarize ideas presented in group discussion and to use scientific vocabulary;
- the ability to use a knowledge of factual and theoretical results with precision and accuracy;
- the ability to interpret data and to use the nature of proof;
- skill in discerning and applying mathematical relationships; and
- an ability to use scientific instruments, to dissect biological specimens and to treat live animals humanely.

Required courses (108 hours)

Major Core		
BIOL 111, 112	Human Anatomy and Physiology I and II	4, 4
BIOL 200, 202	General Biology I and II	5, 5
BIOL 205	Microbiology	4
Select 8 additional hours from 200-400 level BIOL electives (at least one must include a lab)		8

Recommended: Work with your advisor to select electives that broaden your knowledge of the biological sciences.

Major Cognates		
CHEM 151, 152	General Chemistry I and II	4, 4
MATH 119	Trigonometry	3
PHYS 151	General Physics I	4
SCNC 377	Origins	3
Professional Education		
EDUC 418	Methods: Science Education	3
	Additional Professional Education	58

It is strongly recommended that every student finish requirements for at least two subject endorsements.
(See Education-Secondary Education Endorsements)

BIOMEDICAL SCIENCE, AS

Union Adventist University offers many of the courses necessary to prepare students for admission to healthcare professional programs at other institutions including, but not limited to, Loma Linda University, Kettering Medical College, and Advent Health schools. Students should consult their advisor for general education and elective courses and to verify that their program of study includes the requirements for the program they wish to enter upon completion of Union's Associate of Science in Biomedical Science.

Biomedical Science, AS Core & Cognates

Required Hours (18-21 hours)

Major Core		
BIOL 111, 112	**Human Anatomy and Physiology I and II**	**4, 4**
or BIOL 200, 202	**General Biology I and II (5, 5)**	
BIOM 201	**Professional Development I**	**1**
Major Cognates		
MATH 221	**Elementary Statistics and Probability**	**3**
or MATH 111	**College Algebra (3)**	
or MATH 119	**Trigonometry (3)**	
or MATH 184	**Calculus I (4)**	
or any statistics course		
PSYC 105	**Introduction to Psychology**	**3**
or SOCI 105	**Introduction to Sociology (3)**	
or any PSYC or SOCI course		
RELT 306	**Biomedical Ethics**	**3**

BIOMEDICAL SCIENCE, AS - Pre-Allied Health (General Studies) Emphasis

Required courses (31-34 hours)

Major Core & Cognates	**18-21**
Emphasis Core	
Select 9 hours from BIOL electives	9
Recommended: Work with your advisor to select electives that meet professional school prerequisites.	
Emphasis Cognates	
CHEM 104 Introduction to General, Organic and Biochemistry	4
or CHEM 151 General Chemistry (4)	
or PHYS 151 General Physics (4)	
or any PHYS course with a lab	

BIOMEDICAL SCIENCE, AS - Pre-Dental Health Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Dental Hygiene

Required courses (32-35 hours)

Major Core & Cognates	**18-21**
Emphasis Core	
BIOL 205 Microbiology	4
Select 6 hours from BIOL electives	6
Recommended: Work with your advisor to select electives that meet graduate school prerequisites.	

Emphasis Cognates

CHEM 104	Introduction to General, Organic and Biochemistry	4
or CHEM 151	General Chemistry (4)	
or PHYS 151	General Physics (4)	
or any PHYS course with a lab		

BIOMEDICAL SCIENCE, AS - Pre-Diagnostic Medical Imaging Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Sonography
- Radiologic Technician/Technology
- Radiation Science Technician
- Cardiac Electrophysiology Technician
- Nuclear Medicine Technician

Required courses (32-35 hours)

Major Core & Cognates **18-21**

Emphasis Core

Select 9 hours from BIOL electives 9
Recommended: Work with your advisor to select electives that meet professional school prerequisites.

Emphasis Cognates

BKNT 256	Medical Terminology	1
PHYS 151	General Physics	4
or any PHYS course with a lab		

BIOMEDICAL SCIENCE, AS - Pre-Diagnostic Laboratory Sciences Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Clinical/ Medical Laboratory Science
- Histology Technician
- Cytogenetic Technician
- Pathology Technician

Required courses (41-44 hours)

Major Core & Cognates **18-21**

Emphasis Core

BIOL 205	Microbiology	4

Select 3 hours from BIOL electives 3
Recommended: Work with your advisor to select electives that meet professional school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4

CHEM 211, 212	Organic Chemistry I and II	4, 4

BIOMEDICAL SCIENCE, AS - Pre-Nutrition Sciences Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Dietetics
- Nutrition

Required courses (36-39 hours)

Major Core & Cognates **18-21**

Emphasis Core

BIOL 205	Microbiology	4
BIOL 360	Human Nutrition and Disease	3

Select 3 hours from BIOL electives 3
Recommended: Work with your advisor to select electives that meet professional school prerequisites.

Emphasis Cognates

CHEM 151, 152	General Chemistry I and II	4, 4

BIOMEDICAL SCIENCE, AS - Pre-Mobility Rehabilitation Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Orthotics & Prosthetics
- Physical Therapy Assistant

Required courses (34-37 hours)

Major Core & Cognates **18-21**

Emphasis Core

Select 9 hours from BIOL electives 9
Recommended: Work with your advisor to select electives that meet professional school prerequisites.

Emphasis Cognates

PHYS 151	General Physics	4
	or any PHYS course with a lab	
PSYC 215	Developmental Psychology	3

BIOMEDICAL SCIENCE, AS - Pre-Respiratory and Communication Therapies Emphasis

This emphasis prepares students to enter professional programs for the following careers:

- Respiratory Therapy
- Speech Language Pathology

Required courses (37-40 hours)

Major Core & Cognates		**18-21**
<u>Emphasis Core</u>		
BIOL 205	Microbiology	4
Select 6 hours from BIOL electives		6
Recommended: Work with your advisor to select electives that meet professional school prerequisites.

BKNT 256	Medical Terminology	1
CHEM 104	Introduction to General, Organic, and Biochemistry	4
or CHEM 151	General Chemistry I (4)	
PHYS 151	General Physics	4
or any PHYS course with a lab		

BIOMEDICAL SCIENCE Minor

Required courses (18 hours)

BIOL 200, 202	General Biology I and II	5, 5
Select 8 hours of 200-400 level BIOL electives		8

Business Administration

Mission

The Business Administration Program prepares professionals for Christian service in the business world by providing a quality, student-oriented education that emphasizes ethics and balances practice and theory.

Outcomes

In addition to having a foundational understanding of business theory, students graduating from the business administration program will be prepared to:

- demonstrate practical Christianity manifested in ethical decision making and service;
- apply theory to practical situations;
- build and maintain a network of professional relationships;
- use current technology in the workplace;
- work together in effective teams;
- demonstrate professional communication and business decorum; and
- analyze and creatively solve comprehensive business problems.

The program's assessment plan helps meet these goals by collecting, evaluating and responding to input from program students, internship evaluations and alumni. Student preparation for careers and graduate school will be measured by tracking graduates' job placement and scores on nationally recognized tests.

BUAD 405	Business Ethics	1
Internship in Business		
Emphasis Cognates		
MATH 221	Elementary Statistics and Probability	3
or MATH 331	Probability (4)	

Many students choose to obtain certification as Certified Public Accountants (CPAs). Most states require completion of an undergraduate degree in accounting before the CPA exam may be

written. Nebraska and many other states have a minimum education requirement of 150 semester hours after high school.

The Union Adventist University Accounting Curriculum has been approved by the Nebraska State Board of Public Accountancy as satisfying the accounting and general business requirements for the 150 hours. Close consultation is necessary between the student and the accounting faculty to ensure that state requirements to sit for the exam are met. Students may complete this requirement by taking undergraduate class work with the option of completing a second major or emphasis or by attending graduate school. Careful planning by the student is needed to ensure compliance with the various state requirements for specific classes which must be taken to fulfill the 150-hour requirement. Courses strongly recommended to sit for the CPA exam in Nebraska in addition to the business core include:

ACCT 335	Accounting Information Systems	3

BUSINESS ADMINISTRATION, BS - Finance Emphasis

Required courses (65-66 hours)

Major Core & Cognates		**36**
Emphasis Core		
ACCT 313, 314	Intermediate Accounting I and II	4, 4

GRPH 450	Art Direction (3)	
GRPH 464	Advertising Design (3)	

Recommended general education course: PSYC 105 Introduction to Psychology

BUSINESS ADMINISTRATION, BS - Science Emphasis

The degree in business and science prepares the student for professional schools in the medical field and trains the student for employment in careers which encourage or require knowledge in both business and scientific principles. Students taking this major should work with both the Business program and the Biomedical Science program to plan classes that will be the most beneficial for their career goals. Students should be aware that the minimum major requirements will not prepare them for graduate school in science and courses should be chosen carefully to meet business graduate school requirements. General education classes and electives should be carefully chosen to reach the 36 hours at the 300-level or above. Pre-med students need 100-200 patient care hours (volunteering, job shadowing, or working) to be competitive on medical school applications. Research and large projects are also helpful for medical school applications.

Required courses (81-84 hours)

Major Core & Cognates **36**

Emphasis Core

BUAD 376	Human Resource Management	3
FNCE 332	Investments	3

Emphasis Cognates

BIOL 200, 202	General Biology I and II	5, 5

DUAL DEGREE

BUSINESS ADMINISTRATION, BS Accelerated Management Emphasis and Leadership, MS

This is a 3 +1 program that allows students to complete both their undergraduate and graduate degrees in four years plus a summer term. Students will complete three undergraduate years in Business Administration: Management emphasis, plus one year and one summer in Leadership. Students will be awarded a Bachelor of Science in Business Administration and a Master of Science in Leadership after successfully completing the dual degree curriculum outlined below. The following guidelines outline the joint undergraduate/graduate graduation requirements.

Outcomes:

In addition to having a foundational understanding of business theory, students graduating from the business administration and leadership dual degree program will:

- demonstrate practical Christianity manifested in ethical decision making and service;
- apply theory to practical situations;
- build and maintain a network of professional relationships;
- use current technology in the workplace;
- work together in effective teams;
- demonstrate professional communication and business decorum;
- analyze and creatively solve comprehensive business problems;
- develop a personal leadership philosophy;
- develop leadership skills that can be applied in any organizational setting; and
- think critically about addressing organizational issues.

Admissions, Progression, and Graduation requirements

Undergraduate students will be advised by a Business Program advisor. During the second semester of their junior year, students will be able to apply to the Union Adventist University Leadership program. To be eligible to apply for the Leadership program, students must have earned a minimum overall GPA of 3.0, completed undergraduate required core, emphasis, and general education courses; and be in good academic standing at Union Adventist University . Upon admission to the Leadership program, accepted applicants will be assigned an academic advisor within the Leadership program.

Progression in the Dual Degree program:

Students must continually meet the following criteria to remain in the dual degree program. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the leadership program:

- Maintain GPAs of 3.00 or above (on a 4.00 scale);
- Complete the following courses outlined below by the conclusion of the spring semester of their junior year;
- Meet all admission requirements of the Leadership program, including all undergraduate general education, major, and prerequisite requirements - except completion of an Union Adventist University Baccalaureate degree - before beginning the graduate curriculum; and
- Be accepted into the Leadership program (students who have been denied may reapply only after completion of a baccalaureate degree).

Once admitted to the Leadership program, a student will be placed on suspension if 1) any two final Leadership courses are C+ or below, 2) up to two semesters of unresolved academic or non-academic probation exist, or 3) students fail to maintain at least a 3.00 GPA.

Successful completion of the Leadership program under the accelerated dual degree program entitles the student to be awarded a Bachelor of Science in Business Administration with an accelerated Management emphasis and a Master of Science in Leadership.

Graduation Requirements

Guidelines for progression and graduation include the following:

- Individual course grades must be “B” or higher;
- Overall GPA for Masters in Leadership courses must be maintained at or above 3.00 (on a 4.00 scale) and;
- An application for a graduate degree must be filed with the Records office prior to graduation.

Required courses (90-92 hours)

Chemistry

Mission

Founded upon a firm belief in the Creator and guided by a Christian worldview, the Department of Chemistry prepares students for learning, service and leadership through proficient application of chemistry-related skills.

Outcomes

Students graduating from the chemistry program will be prepared to:

- independently access and organize relevant data in the chemical sciences;
- independently synthesize and communicate relevant data in the chemical sciences;
- demonstrate familiarity with basic techniques of investigation in varied fields of chemical research;
- apply knowledge acquired from varied aspects of chemical sciences to critical thinking in research;
- apply knowledge acquired from varied aspects of chemical sciences to ethical decision making, in stewardship and everyday life;
- demonstrate knowledge of past contributions and awareness of current progress in the chemical sciences;
- engage in senior-level research; and
- be prepared to pursue graduate studies.

CHEMISTRY EDUCATION, BS

Secondary Subject Endorsement

The teaching major in chemistry is designed to prepare the candidates for secondary teaching through a program which will:

- allow students to develop a knowledge of the major concepts of chemistry, its historical development and its significance to the individual and to society;
- give them a concept of the logic and processes of scientific inquiry;
- provide a working knowledge of the mechanics of a chemistry teaching program including: ordering of materials and supplies, organizing and operating a laboratory, handling and storage of hazardous materials and safety procedures; and
- acquaint them with professional agencies and professional journals and the value of these to their work.

Required courses (109-114 hours)

Major Core

CHEM 151, 152	General Chemistry I and II	4, 4

CHEMISTRY LAB TECHNICIAN, AS

Required courses (26-28 hours)

Major Core		
CHEM 151	General Chemistry I	4
CHEM 152	General Chemistry II	4
CHEM 311	Analytical Chemistry	3
or CHEM 211	Organic Chemistry I (4)	
CHEM 312	Instrumental Analysis	3
or CHEM 212	Organic Chemistry II (4)	
Major Cognates		
BIOL 205	Microbiology	4
MAH 111	College Algebra	3
or MATH 221	Elementary Statistics and Probability (3)	
ENGL 212	Writing for Scholarly Audiences	3
COMM 105	Public Speaking	2
or COMM 205	Introduction to Interpersonal Communication (2)	

We recommend the student work in our chemistry stockroom each semester their first year. We also recommend a chemistry lab internship at a company that hires chemistry lab technicians. For their second REL general education requirement, we recommend RELT 305, Christian Ethics.

CHEMISTRY Minor

Required courses (19-20 hours)

CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211, 212	Organic Chemistry I and II	4, 4
CHEM 311	Analytical Chemistry	3
or CHEM 312	Instrumental Analysis (3)	
or CHEM 451	Physical Chemistry: Thermodynamics (4)	
or ChHEM 445	Biochemistry I (4)	

Communication

Mission
The Communication program encourages students to become active and ethical participants in reporting and shaping modern culture across various media.

Outcomes
Students graduating from the communication program will be prepared to:
- disseminate written, spoken, digital, and visual information;
- incorporate leadership and ethics as key components to communication practice;
- write and edit effectively within a communication framework;
- understand the processes, effects, and theories of human communication;
- engage in the diverse demands of emerging media, public relations, or institutional development; and
- explore a variety of perspectives in the lifelong process of becoming a Christian scholar and practitioner in the field of communication.

Computing

Mission

Founded upon a firm belief in the Creator and guided by a Christian worldview the Computing program prepares students to lead and serve in their communities and workplace through the proficient application of their degrees.

Outcomes

Computing degree graduates will:

- Demonstrate an understanding of their field and how new and current technologies can be incorporated to provide effective solutions;
- Develop the skills needed to become an effective independent learner;
- Demonstrate Christian philosophy through active engagement in community activities;
- Work together in effective teams and;
- Demonstrate professional communication and business decorum.

Education

Mission

The Union Adventist University Education Program considers the work of education and the work of redemption as one. This faith-based perspective is the foundation of the program's approach. Therefore, the Education Program aims to train competent educators with a Christian-focus who incorporate current research and foster compassionate environments.

Outcomes

Students graduating with a degree in education will be able to:

- Recognize the importance of gaining knowledge through various disciplines;
- Engage in meaningful educational research;
- Utilize higher order thinking skills in problem solving tasks;
- Regularly practice self-reflection/assessment;
- Demonstrate a commitment to continued professional growth; and
- Demonstrate knowledge of human growth and development theories as they contribute to individuals realizing their potential.

**Requirement waived for English Language Arts Education, Secondary English Education, and Religious Education Endorsements.*

Required Courses for Major

Number of hours dependent upon the content area(s). Bachelor of Science requirements are listed by major content area in program sections (see list of field and subject endorsements below).

Field Endorsements

English Language Arts Education 6-12
Mathematics Education 6-12
Music Education K-12
Science Education 6-12
Social Studies Education 6-12

Subject Endorsements

Biology Education 6-12
Chemistry Education 6-12
History Education 6-12
Religious Education K-12
Vocal Music Education K-12
Secondary English Education 6-12

Religious Education Endorsement Add-on

Secondary teacher candidates who wish to add on a Religious Education endorsement from the North American Division (NAD) need to complete a minimum of 18 hours of religion courses (including RELT 141, an RELB elective, RELT 455, and RELH 310) and add EDUC 415 Methods: Social Science and Religious Education (6-12) to their degree.

Admission to the Teacher Education Program

Admission into teacher education at Union Adventist University is not automatic. The checkpoints of Provisional, Full and Student Teaching Admission are carefully monitored by advisors, program personnel, and the Teacher Preparation Committee (TPC). A self-tracking chart (in Athology Portfolio) listing all checkpoints is supplied for the teacher candidate to monitor his or her progress.

The five levels of the teacher education program are:

- pre-admission;
- provisional admission;
- full admission;

- student teaching; and
- program completion, certification, competencies, and early career review.

Program Completion, Certification and Competencies

To qualify for program completion each candidate will have:

- earned a minimum of a baccalaureate degree and completed all requirements of the approved program for which recommendation is desired;
- met a minimum 2.75 cumulative GPA standard of scholarship;
- shown evidence of physical fitness, emotional maturity and moral character;
- demonstrated competency in "Basic Skills in Reading, Writing, and Math as outlined by Program expectations;
- successfully completed student teaching assignment;
- taken the Praxis II—Elementary Education: Curriculum, Instruction, and Assessment; PRAXIS II—Secondary Education Content Test taken prior to student teaching;
- a background free of criminal convictions as shown by a professional background check; and
- certification (Fees may/will apply)[13].

Nebraska State Certification

Application for certification is made through the Union Adventist University Certification Officer using the forms provided by the Nebraska Department of Education. These forms can be obtained in the division office or on the Nebraska Department of Education website at education.ne.gov/tcert/.

To qualify for Nebraska State Certification each candidate will have:

- earned a minimum of a baccalaureate degree and completed all requirements of the approved program for which recommendation is desired;
- attained a minimum of 18 years of age;
- shown evidence of physical fitness, emotional maturity and moral character;
- met a 2.75 minimum GPA standard of scholarship;
- demonstrated competency in "Basic Skills in Reading, Writing, and Math"
- taken the PRAXIS II—Elementary Education: Curriculum, Instruction, and Assessment; PRAXIS II— Secondary Education Content Test taken and passed prior to student teaching;
- successfully completed student teaching assignment;
- background free of criminal convictions as shown by a background check (fees will apply); and
- application for certification (fees will apply).

Seventh-day Adventist Denominational Certificate

Application for Seventh-day Adventist certification is made in the program office using the form provided by the Mid-America Union Conference (MAUC).

To qualify for Seventh-day Adventist certification in the North American Division each candidate will have:

- met all state certification requirements;
- taken RELT 141, an RELB elective, RELT 455 and RELH 310 (with a grade of C or higher in each);
- baptized membership in good standing at a Seventh-day Adventist church; and

[13] *Fees subject to change*

- affirmed a willingness to subscribe to and teach within the framework and philosophy of the church.

Upon graduating, the teacher candidate can request a Union Adventist University transcript which indicates completion of a Nebraska, CAEP and an NAD accredited bachelor's degree program in teacher education and will be recommended to the State and MAUC for certification.

The Teacher Education Program at Union Adventist University is accredited by the Council for the Accreditation of Educator Preparation (CAEP) caepnet.org. This accreditation covers the undergraduate elementary and secondary teacher preparation programs at Union Adventist University only. It does not include individual education courses that the institution offers to P-12 educators for professional development, re-licensure, or other purposes.

Change of Certification Requirements

In case of changes in Nebraska state certification requirements, it may be necessary for a student who wishes to be recommended for certification to meet certain requirements different from those published in the bulletin above. This is not to be construed to abridge teacher candidates' right to graduate under any bulletin in force during the time they are in continuous residence as defined in the current bulletin. However, since certification and graduation are two different end goals, candidates for certification may encounter certification law changes they will be required to meet to qualify for NE state teaching certificate.

Transfer Students and Credits

Transfer students wishing to be endorsed for teaching and who meet the requirements for admission into the teacher education program must complete requirements for their chosen teaching major (Elementary, Secondary field or subject areas) in harmony with the pertinent approved program on file.

The teacher education program may selectively accept lower division (general but not professional education) transfer credit from regionally accredited two-year institutions of higher education; credit from regionally accredited four-year institutions may also be accepted.

A transferring student who expects to be recommended for certification must earn a minimum of 30 semester hours of credit at Union Adventist University, 22 for secondary and 26 for elementary shall be in Education. Exceptions to this policy may be made by action of the TPC.

English

Mission

The English Program prepares students for a wide range of careers as well as graduate and professional education in multiple fields. Through coursework that introduces, develops, and hones the high-demand skills of reading, researching, speaking, storytelling, writing, and thinking, graduates are prepared to be agile, persuasive, ethical citizens and leaders who understand through a biblical lens the relevance of culture and context; the importance of character, emotion, and reason; and the power of language to reflect and shape reality.

Outcomes

Students who graduate from the English program will be able to:

- critically read, comprehend and analyze texts through a variety of theoretical lenses, both literary and rhetorical; and
- write effectively across a range of genres to exhibit an understanding of the intersecting relationship of audience, author, and subject.

Course Fees

Several courses include a course fee, which covers field trips, events, and/or travel expenses for attendance at a professional conference. Information regarding current fees can be found by contacting the English Program Director.

Portfolio Requirement

All students seeking a Bachelor of Arts in English attend English Seminar during the course of their tenure at Union Adventist University. Seminar includes presentations on and discussions about professional aspects of being an English graduate and provides a space for workshopping

students' individual portfolios. The portfolio is crafted in collaboration and consultation among the student, their advisor, and the program director and must be submitted no later than four weeks before graduation. More information is provided to students upon declaration of an English major.

ENGLISH, BA

Designed for those interested in the high-demand critical-thinking skills of reading, writing and speaking as they relate to the humanities, including those who wish to pursue graduate education or a full-time or freelance career in writing across genres and mediums, editing and publishing as well as those interested in a major that complements degrees in business, communication, graphic design, history, international relations, law, medicine, and more.

Internship in English

ENGLISH LANGUAGE ARTS EDUCATION, BS

Secondary Field Endorsement

This endorsement qualifies an individual to teach and to direct curricular and extracurricular activities in composition/language, literature, speech, drama, public media, journalism, and reading in grades 7-12.

The teaching major in English Language Arts Education is designed to prepare candidates for secondary teaching by providing them with:

- a knowledge of the evolution of the English language;
- teaching competence in traditional and transformational grammars and a general knowledge of other modern grammars;
- a knowledge of classical and modern rhetoric;
- skill in writing developed through courses in basic composition, critical, creative, and journalistic writing;
- an awareness of the impact of the mass media;
- skill in the basics of directing and presenting a stage production;
- the ability to produce school publications;
- a broad and sound knowledge of literature through selected courses, a required core of period courses in British and American literature, and a required major figures course;
- the ability to read, analyze, and discuss literature with critical intelligence;
- a knowledge of the historical context of British and American letters;
- the ability to carry on independent research in language and literature;
- the special knowledge and skills pertinent to the effective teaching of English at the secondary level, supplied through a course in the methods of teaching high school and junior high school English, a course in the oral interpretation of literature, a course in the methods of teaching reading, and a course in literature of particular interest and value to adolescents; and
- experience in the integration of faith and learning, particularly in the teaching of imaginative literature.

SECONDARY ENGLISH EDUCATION, BS

Secondary Field Endorsement

Students who plan to teach only writing and literature at the secondary level may pursue this subject endorsement major.

The subject endorsement major in English is designed to prepare candidates for secondary teaching by providing

- an understanding of the structure and development of the English language sufficiently comprehensive to provide teaching competence in traditional and transformational grammars and a general knowledge of other modern grammars;
- writing skills developed through courses in basic composition, critical, creative, and/or journalistic writing;
- a comprehensive knowledge of the different styles of American and British literature;
- the scholarly skills of evaluating various types of literature, including interpretive readings;
- the special knowledge and skills relevant to the teaching of English at the secondary level, developed through a course in the methods of teaching high school and junior high school English, a course in the methods of teaching reading, and a course in literature of particular interest and value to adolescents; and
- experience in the integration of faith and learning, particularly in the teaching of imaginative literature.

Required courses (99 hours)

Foreign Language Studies

Mission

A major in Foreign Language Studies with emphases in French, German, Italian, Portuguese, or Spanish can be acquired through Union Adventist University's participation in Adventist Colleges Abroad. This major is designed for students who want proficient speaking skills along with an appreciation of the culture, history, and literature associated with the language. Union Adventist University scholarships do not apply for study abroad at ACA campuses.

Outcomes

Upon graduating students should:

- Exhibit competence in speaking a second language;
- Be able to cope with the unfamiliar, both linguistically and culturally; and
- Understand the value of diversity.

Italian Minor
Portuguese Minor
Spanish Minor

FOREIGN LANGUAGE STUDIES, BA

Available as a second major only.

Required courses (32 semester hours - 48 quarter hours)

LANG[14] prefix beyond 102, 12 semester hours (18 quarter hours) of which must be at or above the 300-level, including

LANG[15]	History, civilization, or literature	4 SH	(6 QH)
LANG[15]	Language or grammar (3 SH/5 QH at 300 level or above)	14 SH	(21 QH)
LANG[15]	Modern language electives	12 SH	(18 QH)

14 LANG is replaced by the language studied.

LANG 485[15]	Research in a Foreign Culture and Language	2 SH (3 QH)

FOREIGN LANGUAGES Minor

Minors in French, German, Italian, Portuguese, or Spanish can be acquired through participation in the Adventist Colleges Abroad program by living and studying on an ACA campus.

Required courses (20 semester hours - 30 quarter hours)

LANG[16] prefix beyond 102, 6 SH (9 QH) of which must be at or above the 300-level, including

LANG[17]	History, civilization, or literature	3 SH (4.5 QH)
LANG[17]	Language or grammar	10 SH (15 QH)
LANG[17]	Modern language electives	7 SH (10.5 QH)

SH=semester hours
QH=quarter hours

15 LANG 485 is completed at Union Adventist University within one school year of a student's successful completion of a year's study abroad at an ACA campus.

16 LANG is replaced by the language studied

History

Mission

The History major equips students for successful entry into civic engagement with their communities and with the modern world, as well as graduate or law schools, secondary education, or entry-level positions in unrelated fields which value critical thinking and skilled communication.

Outcomes

Students graduating from the History program will:

- possess broad knowledge of past societies, be able to think causally and comparatively about other cultures, and will understand the value and use of historical knowledge for ethical citizenship in the present;
- think critically, having been trained to analyze sources and weigh the merits of historical arguments and competing interpretations and narratives of the past;
- know how to communicate effectively and construct clear and evidence-based arguments orally and in writing; and
- consequently, will be valuable to employers, prepared for graduate and law school, and of service to their communities.

HISTORY EDUCATION, BS

Secondary Subject Endorsement

The teaching major in history is designed to prepare candidates for secondary teaching by providing:

- a general knowledge of American and world history;
- a basic undergraduate historical knowledge that prepares a student for graduate or law school;
- an understanding of democracy as exemplified in the political process of the government of the United States and other countries;
- the basic skills to undertake independent study and research, to be effective in the use of a library, to have the ability to analyze documents, and to be able to write fluently;
- the ability to contribute to more responsible citizenship of students through a broader understanding of history;
- a physical and human geographical approach to the world; and
- the special knowledge and skills pertinent to the effective teaching of history at the secondary level, supplied through a course in the methods of teaching high school and junior high school social studies, a course in secondary methods, and a course in methods of historical research.

Required courses (100 hours)

It is strongly recommended that every student finish requirements for at least two subject endorsements.

SOCIAL STUDIES EDUCATION, BS

Secondary Field Endorsement

The teaching major in social studies is designed to prepare candidates for secondary teaching by providing them with:

- a general knowledge of American and world history;
- a basic knowledge that would enable students to go into advanced training such as law, teaching, or other professional fields;
- an understanding of political theory as exemplified in the political process of the governments of the United States and other nations;
- a knowledge of the social problems of the modern community through courses in sociology, geography, economics, and psychology;
- the basic skills to undertake independent study and research, which include a technical vocabulary, effective use of a library, the ability to analyze documents, and an ability to write fluently;
- the special knowledge and skills pertinent to the effective teaching of social science at the secondary level.

The program for a comprehensive studies endorsement consists of seven components: economics, geography, history, political science, psychology, and sociology.

The hours shall be distributed as follows:

- A minimum of 21 hours in history; and
- A minimum of 6 hours in five remaining areas (ECON, GEOG, PLSC, PSYC, SOCI)

Required courses (118 hours)

Major Core		
HIST 157	The Modern World	3
HIST 220	The Ancient World	3
HIST 255	The US: Discovery to Civil War	3
or HIST 244	American Industrialization (3)

BUAD 445	Business Law (3)
ECON 235	Principles of Microeconomics (3)
ECON 236	Principles of Macroeconomics (3)
PHIL 335	Introduction to Philosophy (3)
PLSC 105	Introduction to International Relations (3)

International Relations

Mission

The International Relations major prepares students for engaged global citizenship. Students will study the political, social, economic, and financial forces that surround modern state and individual actors and practice critical thinking, trend analysis, and clear communication. Many graduates go on to jobs in U.S., or international politics, diplomacy, government service, international business and law, and public policy.

Outcomes

Students graduating with an International Relations major will:

- possess broad knowledge of the modern world, be able to think comparatively about other cultures, and will understand the value and use of statistics, media analysis, and historical explanation in policy, diplomacy, and mediation;
- think critically, having been trained to analyze sources and weigh the merits of historical arguments and competing interpretations and narratives of the past and present;
- understand the importance of thinking about states, corporations, and intergovernmental organizations from political, economic, legal, and military lenses;
- know how to communicate effectively and construct clear and evidence-based arguments orally and in writing; and
- consequently, will be valuable to employers, prepared for graduate and law school, and of service to their communities.

International Rescue and Relief

Vision

The International Rescue and Relief program prepares students for diverse career opportunities by providing students with the skill sets to effectively support communities in development, preparedness, response, and recovery. Through traditional coursework and experiential learning, students will be prepared to successfully compete for professional placement or graduate study.

Mission

Deliver exceptional education to empower highly skilled leaders inspired by Jesus, dedicated to uplifting humanity through service.

Outcomes

Students graduating with a major in International Rescue and Relief will demonstrate:

- **Leadership and Followership in Diverse Settings** - Graduates will demonstrate the ability to lead and support teams effectively in diverse cultural and operational contexts, applying ethical leadership principles inspired by service to humanity.
- **Cross-Cultural Competency** - Graduates will exhibit strong cross-cultural communication and collaboration skills, allowing them to work effectively in multicultural environments and provide culturally appropriate support to communities during development and humanitarian efforts.
- **Knowledge of Emergency Management** - Graduates will possess an understanding of emergency management principles, including mitigation, preparedness, response, and recovery. They will have the knowledge to design, implement, and manage emergency plans that address public health, social vulnerabilities, and community resilience.
- **Public Health and Addressing Social Vulnerabilities** - Graduates will be equipped to assess and respond to public health challenges, particularly in vulnerable communities. They will apply critical thinking to identify and address health inequities and social vulnerabilities in both domestic and international contexts.
- **Preparedness for International Development and Humanitarian Aid** - Graduates will have knowledge in global health and humanitarian aid sectors, developing sustainable interventions that address social vulnerabilities and uplift marginalized populations. They will be skilled in designing projects that integrate local knowledge and practices.
- **Experiential Learning Application** - Graduates will have successfully applied their academic knowledge in real-world settings through fieldwork, and service-learning projects, gaining hands-on experience in development, emergency management, and public health initiatives.
- **Commitment to Service and Ethical Responsibility** - Inspired by the teachings of Jesus, graduates will uphold a commitment to service, ethical responsibility, and compassion in their professional and personal lives, dedicating their careers to uplifting humanity and serving others.

Preparatory Coursework for Admission to the Program
Recommended high school preparation for admission includes year-long courses in anatomy & physiology biology and chemistry, two years of algebra, computer applications and two years of foreign language. Students should maintain a physical fitness program to meet the challenging experiential courses in IRR.

Admission and Progression Requirements
Admission into the International Rescue and Relief Program requires Union Adventist University enrollment and a meeting with an IRR advisor to determine the best academic program to help meet career goals.

Criteria for Admission to the IRR Program:
- Acceptance into Union Adventist University.
- The physical, mental, and emotional capacity to function as a professional emergency responder.
- Passport for international travel.
- Required vaccinations as listed in the program's student handbook.
- Reading and signing of the IRR student handbook.
- Health Insurance (personal or insurance offered by Union Adventist University)

Progression in most of the IRR programs requires the student to:

- maintain physical, mental, and emotional capacity to function as a professional emergency responder;
- maintain ability to hike, swim, run, adapt and function well in a broad range of climates and austere settings;
- comply with health policy requirements (vaccinations), including completion of the Hepatitis A series, Hepatitis B series, Chicken Pox, an annual TB skin test, MMR, Tetanus, and annual influenza vaccine; required vaccines and/or testing for illness including COVID-19 may be added and/or changed depending on the requirements for international travel and clinical site requirements. These requirements are subject to change.
- complete the prerequisite CPR certification: American Heart Association Heart Code Basic Life Support
- Pass a 10-panel drug test
- maintain a successful criminal background check through the IRR program;
- obtain and maintain certifications for CPR, NREMT, and NEEMT;
- obtain all designated advanced EMT certifications; and
- successfully complete summer survival and rescue certifications before junior year.

Program-Specific Fees

Additional fees are charged for the summer program training courses, and the overseas semester. Some IRR classes have additional fees as well. Information regarding current fees can be found on the Union Adventist University website and the IRR Student Handbook.

Certificate Courses

Certificate courses are identified in course descriptions.

ADVANCED PRE-PUBLIC HEALTH TRACKS

The Advanced Pre-Public Health tracks prepare students for early acceptance into the Union Adventist University Public Health Program. These tracks combine courses at the undergraduate and graduate levels to enable exceptional, qualified Union Adventist University students to enter the Master of Public Health Program after three years of undergraduate study. These students receive a Bachelor of Science in International Rescue and Relief after successfully completing the first year of the Master of Public Health Program and a Master of Public Health upon successful completion of the full MPH curriculum. **These tracks in the International Rescue and Relief degree do not require students to have a 12-credit hour supporting area or minor.**

Outcomes

Students graduating with a major in International Rescue and Relief will demonstrate:

- **Leadership and Followership in Diverse Settings** - Graduates will demonstrate the ability to lead and support teams effectively in diverse cultural and operational contexts, applying ethical leadership principles inspired by service to humanity.
- **Cross-Cultural Competency** - Graduates will exhibit strong cross-cultural communication and collaboration skills, allowing them to work effectively in multicultural environments and provide culturally appropriate support to communities during development and humanitarian efforts.
- **Knowledge of Emergency Management** - Graduates will possess an understanding of emergency management principles, including mitigation, preparedness, response, and

recovery. They will have the knowledge to design, implement, and manage emergency plans that address public health, social vulnerabilities, and community resilience.
- **Public Health and Addressing Social Vulnerabilities** - Graduates will be equipped to assess and respond to public health challenges, particularly in vulnerable communities. They will apply critical thinking to identify and address health inequities and social vulnerabilities in both domestic and international contexts.
- **Preparedness for International Development and Humanitarian Aid** - Graduates will have knowledge in global health and humanitarian aid sectors, developing sustainable interventions that address social vulnerabilities and uplift marginalized populations. They will be skilled in designing projects that integrate local knowledge and practices.
- **Experiential Learning Application** - Graduates will have successfully applied their academic knowledge in real-world settings through fieldwork, and service-learning projects, gaining hands-on experience in development, emergency management, and public health initiatives.
- **Commitment to Service and Ethical Responsibility** - Inspired by the teachings of Jesus, graduates will uphold a commitment to service, ethical responsibility, and compassion in their professional and personal lives, dedicating their careers to uplifting humanity and serving others.

Admission, Progression, and Graduation Requirements

Undergraduate students will be advised by the undergraduate International Rescue and Relief advisor. During the second semester of their junior year students are eligible to apply to the Union Adventist University Public Health program. To be eligible to apply for the Public Health program students must have earned a minimum overall GPA of 3.0, completed required core, emphasis, general education courses for the undergraduate degree; and be in good academic standing at Union Adventist University. Upon admission to the Public Health program, accepted applicants will be assigned an academic advisor with the Public Health program.

Progression in the Advanced Pre-Public Health Tracks:

Students must continually meet the following criteria to remain in any of the Advanced Pre-Public Health emphasis. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the Public Health program:

- Maintain GPAs (cumulative and science) of 3.00 or above (on a 4.00 scale);
- Receive a "B" or higher in all science courses;
- Complete the following courses outlined below by the conclusion of the fall semester of junior year;
- Complete all their general education requirements by the end of their Junior Year;
- Meet all admission requirements for the MPH program, including all general education, major, and prerequisite requirements- except completion of a baccalaureate degree- before beginning the graduate curriculum; and
- Be accepted into the MPH program (students who have been denied may reapply only after completion of a baccalaureate degree).

Once admitted to the MPH Program, a student will be placed on suspension if 1) any two final MPH course grades are a C+ or below, 2) up to two semesters of unresolved academic or non-academic probation exist, or 3) students fail to maintain at least a 3.00 GPA.

Successful completion of the first year of the Public Health program under any of the Advanced Pre-Public Health tracks entitles the student to be awarded a Bachelor of Science in International Rescue and Relief with one of the emphases listed below.

The AS degree is Emergency Management and Medical Services and Disaster Management minor are not eligible to meet this requirement. Courses used for an individualized set of coursework must not overlap with the major requirements and must be approved by the student's academic advisor and the Program Director for International

Rescue and Relief.

INTERNATIONAL RESCUE AND RELIEF, BS - Health Care Leadership Emphasis

Students may finish their Bachelor of Science degree in International Rescue and Relief during their first year of clinical Nursing studies, after acceptance into the Nursing program. Students must maintain a cumulative GPA of 2.75 or above to apply to the Nursing program during their third year before going overseas with IRR. Students would enter the Nursing program in their fourth year on campus and complete the IRR and Nursing programs in 5 and a half years.

INTERNATIONAL RESCUE AND RELIEF, BS - Paramedic Emphasis

Students pursuing the International Rescue and Relief program with an emphasis in paramedic will complete three years of education at Union Adventist University. It is recommended that students complete the first three years of the program at Union Adventist University, and then seek a CAAHEP accredited paramedic program for the fourth year of the degree. Union Adventist University will accept up to 30 credit hours for the paramedic portion of the degree. This, in addition to the IRR upper division courses, will satisfy the Union Adventist University upper division credit hour requirements. If students decide to pursue training at a regionally accredited certificate program, they will be granted up to 30 credit hours of transfer credit with the grade of CR if they can provide an official letter of completion from a CAAHEP accredited program. Students who complete their paramedic training during the following summer may apply to participate in the graduation ceremonies in May as prospective summer graduates. A paramedic program must be completed within five years of completing the IRR core requirements.

DUAL DEGREE

INTERNATIONAL RESCUE AND RELIEF, BS, Accelerated General Emphasis & LEADERSHIP, MASTER OF SCIENCE

This is a 3+1 program that allows students to complete both their undergraduate and graduate degrees in four years, plus a summer term. Students will complete three undergraduate years in International Rescue and Relief plus one year and one summer in Leadership. Students will be awarded a Bachelor of Science in International Rescue and Relief and a Masters of Leadership after successfully completing the dual degree curriculum outlined below. The following guidelines outline the joint undergraduate/graduate graduation requirements.

Outcomes

Students graduating with a major in International Rescue and Relief will demonstrate:

- **Leadership and Followership in Diverse Settings** - Graduates will demonstrate the ability to lead and support teams effectively in diverse cultural and operational contexts, applying ethical leadership principles inspired by service to humanity.
- **Cross-Cultural Competency** - Graduates will exhibit strong cross-cultural communication and collaboration skills, allowing them to work effectively in multicultural environments and provide culturally appropriate support to communities during development and humanitarian efforts.
- **Knowledge of Emergency Management** - Graduates will possess an understanding of emergency management principles, including mitigation, preparedness, response, and recovery. They will have the knowledge to design, implement, and manage emergency plans that address public health, social vulnerabilities, and community resilience.
- **Public Health and Addressing Social Vulnerabilities** - Graduates will be equipped to assess and respond to public health challenges, particularly in vulnerable communities. They will apply critical thinking to identify and address health inequities and social vulnerabilities in both domestic and international contexts.
- **Preparedness for International Development and Humanitarian Aid** - Graduates will have knowledge in global health and humanitarian aid sectors, developing sustainable interventions that address social vulnerabilities and uplift marginalized populations. They will be skilled in designing projects that integrate local knowledge and practices.

- **Experiential Learning Application -** Graduates will have successfully applied their academic knowledge in real-world settings through fieldwork, and service-learning projects, gaining hands-on experience in development, emergency management, and public health initiatives.
- **Commitment to Service and Ethical Responsibility -** Inspired by the teachings of Jesus, graduates will uphold a commitment to service, ethical responsibility, and compassion in their professional and personal lives, dedicating their careers to uplifting humanity and serving others.

Admissions, Progression, and Graduation requirements

Undergraduate students will be advised by a Business Program advisor. During the second semester of their junior year, students will be able to apply to the Union Adventist University Leadership program. To be eligible to apply for the Leadership program, students must have earned a minimum overall GPA of 3.0, completed required core, emphasis, and general education courses; and be in good academic standing at Union Adventist University . Upon admission to the Leadership program, accepted applicants will be assigned an academic advisor within the Leadership program.

Progression in the Dual Degree program:

Students must continually meet the following criteria to remain in the dual degree program. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the leadership program:

- Maintain GPAs of 3.00 or above (on a 4.00 scale)
- Complete the following courses outlined below by the conclusion of the spring semester of their junior year
- Meet all admission requirements of the Leadership program, including all general education, major, and prerequisite requirements-except completion of a Adventist University degree-before beginning the graduate curriculum

- Be accepted into the Leadership program (students who have been denied may reapply only after completion of a baccalaureate degree)

Once admitted to the Leadership program, a student will be placed on suspension if 1) any two final Leadership courses are C+ or below, 2) up to two semesters of unresolved academic or non-academic probation exist, or 3) students fail to maintain at least a 3.00 GPA.

Successful completion of the Leadership program under the accelerated dual degree program entitles the student to be awarded a Bachelor of Science in International Rescue and Relief with an Accelerated General emphasis and a Master of Science in Leadership.

Leadership Graduation Requirements

Guidelines for progression and graduation include the following:

- Individual course grades must be "B" or higher;
- Overall GPA for Masters in Leadership courses must be maintained at or above 3.00 (on a 4.00 scale) and;
- An application for a graduate degree must be filed with the Records office prior to graduation.

Admissions, Progression, and Graduation requirements

Undergraduate students will be advised by a Business Program advisor. During the second semester of their junior year, students will be able to apply to the Union Adventist University Leadership program. To be eligible to apply for the Leadership program, students must have earned a minimum overall GPA of 3.0, completed required core, emphasis, and general education courses; and be in good academic standing at Union Adventist University . Upon admission to the Leadership program, accepted applicants will be assigned an academic advisor within the Leadership program.

Progression in the Dual Degree program:

Students must continually meet the following criteria to remain in the dual degree program. Students who do not meet and maintain the following criteria will be counseled to complete a four-year degree prior to applying to the leadership program:

- Maintain GPAs of 3.00 or above (on a 4.00 scale)
- Complete the following courses outlined below by the conclusion of the spring semester of their junior year
- Meet all admission requirements of the Leadership program, including all general education, major, and prerequisite requirements-except completion of a Adventist University degree-before beginning the graduate curriculum
- ·Be accepted into the Leadership program (students who have been denied may reapply only after completion of a baccalaureate degree)

Once admitted to the Leadership program, a student will be placed on suspension if 1) any two final Leadership courses are C+ or below, 2) up to two semesters of unresolved academic or non-academic probation exist, or 3) students fail to maintain at least a 3.00 GPA.

Successful completion of the Leadership program under the accelerated dual degree program entitles the student to be awarded a Bachelor of Science in International Rescue and Relief with an Accelerated Public Safety emphasis and a Master of Science in Leadership.

Leadership Graduation Requirements

Guidelines for progression and graduation include the following:

- Individual course grades must be “B” or higher;
- Overall GPA for Masters in Leadership courses must be maintained at or above 3.00 (on a 4.00 scale) and;
- An application for a graduate degree must be filed with the Records office prior to graduation.

Required courses (86 hours)

Leadership Minor

A leader needs a wide variety of knowledge, skills, and dispositions to be effective. These attributes may be innate, or they may be learned and absorbed through observation. A wide variety of classroom and practical experiences will assist students who pursue the leadership minor to assimilate and develop Leadership qualities.

This minor is designed to be completed within four years plus one summer. Several of the required courses fulfill general education requirements for general education or requirements within a student's major discipline.

Mission

By providing scholarship, experiences, support and encouragement, the Leadership Minor empowers students to grow and position themselves as leaders with a commitment to service.

Outcomes

Students graduating with the Leadership Minor will:

- understand leadership theory;
- practice moral and ethical leadership;
- be effective in interpersonal communication and conflict resolution;
- evaluate information using critical thinking skills;
- appreciate the power of forgiveness and acceptance; and
- value the leadership qualities of Jesus

Mathematics

Mission

Founded upon a firm belief in the Creator and guided by a Christian worldview, the Department of Mathematics prepares students for learning, service, and leadership through proficient application of mathematical-related skills.

Outcomes

Students graduating from the mathematics program will be prepared to:

- read mathematical literature and communicate mathematically and statistically;
- think logically and analytically based on methods of mathematical proof;
- make sense of problems and persevere in solving them, using mathematical procedures, concepts, and heuristics;
- develop and articulate connections both within and between branches of mathematical knowledge; and
- complete an internship in a mathematically related field

MATHEMATICS EDUCATION, BS

Secondary Field Endorsement

The teaching major in mathematics is designed to prepare candidates for secondary teaching by providing:

- the ability to inspire and motivate students in mathematics;
- an understanding of the cultural heritage and the place of mathematics in the school curriculum as a creative and expanding subject;
- an understanding of the interplay of mathematics and science in today's scientific society;
- the conceptualization of mathematics as a science built upon postulates;
- the investigation of the application of mathematics in order to:
    - interpret data, and

    - discern and apply mathematical relationships and understanding of the nature of proofs;
- a knowledge of the language of mathematics;
- the ability to give clear explanations of the meaning of certain fundamental concepts, statements and notations;
- the ability to read mathematical literature with understanding;
- the foresight to use present methods of teaching mathematics;
- the ability to make and test conjectures; and
- acquisition of a degree of facility with selected mathematical techniques.

Select 3 hours of 300-400 level MATH electives		3

[17] *If a student places out of Trigonometry due to appropriate SAT/ACT and departmental placement scores, the 3 credit hours for Trigonometry are waived.*

Music

Mission

The mission of the music program is to educate, challenge, and inspire the Union Adventist University student for Christian service through excellence in music.

Outcomes

Students graduating with a degree in music will be prepared to:

- show improvement in the areas of technical proficiency and artistic musicianship;
- analyze musical materials and structures;
- organize musical thoughts through composition and arranging;
- articulate historical and theoretical perspective with an understanding of stylistic trends and their evolution;
- communicate musical ideas and knowledge;
- demonstrate proficiencies in the use of current music technologies; demonstrate proficiencies in the use of current music technologies;
- engage with church ideology and be inspired for Christian service through excellence in music performance;
- demonstrate confidence and capacity for fostering creativity and excellence through leadership of music ensembles;
- actively seek out ways to enrich and unite their community through music; and
- receive either an acceptance letter from an accredited graduate program or employment offer upon graduation.

Internship

MUSIC, BS (No Emphasis)

The BS degree in music is highly similar to the BA in music and contains the exact music class requirement as the BA degree. The BS differs from the BA in that the foreign language component is replaced by six hours in any other area, in consultation with an academic advisor. This degree is especially intended for students pursuing pre-professional programs. These would include pre-med, pre-dent, and pre-law. It is also intended to allow music education majors to graduate with a bachelor's degree in four years. Education majors would continue with their student teaching the semester following graduation, and upon completion, would obtain a second bachelors in music education.

Internship

MUSIC, BS - Biomedical Science Emphasis

The degree in music and science prepares the student for professional schools in the medical field and trains the student for employment in careers that encourage or require knowledge in both music and scientific principles. Students taking this major should work with both programs to plan classes that will most benefit their career goals. These required courses will prepare students for admission to graduate school for pre-medicine or music. Students should carefully choose general education classes and electives to reach the Bachelor's Degree requirement of at least 36 hours at the 300-level or above.

Required courses (101-103 hours)

Nursing

Union Adventist University offers a four-year curriculum in nursing, leading to a Bachelor of Science in Nursing. The baccalaureate degree in nursing program at Union Adventist University is accredited by the Commission on Collegiate Nursing Education ccneaccreditation.org. The program is also approved by the Nebraska State Board of Nursing. Graduates are eligible to write the National Council Licensing Examination-RN (NCLEX-RN®) for professional licensure.

Mission

The mission of the Union Adventist University Nursing Program is to prepare students from diverse backgrounds to be competent, caring generalists in the profession of nursing. The program reflects a commitment to Christian values, professional standards, holistic care, and service as modeled by Jesus Christ.

Outcomes

Students graduating with a bachelor's degree in nursing will be prepared to:

- use Christian values as a foundation of professional practice standards to demonstrate accountable, patient-centered care, and servant leadership;
- demonstrate leadership in collaboration with the interprofessional team to design and manage patient-centered care;
- utilize current technological resources to manage information, mitigate error, foster effective communication, and support decision making in provision of safe, quality patient-centered care;
- integrate best, current evidence with clinical judgment and patient preferences to provide safe, quality care across the lifespan in a variety of health care systems;
- participate in quality improvement activities promoting individual performance and system effectiveness to achieve optimal patient outcomes;
- demonstrate knowledge, skills, and attitudes in preparation for lifelong learning required in a changing practice environment; and
- synthesize knowledge from liberal education and nursing courses to provide patient-centered care.

Academic Programs

Nursing, BSN

Admission, Progression and Graduation Requirements

The nursing profession provides competent and caring healthcare services to patients in diverse communities. Professional, ethical, legal, and safety concerns for nursing practice necessitate a holistic admission procedure.

The Nursing Program Admissions and Academic Evaluation Committee (AAEC) intends that an applicant to the Nursing Program is well prepared to successfully complete the Nursing Program curriculum. The AAEC accomplishes this by examining evidence of scholastic preparation and potential as well as evidence of professional and personal values. Applicants are considered for admission at the recommendation of the AAEC.

A student may enter the nursing program as a traditional student, transfer nursing student, or BSN Completion student as a licensed practical nurse or registered nurse. Upon selecting nursing as a major, students will be assigned an academic advisor from the nursing program to provide guidance with the academic plan. Based on point of entry, pathways have been designed to support student learning and nursing program progression while recognizing appropriate prior coursework to ensure content mastery and achievement of program outcomes.

Progression in the baccalaureate nursing program must be completed following the sequence of nursing courses in the degree completion guide. Students accepted into the nursing program will have a maximum of five years to complete the requirements for the bachelor's degree in nursing including transfer nursing courses (excludes LPN-BSN and RN-BSN nursing courses). Graduates must have 62 credit hours of nursing courses. Transfer students may need to take additional nursing courses to reach the 62-credit hour requirement. Nursing courses transferred from another school are considered part of the 62-credit hour requirement.

The Nursing Program reviews complete applications for admission. Preferred deadlines for submitting the NursingCAS application are February 1 for fall admission and September 1 for spring admission. Acceptance into the Nursing Program is provisional, contingent upon satisfactory completion of all admission requirements. Applicants will be notified of their status by the Nursing Program.

Once admitted to the Nursing Program, students who interrupt their studies must confirm eligibility in writing to resume nursing courses by March 1 for continuation in the fall semester or October 1 for the spring semester.

Eligibility to apply

- A cumulative GPA of 2.75 or above on a 4.00 scale for all collegiate coursework at time of application.
- In progress or completion of required prerequisite courses with a grade of C or above.

Required Prerequisites	Semester Hours
Anatomy and Physiology (with lab)	8
or equivalent anatomy and/or physiology with labs (8)	
Intro to General, Organic and Biochemistry (with lab)	4
or equivalent general chemistry with lab (4)	
Microbiology (with lab)	4
Developmental Psychology	3

Elementary Statistics and Probability	3
Writing for Scholarly Audiences (research writing)	3
Medical Terminology	1

International students whose native language is not English and who do not meet the minimum ACT English score of 17 (or equivalent) must demonstrate current English proficiency by scores on a standardized test taken within the past two years. The university accepts the following examinations and, for regular admission, requires minimum scores of TOEFL: Internet-based (iBT), 79; International paper-based, 550; IELTS 6.5.

Application Process

Applicants for the Nursing Program should complete the NursingCAS application by February 1 for fall admission and September 1 for spring admission including:

- One recommendation form (a current or recent teacher at the collegiate level or employer/supervisor);
- Personal statement;
- All official high school and college transcripts;
- May require a personal interview with members of the AAEC;
- In addition to the above requirements, students applying to transfer to the Nursing Program from another nursing program must also complete a Nursing Program Director Recommendation form.

Applicants for the BSN Completion Program (LPN-BSN and RN-BSN) should complete the NursingCAS application by February 1 for fall admission and September 1 for spring admission including:

- All official high school and college transcripts;
- Personal statement;
- Unencumbered nursing license; and
- May require a personal interview with members of the AAEC

The AAEC recognizes practical and educational benefits of healthcare work experience. It is recommended that an applicant be a certified nursing assistant (CNA) and have some level of clinical work experience prior to applying to the Nursing Program although it is not required. Related clinical work experience that includes direct patient care and certification will benefit the applicant in the admission process.

Following acceptance to the Nursing Program students will need to complete acceptance checklist requirements including:

- Confirmation of intent to begin the Nursing Program as detailed in the nursing program acceptance letter
- Physical Examination;
  Applicants are required to have a physical exam completed by a physician, nurse practitioner, or a physician assistant;
- Health Policy requirements;
  Nursing students are to comply with the minimum immunization guidelines established by the Union Adventist University Nursing Program in collaboration with local healthcare organizations used for clinical learning experiences. If a student does not meet the requirements specified by a healthcare organization used for clinical, the student may be unable to successfully complete the requirements of the course and the nursing curriculum thus resulting in course failure and potential termination from the Nursing Program;
- All nursing students are required to carry personal health insurance which may be purchased through Student Life;

- Current American Heart Association HeartCode BLS Provider CPR certification (only);
- General Union Adventist University admission requirements; and
- Satisfactory drug screen and background checks.

Progression in the Nursing Program

Nursing courses are arranged in a progressive curriculum from concrete and simple to abstract and complex. Learning begins with conceptualization, then moves to application and, finally to the abstract and complex. To facilitate student learning, the nursing program has organized a progressive curriculum. Individual student academic plans may vary depending on entry point and courses accepted in transfer. A student's academic plan is developed with the assistance of a nursing academic advisor. A student may petition the sequence based on the Nursing Program petition policy in the Nursing Student Handbook.

Criteria for progression in the Nursing Program

- Required prerequisite courses must be completed with a passing grade of "C" (2.0) to enter the Nursing Program.
- A grade of "C" (2.0) or above in all nursing, prerequisite and cognate courses.
- A cumulative university GPA and nursing courses GPA of 2.50 or higher.
- Nursing courses (including nursing electives) must be passed with a grade of "C" (76%) or higher in course theory (includes unit, final exams, required ATI assessments, and course assignments as specified in course syllabi). If the class has a clinical component, that portion must be passed, as well as the theory portion, with a grade of 76% and an overall course grade of 76% or higher. The course theory will account for at least 75% of the total grade with the comprehensive final or equivalent contributing at least 20%.
- If a student fails a clinical portion of the course (clinical performance and/or clinical learning activities) at any time during the semester, the course will be considered an attempt. The course is also considered an attempt when the student continues in the course after the add/drop date published in the Union Adventist University Academic Calendar. According to Union Adventist University policy, if the student fails clinical prior to the withdrawal date, the student may choose to withdraw from the course and receive a "W" on the transcript; this will be considered a nursing course attempt and failure. If the student fails clinical prior to the add/drop date, the student may choose to drop the course and the course will not be documented on the transcript; this will be considered a nursing course attempt. If the student fails clinical after the Union Adventist University withdrawal date, the student will receive an "F" on the transcript.
- When a nursing course is failed, it may be retaken the following semester if clinical/class space is available.
- If a student stops out or withdraws from all nursing courses after the Add/Drop date in the university calendar, the semester will count as one course attempt.
- A student accepted on academic probation (see statement on probation in the Nursing Student Handbook) must demonstrate academic improvement (GPA) after the first semester to be removed from probation.
- Academic probation is allowed for a total of only two semesters; non-academic probation is allowed for a total of only two semesters. Nursing Program academic and non-academic probation are separate from Union Adventist University academic probation are detailed in the Nursing Student Handbook.
- Students in levels two to five must achieve a 100% on the drug administration exam within three attempts prior to the drop/add date specified in the Union Adventist University calendar to continue in the clinical course(s) at the corresponding level of the Nursing Program. Unsuccessful completion of the drug administration exam within three attempts prior to the drop/add date specified in the Union Adventist University calendar

will result in clinical failure of the clinical course(s) at the corresponding level of the Nursing Program. If the student fails clinical prior to the drop/add date, the student may choose to drop the course(s) and the course(s) will not be documented on the transcript; the clinical failure(s) will be considered a nursing course attempt(s). Students in NURS 208: Fundamentals must achieve a 100% on the drug administration examination within three attempts by the date and time specified on the course calendar. In level one of the Nursing Program, failure to successfully complete the drug administration examination in three attempts will result in clinical failure of the NURS 208: Fundamentals course. Students may reenter the clinical nursing courses the following semester pending successful completion of all components of the back-to-school expectations. Students will not be allowed in clinical facilities (with exception of the Union Adventist University Skills Lab and Simulation Center) prior to successful completion of the drug administration exam.

- No one nursing course may be attempted more than twice to achieve a grade of "C" (2.0). Students may petition the AAEC if extenuating circumstances exist.
- Health policy requirements (immunizations, annual TST, etc.) must be met and appropriate documentation to verify must be uploaded to Castle Branch. See Immunizations section in the Nursing Student Handbook.
- Students are allowed a maximum of two course failures or unsuccessful attempts and then must exit the Nursing Program. Students who have been terminated from a nursing program (including Union Adventist University) and accepted (or reaccepted) to the nursing program are allowed one course failure or unsuccessful attempt and then must exit the Nursing Program.
- Once a student is admitted to the Union Adventist University Nursing Program, all nursing courses must be completed at Union Adventist University.
- Withdrawal from NURS 305: Health Assessment requires withdrawal from NURS 210: Fundamentals. See course syllabi for additional details.
- A course audit involves classroom theory only; no tests, quizzes, paper, or clinicals are included. Registration to audit a class prior to the beginning of the course is not considered an attempt.
- Students must complete all components of the back-to-school expectations for their level in the Nursing Program prior to deadlines specified on the form each semester. Failure to comply with expectations may result in an inability to attend clinical and an incident report.
- When a nursing faculty member or the Admissions and Academic Evaluation Committee (AAEC) refers a student to the Student Success Center for consultation, it is expected that the student will meet with an academic coach to determine an academic plan. This plan may include ongoing coaching, meeting with the Director of Disability Information and Access, or referral to additional resources.
- Graduates must have 62 credit hours of nursing courses. Transfer students may need to take additional nursing courses to reach the 62-credit hour requirement. Nursing courses transferred from another school are considered part of the 62-credit hour requirement.

Time frame for Completion

- Students who have been accepted into the Nursing Program will have a maximum of five years to complete the requirements for a bachelor of science in nursing degree including transfer nursing courses (excludes LPN-BSN and RN-BSN nursing students).
- Students in the LPN-BSN and RN-BSN programs will have a maximum of two times the length of the full-time academic program to complete the requirements for a bachelor of science in nursing degree.

Criteria for graduation and eligibility for state board licensure examination

The candidate for graduation from the Nursing Program at Union Adventist University shall comply with the following:

- Meet all general university policies for graduation;
- Meet Nursing Program academic requirements for general education and nursing courses;
- Achieve cumulative GPA of 2.50 or higher in all university- level courses and an overall nursing GPA of 2.50 or higher with no grade lower than a C (2.00) in nursing courses or cognates;
- Meet progression requirements as specified in the Nursing Student Handbook;
- Be in good standing with the Nursing Program;
- If a student is on non-academic probation at the time of registering for the final semester in the Nursing Program, adequate evidence for removal of the probation status must be demonstrated during the final semester for the student to be eligible for graduation (see policy on discipline, probation, suspension, and termination); and
- Graduates must complete 62 credit hours of nursing courses.

Graduation date and diploma conferral will occur according to Union Adventist University policy.

Program Specific Fees

Course fees for nursing clinical courses, and additional learning materials are charged through the Nursing Program as program specific fees. Information regarding current fees is available by contacting the Nursing Program Director.

Guaranteed Nursing Admission

High school students with excellent academic records who are enrolling in university for the first time (advanced placement courses in high school are allowed) qualify for guaranteed admission to the Nursing Program if the following criteria are met:

- Cumulative high school GPA of 3.25 or above on a 4.00 scale

Students can apply by indicating interest on the Union Adventist University application or contacting the Nursing Program directly.

Requirements in college to maintain Guaranteed Nursing Admission:

- Cumulative GPA 3.0 or above on a 4.00 scale;
- No pass/fail science courses;
- No courses below a “C”;
- Must be a full-time student (at least 12 credit hours per semester) and follow the advised curriculum.

Failure to meet or maintain these requirements may result in the loss of guaranteed admission. Students may still apply for regular admission to the Nursing Program.

Bachelor of Science in Nursing (BSN) Completion Program

Licensed practical nurses (LPNs), diploma, and associate degree registered nurses (RNs) must hold requisite U.S. nursing licensure to apply. Progression in the baccalaureate Nursing Program must be completed on a full-time basis. Students in the LPN-BSN and RN-BSN programs will have a maximum of two times the length of the full-time academic program to complete the requirements for a bachelor of science in nursing degree. Sequencing is varied for the BSN Completion Program and assumes that the student has completed prerequisites. Complete applications will be reviewed by the Nursing Program, and applicants will be notified of their

status by the Nursing Program. Each applicant is evaluated for placement in the program and spots are based on space available. Applicants with any disciplinary action on their LPN or RN license are not eligible for admission to the Nursing Program.

LPNs and RNs who are admitted to the BSN Completion Program must transfer their previous nursing education courses to Union Adventist University and document successful completion of the NCLEX-LPN® or NCLEX-RN®. Acceptance into the Nursing Program is provisional, contingent upon satisfactory completion of all admission requirements. Following acceptance to the Nursing Program, students will be required to complete acceptance checklist requirements.

Licensed Practical Nurse (LPN)—Bachelor of Science in Nursing (BSN) Curriculum

Licensed practical nurses who have graduated from an accredited nursing program are eligible for credit for Fundamentals from their previous nursing education. Regardless of previous education or experience, all nursing courses required in the LPN to BSN curriculum must be completed at Union Adventist University.

Registered Nurse (ADN or diploma)—Bachelor of Science in Nursing (BSN) Curriculum

Associate degree or diploma RNs who have graduated from an accredited nursing program are eligible to transfer credit for Fundamentals, Medical-Surgical, Critical Care, Maternal Child Health, and Mental Health from their previous nursing education. Additional nursing courses may be petitioned for transfer.

Non-United States educated RNs not licensed in the United States must pass standardized assessments for Fundamentals, Medical-Surgical, Maternal Child Health, Mental Health, and successfully validate clinical performance in nursing courses to receive credit for previous nursing education.

NURSING, BSN

Required courses (65 hours)

Major Core		
NURS 204	Introduction to Professional Nursing	3
or NURS 347	Nursing Program Integration (3) *(for transfer nursing students, LPN, and BSN completion students only)*	
NURS 210	Fundamentals	7.5
NURS 243	Evidence-Based Practice	3
NURS 305	Health Assessment	3
NURS 313	Pathophysiology	4
NURS 314	Pharmacology	3
NURS 325	Medical-Surgical	8
NURS 383	Mental Health	3.5
NURS 415	Maternal Child Health	6.5
NURS 424	Critical Care	7
NURS 440	Population Health	4.5
NURS 453	Management & Leadership	3
NURS 498	Transition to Professional Practice & Preceptorship	6

Major Cognate

RELT 305	Christian Ethics	3
or RELT 306	Biomedical Ethics (3)	

Recommended

NURS 391	Global Health Nursing (2)

In addition to the above requirements, the student will select other courses to fulfill the general education curriculum (see general education section). A minimum of 124 semester hours is necessary for a bachelor's degree at Union Adventist University (see graduation requirements section).

Occupational Therapy Assistant

The associate-degree-level occupational therapy assistant program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 7501 Wisconsin Ave. Suite 510E Bethesda, MD 20814. ACOTE's telephone number c/o AOTA is (301) 652-AOTA and its Web address is acoteonline.org. Graduates of the program will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

Mission

The Union Adventist University OTA program seeks to engage learners and mentor them as they develop into ethical, professional, effective occupational therapy assistants, called by God to serve their community and highly sought-after by employers.

Outcomes

Graduates of the Union Adventist University OTA Program will:

- Demonstrate client-centeredness and a view of humans as occupational and contextual beings in all aspects of practice.
- Apply occupation and evidence from scholarly literature in the planning and delivery of interventions.
- Demonstrate excellence in practice skills across all settings including therapeutic use of self, documentation, and intervention planning, implementation, and review.
- Develop an understanding of professionalism and demonstrate professional behavior expectations of an entry-level healthcare professional.
- Emphasize spirituality as a component of the holistic approach to client interventions.
- Demonstrate effectiveness in client-centered practice and cultural humility with individuals from diverse backgrounds
- Display the value of servant leadership through their professional calling.
- Develop an understanding of the OTA/OT supervisory relationship and effective intra-professional collaboration throughout the OT process.
- Advocate for the role of OT within the interprofessional healthcare team in emerging and clinical practice settings.

Curriculum Threads:

- Occupation
- Excellence in Practice Skills
- Professionalism
- Spirituality
- Service
- Inter-and Intra-professional Collaboration

Academic Programs

Occupational Therapy Assistant, AS

Admission Requirements for Occupational Therapy Assistant

A student may enter the Occupational Therapy Assistant Program as a traditional student or transfer student. New cohorts begin annually in the spring semester.

Criteria for Admission to the OTA Program:

- A cumulative GPA of of 2.50 or above on a 4.00 scale for any completed collegiate coursework
- In progress or completion of required prerequisite courses with a grade of C or above

Required Prerequisite Classes for Admission to the Program

BIOL 111	Human Anatomy & Physiology I	4
BKNT 256	Medical Terminology	1
ENGL 110	Writing for General Audiences	3
MATH 221	Elementary Statistics and Probability	3

Application Process:

- Complete electronic application form found on the OTA page of the Union website
- Complete a total of 10 hours of observation of an occupational therapist or occupational therapy assistant. Hours should be completed in two or more facilities or settings. Observation documentation form can be found on the website, and should be submitted with the application.
- Submit the following required documents with the completed application:
    - Official high school and college transcripts from all institutions attended
    - Written essay, 500 word minimum, reflecting on the prompt: "Why have you chosen to pursue a career as an OTA and why is this profession meaningful to you?"
    - Resume
- An interview with the admissions committee may be required

Following acceptance to the OTA Program, students must complete acceptance checklist requirements including:

- General Union College Admission requirements
- Health policy and immunization requirements

- Documentation of personal health insurance
- American Heart Association HearCode BLS Provider CPR Certification
- Satisfactory drug screen and background check

Compliance with above requirements must be met prior to participation in any program fieldwork experiences.

Progression in the Program

Students must achieve the following each semester to matriculate to the next semester:

- A cumulative GPA of 2.50 or higher;
- Students must progress through OTA courses as outlined in the Union Adventist University bulletin. A student may petition the sequence based upon the University petition policy. See Website or Bulletin for Academic Petition and corresponding form;
- All courses must be passed with a letter grade of "C" (76%) or higher;
- When an OTA course final grade is below the minimum requirement of a "C", it may be retaken the next available semester if fieldwork/class space is available;
- No one OTA course can be attempted more than twice to achieve a grade of "C" (76%);
- After one course failure or unsuccessful attempt, students must exit the OTA program and must reapply for admission consideration in the next available cohort;
- If withdrawing from any one OTAC course, students must withdraw from all OTAC courses they are enrolled in;
- Health policy requirements (immunizations, annual TST, etc.) must be met and appropriate documentation to verify must be uploaded into CastleBranch.
- When an OTA faculty member or OTA Admissions and Academic Advisement Committee refer a student to the Student Success Center for consultation, it is expected that the student will meet with an academic coach to determine an academic plan. This plan may include ongoing coaching, meeting with the director of Disability Information and Access, or referral to additional resources; and
- Once a student is admitted to the Union Adventist University OTA program, all OTA courses must be completed at Union Adventist University.

Timeframe for Program Completion

Once students have been accepted into the OTA program, they will have a maximum of 4 years to complete the requirements for an Associates of Science degree in OTA including all didactic courses and fieldwork requirements. Students must complete 16 weeks of Level II fieldwork within twelve months following the completion of the didactic portion of the program. Requests for extensions from the standard program sequence must be approved by the OTA Department.

Graduation Requirements

The candidate for graduation from the OTA program must meet the following minimum requirements:

- All policies for graduation listed in the Union Adventist University undergraduate bulletin.
- A cumulative GPA of 2.50 or higher.
- All progression requirements as specified in the Union Adventist University Undergraduate Bulletin and OTA Student Handbook.
- Graduates must complete all OTAC courses that fulfill all general education requirements per Union's policy for graduating with an associate's degree.

Occupational Therapy Assistant, AS

Required courses (57 hours)

Major Core		
OTAC 100	Introduction to Occupational Therapy	2
OTAC 120	Clinical Conditions	2
OTAC 141	Foundations of Professionalism	1
OTAC 201	Human Occupation	3
OTAC 211	Functional Anatomy and Human Movement	4
OTAC 221	The OT Process for Productive Aging	4
OTAC 231	The OT Process for Mental Health	4
OTAC 241	Level IA Fieldwork	1
OTAC 250	The OT Process for Rehabilitation and Disability	4
OTAC 261	The OT Process for Children and Youth	4
OTAC 271	The OT Process for Community-Based Practice	4
OTAC 280	Ethics, Leadership, and Practice Skills	2
OTAC 301	Level IB Fieldwork	1
OTAC 310	Professional Seminar	2

OTAC 330	Level IIB Fieldwork	6
Major Cognates		
BIOL 112	Human Anatomy & Physiology II	4
PSYC 215	Developmental Psychology	3

In addition to the above requirements, the student will select other courses to fulfill the general education curriculum (see general education section). A minimum of 62 semester hours is necessary for an associate's degree at Union Adventist University (see graduation requirements section).

Psychology

Mission

The Psychology program at Union Adventist University prepares students to be seekers of knowledge, and thinkers who practice service to all humanity with a Christ-centered attitude.

Outcomes

On completion of the psychology program at Union Adventist University, graduates will be able to:

- Knowledge
  - exhibit knowledge of major concepts and theoretical perspectives in the general field of psychology and its sub-fields;
  - identify ways in which psychological research and application impact everyday functioning;
- Skills
  - carry out the research process;
  - critically assess data and general information;
  - be competitive applicants for graduate programs and/or professional placement;
- Values
  - evaluate psychological theories from a Christian perspective;
  - demonstrate interest, respect and concern for others, regardless of religion, race, gender, sexual orientation or any other differences;
  - demonstrate an understanding of ethical behavior; and
  - demonstrate increased self-understanding and insight into the behavior of others.

Religion

Mission

The Religion program prepares students to serve as Christian disciples and leaders through a growing relationship of salvation in Jesus Christ, equipping them to engage the Bible, demonstrating an understanding of biblical teachings, Christian church history, and the mission of the Seventh-day Adventist church. The program prepares students for graduate studies and for Christian service.

Outcomes

Students graduating from the religion program will be prepared to:

- express an active faith in a life of Christian discipleship;
- exhibit scholarship in the knowledge and interpretation of the Bible;
- demonstrate substantial knowledge of the history, mission and theological beliefs of the Seventh-day Adventist church;
- display Christian character by the ability to apply ethical principles in life situations; and
- apply skills of interpersonal relationships in specified areas of ministry.

RELIGIOUS EDUCATION, BS

Secondary Subject Endorsement
Students graduating with the religious education degree will be prepared for state and church certification for teaching biblical studies classes on the secondary level. In addition to the general goal of the Religion program, students graduating with this major will:

- demonstrate substantial knowledge of the Old and New Testaments;
- demonstrate substantial knowledge of the history, mission and doctrinal beliefs of the Seventh-day Adventist church;
- demonstrate knowledge of Christian church history;
- apply skills in communicating biblical faith and values to adolescents through teaching, preaching, and personal evangelism; and
- be prepared to pursue graduate studies.

RELB 335	New Testament Epistles (3)	

Select 3 hours from the following courses:		3
RELB 226	Old Testament Survey (3)	
RELB 246	Sanctuary and Salvation (3)	
RELB 338	Pentateuch (3)	

Select 3 hours of RELB, RELH, RELP, or RELT electives	3

YOUTH MINISTRY Minor

Youth ministry is an enhancing minor to be combined with a major such as theology or secondary education for those who would like additional training in counseling and specific youth ministry techniques.

Required courses (18 hours)

PSYC 105	Introduction to Psychology	3
PSYC 215	Developmental Psychology	3
PSYC 311	Introduction to Counseling Theory and Techniques	3
RELP 235	Introduction to Youth Leadership	3
RELP 335	Youth Leadership in the Seventh-day Adventist Church	3

RELP 330	Youth Leadership Internship I	1
RELP 331	Youth Leadership Internship II	1
RELP 332	Youth Leadership Internship III	1

Science Education

Mission
Founded upon a firm belief in the Creator and guided by a Christian worldview, the Science and Education program prepares students for service and leadership.

Academic Program
Science Education, BS - Secondary Field Endorsement

SCIENCE EDUCATION, BS
Secondary Field Endorsement
The teaching major in natural science is designed to prepare for secondary teaching by providing the ability to:

- demonstrate knowledge and understanding and be able to teach the concepts, skills and processes of science;
- design and manage safe and supportive learning environments for science instruction;
- apply unifying concepts to help students integrate science with the natural world and relate science to their community;
- apply the processes of scientific inquiry, including the ability to design and conduct scientific investigations and evaluate and interpret data;
- apply physical and life science facts, concepts and theories;
- establish connections between science and technology;
- apply science concepts, principles and processes to personal and social decision making; and
- understand the history and nature of science.

Required courses (114-115 hours)

Major Core		
CHEM 151, 152	General Chemistry I and II	4, 4
CHEM 211	Organic Chemistry I	4
PHYS 151, 152	General Physics I and II	4, 4
Select 8 hours of an earth or space science elective with a lab		8

Select 4 hours of an additional lab science elective		4
Major Cognates		
BIOL 111, 112	Human Anatomy and Physiology I and II	4, 4
BIOL 200, 202	General Biology I and II	5, 5
MATH 119	Trigonometry	3
or MATH 184	Calculus I (4)	
Professional Education		
EDUC 418	Methods: Science Education	3
	Additional Professional Education	58

Theology

Mission

The degree in Theology will prepare students for gospel ministry in the Seventh-day Adventist Church. The curriculum of the Theology major is designed to educate and empower those called to ministry to reach their world for Christ with hope and wholeness. Those pastors who are most effective in this mission are proficient in the seven core qualities of ministry as identified by the Ministerial department of the North American Division of Seventh-day Adventists. These core qualities are character, evangelism, leadership, worship, management, scholarship, and relationship.

Outcomes

Students graduating from the theology program will be prepared to

- express an active faith in a life of Christian discipleship;
- cultivate scholarship by proficiency in Biblical languages;
- exhibit scholarship in the knowledge and interpretation of the Bible;
- demonstrate scholarship through a substantial knowledge of the history, mission and theological beliefs of the Seventh-day Adventist church;
- demonstrate scholarship through knowledge of Christian theology and church history;
- integrate skills of leadership, management, and preaching in worship and pastoral ministry;
- apply skills of interpersonal relationships in pastoral ministry;
- utilize skills in personal and public evangelism;
- display Christian character by the ability to apply ethical principles in life situations; and
- enter full-time pastoral ministry and complete the Masters of Divinity degree at the Seventh-day Adventist Theological Seminary.

Candidacy for Ministry

A call to gospel ministry is a divine calling from God, affirmed by the church, and demonstrated in the practical skills of ministry. This calling develops a high level of spiritual commitment and an exemplary lifestyle. The Bachelor of Arts degree with a theology major helps to prepare

students to fulfill their call to gospel ministry. Because ministry involves more than the completion of a course of study, the Religion program has established a series of measures whereby a student becomes a candidate for ministry. Participation in the candidacy program includes:

- Freshman year: In Introduction to Ministry class, students begin the religion program portfolio;
- Sophomore year: In the second semester of the sophomore year, students formally apply for candidacy to ministry. In evaluating applicants, faculty will consider spiritual commitment, academic progress, emotional stability, and social and professional skills in order to determine the student's overall potential for success in ministry. Transfer students with sophomore standing or above must apply to enter the candidacy program during the second semester of their college residency;
- Junior year: In Biblical Preaching and Church Leadership classes, students are assigned to local congregations for observation and practical experience;
- Senior year: Students will participate in the capstone Leadership in Ministry experience. This semester-long program is designed to immerse the student pastor in pastoral ministry; and
- Completion of the Bachelor of Arts degree with a major in theology with a cumulative GPA of 2.5 is required for recommendation to seminary.

If after being admitted into the candidacy program a student fails to meet the criteria of a candidate for ministry, the candidate forfeits the standing and privilege of being recommended for pastoral ministry.

Program Specific Fees:

Course fees for RELL 171, 172, 273, and 274 New Testament Greek; and RELP 322, RELP 362, RELP 465, RELP 466, and RELP 490 Leadership in Ministry courses are charged through the Religion Program as program specific fees. Information regarding current fees is available by contacting the Director of the Religion Program, Dr. Pierre Steenberg.

THEOLOGY, BA

The general education requirement for categories 1 (Following Christ) and 2 (Thinking Deeply as a Christian) are met by fulfilling the required Core courses for this major. The language requirement is met by the required Biblical languages minor.

A student may not receive both a Theology BA degree and a Religion BS degree.

Required courses (80 hours)

Major Core		
RELB 226	Old Testament Survey	3
RELB 255	Jesus and the Gospels	3
RELB 338	Pentateuch	3
RELB 335	New Testament Epistles	3
or RELB 260	Interpretation of Romans (3)	
RELB 349	Revelation	3
RELH 310	History of the Seventh-day Adventist Church	3
RELH 410	History of the Christian Church	4
RELP 125	Introduction to Pastoral Ministry	2
RELP 321, 322	Biblical Preaching I and II	3, 4
RELP 361, 362	Church Leadership I and II	3, 4
RELP 465	Personal Witnessing	3
or RELG 466	Public Evangelism (3)	

RELP 490	Senior Seminar	1
RELT 305	Christian Ethics	3
RELT 337, 338	Christian Theology I and II	3, 3
RELT 455	Prophetic Guidance in the Advent Movements	3

Topic Courses & Directed Studies

In addition to the courses described in this section, Topics and Directed Study courses are available for most disciplines. These and practicum courses that are not regularly listed in the class schedule require special procedures and program approval before they can be taken. Forms with instructions for enrolling in these classes may be obtained from the Records office.

Topics, Directed Readings and Directed Study courses are generally described as follows: (In actual practice, a specific discipline prefix will be used.)

___ 195 Directed Readings 1

Designed for students needing a lower division credit by summarizing assigned readings. Written approval of the instructor and program director is required before registration for Directed Readings courses.

___ 287 Topics 1-3

Designed for students needing a lower division course not listed in the regular course offerings. Written approval of the instructor and program director is required before registration for Topics courses.

___ 295 Directed Study 1-3

Designed for students doing library research or other special projects at the lower division level under faculty supervision. Written approval of the instructor and program director is required before registration for Directed Studies courses.

___ 487 Topics 1-3

Designed for students needing an upper division course not listed in the regular course offerings. Written approval of the instructor and program director is required before registration for Topics courses.

___ 495 Directed Study 1-3

Designed for students doing library research or other special projects at the upper division level under faulty supervision. Written approval of the instructor and program director is required before registration for Directed Studies courses.

Accounting

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

ACCT 211 Principles of Accounting I 3

Provides a foundation for a life-long understanding of financial topics. Students will learn generally accepted accounting principles for maintaining accounting records and preparing basic financial statements including the Income Statement, Statement of Owner's Equity, and Balance Sheet. *Fall semester.*

ACCT 212 Principles of Accounting II 3

Prerequisite: ACCT 211 (minimum grade of C)

A continuation of ACCT 211 with additional discussion of basic accounting principles. Students gain further experience in setting up and maintaining basic accounting records, as well as preparing financial statements (including the statement of cash flows) with coverage of corporations and partnerships. Financial statement analysis is also introduced. *Spring semester.*

ACCT 313 Intermediate Accounting I 4

Prerequisite: ACCT 212 (minimum grade of C)

Covers accounting principles involved in the preparation and interpretation of financial statements. Topics include cash, receivables, inventory, property, depreciation, intangible assets and revenue recognition. Accounting research using the FASB Codification is also introduced. *Fall semester.*

ACCT 314 Intermediate Accounting II 4

Prerequisite: ACCT 313 (minimum grade of C)

A continuation of ACCT 313. Students learn to apply and understand generally accepted accounting principles for the following areas: current and long-term liabilities, corporate equity, earnings per share, investments, deferred income taxes, pensions, leases and the statement of cash flows. *Spring semester.*

ACCT 315 Federal Income Tax - Individual 3

An introductory course in U.S. income taxation of individuals. Upon successful completion of this course the student will have a fundamental understanding of the tax laws and regulations affecting individuals. The class focuses on preparation of a variety of income tax returns allowing the student to become acquainted with various scenarios common in the public accounting tax world. *Fall semester, odd years.*

ACCT 316 Federal Tax - Corporate, Partnership and Fiduciary 3

Study of U.S. income taxation of corporations, partnerships, estates, and trusts. Examines the federal internal revenue code and income tax regulations as they apply to basic federal gift and estate tax principles, corporation and partnership formation and operation, and the restructuring of organizations. Emphasizes tax planning, including the timing of transactions, the election of methods when alternative tax methods are available, and other means to minimize the impact of taxation. *Spring semester, even years.*

ACCT 320 Financial Statement Analysis 2

Prerequisite: ACCT 313 (minimum grade of D-)

Focuses on analytic and diagnostic tools to interpret numbers in the financial statements, to compare companies financially, understand cash flow, and grasp profitability issues and risk analysis concepts. In-depth ratio analysis is included. *Fall semester.*

ACCT 325 Cost and Managerial Accounting 3

Prerequisite: ACCT 212 (minimum grade of C)

Concentrates on a manager's use of financial information. This class introduces and practices tools and methods for internal cost analysis, budgeting, financial analysis, and decision making for internal team leaders, supervisors, and managers. *Spring semester.*

ACCT 335 Accounting Information Systems 3

Prerequisite: ACCT 211 (minimum grade of C)

Study of the concepts of accounting information systems, especially those pertaining to managerial decision-making and internal control. Students are provided with hands-on experience in setting up and operating a commercial accounting software package. *Fall semester, odd years.*

ACCT 420 Introduction to Forensic Accounting 1

Prerequisite: ACCT 314 (minimum grade of D-)

Covers basic forensic accounting techniques, including gathering, interpreting, and documenting evidence. Also examines the investigative techniques used by accountants to conduct forensic examinations as well as the common schemes and techniques used to commit fraud. *Fall semester, even years.*

ACCT 443 Governmental and Not-for-Profit Accounting 2

Prerequisite: ACCT 314 (minimum grade of D-)

Study of fund accounting according to GASB principles for governmental entities, as well as FASB principles related to not-for-profit organizations. Financial statement reporting requirements under both models are also studied. *Fall semester, even years.*

ACCT 455 Auditing 4

Prerequisite: ACCT 313 (minimum grade of C)
Recommended preparation: ACCT 314

Study of generally accepted auditing standards and rules of professional conduct as they relate to planning an audit, performing tests of controls and substantive tests, and issuing audit reports. Students will complete a case-study audit. *Spring semester.*

Art

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

ART 105 Drawing Fundamentals 2

A foundational course covering basic drawing principles. Emphasis is placed on observational skills. Line, value, perspective and other elements of art will be explored using a variety of techniques and media.

ART 125 Oil Painting 2

Exploration of the basic techniques and elements of painting in oil. Students demonstrate their mastery of such principles as style, line, color, texture, value and composition in a variety of paintings. May be repeated for additional credit. *Scheduled as needed.*

ART 135 Pottery 2

Introduction to ceramics. Students learn how to throw on the potter's wheel and hand build using a variety of techniques. Projects include cups, bowls, mugs, plates etc. May be repeated for additional credit. *Scheduled as needed.*

ART 145 Watercolor 2

Beginning techniques and mechanics in working with watercolor as a transparent medium are stressed. A series of exercises is used for this purpose. Various techniques of watercolor painting are demonstrated in finished paintings. May be repeated for additional credit. *Scheduled as needed.*

ART 155 Acrylic Painting 2

Exploration of the basic techniques and elements of painting with acrylics. Students demonstrate their mastery of such principles as style, line, color, texture, value and composition in a variety of paintings. May be repeated for additional credit. *Scheduled as needed.*

ART 215 School Art 2

An exploration of the theory and practice of teaching art to children. Discussions and readings constitute a portion of the study. Students explore various media, resulting in a body of both two- and three-dimensional projects appropriate for teaching art in K-12 educational settings. *Fall semester.*

ART 220 Elements and Principles of Design 3

Principles of design such as proportion, balance, rhythm, emphasis and unity are studied together with elements of design such as line, form, space, time, movement, texture, light and color. Projects are done in a variety of media. *Fall semester.*

ART 225 Color Theory 2

Prerequisite: GRPH 150 (minimum grade of D-)

Study of color as a communicator. Varied projects accompany the theory of color and how it affects the viewer, to determine the effects of value, intensity, ground, etc. in the visual experience. *Spring semester, odd years.*

ART 321 Art History I 3

A chronological survey of visual art from ancient times to the Renaissance. Emphasis is on art as a product of culture and society. Focus is also given to techniques of visual analysis. *Fall semester, even years.*

ART 322 Art History II 3

A chronological survey of visual art from the Renaissance to postmodernism. Emphasis is on art as a product of culture and society. Focus is also given to techniques of visual analysis. *Fall semester, odd years.*

ART 485 Senior Exhibit 1

The final event in an art major's university experience. Students exhibit a body of work and develop a statement of philosophy and a résumé. *Fall and Spring semesters.*

Biokinesiology Activity

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BKNA credits may be repeated for additional credit with permission of the instructor.

BKNA 145 Beginning Badminton 1

Instruction and practice of the fundamental skills and techniques essential for successfully playing badminton. Students provide their own equipment. *Scheduled as needed.*

BKNA 146 Beginning Pickleball 1

Instruction and practice of the fundamental skills and techniques essential for successfully playing Pickleball. Students provide their own equipment. *Scheduled as needed.*

BKNA 147 Beginning Tennis 1

Instruction and practice in the fundamental skills involved in playing tennis. Students provide their own equipment. *Scheduled as needed.*

BKNA 149 Beginning Golf 1

Instruction and practice in the skills essential to playing golf. Expenses in addition to tuition are necessary for greens fees. Students provide their own equipment. *Scheduled as needed*.

BKNA 151 Beginning Volleyball 1

Instruction and practice of basic skills for volleyball team participation. *Scheduled as needed.*

BKNA 155 Concepts of Wellness 2

A universal design approach to developing a practical theory of general and cardiovascular fitness for all students. Reviews the principles of health instruction as cited in the Scriptures and counsels of Ellen White. Application in aerobics, aquatics, calisthenics, running and weight training accomplishes improved fitness. May not be repeated for additional credit. *Fall and Spring semesters.*

BKNA 210 Swimming 1

Basic instruction in the six swimming strokes, treading water, turns, surface dives and other skills in the Red Cross Program. *Scheduled as needed.*

BKNA 220 Healthy Eating and Fitness 2

Prerequisite: BKNA 155 (minimum grade of D-)

A comprehensive approach to weight loss that focuses on healthy eating, physical activity and exercise. Students will learn a simple, fun, whole-diet approach that shows how to make gradual changes to improve healthy living. *Scheduled as needed.*

BKNA 230 Muscular Fitness 1

Designed to improve strength, stability, and flexibility through a series of gentle stretches and controlled movements. This class focuses on enhancing muscular endurance, balance, and posture while incorporating breathwork to support relaxation and energy. Suitable for all fitness levels, each session offers a refreshing way to build a stronger, more flexible body in a calm and supportive environment. Required equipment: Fitness mat. *Scheduled as needed.*

BKNA 235 Weight Training and Physical Conditioning 1

Designed to give instruction for knowledge and experience in weight training relative to total fitness. *Scheduled as needed.*

BKNA 249 Fitness Walking 1

Designed to assist walkers of any age, background, or fitness level to acquire the knowledge, skills, and attitudes necessary for participation in a lifelong program of fitness walking. *Scheduled as needed.*

BKNA 250 Running for Fitness 1

Designed to increase cardiovascular fitness and a practical knowledge of the healthy benefits of running as a lifestyle. *Scheduled as needed.*

Biokinesiology Theory

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BKNT 215 Emergency Health Care 1

Leads to certification in CPR/AED for the Professional Rescuer and Responding to Emergencies First Aid. Provides hands-on experience for the knowledge and skills necessary in an emergency to help sustain life and to minimize pain and the consequences of injury or sudden illness until professional medical help arrives. *Spring semester.*

BKNT 216 Athletic Injuries 3

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-)*
Focuses on skills for the treatment and care of athletic and recreational injuries. *Spring semester, odd years.*

BKNT 256 Medical Terminology 1

This self-study module enables students to pace their learning of medical terms. *Fall semester.*

BKNT 329 Worksite Health Promotion 3

Designed to be a comprehensive overview of the field of health promotion in a worksite setting. Visitation to local worksites is included. *Fall semester, odd years.*

BKNT 345 Sports Nutrition 2

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-)*

Examines the interrelationships among nutrition, health, and exercise performance. General principles include: eating disorders, weight management, hydration, and ingested ergogenic aids, all of which are common among physically active individuals. *Fall semester, odd years.*

BKNT 350 Practicum 1

Prerequisite: Permission of instructor

Affords the opportunity to observe practical work in a student's chosen field, and to assist in the organization and administration of the program (on-campus). Approximately 45 hours per credit hour are spent in the completion of all aspects of the practicum experience. *Fall and Spring semesters.*

BKNT 356 Physiology of Exercise 3

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-)*

Covers training, sedentary lifestyle and the study of the physiological factors related to human movement. *Fall semester, odd years.*

BKNT 357 Motor Learning 3

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-)*

Covers neurological and psychological factors affecting the learning of movement skills. *Spring semester, odd years.*

BKNT 360 Kinesiology 3

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-)*

Designed so the student may learn and apply the anatomical, physiological, and basic mechanical principles relative to human movement. *Spring semester, even years.*

BKNT 366 Adapted Fitness 2

Covers the fitness professional's role in identifying and providing appropriate activities for individuals who have structural, physical, neurological or psychological disorders. *Fall semester, even years.*

BKNT 370 Personal Training 3

Prerequisites: BIOL 111 (minimum grade of D-) ***and*** *BIOL 112 (minimum grade of D-)* ***or*** *BIOL 200 (minimum grade of D-)* ***and*** *BIOL 202 (minimum grade of D-);* ***and*** *BKNT 215 (minimum grade of D-)*

Designed to develop the skills necessary for being a personal trainer. Completion of this course prepares students for the National Strength and Conditioning Association Certified Personal Trainer (NSCA-CPT) exam. *Spring semester, even years.*

BKNT 437 Measurement and Evaluation in Biokinesiology 2

Prerequisite: MATH 111 or above (minimum grade of D-)

Covers elementary statistics applicable to test construction, performance, and evaluation. Students develop appropriate measurement and evaluation techniques essential for all professionals in the exercise, sport science, and health promotion fields. *Fall semester, even years.*

BKNT 476 Health Promotion Methods, Materials, and Management 3

A course in planning, implementing and evaluating worksite and community health promotion activities, including stress management, smoking cessation, cardiovascular fitness, body composition and cholesterol testing. *Fall semester, even years.*

BKNT 485 Seminar in Biokinesiology 1

A study of biokinesiology from a cultural perspective-past and present. *Fall semester.*

BKNT 486 Senior Capstone 1

All Biokinesiology majors are required to apply the principles of research design by selecting, designing and, depending upon the nature of the study, initiating research in a project directly applicable to biokinesiology. Each student produces a report presenting their research process and findings. Additionally, a significant portion of the grade includes explanation of the completed portfolio. *Spring semester.*

Biokinesiology Varsity Sports

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

Varsity sports do not apply toward the Biokinesiology Activity general education requirements but count as elective credit toward the total hours for graduation.

BKNV 145 Varsity Soccer 0.5

Prerequisite: Permission of Instructor

Participation on the intercollegiate soccer team (men), as verified by the athletic director. Registration must be in the same semester as participation. Credit only available in the Fall semester. Graded CR/NC. *Fall semester.*

BKNV 150 Varsity Volleyball 0.5

Prerequisite: Permission of Instructor

Participation on the intercollegiate volleyball team (women), as verified by the athletic director. Registration must be in the same semester as participation. Credit only available in the Fall semester. Graded CR/NC. *Fall semester.*

BKNV 155 Varsity Basketball 0.5

Prerequisite: Permission of Instructor

Participation on the intercollegiate basketball team (men or women), as verified by the athletic director. Registration must be in the same semester as participation. Credit only available in the Spring semester. Graded CR/NC. *Spring semester.*

BKNV 160 Varsity Gymnastics 1

Prerequisite: Permission of Instructor

Participation on the intercollegiate gymnastics team, as verified by the athletic director. Registration must be in the same semester as participation. Credit only available in the Spring semester. Graded CR/NC. *Spring semester.*

Biology

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BIOL 106 Human Biology 3

A survey of the human body and focusing on the structure and function of each physiological system. This course is designed for those not requiring the depth offered in BIOL 111 and BIOL 112. Does not apply toward a major or minor offered in the Biomedical Science program. May not be taken for credit if BIOL 111 or 112 previously taken. *Fall semester.*

BIOL 109 Humanity and Our Environment 3

An introductory course designed for students who are not science majors. This course will explore various topics on how the environment impacts humanity, as individuals and a society, and how humanity impacts the environment. The cause-effect relationships in these interactions will be a major focus. *Summer semester, in conjunction with a study tour, as needed.*

Does apply toward a major or minor offered in the Biomedical Science program. May not be taken for credit if BIOL 393 (Humanity and Our Environment) previously taken.

BIOL 110 Genes and Society 3

This is a general education course, for non-science majors. Human genetics is a fast-paced biological science; it generates knowledge and technological applications that have an impact on personal lives and in our society. The main goal of this course is to provide students with a foundation for making informed decisions regarding the use of genetics in our personal lives and our society as well. Does not apply toward a major or minor offered in the Biomedical Science program. *Spring semester.*

BIOL 111 Human Anatomy and Physiology I 4

Recommended preparation: One year of high school chemistry

An introduction to the fundamentals of anatomy and physiology including the chemistry of life, cytology, histology, cellular respiration, skeletal, muscular, integumentary, and nervous systems of the body. Three lectures and one three-hour laboratory per week. *Fall semester.*

BIOL 112 Human Anatomy and Physiology II 4

Prerequisite: BIOL 111 (minimum grade of C)

Anatomy and physiology of the endocrine, digestive, respiratory, circulatory, excretory and reproductive systems of the human body. Three lectures and one three-hour laboratory per week. *Spring semester.*

BIOL 200 General Biology I 5

Recommended preparation: One year of high school biology or chemistry

An introduction to the science of biology including the chemistry of life, cell biology, cellular respiration, photosynthesis, Mendelian, population and molecular genetics, speciation and macroevolution versus creation as models for origins. Three lectures and one three-hour laboratory per week. *Fall semester.*

BIOL 202 General Biology II 5

Prerequisite: BIOL 200 (minimum grade of C)

A continuation of topics in BIOL 200 with coverage of protist diversity, plant and animal diversity; anatomy, physiology and reproduction in plants; animal anatomy and physiology including digestive, circulatory, respiratory, endocrine, nervous, reproductive, and immune systems; sensory specializations of humans and animal development. Three lectures and one three-hour laboratory per week. *Spring semester.*

BIOL 205 Microbiology 4

*Prerequisites: [BIOL 112 **and** CHEM 104 (minimum grade of C)] or [BIOL 200 **and** CHEM 151 (minimum grade of C)].*

A survey of major groups of microbes with relationships to health and disease. Basic principles of microbial nutrition, metabolism, genetics, ecology, microbial control and microbe-human interactions are also considered. The laboratory introduces a variety of procedures, including asepsis, culture, isolation and identification of microorganisms, especially bacteria. Three lectures and one three-hour laboratory per week. *Fall and Spring semesters.*

BIOL 220 Pathophysiology 3

*Prerequisite: BIOL 112 (minimum grade of C) **or** BIOL 202 (minimum grade of C)*

Basic concepts of pathophysiology are introduced beginning with a major focus on cellular functions and pathology. These concepts serve as the foundation for the course of pathological changes and their manifestations, including inflammation, in major body systems are examined. Alterations in body fluid and electrolyte homeostasis, acid-base balance, digestive, urinary, respiratory, cardiac, endocrine, neurological, and musculoskeletal functions are emphasized. 90 minutes of lecture and 90 minutes of online work per week. (Offered through Bryan College of Health Sciences). *Fall and Spring semester.*

BIOL 312 Parasitology 3

Prerequisite: BIOL 202 (minimum grade of C)

This course is a comparative survey of the primary parasites of human importance with an emphasis on morphology, life cycles, epidemiology, pathogenesis and the interface between the parasite and the host immune system. Students will develop a global perspective of the burden of parasitic diseases. *Fall semester.*

BIOL 321 Genetics 4

Prerequisites: BIOL 202 (minimum grade of C) ***and*** *[CHEM 152 or CHEM 104 (minimum grade of C)]*

A study of classical and population genetics. Topics include the physical and chemical nature of genes, inheritance patterns, chromosome anomalies, behavior of genes in populations and speciation. One three-hour laboratory per week. *Fall semester.*

BIOL 357 Animal Biology for Biomedical and Veterinary Science 4

Prerequisite: BIOL 202 (minimum grade of C)

A survey of comparative anatomy, physiology, ecology, and behavior of animal species relevant to medicine, veterinary medicine, and biological research. Emphasis is placed on animals transmitting or causing disease in humans and other animals, animals frequently in need of veterinary care, and animals frequently used in biomedical research laboratories. Three lectures and one three-hour laboratory per week. *Scheduled as needed.*

BIOL 358 Animal Development 4

Prerequisite: BIOL 112 (minimum grade of C) ***or*** *BIOL 202 (minimum grade of C)*

A study of the developmental processes involved generating functional adult organisms. Topics will include normal and abnormal developmental processes with an emphasis on how genetic mutations, diseases, and environmental conditions interfere with these processes. Examples used in the course will include animal species that serve model systems for understanding human development. Three lectures and one four-hour laboratory each week. *Spring semester.*

BIOL 360 Human Nutrition and Disease 3

Prerequisite: BIOL 112 (minimum grade of C) ***or*** *BIOL 202 (minimum grade of C)*

An in-depth examination of the nutritional needs of the human body and the diseases that result when those nutritional needs are not met or grossly exceeded. Emphasis will be placed on the holistic perspective of balanced nutritional intake and its effect on the human body. Three lectures each week. *Fall semesters.*

BIOL 366 Plants and Human Health 3

Prerequisite: [BIOL 202 and CHEM 104 (minimum grade of C)] ***or*** *[BIOL 202 and CHEM 212 (minimum grade of C)]*

This course focuses on the role and importance of plants on human health. It surveys the importance of plants in the human diet, the connection between plants and medicine, poisonous and allergy plants, plants with mind-altering properties, plants used to create stimulating beverages, and herbs and spices used in both cooking and medicine. *Scheduled as needed.*

BIOL/CHEM 386 Research Methods: Scientific Inquiry 1

Prerequisites: [BIOL 200 or CHEM 151 or PHYS 151 or PHYS 251 (minimum grade of C)] ***and*** *MATH 221 (minimum grade of C)] and at least Sophomore status*

An introduction to the methods and mechanics of the research process and critical assessment of research literature. Topics include the nature, methods, literature, funding, limitations and strengths of scientific research. A literature search, critical literature analysis, and a literature review are required. *Fall semester.*

BIOL 391 Virology 3

Prerequisite: BIOL 404 (minimum grade of C)

This course is an overview of virology as it applies to human health and disease. A broad discussion of the molecular mechanisms of viral pathology will be provided. Viral evolution and dynamics of infection in the presence of a host immune response will be explored. Further, insight will be given as to how viruses are able to maintain themselves in reservoir species and cause outbreaks in the human population.(Offered through Bryan College of Health Sciences.) *Fall semester, even years.*

BIOL 392 Environmental Science 3

Prerequisite: BIOL 202 (minimum grade of C)

An introduction to the science of biology including the chemistry of life, cell biology, cellular respiration, photosynthesis, Mendelian, population and molecular genetics, speciation and macroevolution versus creation as models for origins. *Spring semester.*

BIOL 393 Humanity and Our Environment 3

Prerequisite: BIOL 202 (minimum grade of C)

An exploration of various topics on how the environment impacts humanity, as individuals and a society, and how humanity impacts the environment. The cause-effect relationships in these interactions and how these relationships impact human health, the spread of disease, and the field of medicine will be major areas of focus. *Summer semester, in conjunction with a study tour, as needed.*

BIOL/CHEM 396 Research Methods: Proposals and Protocols 1

Prerequisite: BIOL/CHEM 386 (minimum grade of C)

Emphasizes research design. The student will interview science faculty to learn about potential research projects and will choose a project to work on with a faculty member. The selected project will be proposed and prepared for through a literature review, experiment proposal, and experiment protocol development. *Spring semester, as needed.*

BIOL 403 Molecular Biology 4

Prerequisite: BIOL 321 (minimum grade of C)

A study of DNA and RNA structure and function at the molecular level, understanding gene regulation and DNA technology and analysis. This course is organized in four parts: (1) Nucleic acid structure; (2) Molecular mechanisms related to both the flow of genetic information and regulation of gene expression (3) Genetic Recombination; and (4) DNA technology. Three lectures and one three-hour laboratory per week. *Spring semester, odd years.*

BIOL 404 Cell Biology 4

Prerequisites: BIOL 202(minimum grade of C) ***and*** *CHEM 212 (minimum grade of C)* ***and*** *junior standing (56 hours of university credit).*

A study of cell structures and functions with an emphasis on cell signaling and regulation at the molecular level. The course is organized in four parts: (1) methods of cellular research, (2) cell composition and organization; (3) cell and organelle structure and function; (4) cell signaling and regulation; and (5) cell cycle regulation and cancer. Three lectures and one three-hour laboratory per week. *Spring semester, even years.*

BIOL 411 Advanced Human Anatomy 4

*Prerequisites: [BIOL 112 (minimum grade of C) **or** BIOL 202 (minimum grade of C)] **and** BKNT 256 **and** junior standing (56 hours of university credit).*

A study of the structure and organization of the human body with particular emphasis on macroscopic anatomy. Three lectures and one three-hour laboratory per week. Cadaver work included. *Spring semester.*

BIOL 416 Advanced Human Physiology 4

*Prerequisites: BIOL 112 (minimum grade of C) **or** BIOL 202 (minimum grade of C) **and** junior standing (56 hours of university credit).*

Studies the physiology of the musculo-skeletal, nervous, endocrine, cardiovascular, respiratory, digestive, reproductive, and renal systems and metabolism with emphasis on regulatory mechanisms and integration. Three lectures and one three-hour laboratory per week. *Fall semester.*

BIOL/CHEM 440 Biochemistry 4

*Prerequisites: BIOL 200 (minimum grade of C) **and** CHEM 212 (minimum grade of C)*

Study of the fundamental principles of enzyme kinetics, enzyme mechanisms and enzyme regulation based on the structure and chemistry of biomolecules including amino acids, carbohydrates, lipids, proteins, nucleotides, nucleic acids, and biological membranes. This course is designed for pre-professional students. Does not include a lab. (Offered through Andrews University – distance learning.) *Scheduled as needed.*

BIOL 441 Neuroscience 3

*Prerequisites: BIOL 112 **or** BIOL 202 (minimum grade of C) **and** junior standing.*

A survey of the structure and function of the nervous system. Emphasis is, especially placed in the function of neural circuits in processing information and decision-making. Focus will be placed on how the nervous system detects and processes stimuli and produces relevant behaviors in response. Three lectures each week. *Spring semester, even year.*

BIOL/CHEM 445 Biochemistry I 4

*Prerequisites: BIOL 200 (minimum grade of C) **and** CHEM 212 (minimum grade of C)*

A study of the chemical properties and biological functions of amino acids, proteins, enzymes, carbohydrates, and lipids. Covers metabolism including glycolysis, Krebs cycle and oxidative phosphorylation. The laboratory includes basic techniques and instruments used for biochemical research and biotechnology. Three lectures and one laboratory per week. *Fall semester.*

BIOL/CHEM 446 Biochemistry II 3

*Prerequisite: BIOL/CHEM 440 (minimum grade of C) **or** BIOL/CHEM 445 (minimum grade of C)*

A continuation of CHEM/BIOL 440/ 445 Biochemistry I. Includes a review of glycolysis, gluconeogenesis, TCA cycle and oxidative phosphorylation. An in-depth study of metabolism including the catabolism and biosynthesis of glycogen and fatty acids, and the pentose phosphate pathway and lipid synthesis. In addition, the class examines other aspects of biochemical systems. *Spring semester, odd years.*

BIOL 455 Immunology 3

Prerequisites: [BIOL 202 (minimum grade of C) ***or*** *BIOL 112 (minimum grade of C)]****and*** *BIOL 205 (minimum grade of C)*

Basic concepts of the innate and adaptive immune systems are covered including details about the molecules, cells and organs involved. Emphasis will be placed on mechanisms of immune system development, response to pathogens, and the classic experiments performed to make key discoveries in immunology. (Offered through Bryan College of Health Sciences.) *Fall semester, odd years.*

BIOL 476 Medical Ecology and Epidemiology 3

Prerequisite: BIOL 202 (minimum grade of C)

An analysis of the environmental and societal factors that influence the health of the human population. Topics will include factors influencing the distribution and abundance of medically relevant plant and animal species (e.g., disease vectors and poisonous or toxic organisms), the movement of toxic chemicals through the environment, and the spread of human disease. Strategies for studying these interactions in the epidemiological setting will be addressed. Three lectures and one three-hour laboratory per week. *Spring semester, odd years.*

BIOL/CHEM 496 Research Methods: Independent Research 1-3

Prerequisites: BIOL/CHEM 396 (minimum grade of C) ***and*** *ENGL 212 (minimum grade of C)*

Emphasizes active research and both oral and written reporting of the results of research. The project proposed in BIOL/CHEM 396 is carried out and both written and oral presentations of the research are made. May be repeated for credit when research projects extend beyond one semester. Written and oral updates of research progress must be completed each semester. *Scheduled as needed.*

Biomedical Science

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BIOM 201 Professional Development I 1

This course provides students with opportunities to job shadow health professionals, begin building their applications to graduate/professional programs, develop their interviewing skills, and critically assess their competitiveness as candidates to their graduate/professional program of choice. Students will share their perspectives and experiences to each other during class time. This course must be taken no later than the fall of the sophomore year, or for students changing their major to biomedical science, within one year of their transfer into the major. *Fall semester.*

BIOM 302 Professional Development II 1

This course is designed to promote critical reading comprehension, logical argument, analysis, and critical writing skills in preparation for taking entrance exams and embarking on graduate studies. Major topics will include understanding logical arguments, making valid extensions of logical arguments, identifying logical arguments in reading passages, and writing essays with logical argumentation. This course must be taken no later than the spring of the sophomore year, or for students changing their major to biomedical science, within one year of their transfer into the major. *Spring semester.*

Business Analytics

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BSAN 220 Data Analysis Tools 3

This course offers hands-on training with a focus on Excel in the first half, covering beginning and intermediate skills such as formatting, formulas and pivot tables. The latter half of the course introduces basic SQL queries and Tableau, equipping students with the tools to analyze, visualize, and derive actionable insights from data. *Fall and spring semesters.*

BSAN 330 Business Analytics 3

Prerequisite: BSAN 220 (minimum grade of D-)
Recommended: Laptop computer for use in class

Provides an introduction to data analytics for business, including using data to describe, predict, and inform business decisions. Develops basic data literacy and an analytic mindset that will help students make strategic decisions based on data. Includes working with large data sets in a simulation. *Spring semester.*

Business Administration

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

BUAD 219 Small Business Management 3

Explores the multidisciplinary demands of small business management. Students will explore concept feasibility and start up management. Whether starting a business, working within a small business, or joining an innovative corporate division, this course prepares students to think like entrepreneurs. *Spring semester.*

BUAD 225 Creativity and Innovation in Business 3

This course uses practical, hands-on activities to prepare students to contribute in a unique and creative way in the functional areas of business. Students will boost individual flexibility and originality of thought and will explore approaches to organizational creativity for successful problem-solving. Students will also learn how to contribute to and manage a team throughout the process. *Spring semester.*

BUAD 310 Sustainability Leadership 3

Prerequisite: ENGL 110 (minimum grade of D-)

Explores sustainable business practices through leadership and advocacy of the triple bottom line–balancing the needs of people, the planet, and profitability. Students will seek to align their personal values and beliefs with contemporary sustainable concepts. *Fall semester, even years.*

BUAD 316 Operations and Resource Management 3

Analysis of various decision-making models useful in making efficient managerial decisions. Topics covered include productivity, resource allocation, linear programming, inventory

management, and queuing theory. Methods include the use of correct models and software. *Spring semester.*

BUAD 325 Business Communication 3

Prerequisite: ENGL 110 (minimum grade of D-); COMM 105 or COMM 205 recommended

Instruction in the principles, techniques and tools of effective written and oral communication in an ever-changing business environment. Considers both individual and group communication skills in public and private settings. Includes the process of résumé writing, and interview preparation. *Fall semester*.

BUAD 350 Project Management 2

Familiarizes the student with the basic concepts of project management through studying both theory and application. Provides experience using some basic tools. Requirements are reviewed for entry-level certification for careers in project management. *Spring semester.*

BUAD 376 Human Resource Management 3

Prerequisite: Sophomore standing (24 hours of university credit)

Emphasizes the basics of human resource management in business organizations and considers a variety of topics in human relations, personnel management, and organizational behavior. *Spring semester.*

BUAD 405 Business Ethics 1

Prerequisite: RELT 305 (minimum grade of D-) ***or*** *RELT 306 (minimum grade of D-)*

Using class discussion format, introduces the student to theoretical frameworks of ethical behavior and practical application of ethics in the business environment. Students will apply these concepts to develop a personal code of ethics. *Spring semester.*

BUAD 428 Business Strategy 3

Prerequisites: ENGL 212 (minimum grade of D-) ***and*** *30 hours of business courses* ***and*** *Senior standing (92 hours of university credit)*

Designed as the capstone class for business administration majors. Includes study of the specific functions of top management with a particular focus on the elements of strategic planning. Students integrate the various functional areas of business through case study analysis and a comprehensive business simulation. *Spring semester.*

BUAD 430 Conflict Management 3

Prerequisites: ENGL 110 (minimum grade of D-) ***and*** *Junior standing (56 hours of university credit)*

Provides a framework for how to effectively manage conflict in students' professional and personal relationships, founded on Christian principles. Time is spent contrasting situations involving both positive and negative conflict. Topics include building effective teams, negotiation and accountability. *Spring semester, odd years.*

BUAD 445 Business Law 3

Prerequisite: Junior standing (56 hours of university credit)

A study of: legal institutions and origins; laws of contracts; agency; employment; negotiable instruments; personal property; bailments; transportation; suretyship and guaranty;

partnerships; corporations; real property; mortgages; leases; trusts; decedents' estates; bankruptcy; business torts and crimes. *Fall semester.*

Chemistry

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

CHEM 104 Introduction to General, Organic and Biochemistry 4

Prerequisite: MATH 111 (minimum grade of C or concurrent enrollment) ***or*** *ALEKS score of 46* ***or*** *[ACT Math score of 18 or SAT Math score of 470]*

Comprehensive study of the basic principles of chemistry applicable to the health science professions. Topics covered include measurements, the scientific method, atomic structure, the use of radiation in cancer treatment, stoichiometry, pH, acids, bases and buffers in the body, organic functional groups and reactions, glycolysis, the citric acid cycle, oxidative phosphorylation and the biochemical functions of carbohydrates, protein structure and function, nucleic acids, fats and proteins in the body. One laboratory per week. Does not apply toward a program major or minor. *Spring semester.*

CHEM 151 General Chemistry I 4

Prerequisite: MATH 111 (minimum grade of C or concurrent enrollment) ***or*** *ALEKS score of 46* ***or*** *[ACT math score of 20 or SAT Math score of 510]*

A comprehensive introduction to the fundamental principles of chemistry for chemistry majors and pre-professional students (medical, dental, etc.). Topics include unit analysis, chemical nomenclature, atomic theory and structure, periodicity, intermolecular forces, molecular structure and bonding reactions, solutions, stoichiometry, gas laws, and thermochemistry. One laboratory per week. *Fall semester.*

CHEM 152 General Chemistry II 4

Prerequisite: CHEM 151 (minimum grade of C)

A continuation of CHEM 151. Topics include reaction thermodynamics, kinetic theory, chemical kinetics, chemical equilibrium, acid-base chemistry, electrochemistry, and nuclear chemistry. One laboratory per week. *Spring semester.*

CHEM 211 Organic Chemistry I 4

Prerequisite: CHEM 152 (minimum grade of C)

A systematic study of the important classes of carbon compounds including their nomenclature, preparation, characteristic reactions and reaction mechanisms. For chemistry majors and pre-professional students (medical, dental, etc.). One laboratory per week. *Fall semester.*

CHEM 212 Organic Chemistry II 4

Prerequisite: CHEM 211 (minimum grade of C)

A continuation of CHEM 211. A systematic study of the physical and chemical properties of organic functional groups including aldehydes through amines and aromatic compounds. Includes an introduction to the theory and practice of infrared spectroscopy, NMR, and mass spectrometry. One laboratory per week. *Spring semester.*

CHEM 311 Analytical Chemistry 3

Prerequisite: CHEM 152 (minimum grade of C)

An introduction to the principles and processes of chemical analysis with emphasis on classical techniques. Topics include solution concentration unit manipulation, analytical applications of statistics, gravimetric and volumetric analysis, calibration techniques, activity equilibria, titration equilibria, simultaneous equilibria, and basic electrochemistry. Labs employ gravimetric, volumetric, spectrophotometric, and potentiometric techniques. One laboratory per week. *Fall semester, as needed.*

CHEM 312 Instrumental Analysis 3

Prerequisites: CHEM 152 (minimum grade of C) ***and*** *ENGL 212 (minimum grade of C)*

A study of the analytical process emphasizing instrumentation. Topics include applications of electronics, spectrometric, chromatographic, and electrochemical methods. Writing is emphasized through laboratory reports. One laboratory per week. *Spring semester, as needed.*

CHEM/BIOL 386 Research Methods: Scientific Inquiry 1

Prerequisites: [BIOL 200 or CHEM 151 or PHYS 151 or PHYS 251 (minimum grade of C)] ***and*** *[MATH 221 (minimum grade of C)] and at least Sophomore status*

An introduction to the methods and mechanics of the research process and clinical assessment of research literature.. Topics include the nature, methods, literature, funding, limitations and strengths of scientific research. A literature search, critical literature analysis, and a literature review are required. *Fall semester.*

CHEM/BIOL 396 Research Methods: Proposals and Protocols 1

Prerequisite: CHEM/BIOL 386 (minimum grade of C)

Emphasizes research design. The student will interview science faculty to learn about potential research projects and will choose a project to work on with a faculty member. A research project is proposed, a literature review undergone, a research plan developed for the project and, depending upon the nature of the study, research initiated. *Spring semester, As needed.*

CHEM 425 Inorganic Chemistry 2

Prerequisite: CHEM 152 (minimum grade of C)

An introduction to the descriptive chemistry of the main group elements, coordination chemistry, molecular symmetry, and bio-inorganic chemistry. The course includes several "mini-labs" (done during class time) where inorganic materials are synthesized and/or investigated. *Scheduled as needed.*

CHEM/BIOL 440 Biochemistry 4

Prerequisites: BIOL 200 (minimum grade of C) ***and*** *CHEM 212 (minimum grade of C)*

Study of the fundamental principles of enzyme kinetics, enzyme mechanisms and enzyme regulation based on the structure and chemistry of biomolecules including amino acids, carbohydrates, lipids, proteins, nucleotides, nucleic acids, and biological membranes. This course is designed for pre-professional students. Does not include a lab. (Offered through Andrews University – distance learning.) *Scheduled as needed.*

CHEM/BIOL 445 Biochemistry I 4

Prerequisites: BIOL 200 (minimum grade of C) ***and*** *CHEM 212 (minimum grade of C)*

A study of the chemical properties and biological functions of amino acids, proteins, enzymes, carbohydrates, and lipids. Covers metabolism including glycolysis, Krebs cycle and oxidative phosphorylation. The laboratory includes basic techniques and instruments used for biochemical research and biotechnology. One laboratory per week. *Fall semester.*

CHEM/BIOL 446 Biochemistry II 3

Prerequisite: CHEM/BIOL 440 (minimum grade of C) ***or*** *CHEM/BIOL 445 (minimum grade of C)*

A continuation of CHEM/BIOL 440/445 Biochemistry I. Includes a review of glycolysis, gluconeogenesis, TCA cycle and oxidative phosphorylation. An in-depth study of metabolism including the catabolism and biosynthesis of glycogen and fatty acids, and the pentose phosphate pathway and lipid synthesis. In addition, the class examines other aspects of biochemical systems. *Spring semester, odd years.*

CHEM 451 Physical Chemistry: Thermodynamics 4

Prerequisites: CHEM 152 (minimum grade of C) ***and*** *MATH 285 (minimum grade of C)* ***and*** *PHYS 252 (minimum grade of C)*

Chemical thermodynamics is developed to describe energy and entropy changes in ideal and real gasses and extended to a range of chemical systems. Manipulation of multiple variables is achieved by use of partial differential equations, and skill in identifying the conditions of the problem to derive the appropriate equations for a particular application are developed. Attention is given to the results of applying Gibbs Energy and other thermodynamic constructs to a variety of uses including electrochemistry and phase equilibria. Three lectures and one laboratory per week. *Fall semester, odd years.*

CHEM 452 Physical Chemistry: Quantum Mechanics and Kinetics 4

Prerequisites: CHEM 152 (minimum grade of C) ***and*** *MATH 285 (minimum grade of C)* ***and*** *PHYS 252 (minimum grade of C)*

Introductory course in quantum mechanics including wave-particle duality, time-independent Schrödinger equation, harmonic oscillators, matrix treatment, and the wave treatment of the hydrogen atom. Uses and applications of differential equations and matrices are developed along with a historical perspective of the development of our understanding of quantum mechanics. Kinetics: The dynamics of chemical reactions are studied, as well as methods to determine rates, and common interpretations of mechanisms of chemical reactions from rate data. Four lectures per week. *Spring semester, even years.*

CHEM/BIOL 496 Research Methods: Independent Research 1-3

Prerequisites: CHEM/BIOL 396 (minimum grade of C) ***and*** *ENGL 212 (minimum grade of C)*

Emphasizes active research and both oral and written reporting of the results of research. The project proposed in CHEM/BIOL 396 is carried out and both written and oral presentations of the research made. *This course may be repeated for additional credit with permission of instructor. Scheduled as needed.*

Communication

Students can also request instructor permission to take a course if they don't meet the stated prerequisites; in some cases, instructor permission is specifically listed as a required prerequisite.

COMM 105 Public Speaking 2

Combines basic theories of public speaking, listening, and interpersonal communication with actual speaking experiences in the classroom. *Fall and Spring semesters.*

COMM 125 Media and Meaning 3

Surveys mass communication and looks at the history, content, economics, and social impact of these media. *Fall semester*.

COMM 205 Introduction to Interpersonal Communication 2

Introduces students to the psychology of communication and human relations on an interpersonal level. *Fall and Spring semesters.*

COMM 209 Visual Storytelling 1: Foundations of Video Production 3

Prerequisite: PHOT 151(minimum grade of C)

Teaches essential skills of video production, centering around the foundational principles of storytelling. This course will introduce students to pre-production and planning, camera craft and cinematography, and basic post-production skills. A DSLR or mirrorless camera is required. *Fall semester.*

COMM 211 Visual Storytelling 2: Intermediate Video Techniques 3

Prerequisite: COMM 209 (minimum grade of C)

Builds on foundational skills. Students will explore lighting, sound design, motion graphics, and advanced editing techniques through short documentary and commercial video projects. Also included is an introduction to live streaming tools and techniques. A DSLR or mirrorless camera is required. *Spring semester.*

COMM 212 Society of Adventist Communicators Convention 0.5

Focuses on attendance and participation at the annual Society of Adventist Communicators convention. Students will prepare for the convention by updating resumes, practicing interview skills, and submitting work to the award categories. Can be repeated for credit. (Course Fee) *Fall semester.*

COMM 221 Reporting 3

Prerequisite: Sophomore standing (24 hours of university credit)

Introduces the student to basic reporting for news media. Students are encouraged to submit articles to news outlets. *Spring semester, even years.*

COMM 241 Public Relations Principles 3

Prerequisite: Sophomore standing (24 hours of university credit)

Examines the philosophy, objectives and methods of an effective public relations practitioner, with an emphasis on the role of public relations in a formal setting. Uses tools and techniques of communication that build positive relationships with an organization's various publics. Provides opportunities for practical experiences. *Fall semester.*

COMM 290 Sophomore Seminar 1

Prepares students to apply for internships with specific attention given to resume preparation, preparation for job interviewing, and development of a portfolio. *Fall semester.*

COMM 292 Communication Theory 3

Prerequisite: ENGL 110 (minimum grade of C)

Explores the conceptual foundation for studying the human communication process and the application of these theories to communication research. Students develop skills in communication theories and models, survey techniques, research instrument design, content analysis, and tabulation procedures. *Spring semester.*

COMM 313 Visual Storytelling 3: Advanced Production 3

Prerequisite: COMM 211 (minimum grade of C)
Recommended: Have at least 1 year of experience in video production or editing via an internship, work, or personal development.

Guides students through the process of creating comprehensive, personal video projects that emphasize originality and personal vision while showcasing skills in directing, producing, and editing. A DSLR or mirrorless camera is required. *Scheduled as needed.*

COMM 316 Advertising and Persuasion 3

Introduces the student to theories of persuasion and techniques used in developing effective advertising for a variety of media. *Fall semester, even years.*

COMM 333 Rhetorical Criticism and Media Culture 3

Introduces students to the history, theory, and practice of rhetoric, particularly through examining the narrative impact of contemporary texts. Social, political, and popular mediated artifacts (such as film, music, and television) are the focus of rhetorical analysis and critique, making the course relevant to a wide range of majors. *Fall semester, odd years*.

COMM 355 Advanced Speech and Oral Interpretation 3

Emphasizes understanding and employment of effective rhetoric in public speaking events, and improving skills in oral interpretation of varied texts through enhancing personal versatility in body language, vocal control, and content delivery. *Spring semester, odd years.*

COMM 365 Institutional Development 3

Prerequisite: COMM 241 (minimum grade of C)

Covers the basic principles of fundraising for nonprofit organizations. Familiarizes students with annual giving programs, capital campaigns, deferred giving plans, and common sources of financial support. Includes specific instruction on writing direct mail appeals, maintaining donor records, conducting personal solicitation, and planning special events. *Spring semester, odd years.*

COMM 377 Crisis Communication Management 3

Examines how to manage crises from a communication and public relations perspective. Case studies, theoretical frameworks, and tabletop exercises in real time all contribute to equipping students to manage conversations and messaging during crises from the interpersonal to the mass media level. *Fall semester, odd years.*

COMM 420 Social Media Marketing and Management 3

Explores the creation of social media content, marketing, and management with an emphasis on overseeing social media content for businesses. *Spring semester.*

COMM 425 Intercultural Communication 3

Explores cultural, verbal, and nonverbal communication dynamics necessary to function in an increasingly multicultural setting. The course provides assessments of the media and business cultures around the world with an emphasis on how professionals can effectively function in other cultural settings. *Spring semester, even years.*

COMM 445 Public Relations Events and Campaigns 3

Prerequisite: COMM 241 (minimum grade of C)

Builds expertise in planning and implementing public relations campaigns and events. Students learn the step-by-step process for success that can be used throughout their career. *Spring semester, odd years.*

COMM 465 Interpersonal Communication 3

Prerequisite: COMM 105 (minimum grade of C) ***or*** *COMM 205 (minimum grade of C)*

Explores traditional and contemporary models of communication theory, with particular application to the psychology of communication and human relations on an interpersonal level. *Spring semester.*

COMM 490 Senior Seminar 2

Prepares students to enter the job market with specific attention given to resume preparation, interview skills, and development of a portfolio. In addition, select topics in communication are discussed. *Fall semester.*

COMM 499 Senior Capstone 2

Prerequisite: COMM 292 (minimum grade of C)

Involves researching and producing an original research paper for submission to an academic conference or journal. Each student will attend an academic conference (usually the annual National Communication Association conference) as a part of this course. (Course fee) *Fall semester.*

Core

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

CORE 100 College Success 1

Connection is the focus of this course. Connection to classmates, academic program, life coach, and campus resources will be featured in this freshman course in order to build a sense of belonging and offer support toward academic, social, emotional, spiritual, and academic success. *Fall and Spring semesters.*

CORE 105 Empower U 1

The Empower U course is designed to enhance the success of Union students by providing strategies, resources, and skills to help them thrive academically and personally. Emphasis will be placed on time management, motivation strategies, emotional intelligence (EQ), critical thinking, study skills, learning styles, and reading comprehension. While the course equips students with valuable tools, their success ultimately depends on their engagement, effort, and application of what they learn. *Fall and Spring semesters.*

Computing

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

CPTR 128 Introduction to Networks 3

Introduces students to the fundamental concepts of networking, providing students with a solid foundation for understanding the architecture, operation, and maintenance of modern computer networks. Topics include network components, protocols, and topologies; IP addressing and subnetting; basic network security principles; and the roles and responsibilities of a systems administrator. Students will gain hands-on experience configuring network devices, setting up and managing operating systems, and troubleshooting common issues in both networking and system environments. Emphasis is placed on building practical skills and understanding industry-standard practices to prepare students for advanced study and entry-level roles in IT. *Spring semester.*

CPTR 129 Fundamentals of Databases 3

Introduces students to the concepts of a database, SQL, and basic queries. *Spring semester.*

CPTR 135 Introduction to Artificial Intelligence 3

This course provides a hands-on introduction to Artificial Intelligence (AI) and its applications in various fields. Students will explore AI tools like chatbots and image generators, learn core concepts such as machine learning and natural language processing, and engage in projects to solve real-world problems. Emphasis is placed on ethical AI use, practical skills, and preparing students to navigate an AI-driven future. *Spring semester.*

CPTR 226 Introduction to Programming 3

Introduction to computer science, programming, and problem solving. Structured and object-oriented programming techniques are presented and applied through the creation of programming assignments. *Fall semester.*

CPTR 228 Web Programming 3

Corequisite: CPTR 226 (minimum grade of C)

This course provides an in-depth introduction to web programming, focusing on the development of dynamic, interactive, and responsive web applications. Students will learn JavaScript, along with modern frameworks and libraries. Topics include client-side scripting, server-side programming, and database integration. *Fall semester.*

CPTR 230 Computer Organization 3

Prerequisites: CPTR 128 (minimum grade of C) ***and*** *CPTR 226 (minimum grade of C)*

Introduces students to the computer operations below the operating system level. *Scheduled as needed.*

CPTR 240 Systems Administration 3

Prerequisites: CPTR 128 (minimum grade of C) ***and*** *CPTR 226 (minimum grade of C)*

An introductory course to systems administration. Topics include user management, computing systems management, server management, security, file management, backup management and scripting. Also covers how to communicate with customers/users. *Fall semester.*

CPTR 245 Web Development Basics 3

An introduction to static web pages. Major emphasis is placed on designing and creating web pages using HTML5 with Cascading Style Sheets. *Fall semester.*

CPTR 265 Educational Technology 3

Prerequisite: Education majors only

This course is an introduction to the effective use of computer technology as an integral part of teaching and learning in the elementary and secondary classroom. Teacher candidates are instructed in the appropriate standards, frameworks and current, content-area applications that align with those expectations. A joint effort between the music department and the instructor provides for a special unit for music education majors who need an introduction to music software and best practice instruction in that content area especially. The course consists of classroom and lab instruction and is primarily project-based. *Spring semester*.

CPTR 288 Agile Software Development 3

Prerequisite: CPTR 226 (minimum grade of C)

This course explores the principles, practices, and methodologies of Agile software development, emphasizing iterative and incremental approaches to building high-quality software. *Spring semester*.

CPTR 310 Data Structures and Algorithms 3

Prerequisites: CPTR 226 (minimum grade of C) ***and*** *MATH 240 (minimum grade of C)*

Advanced programming principles and problem-solving techniques are applied in an object-oriented programming environment. Abstraction and data structures (stacks, queues,

linked lists, etc.) are explored along with algorithms and programmatic efficiency. *Spring semester, odd years.*

CPTR 316 NoSQL 3

Prerequisite: CPTR 129 (minimum grade of C)

This course examines NoSQL database technologies and their application in modern data-driven environments. Students will explore the core concepts and architectures of NoSQL databases, including key-value stores, document databases, column-family stores, and graph databases. *Spring semester, even years.*

CPTR 320 Advanced Networking 3

Prerequisite: CPTR 128 (minimum grade of C)

Teaches students advanced networking principles. A student finishing this course should be able to set up, analyze, and debug a network for a small to mid-size organization. *Spring semester.*

CPTR 328 Object-Oriented Programming 3

Prerequisite: CPTR 226 (minimum grade of C)

This course delves into the principles and practices of object-oriented programming (OOP), emphasizing the design and development of robust, maintainable, and reusable software. Key topics include classes and objects, inheritance, polymorphism, encapsulation, and abstraction. *Spring semester, even years.*

CPTR 335 Web Technologies 3

Prerequisites: CPTR 226 (minimum grade of C) ***and*** *CPTR 245 (minimum grade of C)*

Introduction to website publishing. Topics may include PHP, JavaScript, Ajax, database connectivity, application security and other related topics. Major emphasis is placed on designing and creating dynamic web sites. The course includes a group project to build an application for a website. *Spring semester.*

CPTR 361 Network Programming 3

Prerequisite: CPTR 226 (minimum grade of C)

This course focuses on the principles and techniques of network programming, emphasizing the development of applications that communicate over computer networks. Students will learn about sockets, protocols, and client-server architecture while exploring topics such as TCP/IP, UDP, and RESTful APIs. *Fall semester. odd years.*

CPTR 405 Software Engineering 3

Prerequisites: CPTR 226 (minimum grade of C) ***and*** *CPTR 335 (minimum grade of C)* ***and*** *Junior status or higher*

Teaches management and implementation of programming projects. Topics include project management, scheduling, and control, specifications, testing, documentation, system implementation, and evaluation. *Fall semester, odd years.*

CPTR 420 Advanced Systems Administration 3

Prerequisite: CPTR 240 (minimum grade of C)

Continuation course of CPTR 240 that focuses on directory services, project management, security issues, advanced scripting, and advanced interactions between services such as DNS,

DHCP, web server, SQL and Mail Server. Emphasizing upfront design considerations, redundancy, scalability and total cost of ownership. *Spring semester.*

CPTR 422 Mobile App Development 3

Prerequisites: CPTR 228 (minimum grade of C) ***and*** *CPTR 245 (minimum grade of C)*

This advanced course provides comprehensive instruction in the design, development, and deployment of mobile applications. Students will explore key concepts of mobile app architecture, user interface design, and cross-platform frameworks. *Fall semester, even years.*

CPTR 424 Database Systems 3

Covers both a theoretical and practical understanding of database management systems. Emphasizes the relational database model. The Data Definition Language (DDL) of SQL is covered. Implementation of database application that uses a relational database and SQL is required. *Fall semester, even years.*

CPTR 440 Virtualization and Cloud Computing 3

Prerequisite: CPTR 320 (minimum grade of C)

Explore the foundations and advancements in cloud infrastructure and virtualization technologies. Topics explored may include distributed data crunching, cloud and datacenter file systems, virtualization, security & privacy, and interactive web-based applications. *Fall semester, even years.*

CPTR 452 Analysis of Algorithms 3

Prerequisite: CPTR 310 (minimum grade of C)

Algorithms are the soul of computing. This course is a continuation of CPTR 310 focused on a deeper understanding of algorithms as well as more complicated algorithms. *Fall semesters, odd years, scheduled as needed.*

CPTR 460 Cybersecurity 3

Prerequisite: CPTR 320 (minimum grade of C)

Covers various topics of computer security, which may include: network security, database security, security auditing, data encryption, operating system security, vulnerabilities, user authentication, access control, malicious software, secure software development techniques, firewalls and intrusion detection, site security, legal and ethical security issues, and risk management. *Fall semester, odd years.*

CPTR 478 Senior Project I 3

Prerequisite: Senior Class Standing

This class is an independent, student-driven, multi-semester project that uses the ideas, principles and capabilities learned throughout this degree. *Fall semester, scheduled as needed.*

CPTR 479 Senior Project II 3

Prerequisite: CPTR 478 (minimum grade of C)

A continuation of CPTR 478. *Spring semester, scheduled as needed.*

CPTR 490 Computing Capstone 3

Prerequisite: Information Technology or Software Engineering major. Senior Standing

This course is designed for Information Technology and Software Engineering majors providing them with the opportunity to apply their knowledge and skills through a comprehensive project. The course also includes assessments to prepare students for transition into professional work. *Fall semester.*

Economics

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

ECON 235 Principles of Microeconomics 3

Prerequisite: MATH 111 or higher (minimum grade of D-) ***or*** *ALEKS score of 46* ***or*** *[ACT Math Score of 20 or SAT Math score of 480 (old SAT 2400 scale) or SAT Math score of 510 (new SAT 1600 scale)]*

Emphasizes basic economic concepts and problems, the interaction between firms and households, the capitalistic system, markets, price systems, allocation of resources, production, consumption, and employment. *Fall semester.*

ECON 236 Principles of Macroeconomics 3

Prerequisites: ENGL 110, MATH 111 or higher (minimum grade of D-) ***or*** *ALEKS score of 46* ***or*** *[ACT Math Score of 20 or SAT Math score of 480 (old SAT 2400 scale) or SAT Math score of 510 (new SAT 1600 scale)]*

An introduction to the principles of economic analysis, economic institutions, and issues of economic policy. Emphasizes aggregative economics, including national income, monetary and fiscal policy, and international trade. *Spring semester.*

Education

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

EDUC 125 Introduction to Teaching 3

Includes a study of the historical and philosophical backgrounds, aims, curriculum, organization, educational laws, finance and current issues of American public and nonpublic education. Also provides training in the use of audiovisual equipment/technology. Twenty hours of field experience required. Praxis Core Test must be taken during this class. *Fall and Spring semesters.*

EDUC 126 Introduction to Teaching - Observation Hours 0

Corequisite: EDUC 125

This course is to be taken in conjunction with EDUC 125. It consists of 20 hours of observation in a state-approved school. Students are to observe and note student/teacher interactions, teaching strategies, questioning skills, classroom management, classroom organization, and teacher professionalism. *Fall and Spring semesters.*

EDUC 127 Philosophy of Christian Education - Observation Hours 0

Corequisite: EDUC 218

This course is to be taken in conjunction with EDUC 218. It consists of 15 hours of observation in a

state-approved school. Students are to observe and note teacher philosophy, response to diversity, reinforcement strategies, support for students, and pedagogy. *Spring semester.*

EDUC 128 Seminar in Educational Diversity - Observation Hours 0

Corequisite: EDUC 225

This course is to be taken in conjunction with EDUC 225. It consists of 20 hours of observation in a state-approved school. Students are to observe and note aspects of multicultural education including diversity in language, socioeconomic status, disabilities, ethnicity, religion, gender and the teacher interactions and expectations of each group. *Fall semester.*

EDUC 129 Learning Theories and Measurements - Observation Hours 0

Corequisite: EDUC 345

This course is to be taken in conjunction with EDUC 345. It consists of 20 hours of observation for elementary majors and 30 hours of observation for secondary majors in a state-approved school. Students are to observe and note the approach exhibited in each classroom: behavioral, cognitive, social-cognitive, and constructivism. Students will also note evidence of teacher assessment choices, and classroom motivation, creativity, self-regulation, and moral development. *Fall semester.*

EDUC 130 Special Education in the Classroom - Observation Hours 0

Corequisite: EDUC 346

This course is to be taken in conjunction with EDUC 346 . It consists of 20 hours of observation in a state-approved school. Students are to observe and note various kinds of classroom exceptionalities, childhood developmental patterns, behavioral characteristics, and teacher strategies. *Spring semester.*

EDUC 218 Philosophy of Christian Education 3

Prerequisites: ENGL 212 (minimum grade of D-) ***and*** *provisional admission to the teacher preparation program* ***and*** *CORE test passed*

Includes a survey of the traditional and modern philosophies and their influence on educational practices, and the relationship of educational theories to their philosophic sources. Helps students understand the need for and develop a personal philosophy of Christian education. The missions of the Seventh-day Adventist Church and Union Adventist University influence the content of this course. Fifteen hours of field experience required. *Spring semester.*

EDUC 225 Seminar in Education Diversity: Multicultural/HRT 1

Pre- or corequisite: EDUC 125 (minimum grade of C)

Focuses on three major areas: the ability to recognize personal and societal dehumanizing biases including, but not limited to, sexism, racism, prejudice and discrimination; the ability to recognize the ways these biases may be reflected in instructional materials and processes; and the ability to translate this knowledge into attitudes and strategies which result in favorable experiences for all students. Gives education majors the opportunity to interact with diverse school and community populations, especially those of other cultures. Twenty hours of field experience required. *Fall semester.*

EDUC 245 Physical Education in the Elementary School 2

Prerequisite: EDUC 125 (minimum grade of C)

Investigates the sequence of development of fundamental motor patterns and perceptual motor skills, factors influencing this development, assessment and evaluation, and methods, activities and technology for developing these skills. Twenty hours of field experience required. *Spring semester.*

EDUC 270 Research Writing 1

Prerequisite: Permission of Instructor

This class introduces students to elements of research writing using the format and style from the Publication Manual of the American Psychological Association. Students will be exposed to writing papers for empirical studies and literature reviews. They will apply the principles in writing a paper for a class in their discipline. *Spring semester.*

EDUC 345 Learning Theories and Measurement 3

Prerequisites: EDUC 218 (minimum grade of C) ***and*** *PSYC 215 (minimum grade of C)* ***and*** *successfully passed the CORE test* ***and*** *full admission to the teacher preparation program*

An interdisciplinary approach to fundamentals of learning and measurement. Includes a survey of behavioral, cognitive, social learning, constructivist, and humanistic learning theories; teaching, motivational strategies, management and discipline, and assessment. Twenty (elementary) to thirty (secondary) hours of field experience required. *Fall semester.*

EDUC 346 Special Education in the Classroom 3

Prerequisite: EDUC 345 (minimum grade of C)

Causes of developmental patterns, behavioral characteristics and educational alternatives associated with specific exceptionalities which include students with visual impairments, speech and language impairments, orthopedic handicap and other health impairments, mental handicaps, learning disabilities, behavior disorders, students who are gifted and talented, children whose first language (and home culture) is not English, and those who are abused and/or neglected or at-risk for school failure are all briefly studied. Overview of PL 94-142 is included. Course does not apply toward a psychology minor. Twenty hours of field experience required (15 hours special needs; 5 hours gifted). *Spring semester.*

EDUC 350 Seminar in Classroom Management 1

Prerequisite: EDUC 218 (minimum grade of C)

Focuses on current theories, strategies and research that teachers could apply in forming their own personal approach to classroom management. Includes an emphasis on teacher expectations, communication styles, classroom rules, procedures, consequences, bullying technology, and legal issues culminating in a major presentation that synthesizes the variety of theories from which to choose in developing their classroom management approach. *Fall and Spring semesters.*

EDUC 356 General Secondary Methods 3

Prerequisite: EDUC 345 (minimum grade of C)

Designed to help the teacher candidate translate teaching/learning theory into practice. Includes study of lesson planning, instruction, management, assessment, selected instructional strategies, legal responsibilities, state and denominational standards, and working with education's various

publics. Students demonstrate micro-teaching competence. Thirty to thirty-five hours of field experience required. *Spring semester.*

EDUC 357 Literature for Children and Adolescents 2

Pre- or corequisite: EDUC 345 (minimum grade of C)

A survey of youth literature and teaching strategies to encourage application of languages and literacy genre, to foster personal-social growth and to encourage life-long enjoyment of literature. *Fall semester.*

EDUC 412 Methods: Language Arts Education 3

Prerequisite: EDUC 345 (minimum grade of C)

A study of various teaching methods appropriate for the secondary classroom. Attention is given to planning, motivation, instruction, assessment, technology, textbook and resource selection. Includes 10 to 20 hours of classroom experiences. *Spring semester.*

EDUC 413 Methods: Mathematics Education 3

Prerequisite: EDUC 345 (minimum grade of C)

Includes the theoretical and practical aspects of secondary mathematics education. Students study current journals, teaching and assessment strategies, textbook selection and use of technology. Includes 10 to 20 hours of classroom experiences. *Spring semester.*

EDUC 414 Methods: Music Education 3

Prerequisite: EDUC 345 (minimum grade of C)

Goals, objectives, organization, interrelationships between music and the entire curriculum. Includes 10 to 20 hours of classroom experiences and use of technology. *Spring semester.*

EDUC 415 Methods: Social Science and Religious Education (K-12) 3

Prerequisite: EDUC 345 (minimum grade of C)

An exploration of secondary social science, teaching strategies, textbook selection criteria, planning and assessment. Also emphasizes techniques for teaching K-12 religion. Students will be trained on the Encounter program from the North American Division. Includes 10 to 20 hours of classroom experiences and use of technology. *Spring semester.*

EDUC 418 Methods: Science Education 3

Pre- or corequisite: EDUC 345 (minimum grade of C)

An exploration of secondary science teaching strategies, materials, textbooks, planning, assessment, ethics and preparation and supervision techniques for selected laboratory activities. Includes 10 to 20 hours of classroom experiences and use of appropriate technology. *Spring semester.*

EDUC 425 Educational Organization and Administration (K-8) 3

Prerequisite: EDUC 345 (minimum grade of C)

An overview of curriculum development: basic concepts and principles of educational organization and administration, classroom management and pupil adjustment, and legal aspects of teaching. *Fall semester.*

EDUC 446 Reading Assessment (K-8) 2

Prerequisite: EDUC 345 (minimum grade of C)

Instruction in assessing the reading abilities and progress of elementary students. Emphasizes stages of literacy and techniques of informal reading, spelling and writing assessment. Students gain experience by conducting assessments and planning literacy activities in field-based, one-on-one sessions with elementary learners. *Fall semester.*

EDUC 450 Methods in Reading and Language Arts (K-8) 5

Prerequisites: EDUC 345 (minimum grade of C) ***and*** *Praxis II must be taken during this class.*

Emphasis is placed on elementary (K-8) language arts skills (viewing, listening, reading, speaking, visually representing, and writing) and reading skills (reading proficiencies, readiness, vocabulary instruction, word skills, phonics, fluency, comprehension, questioning, management, diagnostic skills, and assessment). Spelling, grammar, and handwriting are specifically included. A survey of Pathways 2.0 is included. Opportunity is given to plan and use varied instructional approaches in development of oral language, reading and writing. Traditional and constructivist approaches are studied. An evaluation and use of technology and the Internet will be included. Microteaching consisting of 20 hours of field experience is included. *Fall semester.*

EDUC 458 Methods in Religion, Health, Science and Social Studies (K-8) 4

Prerequisite: EDUC 345 (minimum grade of C)

Instruction and practice in teaching Bible, health, science and social studies to grades K-8. Students learn to use scope and sequence charts and curriculum guides. Students will be trained on the Encounter program from the North American Division. Students develop lesson plans, use technology and learn a variety of teaching and assessment techniques. Students demonstrate micro teaching competence. Twenty hours of field experiences are included. *Spring semester.*

EDUC 465 Math Methods and Materials (K-8) 3

Prerequisite: EDUC 345 (minimum grade of C)

K-8 math content taught in conjunction with appropriate teaching strategies utilizing technology. For each concept presented, a variety of interpretations and possible applications are given, followed by related activities for children that develop specific concepts and skills. A microteaching module is included. *Fall semester.*

EDUC 475 Student Teaching 1-16

Prerequisites: Student Teaching Authorization from Teacher Preparation Committee ***and*** *Passing Praxis II content test scores must be submitted to the Education Program prior to registration.*

Real-life experiences in a wide variety of settings providing creative conventional and nontraditional hands-on teaching/learning opportunities for those planning to enter the helping professions. May be repeated for additional credit. *Secondary - Fall semester. Elementary - Spring semester.*

EDUC 476 Content Reading and Writing 3

Corequisite: EDUC 345 (minimum grade of C)

Designed to help prepare secondary classroom instructors to utilize reading and writing to enhance the teaching of their subject areas. Included are effective learning, vocabulary, comprehension and study skills, instructional strategies for individual content areas, and use of multiple resources. Students apply literacy strategies in field settings and through microteaching. *Fall semester.*

EDUC 485 Issues in Education 1

Prerequisite: EDUC 345 (minimum grade of C)

This course for secondary education majors includes discussion of contemporary educational trends and issues and certification procedures. *Spring semester.*

EDUC 490 Student Teaching Seminar-Elementary 1

Corequisite: EDUC 475 (minimum grade of C)

This course for elementary education majors includes discussion of classroom practice and management experiences, teaching methodology and materials, and current educational issues. *Spring semester.*

EDUC 491 Student Teaching Seminar-Secondary 1

Corequisite: EDUC 475 (minimum grade of C)

This course for secondary education majors includes discussion of classroom practice and management experiences, teaching methodology and materials, and current educational issues. *Fall semester.*

Education - NAD Certification Courses

These courses are only for NAD certification for practicing teachers.

EDUC 320 Standards-Based Learning 1

Prerequisite: Practicing teacher

This course is designed to introduce pre-service teachers to the foundational theories, pedagogy, and practical applications of a standards-based approach to planning and assessment in education. Students will collaborate to create unit plans and assessments that align with NAD Proficiency Scales. *Summer semester.*

EDUC 342 Human Relations 1

Prerequisite: Practicing teacher

Focuses on three major areas: the ability to recognize personal and societal dehumanizing biases including, but not limited to, sexism, racism, prejudice and discrimination; the ability to recognize the ways these biases may be reflected in instructional materials and processes; and the ability to translate this knowledge into attitudes and strategies which result in favorable experiences for all students. *Summer semester.*

EDUC 355 Secondary Methods 2

Prerequisite: Practicing teacher

Helps the teacher translate teaching/learning theory into practice on the secondary level. Includes study of lesson planning, scheduling, managing the learning environment, discussion techniques, legal responsibilities, state and denominational standards and working with various publics. A choice of up to two subject area methods courses from EDUC 361-370 may be taken concurrently with this course. *Summer semester.*

EDUC 358 Special Child in the Classroom 3

Prerequisite: Practicing teacher

Causes of developmental patterns, behavioral characteristics, utilizing technology, and educational alternatives associated with specific exceptionalities which include students with visual impairments, speech and language impairments, orthopedic handicap and other health impairments, mental handicaps, learning disabilities, behavior disorders, students who are gifted and talented, children whose first language (and home culture) is not English, and those who are abused and/or neglected or at-risk for school failure are all briefly studied. Overview of PL 94-142 is included. Course does not apply toward a psychology minor. Twenty hours of field experience required (15 hours special needs; 5 hours gifted). *Summer semester.*

EDUC 360 General Elementary Methods 2

Prerequisite: Practicing teacher

Helps the teacher translate teaching/learning theory into practice. Includes study of lesson planning, scheduling, managing the learning environment, discussion techniques, legal responsibilities, state and denominational standards and working with education's various publics. A choice of up to two subject area methods courses from EDUC 361-370 may be taken concurrently with this course. *Summer semester.*

EDUC 364 Language Arts/Reading Methods 1

Prerequisite: Practicing teacher
Pre- or corequisite: EDUC 355 (minimum grade of C) or EDUC 360 (minimum grade of C)

Directed specific assignments in subject area as applications of EDUC 355 or 360. *Summer semester.*

EDUC 365 Math Methods 1

Prerequisite: Practicing teacher
Pre- or corequisite: EDUC 355 (minimum grade of C) or EDUC 360 (minimum grade of C)

Directed specific assignments in subject area as applications of EDUC 355 or 360. *Summer semester.*

EDUC 368 Religion Methods 1

Prerequisite: Practicing teacher
Pre- or corequisite: EDUC 355 (minimum grade of C) or EDUC 360 (minimum grade of C)

Directed specific assignments in subject area as applications of EDUC 355 or 360. *Summer semester.*

EDUC 370 Social Science Methods 1

Prerequisite: Practicing teacher
Pre- or corequisite: EDUC 355 (minimum grade of C) or EDUC 360 (minimum grade of C)

Directed specific assignments in subject area as applications of EDUC 355 or 360. *Summer semester.*

EDUC 371 Science/Health Methods 1

Prerequisite: Practicing teacher
Pre- or corequisite: EDUC 355 (minimum grade of C) or EDUC 360 (minimum grade of C)

Directed specific assignments in subject area as applications of EDUC 355 or 360. *Summer semester.*

EDUC 477 Secondary Reading Methods 2

Prerequisite: Practicing teacher

Designed for the in-service teacher, this course explores using metacognition, interactive reading and writing strategies, and current research on vocabulary development, comprehension, and graphic organizers in 7-12 classrooms. *Summer semester.*

English

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

ENGL 110 Writing for General Audiences 3

Recommended Preparation: Students entering ENGL 110 need a strong command of spoken and written English, including competence in grammar and punctuation as well as reading comprehension.

Focuses on the writing of clear, concise, and well-developed exposition, usually drawn from personal experience and/or observation. Students develop skills in the major aspects of the writing process, including generating ideas, selecting a topic, drafting, offering peer feedback, revising, editing, proofreading, formatting, and presenting the final product with an intended audience in mind. Critical thinking and reading, evaluating models for writing, and composing and editing skills are emphasized. *Fall, Spring, and Summer (depending on enrollment) semesters.*

ENGL 212 Writing for Scholarly Audiences 3

Prerequisites: ENGL 110 with a C or higher and Sophomore standing (24 hours of university credit).

Centers on the rigorous application of rhetorical principles to persuasive writing and the sharpening of skills in research writing. Readings, class discussions, and assignments foster critical thinking skills (including the recognition of logical fallacies), acquaint students with scholarly language, and define the expectations of academic audiences. Includes instruction in information literacy as well as various styles of documentation, among them APA, CMS/Turabian, and MLA. The course culminates in a substantial argumentative paper driven by a research question and supported with primary, secondary, and tertiary sources. *Fall, Spring, and Summer (depending on enrollment) semesters.*

ENGL 271 World Englishes 3

Considers Englishes as they are used around the globe, both in historical and contemporary contexts. Students engage perspectives from the fields of linguistics, sociolinguistics, postcolonial studies, and education to develop an expanded perspective on the most cross-culturally spoken and written language in the world. *Fall semester, even years.*

ENGL 272 Rhetorical Grammar 3

Pre- or corequisite: ENGL 212 (minimum grade of C)

Focuses on the recognition and use of grammatical and stylistic choices in English to create particular rhetorical effects with an audience in mind. A strong command of language and its artful application gives writers and speakers alike a powerful skill set valuable in any career. This course presents grammar as an exercise in the structure, beauty, and versatility of English. *Spring semester, odd years.*

ENGL 290 Literary Studies 3

Prerequisite: Permission of instructor

Explores what it means to study literature and conduct critical textual analysis. Designed for English majors and minors, the course examines the discipline's fundamental principles and theories and how these issues have evolved historically. Students read and discuss critical approaches to language and literature, bibliography and research, and writing in the discipline. Stresses literary terminology, literary theory, and analytical writing. *Fall semester, odd years.*

ENGL 340 Studies in Composition and Rhetoric 3

Prerequisite: ENGL 212 (minimum grade of C)

Examines the history, theory, and pedagogy of composition, studying the field from its inception to recent developments and challenges. The course also explores individual writing processes, critical skills, and literary practices. Highly recommended for those planning to teach writing at any educational level. *Spring semester, even years.*

ENGL 375 Screen Studies 3

Prerequisite: ENGL 212 (minimum grade of C)

Introduces students to the context, function, and analysis of first (film), second (television), third (computer), and fourth (digital/mobile) screens. As channels for storytelling, screens play a significant role in defining, challenging, and reinforcing cultural norms and practices globally. By looking critically at a number of texts and artifacts, which will vary each time it is taught, this course instructs students in developing a better understanding of the influence screens have on both their own lives and societies around the world. *Spring semester, odd years.*

ENGL 377 English Seminar 1

Prerequisite: Declared English, BA and Writing Studies, AA students.

Prepares students to apply for internships, jobs, and higher degrees with specific attention given to resumes, interviewing, personal statements and development of their senior portfolios. Presentations, discussions, writing workshops, conference attendance and other activities comprise the course. *Spring semester, scheduled as needed.*

ENGL 497 Advanced Theory and Criticism 3

Prerequisite: ENGL 212 (minimum grade of C) and ENGL 290

Explores in-depth critical theories associated with rhetoric, composition, cultural studies, and/or literary studies. This course is meant to prepare majors to be conversant in ongoing critical debates within the field as well as showcasing how they can use these theories and scholarly positions in their own work. Students interact with theoretical texts and craft critical essays. Highly recommended for students planning to attend graduate school. *Spring semester, even years, scheduled as needed.*

Finance

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

FNCE 215 Personal Finance 3

Prerequisite: Sophomore standing (24 hours of university credit)

Emphasizes practical financial planning dealing with the day-to-day issues that confront an individual or family, such as budgeting, taxes, housing, credit, insurance, savings, investments, wills, and retirement planning. *Fall semester.*

FNCE 325 Business Finance 3

Prerequisites: ACCT 212 (minimum grade of D-) ***and*** *{MATH 111 or higher (minimum grade of D-)* ***or*** *ALEKS score of 46* ***or*** *[ACT Math Score of 20 or SAT Math score of 480 (old SAT 2400 scale) or SAT Math score of 510 (new SAT 1600 scale)]}*
Recommended: Excel proficiency or BSAN 220

This course gives business majors an extensive look into the role of business finance managers. Students will practice reading financial statements to evaluate a business's financial health and will learn capital budgeting, capital structuring, stock and bond valuation, and working capital management using engaging activities and team-based projects. *Fall semester.*

FNCE 330 Financial Institutions and Markets 3

Prerequisites: ACCT 211 (minimum grade of D-) ***and*** *ECON 236 (minimum grade of D-)*

A study of capital markets, financial institutions such as banks, mutual funds and insurance companies, and the institutions that supervise the industry. The study of capital markets focuses on understanding a wide range of instruments available for financing, investing, and controlling risk. *Fall semester.*

FNCE 332 Investments 3

Examines how stocks and bonds are valued, why investments make money, and why investment strategies work. Also covers portfolio management: how investments are structured and balanced for different objectives. Discusses how the environment of the market and broader world drive the returns on investments, and the role of traditional investments versus the use of alternative investments. Students will generate their own investment strategies and portfolios. *Spring semester.*

FNCE 370 International Finance 3

Prerequisites: ENGL 110 (minimum grade of D-) ***and*** *{MATH 111 or higher (minimum grade of D-)* ***or*** *ALEKS score of 46* ***or*** *[ACT Math Score of 20 or SAT Math score of 480 (old SAT 2400 scale) or SAT Math score of 510 (new SAT 1600 scale)]}*
Recommended: ACCT 212 and ECON 236

A study of the international financial environment and operation of multinational enterprises, with major focus on trade, balance of payments, foreign exchange, money and capital markets, investment decisions and comparative financial systems. *Spring semester.*

FNCE 415 Corporate Finance 3

Prerequisite: FNCE 325 (minimum grade of D-)

Delves into key principles of finance and applies tools learned in Business Finance to case studies and/or simulations in capital budgeting, capital structure, working capital, and dividend policy. *Fall semester.*

Foreign Language Studies

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

LANG 485 Research in a Foreign Culture and Language 2

Students conduct independent research in the culture, language, and/or history of the region of their Adventist Colleges Abroad experience. The final product is a paper that incorporates the foreign language in which the student is majoring to a significant degree. *Fall semester.*

Geography

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

GEOG 137 Introductory Geography 3

A study of the basic concepts in contemporary geography. Includes population patterns, mapping techniques, locational analysis, spatial diffusion, landforms, climates, modeling, and urban and environmental concerns. *Fall semester.*

GEOG 227 World Regional Geography 3

The study of contemporary concepts of geography with emphasis on the cultural-systematic approach. Major concern given to humans' relationships with the land in a spatial analysis of world regions. *Spring semester.*

Graphic Design

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

GRPH 150 Introduction to Graphic Arts 3

An introduction to the field of graphic design and to the three major types of computer applications used in print design. Students use Adobe Illustrator, Photoshop and InDesign applications to create corporate logos, business materials, photo collages and print projects. *Fall and Spring semesters.*

GRPH 175 Art and Design Seminar 1

First in a series of courses designed to guide Art and Design majors through the ongoing process of building and developing a portfolio. Related issues include career guidance, networking and

self-promotion, interviewing, and portfolio presentation. See GRPH 275, 375 and 475. *Spring semester.*

GRPH 250 Raster Graphics 3

Prerequisite: GRPH 150 (minimum grade of D-)

Focuses on image manipulation and enhancements using Adobe Photoshop, the industry standard for digital imaging. Students learn image enhancement and retouching, color correction, combining images and text, collaging, and high-quality digital output. *Fall semester, even years.*

GRPH 260 Page Layout 3

Prerequisite: GRPH 150 (minimum grade of D-)

Reviews fundamental skills and stresses intermediate and advanced skills using computer-based page layout software on the Macintosh platform. Students learn the use of master pages, style sheets, typographic controls, and to flow and format text, to place and manipulate images, to combine images and text, to create tables, gradients and PDF's, and to create interactive PDF files, correctly prepare digital files for offset printing. *Fall semester, odd years.*

GRPH 270 Vector Illustration 3

Prerequisites: ART 105 (minimum grade of D-) ***and*** *GRPH 150 (minimum grade of D-)*

A study of intermediate to advanced digital illustration techniques, with an emphasis on the creation of vector graphics for a variety of design applications. Included is an introduction to the use of pen tablets. *Spring semester, even years.*

GRPH 275 Art and Design Seminar 1

See GRPH 175 for description. *Spring semester.*

GRPH 301 Web Design 3

Prerequisite: CPTR 245 (minimum grade of D-)

This course teaches the concepts involved in planning and executing a website redesign project. Students will participate in all aspects of web design projects. Students will participate in all aspects of web design up to the point of coding the site. *Spring semester, odd years.*

GRPH 320 Motion Graphics 3

Prerequisite: GRPH 150 (minimum grade of D-)

An introduction to motion graphics, with an emphasis on the use of refined movements and animations to deliver effective messages and compelling stories. Students will learn basic principles of motion design, storyboarding, composition, timing and drama while creating short animations, title sequences, broadcast packages and other industry-relevant projects. *Spring semester, odd years.*

GRPH 350 History of Graphic Design 3

A study of the historical development of graphic design and its influence on design trends today, including national and international styles, influences, major artists/designers, and their influence on current design trends. *Spring semester, even years.*

GRPH 358 Typography 3

Prerequisite: GRPH 150 (minimum grade of D-)
Recommended: GRPH 250, GRPH 260, and GRPH 270

A study of the history, terminology, and use of letterforms and type in graphic design. Emphasis given to typographic layout, typeface selection, and type design. *Spring semester, even years.*

GRPH 360 User Interface/User Experience (UI/UX) Design 3

Prerequisites: GRPH 150 (minimum grade of D-) ***and*** *GRPH 252 (minimum grade of D-)*

The study of the graphic designer's role in interface design along with an introduction to principles of user experience design. Focus will be given to concepting and prototyping apps, responsive websites, and other digital content. *Fall semester, odd years.*

GRPH 375 Art and Design Seminar 1

See GRPH 175 for description. *Spring semester.*

GRPH 401 Interactive Web Design 3

Prerequisites: CPTR 245 (minimum grade of D-) ***and*** *GRPH 301 (minimum grade of D-)*

This course covers the creation of components used in modern web design. Students will learn how to code components as a series of small exercises and then put those pieces together to build fully functional web applications. *Spring semester, even years.*

GRPH 450 Art Direction 3

Prerequisites: GRPH 150 (minimum grade of D-)
Recommended: GRPH 250, GRPH 260, and GRPH 270

A focus on developing creative problem-solving skills. Students will practice writing creative briefs and navigating client communication issues. Long-term projects will challenge students to work within a visual brand to develop an integrated marketing campaign. *Fall semester, odd years.*

GRPH 460 Prepress Production 3

Prerequisite: GRPH 150 (minimum grade of D-)
Recommended: GRPH 250, GRPH 260, and GRPH 270

A technical look at how graphic materials are traditionally and electronically prepared for the printing process. Emphasizes preparation for offset lithography including ink and paper selection. Students develop the working knowledge necessary to successfully communicate with a service bureau or printer. *Fall semester, even years.*

GRPH 464 Advertising Design 3

Prerequisite: GRPH 150 (minimum grade of D-)
Recommended: GRPH 250, GRPH 260, and GRPH 270

This course emphasizes the development of creative concepts that support advertising and marketing campaigns. Subjects include basic principles of advertising, copywriting, layout and typography, and media. Long-term projects include the creation of an integrated marketing campaign. *Spring semesters, even years.*

GRPH 475 Art and Design Seminar 1

See GRPH 175 for description. *Spring semester.*

History

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

HIST 157 The Modern World 3

An introductory survey of the world since 1500, focusing on the twin themes of colonialism and nationalism around the world. Students will also practice critical thinking, interpret primary sources, and consider how the past can be used in service of the present. *Fall and Spring semesters.*

HIST 220 The Ancient World 3

Introduction to the birth of the earliest civilizations and examination of the development of classical Greece and Rome with special emphasis on the development of biblical civilizations. *Fall semester.*

HIST 222 History of Medieval Eurasia 3

History of the great Eurasian landmass, ca. 500-1500, focusing on the interconnections between Europe, Imperial China, and the Islamic world. *Spring semester.*

HIST 244 American Industrialization 3

History of the economic development of the United States from the antebellum era to the mid-twentieth century, focusing on technological change in industrialization. *Fall semester.*

HIST 255 The U.S.: From Discovery to Civil War 3

American history from the Age of Exploration to the advent of the Civil War, including exploration, colonization, the struggle for independence, and development of American culture and society in the early nineteenth century. *Fall semester.*

HIST 321 Early-Modern India 3

History of South Asia in the 16th, 17th, and 18th centuries, including the rise and decline of the Mughal Empire and the colonization of the Subcontinent by the British and other European powers. *Fall semester, odd years.*

HIST 322 South Asia in the 20th Century 3

History of South Asia during the 20th Century, focusing on the struggles for independence from the British Raj and the subsequent trajectories of independent India, Pakistan, and Bangladesh. *Spring semester, odd years.*

HIST 325 Tolkien, Fantasy, and the Middle Ages 3

Tours the medieval places, texts, and events in England and Wales which rooted the fantastic imagination of J.R.R. Tolkien. *Summer semester, Study Tour, Scheduled as Needed.*

HIST 331 The World Wars 3

A global history of the period of the world wars, ca 1910-1945, focusing on the causes of conflicts and their significance worldwide. *Fall semester, even years.*

HIST/PLSC 333 Global Geopolitics since 1945 3

Major developments and trends in world history since 1945, including the aftermath of World War II, decolonization, the Cold War, globalization, and the conflicts of the 21st century. *Spring semester, even years.*

HIST/PLSC 346 Russia in Global Politics 3

This course reviews and analyzes the place of Russia in modern global affairs, especially U.S.-Russian geopolitical cooperation and contests from the Soviet era into present-day politics under Putin. *Scheduled as needed.*

HIST 366 American Frontiers 3

From Native towns, to Great Plains homesteads, to Silicon Volley, this course examines the processes of expansion across North America and the significance of the "frontiers" that developed as the boundaries of settlement pushed West. Studies the political, economic, and cultural changes that came with settlement in the American West and the mythologies of the West that came from those changes. *Spring semester, odd years.*

HIST 377 The American Revolution 3

The causes, characters, and consequences of the United States' founding are at the center of our national identity and, as we celebrate the nation's 250th birthday, the course offers students the chance to deepen their understanding of the events of 1776-1783. Students study the complex ideas and events that sparked the American Revolution and led to its ultimate success, using the experiences of rebel loyalists, the enslaved, and Native Americans. *Spring semester, even years.*

HIST 380 The U.S.: Crisis, Consolidation, and Expansion 3

Events of the nineteenth century transformed the United States, shaping the modern nation. Students will study the coming of the Civil War, the establishment and failure of Reconstruction, the settlement of the American West, and the growth of a nation transformed by technology. *Spring semester.*

HIST 388 Warriors, Workers, and Wives: Women in World History 3

A survey of the experiences, lives, and contributions of women across history and the world. The course studies women's lives to understand the ways they have shaped, and been shaped by, broader cultural ideas about gender, power, family, and citizenship. Students will use a variety of sources as research tools: from archaeological evidence, to material culture, to biography, poetry, and fiction. *Fall semester.*

HIST/PLSC 392 The Modern Middle East 3

The history and the politics of the modern Middle East, from the Tanzimat period of the Ottoman Empire to the present period. *Scheduled as needed.*

HIST 444 Seminar in Modern African History 3

A regional, thematic readings and discussion-based study of the history of Sub-Saharan Africa since 1500, covering such topics as empires, the slave trade, colonialism, nationalism, and independence. *Spring semester, even years.*

HIST 455 Mexico and Central America 3

A thematic, readings and discussion-based study of the history of Mexico and Central America from the late prehispanic period to the twentieth century. *Fall semester, odd years.*

HIST/PLSC 465 The U.S. War on Terror 3

The recent U.S. and global politics surrounding the commencement of the U.S. war on terror in 2001 until the present-day. *Scheduled as needed.*

HIST 497 History: Theory and Argument 3

Prerequisites: Permission of instructor

Examines historical schools of thought with special attention to theory, research methods, and effective written argument. *Fall semester.*

Humanities

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

HMNT 305 Arts and Ideas 2

In this course, students practice identifying unique styles and developing aesthetic preferences while studying painting and other fine arts from the last 500 years. *Fall semester.*

HMNT 376 Film and Culture 3

Applies critical thinking to help participants understand the language of film, become conversant with various genres of film, and engage with the historical and regional contexts in which the films were made. *Spring semester, odd years.*

International Rescue and Relief

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

Certificate courses are identified in course descriptions.

INRR 100 Emergency Medical Technician 8

*Pre-requisites: Completion of criminal background check **and** drug test **and** comply with vaccines as required by clinical sites. A full list can be found in the IRR Handbook **and** current American Heart Association Heart Code BLS CPR certification **and** instructor permission.*

Prepares students to deliver basic emergency care and transportation to patients at the scene of an accident or medical emergency. Emphasizes patient exam, assessment, and treatment; accurate observation, evaluation of emergency situations, effective communications with the

medical network, scene safety, critical thinking, and high skill proficiency. After successful completion of EMT students are eligible to take the national registry certification examinations from the National Registry of Emergency Medical Technicians (NREMT). Class consists of lectures and labs. Certificate course. *Spring Semester.*

INRR 105 Principles of Emergency Management 2

An overview of the major principles vital to emergency responders that includes mitigation, preparedness, response, and recovery. This class primarily focuses on the basics of emergency management related to response. Also includes the role of major stakeholders, response agencies, and the components of an effective emergency response organization. *Fall semester.*

INRR 108 Foundations of International Rescue and Relief 1

Foundations of International Rescue and Relief lays the groundwork for personal accountability and planning in expedition and rescue. This course emphasizes the importance of planning, preparation, and mitigation. Students will learn how to organize a trip, how to select equipment and build a personal gear cache and lead a trip in the backcountry. This course also teaches the skills required to attend the IRR summer program. *Fall semester.*

INRR 110 Search and Rescue 1

Prerequisite: INRR 100 ***and*** *108 (minimum grade of* C*) or instructor permission*

Provides knowledge concerning the general responsibilities, skills and equipment needed by persons who would be participating in wilderness search and rescue missions. The course provides opportunities for skill development in practical search missions. The course provides instruction in three main areas: survival and support, search, and rescue. Certificate course. *Summer semester.*

INRR 112 Swift Water Rescue and Flood Management 2

Prerequisites: INRR 100 ***and*** *108 (minimum grade of* C*) or instructor permission*

The course meets NFPA 1670 and 1006 standards for swift water rescue. The initial emphasis is on self-rescue skills. Other objectives include an in-depth look at water dynamics, handling hazards and obstacles, using basic rescue equipment, setting up technical rope systems, controlling in-water contact rescues. Also covers pre-planning, rescue and recovery management, specific problems which arise with floods, rescue from class I-VI whitewater, raising/lowering systems, a Search and Rescue (SAR) night scenario, and other subjects. Certificate course. *Summer semester.*

INRR 114 Technical Rope Rescue 1

Prerequisites: INRR 100 ***and*** *108 (minimum grade of* C*) or instructor permission*

Students are trained in pre-planning and size-up of rope rescue operations; knots, hitches and anchor systems; belay operations; ascending and descending; raising and lowering systems; and patient packaging and litter attending. Also covers advanced problem solving and highline systems. Safety of the rescuer, rescue team, patient and bystanders is stressed at all times. TRR meets NFPA 1670 standards. Certificate course. *Summer semester.*

INRR 116 Basic Survival 1

Prerequisites: INRR 100 ***and*** *108 (minimum grade of* C*) or instructor permission*

Instructs and trains students to: prioritize the basic needs for survival; build a foul weather fire using a spark and wet wood; construct a natural shelter without rope, cord or nails; identify,

prepare and eat indigenous wild edible plants; navigate on land using natural aides. Certificate course. *Summer semester.*

INRR 202 Advanced Care for EMS Providers 3

Prerequisites: INRR 100 (minimum grade of C) ***and*** *current NREMT Certification* ***and*** *Nebraska State EMT License* ***and*** *current American Heart Association Heart Code BLS CPR certification.*

This comprehensive course provides expert instruction and hands-on training in a range of state-approved advanced medical procedures for the licensed Emergency Medical Technician. Students will master essential skills such as advanced airway management techniques, blood glucose monitoring, intravenous (IV) insertion, intramuscular (IM) injections, fluid bolus administration, and the proper administration of various medications. Through immersive, realistic patient care scenarios involving live patients, students will have the opportunity to apply their newly acquired skills in a variety of practical settings. This experiential learning approach reinforces technical proficiency and cultivates leadership abilities, empowering students to confidently assume pivotal roles in their future medical careers. Certificate Course. *Fall semester.*

INRR 205 Disaster Management & Leadership 2

Prerequisite: INRR 105 (minimum grade of C)

Explores and researches current concepts of disaster management leadership. An emphasis is placed on recovery needs, covering natural and man-made disasters. Students explore the roles of the local, state and federal agencies during disasters and mass casualty events. *Spring semester.*

INRR 212 Introduction to Geographic Information Systems 3

A comprehensive overview of Geographic Information Systems (GIS) and how to locate, store, edit, analyze, and ultimately use geographically referenced data (geodata) to make decisions. GIS is widely used in many industries - from Disaster Response to Public Health to Natural Resources - as a decision-making tool that "help users understand spatial patterns, relationships, and geographical context" (esri, 2021). *Fall Semester.*

INRR 213 Disaster Response Team (DiRT) 1

Prerequisites: INRR 112 and 114 (minimum grade of C)

Explores and researches current concepts of disaster management leadership. An emphasis is placed on recovery needs, covering natural and man-made disasters. Students explore the roles of the local, state and federal agencies during disasters and mass casualty events. Students can repeat up to four times for credit. *Fall and Spring semester.*

INRR 214 Introduction to International Development 3

This course introduces the fundamental concepts, theories, and practices of international development. The course will culminate in a Community Needs Assessment of an emerging country, where students will develop their analytical and comprehension skills by putting theoretical knowledge into practice to address real-world situations. *Spring semester.*

INRR 236 Wilderness Medicine 1

Prerequisite: INRR 100 (minimum grade of C), or instructor permission

This course will focus on training in how to provide medical care in rescue situations. Students will be certified through the Wilderness Medicine Training Center using curriculum approved by the National Association of Emergency Medical Services Physicians (NAEMSP) and the Wilderness Medicine Society (WMS). Content will include patient assessments, wound cleaning,

epinephrine administration, splinting, carries, improvised litters, and transport decision matrices. *Summer semester.*

INRR 245 HAM Radio 3

This course will explore the use and necessary skills to use Amateur Radio in communications. There will be an emphasis on community service and disaster communications, though it will cover many other use cases. Students will cover all the necessary materials to obtain the Technician and General Class FCC-issued Amateur Radio licenses. *Spring Semester.*

INRR 301 Public Health in Emergencies 3

This course provides an in-depth exploration of public health principles in the context of emergency preparedness and response. Through a combination of case studies, guest lectures from industry professionals, hands-on experiential learning, and a semester-long project, students will gain practical and theoretical knowledge essential for managing public health crises. Topics covered include community preparedness, natural disasters, bioterrorism, disease outbreaks and pandemics, water sanitation and hygiene (WASH), and social vulnerabilities in public health and disaster scenarios. Students will engage with current industry theories and practices, develop critical thinking skills, and apply their knowledge to real-world situations. The course emphasizes active learning, collaboration, and the integration of multidisciplinary approaches to enhance community resilience and public health outcomes in times of crisis. *Spring semester.*

INRR 310 Clinical & Emergency Care I 2

Prerequisites: [BIOL 106 or BIOL 111 or BIOL 151 (minimum grade of C)] ***and*** *[INRR 100 and INRR 110 and INRR 112 and INRR 114 and INRR 116 and INRR 202 (minimum grade of C)* ***and*** *current NREMT Certification* ***and*** *current Nebraska State EMT License* ***and*** *current American Heart Association Heart Code BLS CPR certification*

Part one of medical care for those in rural communities, developing nations, disaster situations or other austere situations. Students learn how to treat patients when there are limited medical supplies and resources available. To prepare students for their overseas semester, they are taught suturing, basic pharmacology, women's health, village healthcare, prevention, and holistic treatment modalities. In addition, students are prepared for the cultural, social and political realities of overseas travel and the country where they will be stationed. *Fall semester.*

INRR 311 Clinical & Emergency Care II 3

Prerequisite: INRR 310 (minimum grade of C)

The second part of clinical and emergency care for those in rural areas, disaster situations and the wilderness environment. Students learn to treat themselves and patients when there are limited medical supplies and resources available. Classes will include lecture and didactic components with possible clinical experiences in primary care, medical emergencies, wound and fracture management, pediatric care, obstetrics and medical administration. *Overseas - Spring semester.*

INRR 312 Development and Project Design 3

Prerequisites: INRR 214 (minimum grade of C) ***and*** *Global Community Development Emphases* ***and*** *permission of instructor*

This course builds upon previously learned needs assessment skills in the *Introduction to International Development* class to guide students through the process of designing a sustainable development project. In partnership with a local NGO in Malawi, students will engage in a real-world project design process, working closely with local experts to identify community needs and design a proposal that is culturally sensitive and feasible. The project developed in this

course is intended for implementation in the subsequent *Development and Project Implementation* class, giving students the opportunity to follow their project from conception to execution. This course provides invaluable experience in working within an emerging country context, developing cross-cultural collaboration, and applying project design principles in the field.

This course utilizes a Project Management Institute (PMI) approved textbook making students eligible to sit for the Certified Associate in Project Manager (CAPM) exam. *Fall semester.*

INRR 314 Cultural Integration 1

*Prerequisites: INRR 429 (minimum grade of C) **and** INRR 483 (minimum grade of C)*

The Class will seek to introduce the student to their overseas semester host culture. The student will learn basic local traditions and history and how that has influenced the development of local culture. Students will also receive a brief introduction to the local languages and how best to consider cross-cultural communication during their time overseas. *Overseas - Spring semester.*

INRR 316 Jungle, Coastal and Ocean Survival 1

*Prerequisites: INRR 429 (minimum grade of C) **and** INRR 483 (minimum grade of C)*

Jungle survival covers shelter, fire, food and water needs in the jungle setting. Includes instruction in identification and avoidance of dangerous plants and venomous creatures.

Coastal survival covers the same topics as the Basic Survival course with a special emphasis on a coastal environment situation. Students learn how to find fresh water, as well as how to successfully obtain a wide variety of foods. Fire-craft, shelter building, signaling and all other topics from the Basic Survival class are reviewed. While emphasis is placed on the coastal environment, discussion includes how to adapt the skills for any environment.

Ocean survival covers survival of a downed aircraft or capsized boat. The experience includes not only testing of physical limits but also mental and emotional limits. Students will not only learn practical use of signaling devices, rationing of food and water, but how to survive together as a team using their skills, experience, and wits to thrive during a grueling 24 hours anchored at sea. Overseas - *Scheduled as needed.*

INRR 330 Travel and Tropical Medicine 2

*Prerequisites: INRR 429 (minimum grade of C) **and** INRR 483 (minimum grade of C)*

This class covers the health risks of travel from dengue fever to jet lag. Emphasizes safe travel and how to avoid and treat diseases primarily found in developing countries. *Overseas - Spring semester.*

INRR 336 Expedition Medicine 1

Prerequisite: INRR 100 (minimum grade of C), or instructor permission

This course will focus on training in how to provide medical care in rescue situations. Students will be certified through the Wilderness Medicine Training Center using curriculum approved by the National Association of Emergency Medical Services Physicians (NAEMSP) and the Wilderness Medicine Society (WMS). Content will include patient assessments, wound cleaning, epinephrine administration, splinting, carries, improvised litters, and transport decision matrices. *Overseas- Spring semester.*

INRR 429 Expedition Planning 1

Prerequisite: Junior or Senior standing (minimum of 56 hours of university credit)

Expedition Planning focuses on traveling abroad while leading a group. The course will cover the importance of situational awareness, cultural sensitivity and context, budgeting and accounting, meal planning, transportation, working with third parties, medical protocols, secondary planning, and security and risk/benefit analysis. This course is intended for IRR majors heading out on expedition and focuses on creating ownership for those participating in the trip. *Fall semester.*

INRR 430 Expedition Leadership 3

*Prerequisites: INRR 429 (minimum grade of C) **and** INRR 483 (minimum grade of C)*

This class will focus on helping students understand their own unique leadership style. As a leader it is imperative to be aware of your strengths as well as your weaknesses in order to be most effective. Students will be exposed to some of the intricacies of being a leader through practical and hands-on experience. Students will be given the opportunity to take charge of planning and implementing portions of the trip, such as planning travel, being responsible for schedules and timelines, being aware of group dynamics and being responsible for group morale. *Overseas - Spring semester.*

INRR 451 Global Health 3

*Prerequisites: INRR 429 (minimum grade of C) **and** INRR 483 (minimum grade of C)*

Topics include: assessing local health needs and conditions; recognition and treatment of diseases; prevention of the spread of disease; developing and implementing strategies to improve health (nutrition, hygiene, water purification, waste control and safe living conditions); environmental toxicology. *Overseas - Spring semester.*

INRR 482 Development and Project Implementation 3

*Prerequisites: INRR 312 (minimum grade of C) **and** Global Community Development Emphases **and** permission of instructor*

In this course, students will focus on executing the project designed during the *Development and Project Design* class. Topics include resource allocation, team management, monitoring and evaluation frameworks, and adaptive management techniques, all within the context of real-world project implementation. Students will collaborate with a local NGO in Malawi to implement the project, confronting practical challenges such as logistical issues, stakeholder dynamics, and cultural considerations. This project will then be evaluated in the subsequent *Development and Project Evaluation* course. This hands-on experience equips students with the tools needed to manage development projects effectively, preparing them to navigate the complexities of project execution in the development field. *Overseas- Spring semester.*

INRR 483 Cultural Perspectives in Development 2

A class that examines the skills and tools needed to adjust to life and work in a second culture. Cultural sensitivity and integration are emphasized in the context of sensible, sustainable development. Students are asked to examine critical shifts between their primary cultural perspective and the social dynamics of cultures around the world. Being informed about a country and its history helps to encourage understanding of that culture. We will be exploring the history and cultures of the world to prepare students, in a practical manner, for the overseas semester. *Fall semester.*

INRR 486 Development and Project Evaluation 3

*Prerequisites: Junior or Senior standing (92 hours of university credit) INRR 312 (minimum grade of C) and Global Community Development Emphases **and** permission of instructor. Concurrently taken with INRR 482.*

This course offers a hands-on, experiential approach to evaluating the success and impact of development projects. Students will focus on assessing the project they helped implement in partnership with a local NGO in Malawi during their previous *Development and Project Implementation* class, learning key evaluation methodologies such as setting measurable indicators, data collection and analysis, and conducting impact assessments. A strong emphasis will be placed on accountability to both donors and stakeholders, ensuring that the project meets its objectives and delivers sustainable benefits to the community. By the end of the course, students will be able to critically evaluate development interventions and provide actionable recommendations for future projects. *Overseas - Spring semester.*

Leadership

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

LEAD 245 Leadership Cohort 1

Cohort members develop leadership skills by reading leadership literature, discussing leadership issues and visiting local leaders. Credit/No Credit. *Fall and Spring semesters.*

LEAD 310 Overview of Christian Leadership 1

This course will provide the student with an analysis of their own leadership styles, tools, and strategies to be an effective leader. In addition, it outlines the theoretical foundations of the concept of leadership through a review of historical leadership styles and theories and provides students with the opportunity to understand what it takes to influence and empower others. *Scheduled as needed.*

LEAD 345 Leadership Cohort 1

Prerequisite: LEAD 245 (minimum grade of D-)

Cohort members develop leadership skills by reading leadership literature, discussing leadership issues and visiting local leaders. Credit/No Credit. *Fall and Spring semesters.*

LEAD 435 Change Leadership 3

Prerequisites: Permission of instructor

Leading change is a fundamental skill for leaders. This course is designed to equip students to develop the knowledge, skills, and strategies required to effectively lead change initiatives within diverse organizational contexts. This course explores practical approaches that underpin successful change leadership. Students will gain a comprehensive understanding of the challenges, opportunities, and complexities associated with leading change.

Literature

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

LITR 210 Becoming a Curious Reader 3

Encourages students to explore diverse genres and styles with an inquisitive mindset. Students learn techniques for approaching texts, engage in dynamic discussions, and deepen their appreciation of literature. By fostering a sense of purpose and wonder, students practice the values and skills of critical analysis, empathy, and cultural awareness. *Fall semester, or as needed.*

LITR 231 Survey of World Literatures I 3

Surveys and highlights texts either drafted or published between the early centuries before the birth of Christ and the Renaissance periods. Within its global perspective, the course widens the scope to consider the multiculturalism of the Classical World, the cross-cultural exchanges of the Medieval periods, and the socio-cultural intersections happening across and within regions during the various Renaissance periods. *Fall semester, even years.*

LITR 232 Survey of World Literatures II 3

Surveys and highlights texts either drafted or published during the Enlightenment and the Age of Revolutions into the Post-War Era. Within its global perspective, the course seeks to explore the expanding interconnectedness or internationalization of the political and economic world as seen through its literary and textual artifacts. *Spring semester, odd years.*

LITR 237 Introduction to Theatre Arts 3

Introduces and explores theatre from page to stage as a live performing art with a distinct history and development in Eurowestern and American contexts. The course includes the study of theatre conventions, major dramatic movements, as well as the relationship between theatre and society (historical and contemporary), theatrical representation, craft, and adaptation theory. Students not only conduct close readings of plays but also critically analyze recorded performances and produce their own theatrical artifacts. *Spring semesters.*

LITR 240 Travel Literature 3

Prerequisites: ENGL 212 (minimum grade of C) and permission of instructor.

Explores texts authored by individuals experiencing a cultural and/or natural environment previously unknown to them. Travel literature encompasses outdoor literature, guide books, nature writing, and travel memoirs, etc. that seek to document and explore through print lands, environments, and cultural practices viewed as different from the writer's knowledge and experiences. Activities include close reading of texts, discussion, and writing about those texts with attention to genre, historical period, and employment of various literary techniques. Readings in critical theory may also be assigned. Students have *the option of registering for lower-or upper-division credit, but not both. Summer semester, in conjunction with a study tour, as needed.*

LITR 341 American Literatures I 3

Prerequisite: ENGL 212 (minimum grade of C)

Surveys and highlights texts drafted or published between the Age of Discovery and the Civil War. The course takes a continental approach that widens the scope to consider literatures being published in border regions, colonial settlements, and expansion zones (or spheres of influence) alongside texts from the American South and the Eastern Seaboard. *Fall semester, odd years.*

LITR 342 American Literatures II 3

Prerequisite: ENGL 212 (minimum grade of C)

Surveys and highlights texts drafted or published between the Civil War and the Post-War Era. The course applies a continental and global approach that considers literatures being produced not only within the nation– state and its nearby territories– but also those lands under its administrative oversight. *Spring semester, even years.*

LITR 351 Genre Studies 3

Prerequisite: ENGL 212 (minimum grade of C)

Examines on a rotational basis specific genres of literature and media. Students critically analyze evolving expectations of narrative and craft, traditional boundaries, argumentative and cultural positions, and recent shifts in the field. *Fall semester. Students can repeat for credit with permission of instructor.*

LITR/RELB 366 The Bible as Literature 3

Prerequisite: ENGL 212 (minimum grade of C)

Explores the Bible through a primarily literary lens, focusing on genres, narrative techniques, poetic forms, symbolism, and recurring themes. Students will analyze the Bible as an anthology, with each work influenced by its historical and cultural context. Additionally, students will explore the Bible's role as a foundational work in Western literary tradition.
Fall semester, even years.

LITR 410 Texts and Contexts 3

Prerequisite: ENGL 212 (minimum grade of C)

Explores on a rotational basis the relationship between texts and their specific intersectional contexts (historical, socio-cultural, environmental and economic) highlighting its particular place in time, its connections to authorial or community biography (when appropriate), its literary conversations across texts, and its subsequent impact upon publication. *Spring semester. Students can repeat for credit with permission of instructor.*

LITR 440 Travel Literature 3

Prerequisites: ENGL 212 (minimum grade of C) ***and*** *permission of instructor.*

Explores texts authored by individuals experiencing a cultural and/or natural environment previously unknown to them. Travel literature encompasses outdoor literature, guide books, nature writing, and travel memoirs, etc. that seek to document and explore through print lands, environments, and cultural practices viewed as different from the writer's knowledge and experiences. Activities include close reading of texts, discussion, and writing about those texts with attention to genre, historical period, and employment of various literary techniques.

Readings in critical theory may also be assigned. *Students have the option of registering for lower- or upper-division credit, but not both. Summer semester, in conjunction with a study tour.*

LITR 452 Global and Transnational Literatures 3

Prerequisite: ENGL 212 (minimum grade of C)

Explores on a rotational basis diasporic literatures such as Transpacific Literatures (Asian and Pacific Islander); African and Transatlantic African Literatures; Middle Eastern and the Mediterranean World; The Global South or Latin and Hispanic Literatures; Living on/across Borders: Literatures of Indigenous, Refugee, and Stateless Peoples. Fall semester, odd years. *Students can repeat for credit with permission of instructor.*

Marketing

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

MRKT 327 Marketing 3

Prerequisite: ENGL 110 (minimum grade of D-)

A general survey of major marketing methods, institutions and practices, and their effects on producers and consumers. Students integrate marketing concepts through case study analysis and a business simulation. *Fall semester.*

MRKT 333 Professional Selling 3

Examination and practice of the sales process from prospecting to successful closing of the sale and effective follow up. Also considers ethical issues. *Spring semester, even years.*

MRKT 443 Consumer Behavior 3

Prerequisites: ENGL 110 (minimum grade of D-) ***and*** *[MRKT 327 or PSYC 105 (minimum grade of C)]*

Studies people's actions as they relate to obtaining, consuming, and disposing of products and services. Includes consumer decision processes and their relevance for marketing decision-making. *Spring semester, odd years.*

MRKT 450 Marketing Strategy 3

Prerequisites: MRKT 327 (minimum grade of D-)

Presents the four "first principles" of marketing strategy, and the analytical and decision-making processes that are most applicable within each principle. Includes discussions of customer, competitor, and environmental analysis, market segmentation and targeting, competitive positioning, implementation and control. *Fall semester, even years.*

MRKT 456 Marketing Research 3

Prerequisites: ENGL 110 (minimum grade of D-) ***and*** *[COMM 241 or MRKT 327 (minimum grade of D-)]*

Focuses on planning investigations, gathering and interpreting data, and presenting findings in a professional manner. *Fall semester, odd years.*

Mathematics

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

When a MATH course that is higher in a sequence has been passed with a grade of a C or above, that course will meet the requirements of a lower MATH course in the same sequence. No credit will be given for taking a lower course in the sequence after a higher course has been passed with a grade of C or above. MATH 111 and 119 are a sequence; MATH 184, 285, and 286 are a sequence; and MATH 221 and 331 are a sequence.

MATH 111 College Algebra 3

Study of the properties of the real and complex number systems, linear and quadratic equations, factoring, exponents, inequalities, and polynomials. Emphasizes functions (algebraic, exponential, and logarithmic). A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. Does not apply toward a mathematics major or minor. *Fall and Spring semesters.*

MATH 119 Trigonometry 3

Prerequisite: MATH 111 (minimum grade of C) ***or*** *ALEKS score of 55* ***or*** *[ACT Math score of 22 or SAT Math score of 550]*
Recommended preparation: Two years of high school algebra and a year of high school geometry

Study of the identities and applications of trigonometry, including definitions of the six trigonometric functions, the unit circle, reciprocal identities, Pythagorean identities, reduction formulas, sum and difference formulas, the laws of sines and cosines, and other trigonometric topics typically covered in standard trigonometry classes. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Fall semester.*

MATH 184 Calculus I 4

Prerequisite: [MATH 119 (minimum grade of C)] or (ALEKS score of 76 and ACT Math score of 25)

Provides instruction and experience that enable the student to apply calculus, related mathematics, and a graphical calculator to structure an understanding of the world around us and to investigate related questions. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Spring semester.*

MATH 221 Elementary Statistics and Probability 3

Explores basic frequency distributions, probability, sampling, estimations, testing hypotheses, correlation, regression, chi-square and analysis of variance. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Fall, Spring, and Summer semesters.*

MATH 240 Logic, Proof, and Set Theory 3

Prerequisite: MATH 111 or higher (minimum grade of C)

Concerned with finite processes, sequences of individual steps, and sets that can be listed (e.g. whole numbers). Course content focuses on logic, sets, and proof strategies. *Fall semester (may have additional availability).*

MATH 285 Calculus II 4

Prerequisite: MATH 184 (minimum grade of C)

Continuation of MATH 184 with emphasis on methods of integration in rectangular and polar coordinate systems, indeterminate forms, and infinite sequences and series. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Fall semester.*

MATH 286 Calculus III 4

Prerequisite: MATH 285 (minimum grade of C)

Continuation of the Calculus sequence. Includes multivariable functions, partial derivatives, multiple integrals, vector differential operators, line integrals and Green's theorem. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Spring semester.*

MATH 320 Mathematical Concepts for Elementary School Teachers 3

Prerequisite: MATH 111 (minimum grade of C) ***or*** *ALEKS score of 61*
Corequisite: EDUC 345

Builds upon previous mathematics courses as well as classroom observation. Standards for mathematics published by the National Council of Teachers of Mathematics (NCTM) form the basis for the selection of topics: number, operations, and elementary algebra. This course is directed toward thorough comprehension of elementary mathematics and interconnections among mathematical ideas and grade levels. Cooperative learning teams prepare, present, and critically reflect on lessons—to guarantee their students will gain in-depth understanding of mathematics. *Fall semester.*

MATH 331 Probability 4

Corequisite: MATH 286 (minimum grade of C)

A calculus-based introduction to basic concepts in classical probability theory. Includes Bayes' rule, bivariate distributions, and moment generating functions. Application of several discrete distributions (such as Poisson, binomial and hypergeometric) and continuous distributions (such as exponential and normal). A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Fall semester, even years (may have additional availability).*

MATH 332 Statistics 3

Corequisite: MATH 331 (minimum grade of C)

A calculus-based continuation of concepts in statistics. Topics include the central limit theorem, bivariate and multivariate probability distributions, order statistics, properties of point estimators, hypothesis testing, linear statistical models, correlation, regression, matched-pairs experiments, analysis of variance, and other topics. *Spring semester, odd years, scheduled as needed.*

MATH 335 Probability Exam Prep 3

Prerequisite: MATH 331 (minimum grade of C)

A preparatory class for Society of Actuaries' Exam P – Probability. Develops knowledge of the fundamental probability tools for quantitatively assessing risk. Furthermore, the use of these tools in actuarial science applications is highly emphasized. *Spring semester, odd years (may have additional availability).*

MATH 351 Abstract Algebra 3

Prerequisite: MATH 240 (minimum grade of C)

Introduction to the basic concepts of abstract algebra presenting the elements of the theory of number systems, groups, fields, etc. *Spring semester, even years (may have additional availability).*

MATH 352 Linear Algebra 3

Prerequisite: MATH 184 (minimum grade of C)

Provides instruction and experience that enable students to: solve systems of linear equations; apply the properties of vector spaces, inner product spaces, and linear transformations to real-world problems; and answer various questions in engineering, computer science, and statistics. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Spring semester, odd years.*

MATH 360 History of Mathematics 3

Prerequisites: MATH 111 or higher (minimum grade of C) ***and*** *ENGL 212 (minimum grade of D-)*

A brief history of the origins of current mathematical practices. Topics may include an introduction to primitive number systems, the origins of our current mathematical notation systems, and key mathematical discoveries in their historical contexts. *Spring semester, even years (may have additional availability), scheduled as needed.*

MATH 385 Modeling with Differential Equations 3

Prerequisite: MATH 286 (minimum grade of C)

Ordinary differential equations with emphasis on the solutions and analysis of systems of first- and higher-order differential equations drawn from fields of physics, chemistry, geometry and engineering. *Spring semester, even years (may have additional availability).*

MATH 386 Partial Differential Equations 3

Prerequisite: MATH 385 (minimum grade of C)

Partial differential equations, Fourier series, boundary value problems, Bessel functions, Legendre polynomials. *Scheduled as needed.*

MATH 409 Modern College Geometry 3

Prerequisite: MATH 285 (minimum grade of C) ***or*** *experience teaching secondary geometry*

Studies advanced Euclidean geometry and introduces modern geometrical concepts in non-Euclidean geometry. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Fall semester, odd years (may have additional availability).*

MATH 451 Mathematical Connections for Secondary Teachers 4

Prerequisite: EDUC 475 (minimum grade of C) ***or*** *27 of the 37 MATH hours required for the BS in Mathematics Education*

Provides a capstone experience for prospective mathematics teachers enabling them to build insightful connections between the advanced mathematics of their college courses and the high school mathematics they will be teaching. A TI-84 (highly recommended) or other graphing calculator with comparable features is required for this course. *Spring semester, even years, as needed.*

MATH 491 Real Analysis 3

Prerequisites: MATH 240 (minimum grade of C) ***and*** *MATH 286 (minimum grade of C)*

Studies properties of real numbers and sets of real numbers, limits of sequences and functions, series, modes of convergence and their consequences (such as continuity). Introduction to elementary topological notion of the real line. Theory of the Riemann Integral. *Fall semester, even years (may have additional availability).*

MATH 492 Complex Variables 3

Prerequisite: MATH 286 (minimum grade of C)

An introduction to the theory of analytic functions of a complex variable, including mappings by elementary functions, complex integration, Cauchy's integral formula, power series, Laurent series, theory of residues and conformal mapping. *Fall semester, odd years (may have additional availability).*

MATH 499 Mathematics Seminar 2

Prerequisite: Permission of instructor

A series of topics not necessarily covered in other mathematics classes offered at Union Adventist University. Topics will vary, but may include introduction to number theory, topology, ring theory, use of Mathematica and/or Maple, game theory. *Spring semester, even years (may have additional availability).*

Music Applications

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

MUAP 110 Introduction to Music Production and Technology 2

This course introduces students to the essential technologies, techniques, and skills necessary for modern music production. Students will explore the fundamental principles of recording, mixing, and signal flow, while gaining hands-on experience with digital music production through projects completed in a digital audio workstation (DAW). Emphasis will be placed on developing technical proficiency, creativity, and understanding of core production concepts, enabling students to record, edit, mix, and produce music across a variety of genres. No prior experience is required. *Fall semester.*

MUAP 207 Brass Techniques and Materials 1

Designed to give future teachers experience with the various techniques of, and the materials for, teaching brass instruments to beginning and intermediate students. Class members also gain a basic proficiency in playing a variety of brass instruments. *Fall semester, as needed.*

MUAP 217 Guitar Techniques and Materials 1

Designed to give future teachers experience with the techniques of, and the materials for, teaching guitar to beginning and intermediate students. The members of this class also gain a basic proficiency in playing the guitar. *Spring semester, as needed.*

MUAP 227 Percussion Techniques and Materials 1

Designed to give future teachers experience with the various techniques of, and the materials for, teaching percussion instruments to beginning and intermediate students. The members of this class also gain a basic proficiency in playing a variety of percussion instruments. *Spring semester, schedule as needed.*

MUAP 237 String Techniques and Materials 1

Designed to give future teachers experience with the various techniques of, and the materials for, teaching stringed instruments to beginning and intermediate students. The members of this class also gain a basic proficiency in playing a variety of stringed instruments. *Spring semester, scheduled as needed.*

MUAP 247 Vocal Techniques and Materials 1

Develops a comprehensive understanding of the singing voice. Students will learn the introductory skills necessary to teach efficient and healthy singing in both solo and choral settings. This includes the fundamental anatomy and physiology of the singing voice, as well as principles of respiration, phonation, resonation, and articulation. Additionally, students will be exposed to basic resources for vocal literature and methodology. A written project is required. Fall semester, as needed. *Alternate years, scheduled as needed.*

MUAP 257 Woodwind Techniques and Materials 1

Designed to give future teachers experience with the various techniques of, and the materials for, teaching woodwind instruments to beginning and intermediate students. The members of this class also gain a basic proficiency in playing a variety of woodwind instruments. *Fall semester, as needed.*

MUAP 310 Creative Music Production 1

Prerequisite: MUAP 110 (minimum grade of C)

This course explores advanced techniques in digital songwriting, arranging, signal flow, and complex recording scenarios. Students will refine their skills in producing both original and arranged works using digital audio workstations (DAWs) and mastering advanced signal routing and audio engineering. The course also provides a brief overview of the legal considerations involved in music distribution. Through hands-on projects, students will further develop their creative abilities within the landscape of digital music production. *Scheduled as needed.*

Music Education

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

MUED 275 Music Practicum 1

Prerequisite: Permission of instructor

Teach private music lessons under the supervision of the instructor. Participate in other hands-on activities of a music teacher. Each hour of credit represents 45 clock hours of contact

time. This contact time will be divided between instructor time and student teaching time. May be repeated for additional credit. *Scheduled as needed.*

MUED 307 Keyboard Pedagogy 2

Prerequisite: Permission of instructor

A survey of methods and materials for effective piano teaching starting with the child beginner and proceeding through the high school student. Particular emphasis given to age appropriate techniques, literature, and musicianship development. Includes observations and practical experience with professional piano teachers from the community. *Scheduled as needed.*

MUED 317 Instrumental Pedagogy 2

Prerequisite: Permission of instructor

Designed to give future teachers experience with a variety of more advanced techniques for teaching instrumentalists of all skill levels, through normal classroom study as well as supervised practicum. *Scheduled as needed.*

MUED 327 Vocal Pedagogy 2

Prerequisite: Permission of instructor

Develops a comprehensive understanding of the singing voice. Students learn the introductory skills necessary to teach efficient and healthy singing in solo and choral settings. This includes the fundamental anatomy and physiology of the singing voice, as well as principles of respiration, phonation, resonation, and articulation. Additionally, students will engage in a supervised teaching practicum of various voice types. A written project is required. *Fall semester, as needed.*

MUED 347 Music in the Elementary School 2

PrerequisiteS: EDUC 218 (minimum grade of D-) ***and*** *CORE Test passed* ***and*** *permission of instructor*

Prepares future elementary teachers for teaching music at the K-6 level by instructing them on how to set goals and objectives for the music program and how to organize and implement it. Examines various methods and techniques available to the elementary music teacher and explores the interrelationship between music and the entire curriculum. Practices and performs fundamental techniques of the recorder, guitar, ukulele, and voice. *Fall semester.*

Music History and Literature

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

MUHL 260 Music in the Western World 2

Focuses on the development of music in Western civilization. Students become acquainted with important styles and genres of art music, as well as influential composers and specific pieces from Medieval to contemporary times. *Fall semester.*

MUHL 261 Traditional and World Music 2

Designed to increase cultural awareness through an overview of traditional music styles and performance practices from around the world. The cultural and historical context for each musical tradition is examined. *Spring semester.*

MUHL 315 Music and Christian Worship 2

A survey of congregational song and its use in Christian worship, with an emphasis on the relationships between church history, theology, scripture, music and literature, as well as the necessary criteria for planning and evaluation. *Scheduled as needed.*

MUHL 351 Music History I 2

Prerequisite: Permission of instructor

Music History I is the first semester in a two-year sequence of Western music history courses covering Western music from early Christian times through the Medieval period and the Renaissance. *Fall semester, even years.*

MUHL 352 Music History II 2

Prerequisite: Permission of instructor

Music History II is the second semester in a two-year sequence of Western music history courses covering Western music from late Renaissance through the Baroque period. *Spring semester, odd years.*

MUHL 353 Music History III 2

Prerequisite: Permission of instructor

Music History III is the third semester in a two-year sequence Western music history courses covering the Classical and early Romantic periods. *Fall semester, odd years.*

MUHL 354 Music History IV 2

Prerequisite: Permission of instructor

Music History IV is the fourth semester in a two-year sequence of Western music history courses covering music from the mid-Romantic period to the radical modernists, including an overview of jazz. *Spring semester, even years.*

Music Performance Studies

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

Private Lessons

Private lessons with studio classes as required; may be repeated for additional credit. Thirteen 30-minute lessons per semester and daily practice of at least four periods per week will yield one hour of academic credit. All new music majors and minors must complete an audition for placement by faculty. Non-music majors and minors will typically be enrolled initially at the 100-level for private lessons. More advanced students in this category may be enrolled at the 300-level based on the recommendation of the music faculty. Majors who have studied at the 200-level for four semesters, may upon successful jury examination and the recommendation of their instructor, be moved to the 400-level. Fall and Spring semesters.

MUPF 101, 201, 301, 401 Voice	1-3
MUPF 105, 205, 305, 405 Flute	1-3
MUPF 106, 206, 306, 406 Oboe	1-3
MUPF 107, 207, 307, 407 Clarinet	1-3
MUPF 108, 208, 308, 408 Bassoon	1-3
MUPF 109, 209, 309, 409 Saxophone	1-3
MUPF 111, 211, 311, 411 Piano	1-3
MUPF 112, 212, 312, 412 Organ	1-3
MUPF 113, 213, 313, 413 Harpsichord	1-3
MUPF 114, 214, 314, 414 Harp	1-3
MUPF 115, 215, 315, 415 Trumpet	1-3
MUPF 116, 216, 316, 416 Horn	1-3
MUPF 117, 217, 317, 417 Euphonium (Baritone Horn)	1-3
MUPF 118, 218, 318, 418 Trombone	1-3
MUPF 119, 219, 319, 419 Tuba	1-3
MUPF 121, 221, 321, 421 Percussion	1-3
MUPF 125, 225, 325, 425 Violin	1-3
MUPF 126, 226, 326, 426 Viola	1-3
MUPF 127, 227, 327, 427 Cello	1-3
MUPF 128, 228, 328, 428 String Bass	1-3
MUPF 129, 229, 329, 429 Guitar	1-3
MUPF 130, 230, 330, 430 Composition	1-3
MUPF 131, 231, 331, 431 Theory	1-3

Band, Orchestra, Choir and Ensembles

May be repeated for additional credit. Fall and Spring semesters.
Prerequisite: Permission of instructor

MUPF 175, 375 Symphonic Concert Band	1
MUPF 176, 376 Chamber Orchestra	1
MUPF 177, 377 Chamber Choir	1
MUPF 185, 385 Advanced Choir (Unionaires)	1
MUPF 191, 391 Brass Ensemble (Brass Union)	1
MUPF 192, 392 Guitar Ensemble	1
MUPF 193, 393 Handbell Ensemble	1
MUPF 194, 394 Keyboard Ensemble	1
MUPF 195, 395 String Ensemble (Golden Cords)	1
MUPF 196, 396 Vocal Ensemble	1
MUPF 197, 397 Woodwind Ensemble	1

MUPF 257 Introduction to Conducting 1

Prerequisite: Permission of instructor

Spring semester.

MUPF 266 English-Italian Diction 1

Prerequisite: Permission of instructor.

An introduction to the International Phonetic Alphabet (IPA) and the phonetic rules and principles of pronunciation as applicable to singing in English and Italian. *Fall semester, even years.*

MUPF 267 German-French Diction 1

Prerequisite: Permission of instructor.

An introduction to the International Phonetic Alphabet (IPA), and the phonetic rules and principles of pronunciation as applicable to singing in German and French. *Spring semester, odd years.*

MUPF 341 Choral Conducting 1

*Prerequisites: MUPF 257 (minimum grade of D-) **and** permission of instructor*

A study of the art of choral conducting. This course will involve learning the many aspects of conducting vocal ensembles that contribute to becoming a successful choral conductor. *Spring semester, as needed.*

MUPF 342 Instrumental Conducting 1

*Prerequisites: MUPF 257 (minimum grade of D-) **and** permission of instructor*

Scheduled as needed.

MUPF 346 Service Playing 1

Prerequisite: Permission of instructor

The role of the organist in the church service; practical procedures. *Scheduled as needed.*

MUPF 351 Junior Recital 1

Prerequisite: Permission of instructor

Scheduled as needed.

MUPF 451 Senior Recital 1

*Prerequisites: MUTH 254 (minimum grade of D-) **and** permission of instructor*

Scheduled as needed.

Music Theory

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

MUTH 151 Theory I 3

Corequisite: MUTH 161

MUTH 151 is the first course in a two-year sequence of Music Theory courses that parallels skills developed in Aural Skills I. Music Theory I covers music theory concepts from basic notation and key signatures to diatonic harmony and simple phrase structure. *Fall semester.*

MUTH 152 Theory II 3

*Prerequisites: MUTH 151 **and** MUTH 161 (minimum grade of C)*
Corequisite: MUTH 162

MUTH 152 is the second course in a two-year sequence of Music Theory courses that parallels skills developed in Aural Skills II. Music Theory II develops concepts of Western harmony, simple

structures, and the development of harmonic ideas. Students begin learning through analysis and composition.
Spring semester.

MUTH 161 Aural Skills I 1

Corequisite: MUTH 151 (minimum grade of C)

MUTH 161 is the first course in a two-year Aural Skills sequence that parallels concepts presented in Music Theory I. It focuses on foundational rhythmic, melodic, and harmonic skills through performance, dictation, and recognition. *Fall semester.*

MUTH 162 Aural Skills II 1

Prerequisites: MUTH 151 ***and*** *MUTH 161 (minimum grade of D-)*
Corequisite: MUTH 152

MUTH 162 is the second course in a two-year Aural Skills sequence that parallels concepts presented in Music Theory II. It combines studies of rhythm, melody, and harmony through compound meters, minor scales, and chord functions, while introducing diatonic leaps and clef changes. *Spring semester.*

MUTH 163 Aural Skills III 1

Prerequisites: MUTH 152 ***and*** *MUTH 162 (minimum grade of D-)*
Corequisite: MUTH 253

MUTH 163 is the third course in a two-year Aural Skills sequence that parallels concepts presented in Music Theory III. It deepens rhythmic, melodic, and harmonic skills, focusing on syncopation, chromaticism, 7th chords, expanded intervals, and inversions. *Fall semester.*

MUTH 164 Aural Skills IV 1

Prerequisites: MUTH 163 ***and*** *MUTH 253 (minimum grade of D-)*
Corequisite: MUTH 254

MUTH 164 is the final course in the Aural Skills sequence that parallels concepts presented in Music Theory IV. It refines complex rhythm, melody, and harmony through changing meters, modulation, borrowed chords, and diatonic modes. *Spring semester.*

MUTH 253 Theory III 3

Prerequisites: MUTH 152 (minimum grade of C) ***and*** *MUTH 162 (minimum grade of C)*
Corequisite: MUTH 163

MUTH 253 is the third course in a two-year sequence of Music Theory courses that parallels skills developed in Aural Skills III. Music Theory III introduces students to chromaticism and develops concepts of early 19th-century style and genre. *Fall semester.*

MUTH 254 Theory IV 3

Prerequisites: MUTH 253 ***and*** *MUTH 163 (minimum grade of C)*
Corequisite: MUTH 164

MUTH 254 is the final course in the two-year Music Theory course sequence that parallels skills developed in Aural Skills IV. Music Theory IV explores music theory concepts ranging from chromaticism to the twentieth-century style and genre practices throughout Western music history. *Spring semester.*

MUTH 263 Form and Analysis 2

Corequisite: MUTH 253 (minimum grade of C)

An introduction to the main forms of Western music and the study of genres and styles related to them. *Scheduled as needed.*

MUTH 462 Introduction to Counterpoint 2

Prerequisite: MUTH 254 (minimum grade of C)
Recommended: MUHL 352

An introduction to the early polyphony in Western music and to the well-developed polyphonic technique and forms of the baroque style. *Fall semester, as needed.*

MUTH 465 Orchestration 2

Prerequisite: MUTH 254 (minimum grade of D-)

Introduction to writing for orchestral and band instruments. Competence in transpositions, ranges and elementary ensemble writing. *Spring semester, as needed.*

Nursing

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

NURS 204 Introduction to Professional Nursing 3

*Prerequisites: Admission to the nursing program **and** successful completion of prerequisite courses*

Focuses on the role of the professional nurse in the current system of healthcare delivery. Sociological theories are included. Basic concepts of communication, safety, quality patient-centered care, and clinical judgment are introduced. *Fall and Spring semesters.*

NURS 210 Fundamentals 7.5

*Prerequisites: Admission to the nursing program **and** successful completion of prerequisite courses*
Corequisite: NURS 305

This course introduces basic psychomotor skills and foundational concepts of physiologic and psychosocial integrity, with a focus on patient-centered care for adults across the lifespan experiencing commonly occurring acute and chronic illnesses. Students will explore nutritional concepts as well as psychological and sociological theories, particularly as they relate to the aging population. Emphasis is placed on the physiologic and psychosocial changes associated with aging and their nursing care implications. Clinical experiences provide opportunities for students to deliver safe, individualized care to adult patients in a variety of healthcare settings. *Withdrawal from NURS 305 requires withdrawal from NURS 210. Failure of NURS 305 requires an altered clinical experience for NURS 210. Fall and Spring semesters.*

NURS 243 Evidence-Based Practice 3

*Prerequisites: ENGL 212 (minimum grade of C) **and** MATH 221 (minimum grade of C) **and** NURS 314 (minimum grade of C) **and** NURS 423 (minimum grade of C) **and** NURS 383 (minimum grade of C)*
Corequisites: NURS 424 and NURS 415

Focuses on the process of evidence-based research and its relationship to the profession of nursing. Students learn the components of the research process and the basic concepts and terms

associated with research. Emphasis is placed on evaluation of published research studies for use in evidence-based nursing practice. *Fall and Spring semesters.*

NURS 305 Health Assessment 3

*Prerequisites: Admission to the nursing program **and** successful completion of prerequisite courses*
Corequisite: NURS 210

Introduces skills and concepts necessary to obtain a health history, perform a physical examination, and accurately document findings. Emphasis is placed on how to differentiate between normal and abnormal findings for patients of varying ages and cultural backgrounds. *Withdrawal from NURS 305 requires withdrawal from NURS 210. Fall and Spring semesters.*

NURS 313 Pathophysiology 4

*Prerequisites: Admission to the Nursing Program **and** successful completion of prerequisite courses*

Examines normal physiology and pathophysiologic responses that accompany commonly occurring acute and chronic illnesses. Discussion includes physiologic responses that begin at the cellular level and progress to individual and related organ systems. Pathophysiologic alterations to disease management and prevention. *Fall and Spring semesters.*

NURS 314 Pharmacology 3

*Prerequisite: NURS 313 (minimum grade of C) **or** permission of instructor*
Corequisite: NURS 325

This course focuses on the nursing application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics, emphasizing the nursing application of drug therapy to promote health and manage disease. Major pharmacological classifications, mechanisms of action, and nursing implications to ensure safe and effective medication administrations are emphasized. *Fall and Spring semesters.*

NURS 325 Medical-Surgical 8

*Prerequisites: NURS 210 (minimum grade of C) **and** NURS 305 (minimum grade of C) **and** NURS 313 (minimum grade of C)*
Corequisite: NURS 314 and NURS 383

This course expands on the application of concepts necessary to provide safe, patient-centered care to adults across the lifespan with commonly occurring acute and/or chronic illnesses. Students provide safe care for one or more patients per clinical experience in an acute care environment. *Fall and Spring semesters.*

NURS 347 Nursing Program Integration 3

*Prerequisite: Admission to the nursing program as a transfer nursing student **or** BSN Completion student.*

Focuses on the role of the professional nurse in the current system of healthcare delivery and facilitates Union Adventist University Nursing program integration while addressing gaps in content knowledge for the transfer nursing or BSN Completion student. Sociological theories are included. Basic concepts of communication, safety, quality patient-centered care, and clinical judgment are introduced. *Fall and Spring semesters.*

NURS 383 Mental Health 3.5

*Prerequisites: NURS 204 (minimum grade of C) **and** NURS 210 (minimum grade of C) **and** NURS 305 (minimum grade of C) **and** NURS 313 (minimum grade of C) **and** PSYC 215 (minimum grade of C)*
Corequisite: NURS 325 and NURS 314

Builds upon sociological and psychological concepts in the promotion of mental health. Exploration of the therapeutic nurse/patient relationship to promote optimal mental health in individuals experiencing disorders that affect thinking, cognition, behavior, and communication is included. *Fall and Spring semesters.*

NURS 391 Global Health Nursing 2

Prerequisite: NURS 322 (minimum grade of C) ***and*** *NURS 415 (minimum grade of C)* ***or*** *permission of instructor*

Introduces the nursing student to principles and practices of healthcare on the frontiers of developing countries. Students may have the opportunity as part of a multidisciplinary healthcare team to provide patient-centered care with cultural humility in a global community. Limited enrollment and an additional fee for field experience. Elective course. *Spring semester.*

NURS 415 Maternal Child Health 6.5

Prerequisites: NURS 314 (minimum grade of C) ***and*** *NURS 383 (minimum grade of C)* ***and*** *PSYC 215 (minimum grade of C)*

Focuses on family-centered care from the development of a family through adolescence. Nutritional, psychological, and sociological concepts related to this stage of life are included. Students care for one or more patients and their families per clinical experience in acute and ambulatory settings to promote wellness and restore health. *Fall and Spring semesters.*

NURS 424 Critical Care 7

Prerequisites: NURS 325 (minimum grade of C) ***and*** *NURS 313 (minimum grade of C)* ***and*** *NURS 314 (minimum grade of C)* ***and*** *NURS 383 (minimum grade of C)*

This course focuses on the application of critical care concepts and clinical judgment necessary to provide safe, patient-centered care to adults across the lifespan with multisystem or complex healthcare needs. Students provide safe care for one to two patients per clinical experience in acute and critical care environments. *Fall and Spring semesters.*

NURS 440 Population Health 4.5

Prerequisites: NURS 383 (minimum grade of C) ***and*** *NURS 415 (minimum grade of C)*

This course focuses on family and population health promotion, including disease and injury prevention, with an emphasis on clinical prevention strategies and inter-professional collaboration. Students will explore global and population health indicators in vulnerable groups across the lifespan, applying nutritional and sociological concepts to community-based clinical experiences. The course also integrates emergency preparedness and disaster response management, highlighting essential safety, communication, collaboration, and leadership skills. Clinical judgment and decision-making are evaluated through simulated disaster and mass casualty events, incorporating sociological theories related to disaster. *Fall and Spring semesters.*

NURS 453 Management & Leadership 3

Prerequisites: NURS 415 (minimum grade of C) ***and*** *NURS 424 (minimum grade of C)*

Focuses on the nurse as a leader and manager of care in professional practice. An awareness of complex healthcare systems and the impact of power, politics, policy, and regulatory guidelines in a changing environment will be developed. *Fall and Spring semesters.*

NURS 498 Professional Practice & Preceptorship 6

Prerequisite: Completion or concurrent registration of all required NURS courses

This course provides a clinical capstone experience where students demonstrate entry-level nursing competencies and refine clinical reasoning, prioritization, and decision-making skills under the guidance of a qualified preceptor. Emphasis is placed on managing care for multiple patients, fostering self-confidence, and integrating professional practice standards to ensure a smooth transition into the nursing workforce. Students explore workplace expectations, licensure requirements, résumé building, and interview preparation while synthesizing their knowledge through the successful completion of an NCLEX-RN® readiness assessment. The course promotes professional identity formation, leadership development, and a sense of belonging in the nursing profession as students prepare for their first role as registered nurses. *Fall and Spring semesters.*

Occupational Therapy Assistant

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

OTAC 100 Introduction to Occupational Therapy 2

Prerequisite: Acceptance into the OTA program

This course offers a complete overview of the profession of occupational therapy (OT) and the role of the occupational therapy assistant. At the culmination of this course students will have a foundation in the history, philosophy and theories, models and practice frameworks the profession is built upon, as well as be able to identify practice settings across the lifespan. Learners will also be introduced to the Occupational Therapy Practice Framework, evidence-based practice, client-centered practice and the OT Code of Ethics. *Spring semester.*

OTAC 120 Clinical Conditions 2

Prerequisite: Acceptance into the OTA program

This course will introduce learners to conditions commonly treated by occupational therapy practitioners in traditional healthcare settings. This course provides an overview of condition etiology, incidence, signs and symptoms, medical management, prognosis and the effect of diagnosis or disease processes on occupational participation. *Spring semester.*

OTAC 141 Foundations of Professionalism 1

Prerequisite: Acceptance into the OTA program

This entry-level course is designed to introduce occupational therapy assistant (OTA) students to the fundamental concepts of professionalism within the field of occupational therapy. Students will explore the roles and responsibilities of OTAs, emphasizing the ethical and legal standards that guide practice. The course will cover key topics such as professional communication, teamwork, cultural competence, and ethical decision-making. Students will also develop skills in reflective practice, time management, and understanding the importance of maintaining professional boundaries. *Spring semester.*

OTAC 201 Human Occupation 3

Prerequisites: OTAC 100 and OTAC 120 (minimum grade of C)

This course introduces activity analysis, evidence based-practice, creative and critical thinking, interpersonal communication and documentation of occupational therapy services. At the

culmination of the course, students will be able to conduct occupation-based intervention planning and implementation. Documentation skills will be developed utilizing the S.O.A.P note method. *Fall semester.*

OTAC 211 Functional Anatomy & Human Movement 4

Prerequisite: OTAC 120 (minimum grade of C)

This course provides a foundational understanding of anatomy, neuroanatomy, and kinesiology. the relationship of body structures to functional human movement. The course also addresses development and implementation of evidence-based treatment methods to address human movement and its impact on functional participation. Fall *semester.*

OTAC 221 The OT Process for Productive Aging 4

Prerequisites: OTAC 100 and 120 (minimum grade of C)

This course addresses common conditions including disease process and age-related changes, practice settings, and treatment methods relevant to working with the older adult population. Students will demonstrate planning and implementation of OTA interventions that promote productive aging including driving and community mobility, fall prevention, home modifications and aging in place, managing chronic conditions, and health and wellness. The course emphasizes outcomes of wellness, functional participation, and quality of life for this client population. Students will demonstrate application of the OT process for older adult clients including gathering an occupational profile, planning and implementing treatment activities, and documentation. *Fall Semester*

OTAC 231 The OT Process for Mental Health 4

Prerequisites: OTAC 100 and 120 (minimum grade of C)

This course provides an in-depth exploration of the scope of practice for occupational therapy assistants (OTAs) in mental health across the lifespan. Students will examine the unique role of OTAs in supporting individuals with mental health disorders, from childhood through older adulthood, in various settings such as hospitals, outpatient clinics, community programs, and schools. Emphasis will be placed on understanding psychiatric diagnoses, developing client-centered intervention plans, and implementing therapeutic strategies that promote mental well-being and occupational engagement. By the end of the course, students will be prepared to contribute effectively to mental health occupational therapy services, supporting clients in achieving meaningful and productive lives. *Fall semester.*

OTAC 241 Level 1A Fieldwork 1

Prerequisite: OTAC 141 (minimum grade of C)

This Level IA fieldwork course provides students with hands-on experience in the field of occupational therapy, focusing on contributing to the evaluation, intervention planning, implementation, and outcomes for individuals with physical disabilities resulting from illness, disabling conditions, or injury. Students will gain practical skills by working under the supervision of licensed occupational therapists and/or occupational therapy assistants, allowing them to observe and contribute to the therapeutic process. *Fall semester.*

OTAC 250 The OT Process for Rehabilitation and Disability 4

Prerequisites: OTAC 201 and OTAC 211 (minimum grade of C)

This course provides learners with an understanding of the occupational therapy process of contributing to evaluation, intervention planning and implementation, and outcomes for clients with physical and neurological impairments resulting from illness, disabling conditions, or

injury. Students will develop skills in collaborating with occupational therapists to contribute to assessment of clients. The course will emphasize evidence-based intervention techniques for addressing motor, cognitive, visual, sensory, and perceptual impairments. Students will also develop therapeutic techniques for functional transfers, wheelchair management, orthotics, and physical agent modalities. *Spring semester.*

OTAC 261 The OT Process for Children and Youth 4

Prerequisites: OTAC 201 and OTAC 211 (minimum grade of C)

This course addresses foundational theories, practice models, intervention approaches and practice arenas for occupational therapy practice with children. Students will develop skills in collaborating with occupational therapists to contribute to assessment of pediatric clients. The course will emphasize evidence-based intervention techniques including feeding and oral motor development, gross and fine motor skills, sensory processing, and neurodevelopmental treatment. *Spring semester.*

OTAC 271 The OT Process for Community-Based Practice 4

Prerequisites: OTAC 201 and OTAC 231 (minimum grade of C)

This course addresses the role of the OTA in community-based practice including theoretical frameworks and intervention approaches. Students will develop an understanding of the various aspects of community-based practice including health and wellness, work and industry, emerging practice areas and technology, and community-based settings across the lifespan. *Spring semester.*

OTAC 280 Ethics, Leadership and Practice Skills 2

Prerequisite: OTAC 201 (minimum grade of C)

This course addresses ethical practice, leadership, and business aspects of occupational therapy practice. Students will reflect on the application of emotional intelligence and leadership skills to practice, and analyze concepts of management versus leadership. Business aspects of practice including policy, advocacy, and reimbursement, billing, marketing and promoting, and quality improvement will be addressed. Students will examine practice requirements including certification, licensure, and supervision regulations. Students will also apply concepts of professional reasoning and ethical principles from the OT Code of Ethics to navigating complex practice scenarios and ethical dilemmas. *Spring semester.*

OTAC 301 Level IB Fieldwork 1

Prerequisite: OTAC 241 (minimum grade of C)

This Level I fieldwork course offers occupational therapy assistant (OTA) students the opportunity to gain practical experience in addressing the psychosocial aspects of occupational therapy practice. Students will work under the supervision of professionals in settings that focus on mental health, community-based programs, or other environments where psychosocial factors significantly impact occupational performance. *Spring Semester.*

OTAC 310 Professional Seminar 2

Prerequisites: OTAC 280 and OTAC 301 (minimum grade of C)

This course is designed to facilitate the transition from student to practitioner by preparing students for professional employment and the certification exam. Students will explore licensure processes and state regulations; complete a job search; create a professional development plan; and review test-taking strategies and application of learning to prepare for the certification exam. *Fall semester.*

OTAC 320 Level IIA Fieldwork 6

Prerequisite: OTAC 301 (minimum grade of C)

This course is designed to enhance the learning from coursework by providing opportunities for learners to experience a setting under the supervision of a qualified OT professional. (8 weeks). *Summer semester.*

OTAC 330 Level IIB Fieldwork 6

Prerequisite: OTAC 301 (minimum grade of C)

This course is designed to enhance the learning from coursework by providing opportunities for learners to experience a second practice setting under the supervision of a qualified OT professional. (8 weeks); *Fall semester.*

Philosophy

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

PHIL 335 Introduction to Philosophy 3

Introduces logic and critical thinking and applies them in a survey of western philosophy from the pre-Socratics to the present. *Spring semester.*

Photography

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

PHOT 151 Introduction to Photography 3

A study of the basic techniques and principles of photography, including camera usage, photographic technique, natural and studio lighting, composition and aesthetic concerns. A DSLR or mirrorless digital camera is required. A limited number of cameras are available for rent. *Fall semester.*

PHOT 225 Intermediate Photography 3

Prerequisites: GRPH 150 (minimum grade of D-) ***and*** *PHOT 151 (minimum grade of D-)*

A study of photography using digital tools, technology, and output. Students will review the core concepts of photography and how to manage a digital workflow, with emphasis on practical control of image making for applications such as journalism, commercial photography, and fine art photography. Digital camera required, DSLR preferred. *Spring semester, odd years.*

PHOT 250 Travel Photography 3

Emphasizes practical applications of photographic technique in areas such as landscape, portraiture, photojournalism, nature, and wildlife photography with emphasis on development of a personal vision. Participants are required to contribute to a book project and to a class exhibition. *Summer semester, in conjunction with a study tour, as needed.*

PHOT 285 Advanced Photography 3

Prerequisite: GRPH 150 (minimum grade of D-) ***or*** *PHOT 151 (minimum grade of D-)* ***or*** *PHOT 225 (minimum grade of D-)* ***or*** *PHOT 325 (minimum grade of D-)*

Advanced work in studio and product lighting, portraiture, location work, advertising/illustration, and still life photography. *Fall semester, odd years.*

PHOT 325 Commercial Photography 3

Prerequisites: GRPH 150 (minimum grade of D-) ***and*** *PHOT 151 (minimum grade of D-)* ***and*** *PHOT 225 (minimum grade of D-)*

The study and practice of techniques for producing commercially viable images in studio and on location. Emphasis on using necessary skills and techniques to achieve client's desired results, in areas such as product, architecture, and portrait photography. *Fall semester, even years.*

PHOT 450 Travel Photography 3

Prerequisites: Previous photography experience or coursework ***and*** *permission of instructor*

Emphasizes practical applications of photographic technique in areas such as landscape, portraiture, photojournalism, nature, and wildlife photography with emphasis on development of a personal vision. Participants are required to contribute to a book project and to a class exhibition. *Summer Semester, in conjunction with a study tour, as needed.*

Physics

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

PHYS 151 General Physics I 4

Prerequisite: MATH 119 (minimum grade of C) ***or*** *MATH 184 (minimum grade of C)*

An algebra/trigonometry-based physics course to fulfill the requirements for various pre-professional programs. Introduces linear and rotational mechanics including energy and momentum considerations, thermodynamics, and waves. Includes discussion of the historical development of our understanding along with references to environmental and social impacts of applied technology. Three lectures and one laboratory per week. Credit not given for both this course and PHYS 251. *Fall semester.*

PHYS 152 General Physics II 4

Prerequisite: PHYS 151 (minimum grade of C) ***or*** *PHYS 251 (minimum grade of C)*

A continuation of PHYS 151 covering electricity, magnetism, simple circuits, optics, special relativity and modern physics. Discussion of the historical development of our understanding, along with references to environmental and social impacts of applied technology. Three lectures and one laboratory per week. Credit not given for both this course and PHYS 252. *Spring semester.*

PHYS 251 University Physics I 5

Prerequisite: MATH 184 (minimum grade of C)

A calculus-based physics course designed for science majors. Introduces linear and rotational mechanics including energy and momentum considerations, thermodynamics, and waves. Includes discussion of the historical development of our understanding along with references to environmental and social impacts of applied technology. Four lectures and one laboratory per week. *Fall semester.*

PHYS 252 University Physics II 5

Prerequisite: PHYS 251 (minimum grade of C)

A continuation of PHYS 251 covering electricity, magnetism, simple circuits, optics, special relativity and modern physics. Discussion of the historical development of our understanding, along with references to environmental and social impacts of applied technology. Four lectures and one laboratory per week. *Spring semester.*

Political Science

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

PLSC 105 Introduction to International Relations 3

An introduction to the study of international relations: the basic theories and conceptual foundations of the discipline. *Fall semester.*

PLSC 208 American Politics 3

Analysis of the organic development and construction of American politics, including the making and functioning of the United States Constitution, the functioning of the Supreme Court, the U.S. Congress, and the Presidency. *Spring semester.*

PLSC 330 Modern Comparative Government 3

A thematic study of the different types of government that exist around the world today, from authoritarian regimes to full democracies. Topics studied include political culture, parties, elections, and political economy. *Spring semester, odd years.*

PLSC/HIST 333 Global Geopolitics since 1945 3

Major developments and trends in world history since 1945, including the aftermath of World War II, decolonization, the Cold War, globalization, and the conflicts of the 21st century. *Spring semester, even years.*

PLSC/HIST 346 Russia in Global Politics 3

This course reviews and analyzes the place of Russia in modern global affairs, especially U.S.-Russian geopolitical cooperation and contests from the Soviet era into present-day politics under Putin. *Scheduled as needed.*

PLSC/HIST 392 The Modern Middle East 3

Prerequisite: ENGL 212 (minimum grade of D-)

The history and the politics of the modern Middle East, from the Tanzimat period of the Ottoman Empire to the present period. Analysis of the various past and present conflicts in the Middle East. *Scheduled as needed.*

PLSC 396 The United States and China 3

U.S. and China: together forever? Understand the Communist government of China and also how and why U.S. political and economic relations with China continue to matter in your daily life. *Scheduled as needed.*

PLSC/HIST 465 The U.S. War on Terror 3

The recent U.S. and global politics surrounding the commencement of the U.S. War on Terror in 2001 until the present-day. *Scheduled as needed.*

Psychology

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

PSYC 100 Careers in Psychology 0.5

Exposes students to the variety of careers available in the field of psychology and gives instruction about the academic choices to be made in order to be qualified for the various careers. Credit/no credit. Does not apply to general education requirements. *Fall semester.*

PSYC 105 Introduction to Psychology 3

Explores the science of psychology, its theories, basic concepts, and research methods. Students are introduced to the major subfields in psychology. *Fall and Spring semesters.*

PSYC 215 Developmental Psychology 3

Studies the physical, emotional, cognitive and psycho-social development through each of the life stages, prenatal through old age. *Fall and Spring semesters.*

PSYC 225 Psychology of Religion 3

An examination of the psychological processes involved in religious experiences from personal, developmental, social and emotional perspectives. *Fall semester.*

PSYC 270 Research Writing 1

Prerequisite: Permission of instructor

This class introduces students to elements of research writing using the format and style from the Publication Manual of the American Psychological Association. Students will be exposed to writing papers for empirical studies and literature reviews. They will apply the principles in writing a paper for a class in their discipline. *Spring semester.*

PSYC 300 Career and Graduate School Preparation 0.5

Prerequisite: Junior standing (56 hours of university credit)

Helps students examine their personal career goals and make choices best aligned with those goals. Students are also provided with information needed to prepare for choosing appropriate graduate programs, making graduate applications and preparing for graduate testing. Credit/no credit. *Fall semester.*

PSYC 311 Introduction to Counseling Theory and Techniques 3

Prerequisite: PSYC 105 (minimum grade of C)

Provides a comprehensive study of various theories of counseling examined from a Christian perspective. Students participate in skill development activities. *Fall semester.*

PSYC 312 Professional Ethics and Cultural Competence in Substance Use Treatment 2

Prerequisite: PSYC 311 (minimum grade of C)

Cultural, social, lifestyle, spiritual, and economic factors relevant to the provision of competent and relevant counseling to varied populations will be addressed. Students will learn how to adapt traditional counseling theories and techniques. In addition, standards of conduct and professional behavior expectations for counselors will be covered. Ethical standards to be studied include non-discrimination, responsibilities and integrity, competence, moral standards, client welfare, legal issues, client relationships, inter-professional relationships, remuneration and societal obligations. *Spring semester, odd years.*

PSYC 315 Social Psychology 3

Prerequisite: PSYC 105 (minimum grade of C)

A general study of how individuals think about, influence and relate to one another. Includes such topics as conformity, human performance, prejudice, and attachment. *Spring semester.*

PSYC 337 History and Systems of Psychology 3

Prerequisite: PSYC 105 (minimum grade of C)

Examines the theories and historical aspects of the major psychological schools of thought. *Spring semester.*

PSYC 338 Cognitive Psychology 3

Prerequisite: PSYC 105 (minimum grade of C)

A study of the processes involved in human memory and cognition. Topics include attention and perception, information processing models, development of language and comprehension, and processes of thinking and reasoning. *Spring semester, even years.*

PSYC 340 Research Methods I 3

Prerequisite: PSYC 105 (minimum grade of C)

An integrated approach to the study of the basic statistical procedures used in behavioral science research along with basic research methods they support. Principles of research design and ethics related to behavioral research are also covered. *Fall semester.*

PSYC 341 Research Methods II 3

Prerequisite: PSYC 340 (minimum grade of C)
Corequisite: PSYC/EDUC 270

A continuation of PSYC 340, covering experimental and qualitative research methods. A research proposal is required for completion of this class. *Spring semester.*

PSYC 360 Medical and Psychosocial Aspects of Addiction 3

Prerequisite: PSYC 105 (minimum grade of C)

Education on the physiological, psychological, and sociological aspects of alcohol/drug use, abuse, and dependence including the study of the processes of dependence, addiction, and withdrawal covering signs, symptoms, and behavior patterns. Also includes the study of drug types and pharmacology. *Fall semester, odd years.*

PSYC 361 Assessment and Case Planning for Alcohol and Drug Treatment 3

Prerequisite: PSYC 105 (minimum grade of C)

Education on the process of collecting client data for making decisions regarding alcohol/drug disorder diagnosis, level of care placement, and treatment and referral. Two or more alcohol/drug assessment instruments will be studied. There is also coverage and practice of record keeping addressing the development of alcohol/drug assessment summaries. treatment plans, progress notes, discharge plans, and clinical case reviews including case management activities to bring together services, agencies, and resources to achieve client treatment goals while adhering to confidentiality as it relates to these areas. *Spring semester, even years.*

PSYC 362 Clinical Treatment Issues in Chemical Dependency 3

Prerequisite: PSYC 105 (minimum grade of C)

The study of treatment issues specific to chemical dependency including denial, resistance, minimization, family dynamics, relapse, cross-addiction, co-occurring disorders, spirituality, and influences of self-help groups. The education also includes studying chemical dependency clinical treatment needs of individuals taking into consideration gender, culture, and lifestyle. *Fall semester, even years.*

PSYC 375 Theories of Personality 3

Prerequisite: PSYC 105 (minimum grade of C)

Involves examination of the factors that influence personality development and introduces students to major psychological theories of personality. *Fall semester, odd years.*

PSYC 380 Biopsychology 3

Prerequisite: PSYC 105 (minimum grade of C) ***or*** *PSYC 215(minimum grade of C)*

An introduction to the biological basis of behavior. Students will be presented with information on the basic functioning of the nervous system and the physiological basis of behaviors including such topics as sleep, sex, aggression, learning and memory, and psychopathology. *Spring semester, odd years.*

PSYC 415 Abnormal Psychology 3

Prerequisite: PSYC 105 (minimum grade of C)

Investigates the causes, symptoms and treatment of psychological disorders. *Spring semester.*

PSYC 425 Human Sexuality 3

Prerequisites: PSYC 105 (minimum grade of C) ***and*** *Junior standing (56 hours of university credit)*

Multiple aspects of sexual behavior are examined from the perspectives of varying methods of investigation and within a Christian framework. *Fall semester, even years.*

PSYC 455 Practicum in Psychology 1-7

Prerequisites: PSYC 105 (minimum grade of C)

Students participate in supervised practicum activities in professional psychology, human service or research settings. Students complete 45 clock hours of practicum for one hour of credit.

Practicum for those seeking PLADC licensure is 300 hours (7 credits) of supervised practicum to be completed in a recognized alcohol/drug dependency treatment setting. *Fall and Spring semesters*

PSYC 460 Forensic Psychology 3

This course provides a basic overview to the field of forensic psychology, focusing primarily on the application of the findings of research in psychology within the American civil and criminal justice systems. Mental health issues that impact law enforcement and judicial practice are also examined. *Spring semester, odd years.*

PSYC 475 Current Issues in Psychology 2

Prerequisite: PSYC 105 (minimum grade of C)

Investigates the research and dialogue surrounding issues that are current in the field of psychology. Students are required to do in-depth investigations on issues and to develop a personal position on the issues investigated.
Fall semester.

PSYC 476 Senior Research Project 2

Prerequisite: PSYC 341 (minimum grade of C)

Students design, carry out, and statistically analyze an empirical study which deals with an aspect of behavior. Research findings are shared in a poster presentation and paper. *Fall semester.*

Religion - Biblical Studies

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELB 115 Encountering Jesus as Savior 3

Prerequisite: Freshmen only

Encountering Jesus as Savior and Lord through a study of the Gospels and an intentional devotional experience. Intended to help a student develop an intimate relationship with Jesus that is real and personal. General Education credit is not given for both this course and RELT 110 or RELT 141. *Fall semester.*

RELB 226 Old Testament Survey 3

A survey of the Old Testament providing an overview of the significant historical events and people of the Hebrew Bible. Emphasis is placed on the creation and fall of humans, the calling of Israel with its covenant relationship, and developing an appropriate understanding of the God who saves as revealed in this time period. *Spring semester.*

RELB 238 Books of Moses 3

Prerequisite: ENGL 212 (minimum grade of D-)

An introduction to the first five books of the Old Testament. Attention will be given to the structure, themes, theology, historical setting, and significance of this literature for Christians. *Fall semester.*

RELB 235 Introduction to the New Testament Epistles 3

Prerequisite: ENGL 212 (minimum grade of D-)

An introductory study of the book of Acts and the letters of the New Testament using selected passages to illustrate themes of New Testament thought. *Spring semester.*

RELB 246 Sanctuary and Salvation 3

A study of the biblical teaching of salvation in the books of Leviticus, Daniel, Hebrews, and Revelation through the events and offices of the earthly sanctuary and their relationships to the sacrifice of Christ and the heavenly fulfillments in Christ's ministry. Scheduled as needed.

RELB 249 Themes in the Book of Revelation 3

An introduction to the themes in apocalyptic literature and an inductive study of the book of Revelation within the context of Christian history and the church today. *Spring semester.*

RELB 251 Daniel 3

An introduction to the narrative and prophetic portions of the book of Daniel rooted in its historical context, emphasizing the spiritual and prophetic applications relevant to Christian leadership and life. *Fall semester.*

RELB 255 Jesus and the Gospels 3

A study of the life, ministry and teachings of Jesus, with applications for daily living, based upon an inductive study of the four gospels. *Fall and Spring semesters.*

RELB 260 Interpretation of Romans 3

Prerequisites: ENGL 212 (minimum grade of D-) ***and*** *non-Theology majors only*

Examines the interpretation of Romans and other selected Pauline Epistles within their sociocultural context. This includes interpretation by the initial readers and theological interpretation of Romans in relation to our contemporary world. *Spring semester.*

RELB 338 Pentateuch 3

Prerequisite: ENGL 212 (minimum grade of D-) Designed for Religion and Theology Majors

An introduction to the Pentateuch. Attention will be given to the structure, themes, theology, historical setting, and significance of this literature for Christian ministers and scholars. *Fall semester.*

RELB 335 New Testament Epistles 3

Prerequisite: ENGL 212 (minimum grade of D-) Designed for Religion and Theology Majors

An inductive study of the book of Acts and the letters of the New Testament using selected passages to illustrate themes of New Testament thought. Students are expected to do exegesis using their knowledge of koine Greek. *Spring semester.*

RELB 349 Revelation 3

Prerequisite: ENGL 212 (minimum grade of D-). Designed for Religion and Theology Majors

An introduction to apocalyptic literature and an inductive study of the book of Revelation within the context of Christian history and the church today. *Spring semester.*

RELB/LITR 366 The Bible as Literature 3

Prerequisites: ENGL 212 (minimum grade of C) ***and*** *[LITR 231 or LITR 232 or LITR 299 (minimum grade of C)]*

Explores the Bible through a primarily literary lens, focusing on genres, narrative techniques, poetic forms, symbolism, and recurring themes. Students will analyze the Bible as an anthology, with each work influenced by its historical and cultural context. Additionally, students will explore the Bible's role as a foundational work in Western literary tradition. May be used to meet RELB or LITR general education requirements, but not both. *Fall semester, even years.*

Religion - General Studies

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELG 149 Dynamics of Christian Living 3

A small group-based class designed to introduce students to the inter-dynamics of personal relationships with others, the power of a relationship with God, and the joys of a life of assurance in salvation. *Spring semester.*

RELG 175 How to Study the Bible 3

Introduces the principles of interpreting the Bible including practical skills in using concordances, Bible dictionaries and commentaries, instruction in how to evaluate and choose a Bible translation, and Bible study for application in personal life. Does not apply toward religion or theology major or minor. *Scheduled as needed.*

RELG 310 Biblical Archaeology 3

A study of cultures, customs, languages, and religions that impacted the understanding of the Bible, based on archaeological, literary, and other ancient material culture, interpreted from the viewpoint of the Bible. *Summer semester, scheduled as needed.*

RELG 340 International Evangelism 3

Studies international evangelism practices and develops skills through the planning, conducting, preaching and follow-up of a Seventh-day Adventist international evangelism series. *Summer semester, scheduled as needed.*

RELG 346 Monks, Martyrs, and Reformation 3

A tour that explores the development and role of Christian religion and theology on a tour of the United Kingdom or in Europe that examines the intersection of politics, economics, history and environmental influences on the development of Christianity and Seventh-day Adventism. *Summer Semester, scheduled as needed.*

RELG 466 Public Evangelism 3

Studies public evangelism practices and develops skills through the planning, conducting, preaching and follow-up of a Seventh-day Adventist evangelism series in the United States. *Summer semester, scheduled as needed.*

Religion - Religious History

Students can request instructor permission to take a course, if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELH 310 History of the Seventh-day Adventist Church 3

Prerequisite: ENGL 212 (minimum grade of D-)

A study of the Advent movement of the early 19th century and the subsequent growth of the Seventh-day Adventist Church. *Spring semester.*

RELH 410 History of the Christian Church 4

Prerequisite: ENGL 212 (minimum grade of D-)

History of the development of the Christian church from the first century to modern times. *Spring semester.*

Religion - Biblical Languages

Students can request instructor permission to take a course, if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELL 171 Beginning New Testament Greek I 4

The elements of Greek grammar and basic vocabulary. Translation from the New Testament combined with a systematic approach to vocabulary building and the rules of biblical Greek syntax. Four lectures and one tutorial session per week. *Fall semester.*

RELL 172 Beginning New Testament Greek II 4

Prerequisite: RELL 171 (minimum grade of D-)

Continuation of RELL 171. Four lectures and one tutorial session per week. *Spring semester.*

RELL 273 Intermediate New Testament Greek III 3

Prerequisite: RELL 172 (minimum grade of D-)

Extensive translation of various portions of the New Testament and introduction to the science of exegesis, with emphasis on the acquisition of those skills and tools which will make Greek a useful aid in pastoral work and study. *Fall semester.*

RELL 274 Intermediate New Testament Greek IV 3

Prerequisite: RELL 273 (minimum grade of D-)

Continuation of RELL 273. *Spring semester.*

RELL 385 Biblical Hebrew I 3

A study of the fundamentals of the Hebrew language. The emphasis is on translating portions of the Old Testament by applying vocabulary, grammar, and syntax learned in the class. *Fall semester.*

RELL 386 Biblical Hebrew II 3

Prerequisite: RELL 385 (minimum grade of D-)

Continuation of RELL 385. *Spring semester.*

Religion - Professional Training

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELP 125 Introduction to Pastoral Ministry 2

Prerequisite: Theology majors

A study of the principle elements in pastoral ministry and biblical discipleship through class discussion, observation and report writing. *Spring semester.*

RELP 215 Christian Marriage and Family Relationships 3

This course examines the dynamics of marriage and family relationships, laying the foundation for happy, lasting, healthy marriages and families. Practical skills and techniques are studied relating to communication, behavior, conflict, and parenting. Special emphasis will be given to exploring love and the mechanics of how love works. *Fall semester.*

RELP 235 Introduction to Youth Leadership 3

A survey of youth ministry, examining youth culture, the theology of youth ministry, and specific skills to equip and empower students to be effective in ministry to young people. *Spring semester, even years.*

RELP 321 Biblical Preaching I 3

Prerequisite: COMM 105 (minimum grade of D-)

A study of sermon methodology designed to train students to be Biblical preachers. Preaching skills are developed through theory, class, and field experience. Emphasizes narrative and expository preaching. *Spring semester.*

RELP 322 Biblical Preaching II 4

Prerequisite: RELP 321 (minimum grade of D-)

Continuation of RELP 321. Taken in conjunction with the capstone Leadership in Ministry senior year. *Fall semester.*

RELP 330 Youth Leadership Internship I 1

Prerequisites: Youth Ministry minor, RELP 235 (minimum grade of C) ***or*** *RELP 335 (minimum grade of C)*

Course internship and externship context for two of the six following youth ministry areas. Internship in Union College Campus Ministries and/or externships in an Adventist academy,

Youth Sabbath School, Pathfinder organization, summer camp, or conference office. Available only to Youth Ministry minors. *Fall, Spring, or Summer semester, scheduled as needed.*

RELP 331 Youth Leadership Internship II 1

Prerequisites: Youth Ministry minor: RELP 235 (minimum grade of C) ***or*** *RELP 335 (minimum grade of C)*

Provides internship and externship course context for two of the six following youth ministry areas, that are different from those experienced in RELP 337 or RELP 339. Internship in Union College Campus Ministries and/or externships in a local academy, Youth Sabbath School, Pathfinder organization, summer camp, or conference office. Available only to Youth Ministry minors. *Fall, Spring, or Summer semester, scheduled as needed.*

RELP 332 Youth Leadership Internship III 1

Prerequisites: Youth Ministry minor RELP 235 (minimum grade of C) ***and*** *RELP 335 (minimum grade of C)*

Provides internship and externship course context for two of the six following youth ministry areas, that are different from those experienced in RELP 337 or RELP 338. Internship in Union College Campus Ministries and/or externships in a local academy, Youth Sabbath School, Pathfinder organization, summer camp, or conference office. Available only to Youth Ministry minors. *Fall, Spring, or Summer semester, scheduled as needed.*

RELP 335 Youth Leadership in the Seventh-day Adventist Church 3

Developing an understanding of youth culture and a theology of youth ministry, this course focuses on the implementation and practice of youth ministry. Designed to better prepare those interested in lifelong youth ministry, both professional and volunteer. *Spring semester, odd years.*

RELP 361 Church Leadership I 3

Combines a study of the theology and the practice of church leadership course topics include: empowering the church to strategically pursue mission; equipping, motivating, and empowering church members; models of leadership; financial oversight; skills of church governance; visitation; and technology in ministry. Taken in conjunction with RELP 321. *Spring semester.*

RELP 362 Church Leadership II 4

Prerequisite: RELP 361 (minimum grade of D-)

Continuation of RELP 361. Taken in conjunction with the capstone Leadership in Ministry senior year. *Fall semester.*

RELP 432 Pastoral Care Internship 3

Prerequisites: Pastoral Care minor and PSYC 225 (minimum grade of D-)
Internship in a church, academy, college, or Christian counseling practice setting, to practice knowledge learned in the pastoral care minor courses. The student will learn from a mentoring guidance counselor, psychologist or marriage and family counselor by learning how to plan, lead, implement and adapt programs and roles in their particular practice setting.

RELP 431 Chaplaincy Internship 3

Prerequisites: Chaplaincy minor and PSYC 311 (minimum grade of D-)
Internship in a hospital, academy or college campus, prison or military setting, to practice knowledge learned during the chaplaincy minor courses. The student will work with a mentoring chaplain and learn how to plan, lead, implement and adapt programs and spiritual support to the various roles a chaplain or spiritual care provider may model in their particular practice setting.

RELP 465 Personal Witnessing 3

Designed to help students gain the knowledge and skills needed to share their faith through personal influence, conversation, and Bible studies. Examines the beliefs of other churches and compares them with Adventist beliefs. Laboratory required. Theology majors take in conjunction with the capstone Leadership in Ministry senior year. *Fall semester.*

RELP 490 Senior Seminar 1

As part of the capstone for all Theology majors, this course gives students the opportunity to review and report the competencies they have learned in their academic experience. Specific attention is given to résumé preparation, preparation for job interviewing, and development of a portfolio. Taken in conjunction with the capstone Leadership in Ministry senior year. *Fall semester.*

Religion - Theological Studies

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

RELT 110 Introduction to Christian Faith and Adventism 3

Prerequisite: Permission of instructor or the Religion program director

The teaching of the Seventh-day Adventist church in the context of other belief systems, designed specifically for those not familiar with or newly introduced to the Seventh-day Adventist church. General education credit is not given for both this course and RELB 115 or RELT 141. *Fall and Spring semesters.*

RELT 141 Christian Beliefs 3

Surveys fundamental Biblical doctrines of the Christian Church from a Seventh-day Adventist perspective. General education credit is not given for both this course and RELB 115 or RELT 110. *Fall and Spring semesters.*

RELT 210 Spirituality and Health Care 3

Development of the skills and experience of personal spiritual practice in relation to application and use in patient care and healthcare practice. *Spring semester.*

RELT 305 Christian Ethics 3

Prerequisite: ENGL 212 (minimum grade of D-)

An introduction to the systems and methods used in making ethical decisions viewed from the perspective of the Christian faith. Discusses questions of current interest in the area of personal and social ethics. *Spring and Summer semesters.*

RELT 306 Biomedical Ethics 3

Prerequisite: ENGL 212 (minimum grade of D-)

An introduction to the worldviews of religion and science in regard to origins, history, and scientific method as they relate to medical and biomedical ethics and decision-making in healthcare and biomedical sciences within a Christian perspective. *Fall semester.*

RELT 337 Christian Theology I 3

Prerequisite: Theology majors

A systematic study of the major theological tenets of Christianity within the Seventh-day Adventist perspective, informed by their Biblical foundations, their historical formulations, and their contemporary applications. *Fall semester.*

RELT 338 Christian Theology II 3

Prerequisite: RELT 337 (minimum grade of D-)

Continuation of RELT 337. *Spring semester.*

RELT 347 World Religions 3

A study of the major religions of the world including traditional religions, Hinduism, Buddhism, the religions of China, Judaism, Islam, and Christianity. The relationship of Christianity to these religions is discussed, including the Christian mission to the world. *Fall semester.*

RELT 455 Prophetic Guidance in the Advent Movements 3

Study of the gift of prophecy as a method of divine communication. Special attention is given to the life and writings of Ellen G. White. *Spring semester.*

Science

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

SCNC 111 Physical Science 4

Prerequisite: MATH 111 (minimum grade of C) ***or*** *ALEKS score of 46*

Course intended to give the non-science major an insight into the physical world. Emphasis is placed on the scientific method as topics in physics, chemistry, astronomy, meteorology, and geology are explored. One laboratory per week. This course is designed for elementary education majors. Does not apply toward a science major or minor. *Spring semester.*

SCNC 377 Origins 3

Prerequisite: Junior standing (56 hours of university credit)

A consideration of issues in science and religion as they relate to origins. Consideration is given to interpretation of inspiration and scripture relating to evidence from nature and the scientific method. Data from the biological and physical sciences are evaluated as they relate to earth history and the origin of life. Evidence for change, mechanisms of change, speciation, the fossil record and issues of time are considered. *Spring semester, even years.*

Sociology

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

SOCI 105 Introduction to Sociology 3

Introduces the fundamental principles and concepts of sociology. Studies forms and processes of societal organization and social institutions. Teaches sociological theory from a functionalist, conflict and symbolic interactionist perspective. Traditional theorists are discussed. Sociological topics include culture, socialization, stratification, class structure, education, minority groups, and family. *Spring semester.*

SOCI 315 Marriage and Family 3

Assists students in their understanding of relationships by examining friendships, courtship, marriage, and family life. Discusses the issues of divorce, single parenting, sexuality, death and dying, finances and pre-marital counseling from a sociological perspective. *Fall semester, even years.*

SOCI 321 Understanding Diversity and Oppression 3

Prerequisite: SOCI 105 (minimum grade of C)

This course surveys diversity in society from a sociological perspective. Concepts such as privilege, prejudice, racism, institutional discrimination, and assimilation and pluralism are applied to understanding minority-majority relations in society. A strong emphasis is placed on community engagement through the exploration of course topics. *Fall semester.*

SOCI 337 Group Interventions 3

Prerequisite: PSYC 105 (minimum grade of C)

Assists students in developing generalist skills in work with couples, families and group levels of practice. Students practice relationship building, problem solving, interviewing, assessment, intervention, termination, and documentation. Special focus is given to the evaluation process with the introduction of qualitative research methods to evaluate and improve practice. *Spring semester.*

SOCI 415 Building Resilience through Crisis 3

Developing generalist practice skills in crisis management. Fundamentals of crisis including violence, rape, suicide, natural disasters and terrorism with an emphasis on ability not only to survive, but thrive after a crisis. Prepares the student to develop creative coping skills, and promote crisis resolution within themselves as well as with individuals, groups and communities. *Spring semester.*

Spanish

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

SPAN 101 Beginning Spanish 3

Introduction to basic Spanish conversation, structure, vocabulary, and culture. Includes dictations, simple readings, written exercises, with the emphasis on oral communication. *Fall semester.*

SPAN 102 Beginning Spanish 3

Prerequisite: SPAN 101 (minimum grade of D-)

Continuation of SPAN 101. *Spring semester.*

Spark

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

SPRK 101 Spark Start 1

Prerequisite: Instructor Permission

A four-day freshman workshop as part of Welcome Week, focusing on tools and practices for academic achievement and personal growth. Spark Start integrates academic coaching, personal and spiritual development, and coursework strategies, while providing opportunities to build connections with peers, faculty and staff. *Fall semester.*

Union Adventist University Student Mission Service

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

UCSM 205 Introduction to Overseas Service 2

An orientation course limited to those who have applied as student missionaries that prepares them for service by focusing on cross-cultural mission ministry. Does not apply toward religion general education requirements. *Spring semester.*

UCSM 490 Student Mission Service I 6

Prerequisite: Permission of Religion Program Director or Vice President for Spiritual Life

Credit for service as a student missionary serving in an official General Conference recognized call or as arranged with the Union Adventist University Student Mission Director. Credits do not count toward graduation. Graded CR/NC. May be repeated. *Fall semester.*

UCSM 491 Student Mission Service II 3

Prerequisites: UCSM 490 (minimum grade of CR) ***and*** *Permission of Religion Program Director or Vice President for Spiritual Life*

Continuation of the student mission service. Credits do not count toward graduation. Graded CR/NC. May be repeated. *Spring semester.*

UCSM 495 Student Mission Service III 3

Prerequisite: UCSM 490 (minimum grade of CR)
Corequisite: UCSM 491

Continuation of the student mission service. Credits count toward graduation as elective credit only. Graded CR/NC. May be repeated. *Spring semester.*

Union Adventist University Task Force Service

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

UCTF 490 Task Force Service I 6

Prerequisite: Permission of Religion Program Director or Vice President for Spiritual Life

Credit for service as a task force worker serving in an official North American Division recognized call or as arranged with the Union Adventist University Student Mission Director. Credits do not count toward graduation. Graded CR/NC. May be repeated. *Fall semester.*

UCTF 491 Task Force Service II 3

Prerequisites: UCTF 490 (minimum grade of CR) ***and*** *Permission of Religion Program Director or Vice President for Spiritual Life*

Continuation of the task force service. Credits do not count toward graduation. Graded CR/NC. May be repeated. *Spring semester.*

UCTF 495 Task Force Service III 3

Prerequisite: UCTF 490 (minimum grade of CR)
Corequisite: UCTF 491

Continuation of the task force service. Credits count toward graduation as elective credit only. Graded CR/NC. May be repeated. *Spring semester.*

Writing

Students can request instructor permission to take a course if they don't meet the stated prerequisites, unless instructor permission is specifically listed as a prerequisite.

WRIT 280 Writing in Digital Spaces 3

Explores the implications of writing to worldwide audiences. Students learn how to leverage the interactive nature of digital writing to increase audience engagement and understanding; consider the rhetorical principles of digital production (writing and design) for personal, professional, and commercial purposes; and acquire strategies for reading, writing, and conducting analysis in digital environments. *Fall semester, odd years.*

WRIT 290 Writers on Writing 3

Demystifies the writing process by considering it from an author's perspective. Artifacts featuring prominent writers discussing, debating, and detailing process, craft, influences, challenges, and accomplishments frame the course. Students engage in the process themselves by actively composing their own writerly lives. *Fall semester, even years.*

WRIT 346 Editing 3

Prerequisites: ENGL 212 (minimum grade of C) and ENGL 272 Rhetorical Grammar (minimum grade of C)

Covers principles of editing, copy editing, layout, headline writing, handling of graphic elements,

and achieving editorial balance and integrity. Students concentrate on practical applications of actual publications. *Fall semester, odd years.*

WRIT 378 Technical Writing and Grant Proposals 3

Prerequisite: ENGL 212 (minimum grade of C)

Provides intensive instruction in the essentials of technical writing including instructional and manual writing, report writing, letter writing, electronic documentation, managerial communication, and grant-proposal writing. *Spring semester, even years.*

WRIT 379 Creative Writing 3

Prerequisite: ENGL 212 (minimum grade of C)

Explores and encourages the creative process through a study of theories of creativity and the composition of texts in various genres, including creative nonfiction, memoir, poetry, short story, novel, etc. *Spring semester, odd years.*

WRIT 380 Script Writing 3

Prerequisite: ENGL 212 (minimum grade of C)

Provides instruction in creating screenplays for film and scripts for live theater, presentations, and training modules. The class will examine how to craft plots with plausible characters who speak authentic dialogue within industry-standard formats as well as monologue scripts for media and instructional purposes. *Fall semester, even years.*

WRIT 457 Feature Writing 3

Prerequisites: COMM 221 (minimum grade of C) and ENGL 212 (minimum grade of C)

Covers techniques for writing, workshopping, and marketing publishable articles in a variety of modes, including profile, in-depth interviews, how-to, brief, sidebar, and more. Includes instruction in narrative nonfiction structure and voice. Among other projects, students create an issue of *Outlook* magazine, resulting in a portfolio and, at times, paid pieces of writing. *Spring semester.*

WRIT 476 Writing for Children, Teens, and Young Adults 3

Prerequisite: ENGL 212 (minimum grade of C)

Addresses approaches to writing, workshopping, and marketing publishable content in multiple genres for young readers. The developmental needs and desires of these unique audiences are also considered. Students are encouraged to submit for publication writing produced during the course. *Fall semester, odd years.*

University Administration 2025-2026

Dates in parentheses indicate the date of current appointment.

Officers of the University

Yami Bazan (2024-) President
AS 1991, Loma Linda University; BA 1993, La Sierra University; MA 2004, La Sierra University; PhD 2015, Andrews University

Debbie Eno (2003-) Vice President for Academic Administration, Associate Professor
BS 1999, Union College; MSN 2004, University of Phoenix

Major Administrative Officers

Kim Canine (2016-) Vice President for Student Life
BA 2000; MBA 2001, La Sierra University

LuAnn Davis (1992-) Vice President for Advancement
BS 1982, Union College; MBA 1996, University of Nebraska-Lincoln

Ryan Teller (2024-) Vice President for Enrollment Management
BS 1997, Union College

Staff Emeriti 2025-2026

Janella Abbey, Staff Emerita, Administrative Assistant for Academic Administration
Linda Becker, Administrative Emerita, Vice President for Student Services
Tom Becker, Staff Emeritus, Director of Information Systems
Osa-Karin Berg, Staff Emerita, Director of Records Office
Roger Binder, Staff Emeritus, Plant Services, Boiler Operator
Peter Blankenship, Staff Emeritus, Dining Services

Gary Bollinger, Administrator Emeritus, Vice President for Financial Administration
Randy Bollinger, Staff Emeritus, Grounds Supervisor for Plant Services
Karla Britain, Staff Emerita, Technical Services Librarian for Ella Johnson Crandall Memorial Library
Kenna Lee Carlson, Staff Emerita, Alumni Director
Rich Carlson, Staff Emeritus, Vice President for Spiritual Life
Martha Cash, Staff Emerita, Cashier for Accounting Office
Tommy Cash, Staff Emeritus, Chief Accountant for Accounting Office
Cheryl Crawford, Staff Emerita, Manager of Union Manor
Wilma Darcy, Staff Emerita, Director of Transportation & Housing, Admin. Assistant for Financial Administration
Gerry Dodds, Staff Emerita, Accountant for Accounting Office
Jennifer Enos, Staff Emerita, Enrollment and Student Financial Services
Annie Escobar, Staff Emerita, Dining Services
Buell Fogg, Staff Emeritus, Associate Chaplain for Campus Ministries
LouAnn Fredregill, Staff Emerita, Executive Administrative Assistant
Phyllis Gorton, Staff Emerita, Larson Lifestyle Center, Pool Manager
Sharon Gregory, Staff Emerita, Office Manager for Division of Human Development
Anita Kidwiler, Staff Emerita, Associate Director of Records
Stan Hardt, Staff Emeritus, Student Services Counselor
Mary Jean Horst, Staff Emerita, Office Manager for Larson Lifestyle Center
Harvey Meier, Staff Emeritus, Controller
Stephanie Meyer, Staff Emerita, Director of Scholarship Giving and Events
Evelyn Lucas, Staff Emerita, Library Periodicals and Custodial Library
LeAnn Merth, Staff Emerita, Dean of Women for Rees Hall
Leona Murray, Administrator Emerita, Director of Enrollment Services
Bernie Rieke, Staff Emeritus, Baker at Union Market
Malcolm Russell, Administrator Emeritus, Vice President for Academic Administration
Vinita Sauder, Administrator Emerita, President of Union College
Jonathan Shields, Staff Emeritus of Teaching learning Center
Linda Skinner, Staff Emerita, Director of Donor Relations
Tom Simons, Staff Emeritus, Plumber of Plant Services
Ric Spaulding Staff Emeritus, Director of Larson Lifestyle Center
Doug Tallman, Staff Emeritus, Dean of Men
Sandy Tallman, Staff Emerita, Office Manager for Division of Religion and Human Health and Performance
Patricia Venis, Staff Emerita, Cook for Union Market
John Wagner, Administrator Emeritus, President of Union College

Faculty Emeriti 2025-2026

Don Abbey, PhD, Professor Emeritus of Biology
Ed Allen, PhD, Professor Emeritus of Religion
Chris Blake, MA, Associate Professor Emeritus of English and Communication
Kathy Bollinger, MEd, Associate Professor Emerita of Education
Sylvester Case, MA, MDiv, Professor Emeritus of Religion
Richard Clark, PhD, Professor Emeritus of Chemistry
Arlie Fandrich, MAT, Professor Emeritus of Computer Science
Robert Fetrick, MDiv, Associate Professor Emeritus, of Religion
Bill Fitts, PhD, Professor Emeritus, English and Communication
Barry Forbes, PhD, Professor Emeritus of Business and Computer Science
George Gibson, PhD, Professor Emeritus of History and Economics
Lowell Hagele, EdD, Professor Emeritus of Mathematics

Benjamin Holdsworth, PhD, Professor Emeritus of Religion
Cliff Korf, MPAS, Professor Emeritus of Physician Assistant Studies
Jenienne Kriegelstein, MEd, Assistant Professor Emerita of Education and George Stone School
Valeree Krueger, MSN, Associate Professor Emerita of Nursing
Daniel Lynn, DMA, Professor Emeritus of Music
Jim McClelland, MA, Professor Emeritus of Art
Nancy Petta, PhD, Professor Emerita of Health and Human Performance
Keith Riese, MSEE, Professor Emeritus of Engineering
Mark Robison, PhD, Professor Emeritus of English
Charlotte Schober, MSN, Associate Professor Emerita of Nursing
Peggy Wahlen, MA, Associate Professor Emerita, English and Communication
Richard Webb, PhD, Professor Emeritus of Science and Math
Rick Young, MA, Professor Emeritus, International Rescue and Relief

Faculty 2025-2026

Date(s) in parentheses indicate years of faculty service at Union Adventist University

Fara Adams (2018-) Lecturer of Occupational Therapy Assistant Studies
AS 2000, Clarkson College; BS 2020 Union College

Peter Adams (2018-) Assistant Professor of Education; Program Director of Education
BS 1989 Union College, MA 1999, La Sierra University

Nicole Badura (2021-) Assistant Professor of Nursing
BSN 2004, University of Nebraska Medical Center; MA 2009, Nebraska Wesleyan University; MSN 2020, Bryan College of Health Sciences

Julie Bocock-Bliss (2023-) Assistant Professor, Library Director
BA 2001, Andrews University; MLISc 2012, University of Hawaii

Trisha Broy (2023-) Assistant Professor of Religion
BA 2004, Andrews University; MA 2005, Andrews University; 2010 MA, University of Memphis; PhD 2022, Andrews University

Christina Burden-Page (2016-) Associate Professor of Biology, Program Director of Biomedical Science and Chemistry
BS 2006, MS 2009, Andrews University; PhD 2016, Arizona State University

Susan Byers (2016-) Associate Professor of Education
BS 1986, Union College; MA 1993, Andrews University; PhD 2020, Central Michigan University

Justina Clayburn (2023-) Assistant Professor of English
BA 2009, University of Michigan; MA 2012, Andrews University; PhD 2023, Northern Illinois University

Tanya R. Cochran (2005-) Professor of English; Program Director of English
BA 1995, Southern Adventist University; MA 2000, University of Tennessee-Chattanooga; PhD 2009, Georgia State University

Pam Cotton (2017-) Assistant Professor of Education
BS 1989, Union College; MA 1997, California State University

Jody Detwieler (2012-) Associate Professor of Sociology
BSW 2004, Union College; MSW 2005, Walla Walla University; DSW 2024, Simmons University

Gary Dickerson (2023-) Associate Professor of Computer Science
BS 1984, Union College; MBA 1989, University of Nebraska; MS 2002, Andrews University

Edsen Donato (2021-) Assistant Professor of Biokinesiology
BS 1991 Loma Linda University, MPT 1992, Loma Linda University; DPT DSc 2001, Loma Linda University

Debbie Eno (2003-) Vice President of Academic Administration
BS 1999, Union College; MSN 2004, University of Phoenix

Kevin Flores (2023-) Assistant Professor of Leadership; Program Director of Leadership
1982 BS, Pacific Union College; 1984 MHA, Loma Linda University; 2012 PhD, University of Nebraska

Kristine Follett (2010-) Associate Professor of Nursing
BSN 1995, Southwestern Adventist University; MSN 2008, Southern Adventist University; DNP 2020, Creighton University

Bruce Forbes (2000-) Academic Dean; Professor of Art and Graphic Design
BS 1986, Union College; MFA 1996, Savannah College of Art and Design

Lisa L. Forbes (2002-) Professor of Accounting and Finance; Program Director of Business Administration
BS 1992, Union College; MBA 1995, University of Nebraska-Lincoln; DBA 2016, Anderson University

Debbie Holsinger (1990-) Associate Professor of Computer Science and Math; Instructional Technologist
BS 1987, Union College; MA 1993, University of Nebraska-Lincoln

Melanie Gabbert (2008-) Associate Professor of Psychology
BS 1992, Union College; MA 1995, Andrews University; PhD 2023, University of Nebraska

Matthew Graves (2021-) Associate Professor of Business
BA 2006, West Virginia Wesleyan College, MBA 2008, West Virginia University, JD 2010, University of Arizona

Tracy Hagele (2014-) Assistant Professor of Nursing
BSN 1993, Union College; MSN 2015, American Sentinel University

Trudy Holmes-Caines (1994-) Professor of Psychology; Program Director of Psychology
BA 1986, West Indies College; MA 1991, PhD 1995, Andrews University

Howie Huntsman (2019-) Assistant Professor of Business
BS 1992, Union College; MBA 2025, University of Nebraska-Lincoln

Kayla Johnson (2025-) Instructor of Nursing
BSN 2012, Union College

Lesa Kean (2014-) Associate Professor of Mathematics
BS 1994, Union College; MA 2006, PhD 2012, Illinois Institute of Technology

Noah Kruzich (2022-) Lecturer of International Rescue and Relief
BS 2019, Union College

Kelly Little (2024-) Assistant Professor of Occupational Therapy
BS 2000, Creighton University; OTD 2023, Creighton University

Ricky Little (2015-) Professor of Music; Program Director of Music
BA 1980, Oakwood College; MA 1981, DMA 1985, The Ohio State University

Willy Logan (2024-) Associate Professor of History; Program Director of Politics, History, & International Relations
BS 2009, Walla Walla University; MA 2014, PhD 2016, Auburn University

Sharlene Martinez (2021-) Instructor of Nursing
BSN 2011, Union College; MSN 2025, Nebraska Wesleyan University

Kelly McWilliams (2022-) Instructor of Biomedical Science
BS 2005, Andrews University, MS 2010, Andrews University

Salvador Moguel (2006-) Associate Professor of Biology
BS 1983, Autonomous University of Guadalajara; MS 1995, State University of New York; PhD 2004, New Mexico State University

Ariana Murray (2022-) Assistant Professor of Physician Assistant Studies
BS 2016, Union College, PA-C 2019, Union College

Elysia Ockenga (2011-) Assistant Professor of Nursing; Program Director of Nursing
